Board of Education...

Regular meeting of the Red Cross Nursing service Committee will be held on Tuesday, October 31st, at 3:30 p. m., at the headquarters on Second Street.

Resolution of Board of Education.

Whereas, in view of the great loss we have sustained by the death of our beloved President, associate and friend, Dr. Frederick C. Burt, who as our President always stood in the front rank, in zealously guarding the best interests of the Public Schools of Hammonton; and in further view of the great loss sustained by our School system and the Town of Hammonton as well, and also in view of the still heavier loss sustained by those who were nearest and dearest to him; Therefore be it resolved, That while submitting to the will of the Divine Ruler, we feel that it is but a just tribute to our beloved departed President, associate and friend, to say that in regretting his removal from our midst, we mourn for one who was in every way worthy of our respect and regard.

Resolved, that we mourn with the family of our late President in the dispensation with which it has pleased the Divine Ruler to afflict them and commend them for consolation to Him who orders all things for the best.

Resolved, that this heartfelt testimonial of our sorrow and sympathy be expressed and forwarded to the family of our departed President, spread upon the minutes of this Board, and given to the public press.

H. C. Doughty, President;
W. R. Gealy, District Clerk.
Adopted Oct. 24th, 1922.

Republicans were meeting at one o'clock today in Victor Hall.

Daniel Bentley, son of Ocean City, was in town this week on business.

Mrs. John Moore, formerly a resident of Twelfth Street Square, son of Philadelphia, greeted many friends this week.

Chicken thieves are at it again, or rather, are still at their old game. Karl and Char. Pitt's yards were robbed recently.

The Baptist ladies will conduct another sale on Saturday, Oct. 28th on Roller's porch, consisting of pie cakes, doughnuts, etc.

The State Police in the possession of Hotel Raleigh since Monday. In the meantime, Mr. Purchase and family will reside at The Ocean until their new hotel is ready for occupancy.

The Seaside Fidelity Club will have a social at the Home of Social, at the Baptist Church on Friday evening, Nov. 3rd, 1922. Dinner at 7:30 and music at 8:00. Tickets at the door.

As announced in the last two issues of the Republican, there will be a ball game between the team of the Hammonton Y. M. C. A. and the team of the Atlantic City Y. M. C. A. at 7:30 p. m. on Monday, Nov. 6th. The game will be held at the Hammonton Y. M. C. A. Grounds.

The Democrats had a very largely attended rally at the Casino Theatre on Monday evening, Oct. 23rd. Many other prominent were present. Particular interest was shown in the election of the Hon. Roy C. Engle as their national candidate. They brought the majority of their audience with them.

The State Highway Department has trimmed out overhanging and dead limbs and dead trees on the White Horse Pike, from Elmer corner to the Camden County line. There will be a saving of at least 100,000 bushels of grain a year, as there will be a clearance of at least eleven feet at the curb.

Kate Aylesford Chapter, D. A. D. made a pilgrimage last Saturday to Old Weymouth. They were met by delegates from the Gen. Lafayette Chapter, of Atlantic City. All were guests of Mr. and Mrs. Hubert Rowell, at the Lodge, on the Rutherford Estate. They had a wonderful day, and the thirty guests were unanimous in claiming it as a most enjoyable occasion.

Mrs. Mary A. Goff, one of Hammonton's earliest settlers, and mother of Robert H. Goff, died at the family home on Grape Street early on Sunday morning, aged ninety years. Mrs. Goff had many friends for she had a quiet friendly way about her. Her eyesight and hearing had been growing poorer, until at the time of her death she could get about with difficulty. Funeral service was held on Tuesday afternoon, conducted by Rev. Edw. A. Rook.

BANK BROTHERS

HAMMONTON

Auto Accidents.

This has been another week of automobile accidents.

On Sunday, Jan. H. Myers' jitney was side-swiped, on Twelfth Street near the Pennsy, and two wheels wrecked.

On Monday evening, a car containing three women and one man, evidently tried to go around the Pennsy's safety gates, which were down to allow an approaching train to go by. The auto dropped onto the tracks, and tumbled into the fence. The writer, an eye-witness was not near enough to render assistance; but a crowd gathered and lifted the machine out of danger, and the locomotive, which had been stopped by the agent's red signal, stood but a few feet away, a very narrow escape.

The next day, a large sedan and a truck came together, at the same corner, and crashed the glass and dented the sedan.

Thursday afternoon an Indian Mills truck mounted the sidewalk in front of W. S. Turner's, and broke off a wheel.

EDWARDS HE BOUGHT DOZZE

Frelinghuysen Wants Him to
Tell How He Kept Friends
to Make State Wit.

REBUKE FOR PERSONALITIES

Indignity of Governor's Position to
Make New Jersey Was so Aston-
ishing About "Down" Republican
Candidate's Strength Growing.

Hartman, N. J., Oct. 19.—As the
campaign for United States Sena-
torship is daily apparent, the
Senator Joseph S. Frelinghuysen, Re-
publican candidate for re-election,
is "in" in the "down" column.
The astounding majority by which he
was re-elected, demonstrated "his
hold on the affections of the public
of New Jersey, and also had
the effect of closing up the Republi-
can ranks for the election on Novem-
ber 7.

Senator Frelinghuysen has planned
into his campaign with the accompani-
ment of vigor and effectiveness and the
forceful logic of his attacks on Gov-
ernor Edwards have augmented the
natural embarrassment of his op-
ponent's position. Answering a
speech by Governor Edwards at Har-
tman, Senator Frelinghuysen, last
week in a brilliant and well-
timed speech, pointed out the
contradictions of the Eighteenth
Amendment to the Constitu-
tion. He was silent, however, of the
fact that the constitution of the State
of New Jersey in the executive power
invested in the Governor makes him
responsible for the execution of the
Federal Constitution and that it is
his duty to see that the laws are
necessarily executed.

"Who, of course, he said, is
myself? I had a home not only at
Hartman, but also in Washington. My
wife and children are the very light
of my home. For six years past, I
properly represent the people of New
Jersey, and have been compelled to
spend my time in Washington. My
wife and children lived there with
me and as they may be in com-
fort I had this home. The people
of New Jersey, especially the work-
ing men, who are here in the coun-
try, who are here in the country, who
prefer that I should live in New
Jersey exclusively, visiting Washing-
ton occasionally, or whether I should
go on the job in Washington in their
behalf, occasionally visiting New Jer-
sey."

Senator Frelinghuysen's
speech was a masterpiece of logic and
force. It was a rebuke to the
Governor's position, and a
statement of the fact that the
constitution of the State of New
Jersey in the executive power
invested in the Governor makes him
responsible for the execution of the
Federal Constitution and that it is
his duty to see that the laws are
necessarily executed.

BOY'S LIFE SAVED FIRST AID

Modern Telephone Central Office Far Superior to Old Time Operating Rooms

A telephone central office of today differs sharply with one of 40 years ago, as shown to the right.

The remarkable advancement that has been made in telephone operating can easily be visualized by comparing the modern central office with the old time central office.

Way back in 1880, the switchboards were crude affairs with boys as operators. In those days the operator had to "dig" for a party at either end. When he wanted to establish a connection he inserted one end of the cord into a small opening on the switchboard. He then completed the connection by inserting the other end of the cord in a similar opening at another "pole" on the switchboard. Sometimes he had to traverse the entire length of the operating room, with the cord trailing along behind him, in order to complete a call. Central offices in those days were in a constant turmoil.

The operating room of today contrasts sharply with the confusion and crudeness of the early telephone central office. Today the operating room is a quiet, orderly place where operators are working quietly and efficiently under intelligent supervision, in clean, orderly and well ventilated operating rooms.

The telephone operator of today need not move from her chair at the switchboard, for the "pole" is established in a connection with almost any telephone in the United States.

DR. BELL MADE THE FIRST WIRELESS TELEPHONE APPARATUS

Having enjoyed the distinction of being the first man in the world to discover the way to make the wireless talk, Alexander Graham Bell then proceeded to make the telephone talk without wires and in 1876, five years after he had invented the speaking telephone, he succeeded in transmitting speech by means of light rays by the use of telephone apparatus which he called a photophone. This was the first wireless telephone.

Dr. Bell also developed later another type of telephone which he called a theophone, based on the radiation of heat waves, and with this apparatus he was able to transmit speech for a considerable distance.

In 1915, the engineers of the Bell system, made extraordinary contributions to the wireless telephone art and with apparatus developed by them not only talked across the continent, but from Arlington, Va. to Paris, France, and to the Hawaiian Islands.

In judging, I might add that we have found the long distance to be the quickest and the most efficient method of conducting business requiring immediate attention. By the use of the telephone, it is possible to practically have a face to face conversation and to definitely settle all details of any transaction.

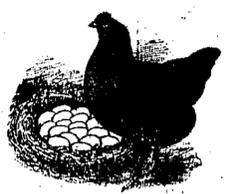

State Sunday School Association Endorses Candidates.

The State Executive Committee of the New Jersey Sunday School Association, representing some seventeen different denominations, 2,419 Sunday Schools, 360,000 Sunday School members, assembled in Trenton Tuesday, September 10th, and passed the following resolution:

"As the agency of the Sunday Schools of New Jersey, and concerned about the moral welfare of the youth of our commonwealth, we hereby extend greetings to Senator Joseph S. Frelinghuysen, and Governor William N. Runyon, and congratulate them on their clear visioned and fearless standing for loyalty to the Constitution and respect for the law of the land.

"We have observed the open ridiculing of the Constitution by some in high office; the flagrant violation of the prohibition law countenanced by some whose duty and pledge it is to enforce the law, and the tactic alliance of citizens claiming respectability with the traitorous bootlegger, and believe that herein lies the greatest present menace to the morals of youth.

"We therefore pledge our hearty support to Senator Frelinghuysen and Governor Runyon."

A Scarce Article—Eggs.

HUGE VACUUM TUBE DEVELOPED BY BELL TELEPHONE ENGINEERS

Mr. W. G. Housekeeper is holding one of the new vacuum tubes. He had a large part in its development.

The most powerful vacuum tube in the world has just been successfully produced in the Bell Laboratories. It is an "inverter" of 100 kilowatts, a remarkable instrument, which, in the continuation of an extended period of research work is expected to completely revolutionize long-distance wireless telegraph communication.

There is not the slightest doubt but that it places this country in the most strategic position in the race to be the first to throw the voice across the broad expanse of the Atlantic.

Although the new tube can be completely held in one hand, it will produce sufficient power to bridge the ocean for telegraphic purposes, and will in time completely replace the cumbersome and ponderous machinery which is now necessary for this purpose. Moreover, the cost of maintaining transatlantic service with such tubes will be almost infinitesimal as compared with the cost of maintaining the machinery now used.

An idea of the size of this tube in comparison to the regulation detector vacuum tube can be had by a glance at the illustration. The detector tube is seen to the left of the large tube, being held in place by a bracket.

From the standpoint of wireless telephony the development of these high power tubes makes possible the use of any much greater amounts of power than have ever been readily available before.

There is a doubt that if the same amount should occur for tubes capable of handling much larger amounts of power, they could be constructed along the same lines that governed the construction of the 100-kilowatt tube.

PAID \$267 FOR TOLL CALLS. DECLARES HE SAVED MONEY

A telephone billing clerk in Memphis, Tenn., nearly had a heart failure one day recently when a ticket showed a charge of \$267.35 for a single conversation. He discovered that the charge was perfectly correct, the call having been to New York and the conversation having lasted an hour and forty-one minutes.

Moreover, the manager of the chain-store company who had put through the call to one of his associates in New York, was perfectly satisfied that he had received his money's worth, in spite of the size of the toll charge.

"This conversation was entirely satisfactory to both parties," he declared. "It was of vital importance and well justified, and a trip to New York, entailing loss of time and the expenditure of money and labor avoided."

DO YOUR SAVINGS EQUAL THE AVERAGE?

According to Government reports, one person in every ten in the United States has a savings-bank account, with an average balance of about \$440.00.

How much money have you saved? Does your savings-bank balance equal the average?

Or are you one of the nine-tenths who have no account—and no money saved?

If you are one of the latter, we invite you to join the 1125 people who are depositing their savings with us. We are here to help you—if you will let us.

Rice Hardware Co.

SYSTEM OF CIRCULATING HEAT

TWO TINY WIRES

Each Bell Telephone subscriber is connected to the local central office by wires—two tiny wires.

These wires pass through a maze of cables and coils, through delicate apparatus that must be kept in careful adjustment.

And that isn't the end of it, for there must be apparatus to connect each telephone here with any other Bell Telephone in the nation.

The job of building and maintaining this complicated equipment is done by two-fisted men—men who think in terms of never failing service.

Theirs too is the task of installing new telephones, and of maintaining them.

In addition to their knowledge of telephone construction, our outstanding quality characterizes these men—they are imbued with the spirit of courtesy.

When they come into your home or your office you find them anxious to do their work quickly, efficiently and neatly.

They want you to feel that should they return at some future day you will welcome them.

For they know, as do all Bell people, that courtesy pays.

LETTER EVANGELIZING THE BIG ISSUE RUNYON INSISTS

Judge Asked to Explain What He Would Do to Highway Board

SENATOR QUESTIONS HIM ABOUT PUBLIC SERVICE

Explanation of His Silence on Probing Corporation is Requested

Will Judge Slicer secure the re-election of a "new deal" by the state highway department? How could he do it, if not by the policies of the highway board?

Why is he silent on the issue of public service? The Public Service Corporation and its subsidiaries are being probed by Judge Slicer by former Senator Runyon in a letter which the former senator is circulating in the state, in calling the real issues of the campaign.

You know in the same county of the electorate that in the same county of the Democratic candidate for the state highway commission is a man who is being probed by the state highway commission at a cost of \$100,000 a mile.

The proposed new Perth Amboy bridge, which is to be built at a cost of \$2,000,000, is being probed by the state highway commission at a cost of \$100,000 a mile.

These Judge Slicer asks in a letter of these acts of the State Highway Commission, occurring in a public way, with which he is peculiarly familiar.

"We believe the state is in the grip of a monopoly. We believe that the principal agent of this monopoly is the former Jersey City police, committed to office in 1914, in the state highway commission today, though he is now a constituent of the Nugent's in Essex county.

"The Republican party favors adding to the state highway commission, by better transportation methods, as well as by encouraging farmers' associations to purchase their own private automobiles, to the policies of the State Highway Commission."

"The question of road costs goes into the issue of high taxes and better transportation facilities, particularly in the rural communities. It is a question of the highway commission, which is a favored type of highway construction, it follows that the state highway commission is to be proportionately increased.

"The Republican party favors adding to the state highway commission, by better transportation methods, as well as by encouraging farmers' associations to purchase their own private automobiles, to the policies of the State Highway Commission."

"I am a candidate today because it is to be my duty to become acquainted with more people in New Jersey than anyone else. If the old campaign system continues, by no possibility could I have been the candidate. I have gone up and down the state these last three years and I have changed all a route thereof as the Republican candidate for governor. I have not come forth from retirement at the local and order of the head of a great Hudson county feudal system."

"The assurance 'Jim' Nugent gave at Jersey City meeting that Judge Slicer would propitiate the policies of Governor Edwards, has been seized upon by Mr. Runyon to warn the electorate against the influence to which the Democratic candidate is susceptible. 'The circumstances surrounding the nomination of Judge Slicer make him a creature of Frank Hague,' Mr. Runyon charges. 'We saw and heard Jim' Nugent joining Frank Hague in extending solemn assurances that Judge Slicer is 'safe.' What secret thought has Judge Slicer made behind this endorsement for him by 'Jim' Nugent? Why does the Judge speak out for himself instead of doing a discreet duty to be the mouthpiece?"

THIS SUBSCRIBER HAD REAL KICK AT BEING "CUT OFF"

"The introduction of the telephone into my home has been a real blessing. I have been able to get my work done in a much shorter time than before. I have been able to get my work done in a much shorter time than before. I have been able to get my work done in a much shorter time than before."

A WONDERFUL designing and tailoring creation which will be found exclusively at Wanamaker & Brown this Fall and Winter. We are certain it will be welcomed by our thousands of customers as the most fashionable overcoat in town.

\$30 \$35 \$40 & \$45

The accompanying illustration in no wise describes the beauty of the "American" itself, while the cloths are wonderfully thick, all wool woolsens, in handsome patterns. This is an exact description of the style of the "All American" overcoat.

The body is cut without any seams, either at back or at the sides.

The whole structure is made with a single piece of cloth and is so cut that it is balanced on a man's shoulders with the nicety of the maitre d'hotel.

It is perfectly draped in both the front and back. The sleeves are made in the very newest design of raglan effect, which means the utmost of comfort to the wearer.

The belt is so designed that you can wear it as an all around belt, a half belt or remove it altogether.

We can recommend "The All American" \$22-25 overcoat to you with the absolute confidence you will agree with us that it is a wonderful garment, designed not only for style but for warmth, wearability and comfort.

Wanamaker & Brown

Market at Sixth St., Philadelphia

PALACE THEATRE TO-NIGHT

William S. Hart, "Travellin' On"
Monty Banks, "Hero at Zero."
Doors open 5.30, show commences 5.45, admission 20c.

If someone should tell you that the "World's Champion" is not a genuine knockout, don't argue with them, just buy a ticket from "One of the boys," be right there at the Eagle Theatre Wednesday, Nov. 1st, and afterwards make the party apologize.

Program for Week of October 23rd, 1922.

Tuesday, October 31st, Hallowe'en, there will be no movvies on account of parade; everybody turn out and boost for Hammonton.

MONDAY: Richard Talmadge, "Wildcat Jordan."

Second Episode, "Captain Kid."

Current issue, Movie Chats.

TUESDAY: Alice Lake, "Woman's Hate."

Star Comedy, "Love Crops."

Fox News.

Eighth Grade News.

Grade Eight Attendance. In Grade Eight are 52 girls and 67 boys, making a total enrollment of 119 pupils. Each session the boys compete with the girls for the Attendance Banner. Whoever has the highest percentage of attendance gets the banner. The boys' side is the left door, and the girls' side is the right door. Whichever side wins has the banner hung over the door. The banner is a blue background with white letters spelling "Best Attendance."

When Should We Stop School? The best answer to that question is, "Stay in school as long as you can."

The case of a school boy or girl is like that of a carpenter. A carpenter often sharpens his tools before he goes to work. His time that was used in sharpening his tools is well paid for by the lightening and improvement of his work. A school boy or girl sharpens his brain in school where the studies are well paid for by the improvement in his work. Later on his work will be lightened.

The process of sharpening one's brain will often be a distasteful and difficult task, but just because it is hard is no reason why one should substitute easiness for difficulty. A carpenter would not substitute velvet for sandstone because the sandstone was hard and gritty. A useful grindstone must be hard and gritty.

Improvement in work brings, later on, an increase in salary. It also brings happiness.

But someone says, "I want to get my working papers. Mr. will pay me ten dollars a week to begin with. Why should I not accept his offer? He says that, if I make good, he will increase my wages every year."

It has been estimated by the United States Department of Labor that the boy of eighteen who left school at the end of high school will, at twenty-five years of age, have received \$2000 more salary than the boy of fourteen who left school at the end of grammar school.

This is the same as an investment of \$18000 at 5 per cent. The salary of the high school boy keeps on increasing a good deal, but the salary of the grammar school boy will increase only a little. Wages are now higher than when the Department of Labor compared the two boys' earnings, but the comparison is the same now.

Highest General Averages for September. The pupils in the Eighth Grade having the highest general averages in all subjects for the month of September are:

Rita Rastman, Alden Hurley, Marie Jacobs, Helen McNaney, Robert Goff, Gladys Peterson, Marjua Galletta, Marguerite Doughty.

Mays Landing Contest. The Mays Landing Contests, which are held there every year in May for the best Spelling and

Arithmetic in Atlantic County, are very interesting to Hammontonians. Last year Hammonton won several prizes, among them, first prize for Spelling, which good record we hope to repeat this year.

There is a banner for Arithmetic and one for Spelling. These are given for the highest percentage in either branch. Other prizes are given, as, first prize, \$5; second prize, \$3.

In preparation for these contests we are having weekly accuracy tests.

On Friday, October 13, the following pupils in the Eighth Grade received 100 per cent in that work: Thelma Adler, Etta Eastman, Marie Jacobs, John Kelly, Helen McNaney, Pasquale Spinelli, Evelyn Wood, Marjua Galletta, Laverda Johnson, Davis Lintner, Warren Sailer, Alexander Spear, George Smith, Frank Tomasella, Tony Pullini, Hugh Lamonica, Anna Naimone, George Ruggero, Joe Tora, Tony Campagnella, Rose Bertino, Frank Spado, Basil Gugliotta, Julia Mascia.

The following pupils received 100 per cent in their last weekly test in spelling: Thelma Adler, Marguerite Doughty, Alfred Renault, Ferdinand Woolson, Gladys Peterson, Nick Capello, Basil Gugliotta, Tony Leudin, Tony Scaltrito.

Athletics. The Eighth Grade girls of sections one and two have chosen teams to play kick ball. The first game was won by Marguerite Doughty's team, the score being 5 to 2. The second game was also won by Marguerite's team, the score being 2 to 0. This makes her team the champion of sections one and two. The losing team was chosen by Clara Steen.

The Eighth Grade girls of sections three and four are playing kick ball. The captains are Anna, Maimone and Julia Mascia. The championship was won by Julia's team, the score being 6 to 4 and 5 to 4.

The Eighth Grade boys of sections one and two have chosen teams to play kick ball. The first game was won by Rocco Santora's team, the score being 4 to 0. The second game was also won by Rocco's team, the score being 10 to 1. These games were for the championship of sections one and two. The losing team was chosen by Alexander Spear.

The Eighth Grade boys of sections three and four are playing kick ball. The first game was a tie, the score being 3 to 3. The second game was won by the team captained by William Merlino, the score being 3 to 2. This leaves one more game to be played for the boy's championship of sections three and four.

The October meeting of the Parent-Teacher Association will be held in the Sunday School room of the Presbyterian Church on Tuesday, October 24, at 8 p. m. There will be a musical program under the direction of Prof. Nicolsa. Mrs. Chas. Blake, chairman of County Council will deliver a short address. The annual dues, which are twenty-five cents, will be payable at that time.

GEO. B. STROUSE Notary Public Commissioner of Deeds

Notice of Sale.

Notice is hereby given that the undersigned will sell, public auction, at 10 Central Motor Co.'s Garage, corner of Hamilton and Bellvue Avenues, Hammonton, N. J., on Wednesday, November 1st, 1922, at 9 a. m. a 1922 Buick Buick mobile engine No. 21172, 1921 Buick T, which was formerly the property of J. J. Beebe of Mt. Holly, N. J. To satisfy a claim of two hundred and sixty-two dollars and thirty-five cents (\$262.35) for repairs, supplies and storage, with costs of advertising and sale to be added. This car has been detained since Jan. 15th, 1922, and is to be sold on a lien under the Act for the better protection of Garage Keepers and Automobile repairmen, approved April 14th, 1915. The said automobile may be seen at the above garage.
