

TWO YEARS FOR RAYMOND.

COUNSEL OBTAINS WRIT OF ERROR.

The Accused Was Found Guilty of Concealing Evidence in Buglio Murder Case—Admitted to \$3000 Bail Pending Court's Decision.

Should the sentence of the Court of Common Pleas imposed on Mike Raymond for concealing crime by Judge E. A. Higbee Monday be confirmed by the State Court of Errors and Appeals, he will be obliged to serve two years in State Prison at hard labor for his reluctance to tell what he knew of the murder of a fellow inmate at Minotola on the night of December 22, 1906.

Raymond, who had been released on \$1,000 bail shortly before his trial on Friday, the 6th inst., appeared before Judge Higbee at 10:00 A. M. Monday in accordance with the orders of the Court. The maximum penalty for his offense is three years, and the Court in imposing sentence announced that he had taken into consideration the fact that Raymond had already been confined in the County Jail for over a year.

According to the confession secured from Raymond by State Detective Frank Lore shortly after the commission of the murder, for which Joseph Labriola paid the death penalty on the gallows and Mrs. Buglio, wife of the murdered man is serving a ten year sentence in State Prison, Raymond was forced by Labriola, under threat of death, to assist in conveying the dead body of Buglio to a field some distance from the house, where it was found two hours later by two men on their way across the field. This statement Raymond denied, alleging that it had been extorted from him by coercive measures; but the State produced witnesses to show that he made it voluntarily and that no promises or threats had been made.

Immediately after the passing of sentence, Repetto & Depetto, counsel for Raymond, gave notice that the case would be appealed on writ of error, and he was admitted to bail in the sum of \$3,000 pending the decision of the higher court.

SCHOOL ELECTION TUESDAY

Four Members of the Board of Education Will be Chosen to Fill Vacancies Caused by Resignation and Expiration of Terms.

The annual school meeting for the election of members of the Board of Education and making appropriations for the coming year will be held Tuesday evening, the 17th inst., at the High School. The polls will be open for an hour, or as much longer as is necessary to give everyone an opportunity to vote.

The principal question to be submitted to the voters will be the issuing of \$30,000 bonds on the Townships for the construction of a new high school building, to be built of brick and stone and contain ten rooms. It is claimed that the old school building is inadequate to the requirements of the Township and not sufficiently well equipped. School Director Saulsbury Makes a Statement.

Editor of The Record.

There is pronounced evidence that local public opinion is more or less influenced by the erroneous belief that I am the originator of the proposed new school for May's Landing. This is a rank injustice to the Board of Education, who as a body and individually deserve the honor of endeavoring to procure for the welfare of its future citizens. Much as I would like to be looked upon as the father of the project yet I deem it my duty in all fairness to the Board of Education to publicly state that as there was not a dissenting opinion when the resolutions were adopted, our fellow citizens should give "honor to whom honor is due."

I am yours,

CHARLES E. SAULSBURY.

IFLE ATTEMPTS SUICIDE.

HACKED HIS THROAT WITH PIECE OF TIN.

Timely Discovery by Turnkey Probably Saved Prisoner's Life—Is Charged With the Murder of His Wife.

George Ifle, colored, who is in the County Jail charged with the murder of his wife, Hattie Ifle, in Atlantic City on January 8th last, made a desperate attempt Wednesday night to end his life, when he inflicted an ugly gash in his throat with a small piece of tin, supposed to have been taken from tinware, furnished for eating at the Jail. The attempt was made shortly after the lights were out Wednesday evening, and it was not until Thursday morning that his condition was discovered by the turnkey.

Medical attention was at once summoned and the prisoner, who is believed to be demented, was removed to the hospital ward in the new portion of the Jail. He evidenced no pain as the wound was sewed up by the jail physician, Dr. C. E. Saulsbury, and gave no explanation as to why he had inflicted the wound upon himself.

It was at first thought that Ifle had resented the old wound in his neck resulting from a previous attempt to end his life with a razor in the Atlantic City Jail, but the last cut is lower down, and had he been in a stronger condition the jugular vein would probably have been severed.

The piece of tin with which he attempted suicide is three inches in length and not over half an inch in width. It is evidently a portion of a tin-clip or staple, the jagged edges showing where it was torn away.

Two guards were placed over Ifle and the guard will remain with him until the May Grand Jury disposes of his case. It is likely that the accused will be committed to the County Insane Asylum, as the man evidences marked symptoms of insanity.

WILL ADOPT UNION WAGES.

MINOTOLA GLASS WORKERS RECEIVE NOTICE.

Action of the Jonas Glass Company a Surprise to the Employees—Had Not Anticipated the Change—Present Wages Not Greatly Affected.

The George Jonas Glass Company, of Minotola, which is about completing its fifteenth year, it is said, change some of its policies during the coming year, and it is rumored that a union scale of wages will prevail. As the present wage scale is generally equivalent to the scale to be adopted, the small difference will affect but little either the company or its employees.

Surprise is expressed in labor circles as no effort had been made to secure a different wage scale, the employees being well satisfied.

Simultaneous with the rumor comes the announcement that a concerted movement for unprecedented improvements will be made and it is thought that the action of the Glass Company is but an initial step towards associating the name "Minotola" with nothing but the most desirable. It is said that in the near future work on a number of new houses will commence and that the electric light plant will be equipped to supply light at very moderate rates. Other improvements, are being contemplated but their exact nature could not be learned.

News Notes.

"Uncle Bill" Husted is erecting a modern iron fence around his handsome new residence. He says he is just improving, and as "Uncle Bill" is expert in raising watermelons—but then we don't wish to insinuate.

With Joe and Bert wearing masks, and with William sitting in a covered wagon all day we are growing suspicious and will investigate a tale of an encounter with a freight car which a young high school student describes.

The Junior Order United American Mechanics will administer the Oriental Degree on Friday evening to several aspirants for honors. Scotty says he is "just itching for it." We have a sneaking idea away down in our boots that before long he will be itching because of it.

The Township Teachers' Association will meet to-day in Minotola school-house and will consider book reviews to be presented by Misses Minnie Cook, Bertha Edsall, Ethel Soper and Messrs. Roy L. Lewis, J. Elwood Phillips and James T. Doty. Refreshments will be served.

Mr. D. C. Applegate, on behalf of the Church, paid a glowing tribute to Mr. Greenbank's faithfulness and success and expressed the regret of the people that he was to be called away. Mr. Greenbank responded with a characteristic talk and his parting words of love and good will. The departure of Mr. Greenbank will be regretted by all who know him and he has their best wishes for future welfare and success.

GOVERNOR FAVORS WATERWAYS.

Recommends \$50,000 Appropriation To Begin Work.

That Governor Fort intends to carry out his campaign promises in regard to coast waterways was evidenced plainly Tuesday when he recommended an appropriation of \$50,000 for beginning the work immediately. The total cost of the waterways he advocates is approximately \$275,000.

"It is not requisite," he stated, "that this work should all be done in one year. If one section of the work was planned to be done this year, great matters would be accomplished, and at a cost that is not large or beyond the ability of the State to meet."

"The survey shows that from a point where the proposed channel leaves Barnegat Bay, at or near Sandy Island, to Atlantic City, it is about thirty-two miles. The channel over this distance passes through Manahawken Bay, Little Egg Harbor Bay, Great Bay, Cabbage Thoroughfare, Brigantine Channel, Hooftmans Creek, Somers Bay, Wading Thoroughfare, Eagle Bay, Golden Thoroughfare, Absecon Inlet, Beach Thoroughfare to Atlantic City. The estimate of the cost of the needed excavation along this thirty-two miles has been made and the work can be done for \$91,214.50.

"An examination of the profile map will show that a large part of the distance embraced within this section is already of sufficient width and depth not to need any dredging."

"It will cost very little for the necessary dredging at the point near Bayhead, probably not over \$2,000. It is believed that this work with that on the thirty-two mile section, can all be contracted for within one hundred thousand dollars."

"The opening of this way, from Bayhead to Atlantic City, will be of great value to all the vast trade and pleasure boat service on these splendid waters lying between Bayhead and Atlantic City. Atlantic City is growing rapidly. It is a city of great credit to our State. Its future welfare, as well as the future of Cape May, and all the others of our attractive coast cities, is of the utmost moment to all our people."

"The growth in permanent population and wealth, on our coast as well as in the temporary summer population, must be fostered by that can be done to increase this population, and the wealth and prosperity that flows from it, should be done by the Legislature. Nothing can do more to make the business of the coast prosperous or the sojourn of our Summer people more pleasant, than the construction and opening of this splendid waterway through the bays and channels adjacent to the Atlantic Ocean."

A bill is pending before the Legislature to create an inland waterway department under which this and possibly other waterways may be constructed.

"Donts" for Merchants.

"Don't keep your goods in an untidy store. Customers are attracted by neatness. Keep your store as you would keep your home—a place for everything and everything in its place." Remember that personal cleanliness is equally as important as well kept surroundings.

"Don't forget that present loss sometimes means future gain, and that a penny honestly turned is worth a dollar ill found."

"Don't turn a deaf ear to municipal improvements. Whatever benefits your town benefits you."

"Don't imagine that everybody can be fooled all the time by things 'just as good.' If you sell goods not what they are represented to be the fact is certain to come out."

"Don't forget the golden rule of business: 'Honesty is the best trade mark.'"

Joe Cronin at Bartha's to-night.

It is said that the employees of the West Jersey and Seashore division have refused to run over the Fast Shore Line from Pleasantville to this city, claiming that as the Company employs non-union men to use their tracks would be to violate their obligations to the Union. The employees are obliged to use a three-mile track on the meadow common, and the people have argued that if it is permissible to use the latter the longer track may also be used.

PROSECUTOR GOLDENBERG.

POPULAR COUNSELLOR WAS NAMED BY GOVERNOR.

Successes Hon. J. E. P. Abbott as District Attorney for Atlantic County—The Appointment Gives General Satisfaction.

After several weeks of delay, Governor J. Franklin Fort, Tuesday, sent the nomination of Clarence L. Goldenberg as Prosecutor of Atlantic County to the Senate. While the news of the appointment came as a surprise to many, his name had been associated with that of Solicitor Harry Wootton of Atlantic City from the first as a possible candidate for the office, and his appointment to the position meets with the general approval of the people of the County. District Attorney Goldenberg succeeds Hon. J. E. P. Abbott to the office, whose term expired on the 7th inst.

Mr. Goldenberg is 40 years of age. His parents were residents of South Jersey, and he was born in Cape May County. His father moved to Philadelphia while the present District Attorney was a young man, but he moved to Atlantic City in 1902 and in the following year was admitted as an attorney. In 1906 he was admitted to practice as a counsellor.

The new Prosecutor of the Pleas has been prominently connected with several reform movements in Atlantic City, and is an able advocate at the bar.
