perintendent Lovell and Discuss Plans for Proposed Depot-Say Two Stations Are Unnecessary.

With a view to securing a more commodiou nd attractive railroad station for the County Capitol, a committee of the Board of Trade, consisting of Messrs. Harrison Wilson, Rev Theodore B. McCormick and Maurice Taylor will probably wait on Superintendent Lovell of the West Jersey and Seashore Railroad Company within a few days and discuss with that official plans for the abolition of the present 16th inst. main station as a passenger depot and the Court House platform and the erection of a station at Mistletoe Avenue.

ipadequate to meet the growing business municipality, and it is possible that the two stations may be consolidated into one, by which means it is said better pervice could be secured. The present main tation is said to be too far from the County offices and Court House, and the facilities at he Court House Platform are poor, no ticket agent being employed and no means of checking baggage offered. By locating an office entrally, it is hoped by the railroad company o offer a better general service to the entire

community. At the monthly meeting of the Board of Crade next Thursday evening, the matter will thoroughly discussed and definite plans eached if possible whereby conflicting inter-

MAY'S LANDING, N. J., SATURDAY, APRIL 11, 1908.

Automobilists are gradually growing into a more all of which during the first years of their usage were are superb. Let everyone get together and work in the cause of innumerable accidents and the object of unison for the progress of a greater May's Landing. condemnation on the part of those who failed to see in their introduction their usefulness in the future. The high powered car as a popular means of transportation is gradually going out of use, and in its place a power adopted sufficient to meet a speed commensurate with safety. The auto "scorcher" is destined to as ill repute as the "scorcher" who brought general disproval on those who first rode bicycles. It is no doubt a great temptation to the to such places the speed might be maintained with whose operations seriously affect the property incomparative safety; but too often the machine is driven through country towns and by startled teams with a recklessness that causes the entire number of

automobilists to suffer the displeasure of those whose

lives are endangered by the practice, now happily

to a more sensible use of their machines.

The tour of the County highways by officials will probably be productive of better roads, particularly in the agricultural districts. While the roads are not in a deplorable condition, they are nevertheless in need of extensive repairs, and the suggestions of the men who made the inspection will no doubt be listened to and acted upon with profit in the various sections of the County. They were men who are interested in maintaining good roads-men who believe that a well kept system of highways is one of Let the truth of the excuse be worth what it may, the importance of the most powerful aids in promoting the general welfare. To the farmer the maintenance of first class roads means an easy market for his products, and their importance to the city resident is no less evident. Good roads bring wealth to Atlantic City through thousands of automobilists, and the prosperity of the County at large is largely dependent upon the welfare of the resort. It is essential to the guardians are in the majority, school governing bodies in small muniinterests of all concerned that the roads be placed in the best possible condition for traffic at an early date, and the tour of the Atlantic City Automobile Club schools. If they are possessed of thinking and seeing and grand will expect the children to receive the best kind of primary and grandwill be conducive to that end.

It has been asserted that the lighting of the avenue near the Court House station of the electric railway is inadequate to meet the demands of safety at this point. Passengers alighting from trains at night step into probable danger from passing vehicles, and the presence of the crossing makes that danger greater. The portion of the road is one that should be protected by the brightest possible light. A few dingy kerosene lamps provided by the railroad company to assist passengers alighting fail to illumine more than a small area, and the glare of the arc light on Main Street intensifies the darkness to those who face it. As a whole, the highways of May's Landing are very thoroughly lighted, and the presence of a poorly illuminated street at such a public place should not be tolerated longer than is necessary to locate a requirements of safety.

The creation of permanent lawns is one of the first requisites of an attractive municipality, and their returns than will come from this great enterprise."—Atlantic City establishment is furthermore to be commended for their effect on the general healthfulness of a community. Even on sandy soil it is possible to maintain an attractive growth of green the greater part of the Railroad rates to the seashore have been liberal and railroad campanies year, where facilities are not lacking for supplying this have great opportunities for growth, but capital is needed and a the lawn with water during the dry weather that so great deal of energy with it, before things are accomplished, and any often discourages the amateur gardener. It is a noteworthy fact that nearly every community in the County is suffering from a lack of dwelling houses. Atlantic City landlords report their other municipalities, especially in those near the resorts. Properties have been leased for long terms, few, and for every good dwelling house vacated there to sweep the city of all dangerous and ownerless dogs."-Atlantic are many applicants. direction places an additional safeguard on traffic, and if effected will be followed by a marked decrease well to observe the provisions of the measure whether it becomes a law or not.

Few people realize to the full extent the advantages of May's Landing as a place of residence, and fewer perhaps are aware that her commercial out-put is one of the largest in South Jersey. Lake Lenape is second to no body of water in the State in point of natural beauty, and no fishing grounds elsewhere can afford better sport to the disciples of Ike Walton. The Great Egg Harbor River, winding through miles of beautiful and unique lowland, affords a direct connection by water with the great coast resorts and the most choice fishing grounds along the shore. In point of health we possess a salubrity of climate and invigorating air that reduce sickness to a minimum, and afford one of the most beneficial localities for invalids anywhere. The purity of water the salt ozone of the Atlantic Ocean, and the balmy pine laden breezes combine to make the town an ideal inland health resort, where perfect quiet and rest can be found for sane, practical usage of their machines, and the those who desire it. May's Landing is certain to number of accidents is growing smaller with each gain the recognition she deserves as a place of resi-The automobile as a pleasure vehicle and a dence for those desiring permanent homes and those commercial means of transportation is taking its place seeking a few months of rest and quiet recreation with the express train, the trolley car and the bicycle, alike. Slowly but surely the mosquito is being driven from New Jersey. Recent experiments prove that the troublesome pest can be exterminated by drying growing into disuse as drivers accustom themselves the immense areas of swamp land in the State, and the land converted into profitable property. Jersey without mosquitoes would be a paradise.

### STATE PRESS COMMENT.

"Notwithstanding surface indications have made it appear that he people of this borough favor the idea of maintaining a high school, here is intelligent reasonable dissension. An indisputable condition presents itself, which is that, out of the normal enrollment in the rimary and grammar grades of the schools, the percentage of pupils entering the high school course is quite small. There must be reasons for this and they may be at wide variance, but the one most prominent excuse to be offered is well-worn-' the pupils are needed at home.' It is expected that it will give an additional value of light in the vicinity sufficiently powerful to meet the many millions to resort propert, and the money it will save to the farmers and the population of the city will offset its cost probably every year. A feature of Oceanwalk life is the rolling chair. No better opportunity to study the omenade is offered than to be wheeled along at a steady pace while enjoying the sights and at the same time receiving the benefit of the invigorating ozone-laden air from the ocean. They may be hired at a number of stands, located at intervals. Rates, single, 25c. per hour; with attendant, 50c, per hour; double, \$1.00

Longport-A pretty trip by trolley may be had by taking the Longport trolley at Tennessee and Atlantic Avenues, a ride along miles of ocean front through Chelsea, Ventnor, South Atlantic, Oberon, landing you at the steamboat wharf, where steamers may be taken every half hour for a side trip across Great Egg Harbor Bay to Ocean City. - Fare, Atlantic City to Longport and return, 20 cents. Cars leave Inlet for Longport every half hour direct.

Pleasantville, Country Club, Bakersville, Linwood, Seaview, Somers Point and Absecon. A trip across the Great Salt Meadows and through the above towns, is always remembered; the vastness of meadows and pretty rural scenery make it a trip well worth taking. Cars leave Atlantic City from Florida Avenue fantry; Battery B, Field Artillery; Second at the same time it allays inflar and the Oceanwalk, every 30 minutes at 15 and | Troop of Cavalry. 45 minutes past the hour, from 6.15 A. M. to 8.45 P. M., then 9.40, 10.15, 11.00 and 11.45.

The Speedway is a new drive, extending from lantic City are as follows: to Longport or ger, Armory, Camden. Great Egg Harbor Inlet, eight miles; the Elephant, or South Atlantic City, five miles: Absecon Inlet and Lighthouse, two miles; Pacific Avenue drive five miles to Ventnor. Another pleasant drive is to the Inlet on a macadamized road. Still another drive is across the salt meadows to Pleasantville, and thence along the shore road to the Country Club and Somers' Point, Absecon and other pretty towns in the vicinity of Atlantic City. The road across the meadows is kept in first class condition.

The Inlet is the broad opening North of the island, admitting the seawater to the inland tidal bays and reaches. It is a mile or more from the centre of the city, and the northern terminus of the Oceanwalk, and the electric car line. At the Inlet sail boats are to hire from early morning until night, either by the trip, the hour, or the day, at \$5 to \$8 per day. Owners of large sail-boats form parties charging fifty cents a head. In addition to the milboats there are at the Inlet, small steamboats and tugs for the purpose of taking persons on short trips to adjacent lands or out to sea for small sums, according to the distance covered. The thoroughfare, which divides the is land from the mainland is broad, deep and placid: even the most timid or those who are mbject easily to seasickness, may enjoy a sail over the waters of the thoroughfare without fear of unpleasant consequences. Those who are fond of heavier water may indulge their liking to their heart's content, for from the

wharf to the wide ocean is but a few minutes There are so many attractions at Atlantic City that every taste can be satisfied. Uf course the ocean piers are the rendesvous of the general public, but the delights of the stroll on the Ocean Promenade supersede all ther pleasures. There is about the hotels and business places along that wonderful promenade a never ending source of delight and enment. In all the resorts along the Atlantic coast there is nothing to compare with lantic coast there is nothing to compare with bruises or big ones are healed quickly by Dethis great highway of travel, and the daily Witt's Carbolized Witch Hazel Sale. It is disrowds to be seen there morning and evening pecially good for piles. Get DeWitt's.

# FEARLESS PRICE CUTTING THE BARGAIN IRON IS HOT

Scorching low prices that tempt and burn all purses, worthy of every man's consideration. Tho' many tailors fear our cut prices, we know our business best and can well afford to give our many friends and patrons the advantage of such low prices. Every suit we sell AT THESE CUT PRICES MEANS FUTURE ORDERS, as

we guarantee you the best suit you ever had in point of workmanship, style and fit. The fabrics are equal to other suits that you have paid as high as \$20 and \$25. SATISFACTION IN TAILORING—Our Motto.

The more pleasant business knocks given by our competitors on our cut price and the criticisms of the workmanship, the better we like it and we want to state that we fear none. All our garments advertised for \$10, \$12 and \$15 are tailored right in Atlantic City and the goods bought for spot cash from the largest woolen mill in the world affords us such an opportunity to offer such bargains.
