The WEST JERSEY PRESS speaks optimistically

of the work of the last legislature. It says : "Whatever criticism may attach to the legisla-

tive session which ended last Saturday morning, [the 17th inst.,] it cannot truthfully be said that any vicious laws were enacted or that the public has suffered any wrong from the new legislation placed upon the statute book. There may have been a few sins of omission, but there were none of commission so far as anybody knows. The majority was divided on several important questions and there was a failure to redeem certain party pledges, but a considerable advance was made along progressive lines and the way was paved for more good work in the future. On the whole the work of the session was above the average and will generally be so accepted when it is analyzed and understood.'

The patriotism of the staid old Press is evident. While frankly admitting the session to have opened room for criticism, it is taking the best possible view of the situation. The effectiveness of laws cannot be determined except by a practical trial. A law seemingly wise and beneficent in theory oftentimes proves unjust or harmful in its application, and vice versa. If a legislature passes one good law which materially advances the interests of the State, and which will stand the test of time, its work has not been useless, and the multitude of laws that prove impractical may be eliminated. A perfect system of laws tends toward simplicity, rather than toward a multitude of enactments made because the legislature thinks it "must do something." Simplicity of law should be the desideratum of every State in this great Union.

Plans for the improvement of Industrial Park Township Committee to' defray the cost of such into an attractive municipal property. The park is

grounds in this part of the State. It is proposed to Atlantic City's lines. The men who run these roads know how to exestablish a small running fountain in the centre of pand a traffic schedule as time requires and a hundred thousand the grounds, with gravelled walks leading thereto very great ripple on the surface."-Atlantic City Daily Press.

from each side, and well kept lawns maintained. No improvement could be made that will bring larger appeal in a greater measure to visitors. The appropbe no well defined reson why the work has not been bricklayer, whose income never an carried out as provided. Certainly there is no longer any legitimate reason why the improvements should not be made at once. The grounds should be placed ing. Yet, notwithstanding the expense of bringing up his family, he in first class order in time for the vacation season, and the sooner the work is begun the better.

The Easter travel on the electric railroad was a severe test of the system, and it proved the high efficiency of the line for quick and reliable service. Every car that could be secured was placed in commission, and upon reaching the shore was hurried back to transfer the thousands of waiting passengers. Not an accident was recorded. Trains were des- all concerned the in a mutual elevation of the saloon standard with a patched within a few moments of each other, at at no time was there the slightest confusion. The rush taxed the capacity of the railroad, and, the results of the reformation." Atlantic Cally Bounting Union." were highly satisfactory.

America is perhaps the only country in the world where there is no room for people without means of making a living. The American life is typified by America is perhaps the only country in the world New Jersey is increasing. They are believe instalter. The world

"The comparison is odorous. When municipalities befoul their nest, why should the rest of the State be taxed to abate the misance An entirely different proposition is presented in the Bay Head-to-Cape May waterway. Here is a natural highway connecting all the shore ounties and only needing a slight improvement to increase the traffic upon it and benefit practically one-half the State, besides serving to attract a great number of visitors from other States, who will bring a irge amount of money to New Jersey.

"A State appropriation for the improvement of this natural water way is warranted on the same ground as State aid in the improvement of public roads. The Jersey coast is the Summer recreation ground of esidents of every section of the State and all will share to some extent in the benefits derived from the coast waterways improvement. Third street and Fairview ave.; con. \$30 "Noxious conditions in the Passaic River were created by th

nunicipalities that sewer into the stream. The State is not responsib for these conditions, nor should it be required to afford relief. "When Atlantic City contaminated the waters of the Thoroughfan rith sewage the State Board of Health commanded and comnelled it to

bate the nuisance. Atlantic City had no right to ask the State t ndertake the cost of disposing of its sewage. "The is no parallel between the purification of the Passaic and th tecpening of the coast waterway by State aid."-Camden Post Telegram.

"William Baitzell, one of the veteran members of the Municipal Detective Bureau, has been appointed County detective by Prosecuto Foldenberg. The Prosecutor's office has been in need of an official of the kind for some years. The constables and the magistrates of the County fail frequently to prepare properly the evidence in cases they send to the Grand Jury, and where there is a deficiency in the future. the County detective will be called upon to gather it up. It will largely be his work and his report that indictments will be found or complaints gnored in many cases. It will save the time of the Grand Jury, th time of the Prosecutor, and facilitate the trial of cuses in the orimina court. His work should annually save the salary of the County detective several times. Prosecutor Goldenberg enters upon the dutie of the office with a staff more complete than was pos sessed by any redecesso and it looks as if he will be able at the end of the first year of his term to have created a record of expediency in moving cases and | con. \$500. clearing the dorket that will have no comparison in the past. The shorter Court terms, the less expense to the public,"-Atlantic City Review.

"What the milroad companies can do in a pinch was shown on aturday and Sunday. The electric line especially proved its capacity.

Trains were run from Camden to this city about fifteen minutes anart all morning. It was almost a trolley car service, so frequent were the have been made and an appropriation voted by the trips. This proves the values of this line. The electricity is always there. All that was needed was cars and men to man them. The rowd was handled with care and speed, and Atlantic City witnessed changes as are thought necessary to convert the park the transportation of several hundred thousand people without

"There was talk of this city not being able to handle the people well situated and with the proper development can be that usually follow in the wake of the Grand Army Convention of the converted into one of the most handsome public United States. Why that crowd would be mere bagatelle for the Atlan-tic City roads. Such a crowd may congest an ordinary railroad but not travelers could be taken in and out again in a day without causing a

"It is not always the men with the big salaries that thrive best in the world. The man of industry and thrift is more likely to get shead returns in increased municipal attractiveness and in the world than the one who has five times his income and one-fourth as much industry "An example of this kind came up in a Scottish court of session riation was made some time ago, and there seems to short time ago, when Lord Salvesen in delivering judgment, called attention to the case before him. It was the case of a laboring man, a ounted to more than \$6.75 pe week. "On that income he raised six children, three of the sons qualifying

for the learned professions, through having received university trainowned his house and had \$2,000 in personal property. . "How much of an estate does the American whose wages never e ceed \$6.75 per week leave at his death, after having educated three

embers of his family for learned p ofemion ? "-Trenton State Gazette "Atlantic City has been uncommonly fortunate of late in respect to almost total absence of agitation over the saloon question. "Arrests for intoxication during the past six months have actually shown a decrease; in comparison with the same period in any previous year, according to police records, and disorder in and about Ho rts has been infrequent and at no times serious. "Altogether the saloon question seems to have been brought to a

stage of efficient regulation. It sprears as though city license h have reached a common underst ng of the fact that the welfare o total elimination of the evils that previously caused complaint. City.

Longport-A pretty trip by trolley may be had by taking the Longport trolley at Tennessee and Atlantic avenues, a ride along miles of ocean front through Chelsen, Ventnor, South Atlantic, Oberon, landing you at the steamboat wharf, where steamers may be taken every half hour for a side trip across Great Egg Harbor Bay to Ocean City. Fare, Atlantic City to Longport and return, 20 cents. Cars leave Inlet for Longport every half hour direct.

Pleasantville, Country Club, Bakersville Linwood, Seaview, Somers Point and Absecon A trip across the Great Salt Meadows and through the above towns, is always remembered; the vastness of meadows and pretty rural scenery make it a trip well worth taking. Cars leave Atlantic City from Florida avenue 45 minutes past the hour, from 6.15 A. M. to 8.45 P. M., then 9.40, 10.15, 11.00 and 11.45.

The Speedway is a new drive, extending from Seaview, Albany avenue to Longport. It is about seven miles long. Other drives in Atphant, or South Atlantic City, five miles; Absecon Inlet and Lighthouse, two miles; Pacific avenue drive five miles to Ventnor. Another pleasant drive is to the Inlet on a macadamized road. Still another drive is across the salt meadows to Pleasantville, and thence along the shore road to the Country Club and Somers' Point, Absecon and other pretty towns in the vicinity of Atlantic City. The road across the

The Inlet is the broad opening North of the sland, admitting the seawater to the inland tidal bays and reaches. It is a mile or more from the centre of the city, and the northern terminus of the Oceanwalk, and the electric car line. At the Inlet sail boats are to hire from early morning until night, either by the trip, the hour, or the day, at \$5 to \$8 per day. Owners of large sail-boats form parties charging fifty cents a head. In addition to the suilboats there are at the Inlet small steamboats and tugs for the purpose of taking persons on and from the mainland is broad, deep and Recid; even the most timid or those who are Lanwood Borough. subject easily to seasickness, may enjoy a sail Longport... over the waters of the thoroughtare without Mullica Township, are fond of heavier water may indulge their wharf to the wide ocean is but a few minutes There are so many attractions at Atlantic City that every taste can be satisfied. Of course the ocean piers are the rendezvous of
