

GRAND JURY
DELIBERATIONSJURY ATTACKED BY
FOR SHERIFF.Jury Session—Attorney
Conducting Investigation
of Election Irregularities.The grand jury in State Jurisdiction was
in the old County Court House
yesterday when Supreme Court Justice
Kath, following an order made on
his drawing a special grand jury on the
basis of partiality and also disqualifying
the grand jury in the case of the
coroners Bump, Southfield and
Cham, against whom no charges were
made, and the appointment of William M.
Baker, Esq., of Atlantic City, and William
of Hammonton, to draw a
grand jury to investigate alleged
irregularities in the 1910 general election,
conducted an extraordinary session of the Court
of Oyer and Terminer.The auditorium of the Court House
was packed to its utmost capacity with
interested spectators when His Honor, clothed in
sable and white robes, took his seat upon the
Bench (Common Pleas Court Judge Enoch A.
Liggett).Following the usual formality of opening
court, Elmer Cleveland handed a list of the
jurors to the County Clerk, who called
the members to their places. Justice Kath
directed the Clerk to swear the jury, when
upon the Court House, acting as counsel for
the State, Mr. J. H. Johnson, of Camden,
challenged the proceedings.After some preliminary argument, the Court
permitted him to state his grounds for chal-
lenge, which were as follows:
"First, there is no statute in our State con-
cerning the power to appoint jurors to draw
and summon a grand jury."
"Second, there was no power in Court to
appoint jurors to draw a grand jury.""Third, there is no power in the Court to
appoint jurors to draw a grand jury, but the
Court, neither by statute nor by the common
law, to set aside a sheriff or deprive him of the
performance of his duties or any of them, and
the proceeding, the empowering of the jury,
being entirely ex parte, is void. Therefore,
the grand jury may not lawfully proceed or
act.""Fourth, if the sheriff has done any act
sufficient to remove him from office,
the proceeding is by impeachment, and
not as the sheriff remains unimpeached, he is
the only person who can summon a grand
jury to lawfully indict or present Frank Bow-
man.""Fifth, because an indictment or presenta-
ment made by this grand jury against Mr.
Bowman is a violation of his rights as secured
him by the United States Constitution."
"Sixth, there is no authority in the Court to
set aside a grand jury or to appoint a new
grand jury in the case of a grand jury of
Oyer and Terminer.""Seventh, the jurors having returned the
panel of grand jurors only at the convening
of the Court, it was impossible for either Mr.
Johnson or Mr. Johnson to ascertain the
membership of that panel for the purpose of
quoting into the disqualification of any indi-
vidual juror who may have been drawn, that
the grand jury operates against the legal
rights of both of these gentlemen.""Eighth, the secretary of the action dis-
qualifying the sheriff, I understand there is
no order disqualifying the sheriffs, but
Mr. Johnson and Mr. Johnson of the right
of quiting into the causes of the disquali-
fication and therefore from presenting objections
to the Court which they would have a right
to present, respecting the qualifications of the
persons that were drawn upon this panel."Considerable argument was held among
the attorneys, the Attorney General and the
Court, which Mr. Hood dwelt particularly upon
the fact that Sheriff Johnson was disqualified
from hearing him in defense. Mr. Hood re-
marked: "I think it is the duty of the Court
to hear both sides in a preliminary hearing, sum-
mary of the charges of disqualification, and
then, for the purpose of ascertaining whether
or not there is sufficient cause to exercise
the power to disqualify him, and I say
that your Honor did not do that." Mr. Hood
then interposed an objection against an indi-
vidual member of the jury, the Rev. Caldwell,
on the ground that he made public statements
against the Sheriff from his pulpit. This the
Court denied and the challenge was with-
drawn, also a challenge against Mr. Conley,
the Court denied the general challenge to the
jury and allowed an exception.

A COWBOY'S ROMANCE.

Eloped With Sweetheart and Obtained
Forgiveness of Surprised Father.Sometimes a bit of real romance happens in
the life of cowboys, as illustrated in the recent
marriage of "Smoky" Warner, one of the best
cow-punchers of Lubin's Camp or anywhere
for that matter and known as one of the most
daring and expert riders in the country.
Warner brought his bride to camp last week,
but the romance of the episode did not come to
light until Thursday, when the surprised father
of the bride received word of their marriage
and came down from Reading with blood in
his eye. Warner, who had only met him once
before, two years ago, heard he was coming
and manfully "took the bull by the horns" by
meeting him when he arrived and introducing
himself. In less time than it takes to tell it
he had obtained forgiveness and a parent's
blessing.Warner met the young lady who became
his bride two years ago in Reading, when he
was riding in Buffalo Bill's Wild West show,
and it proved a case of love at first sight. They
subsequently corresponded and met each other
again a number of times and the last time he
went to Reading they quietly slipped off to
Wilmington, Del., where the knot was tied.
They came on to the Camp and sent word of
their marriage to the bride's father, who lost
time in hitting the trail to May's Landing.

ASSOCIATION MET DEFEAT.

Lost to Pleasantville 4 to 1—Fast
Game Played.The Association met defeat Saturday after-
noon last at Pleasantville at the hands of the
team representing that thriving shore borough
by the score of 4 to 1. It was a fast game,
throughout, abounding with snappy plays.
Local fans are hoping for a return game played
on the home grounds. The score:

NO WONDER THERE ARE SO MANY

Propagating Power of Flies Slagger-
ing to Compute.The muscivorous, or common housefly,
lays 120 eggs at such frequent intervals that
in the twelfth generation a single specimen will
number among its posterity fourteen quadri-
lions of pests, each female being capable of
laying at frequent intervals. Each of these
fewer than three hundred soldiers were
killed in a bottle while more than five thousand
died of disease, mainly typhoid fever, which
were transmitted by them.Each of the fourteen quadrillions houseflies
eaten every day on its daily legs many as
six million bacteria. Six million times four-
teen quadrillions of bacteria is some menace to
any community, and people are finding it out
with the aid of health officials. The State
Department of Health lays particular stress
upon the necessity of increasing warfare against
the commonest and one of the most deadly of
all pests at this season of the year. The latest
belief of scientists is that it is not heat alone that
causes summer mortality among children, but
to a large measure the fly and carelessness
in failing to prevent its fly.

NOTES OF CAMP LUBIN.

The camp will be in action here until Octo-
ber, when they will hit the trail for California.
"Doc" Weber had a narrow escape from
serious injury Thursday in a fall from his
horse.
Some of the boys had an off day Monday
when it rained and spent the day making
"cans."Frank Gray, the millwright cowboy, showed
his skill as a bronco-ster Wednesday, when
Rusty's help.
"Happy" Mondell is a recent addition to
the camp and has been unanimously elected
chief of police.
Leader Webb, of the cow-punchers, handled
the fiddle for impromptu dances as well as for
occasional scenes in the pictures.Photographer McAffrey took a difficult
picture of a light on horseback Thursday, his
hitching standing in the rear of a moving
wagon.
When Dr. W. H. Thompson, in the boat of
the big Thomas flyer had passengers take a
week and open their eyes at the railroad cross-
ings.Members of the camp are planning to give a
drama in the Opera House later on, with some
of the "novels" they have been making here.
If they do a crowded house is assured.
Chief Stanley says the mosquitoes don't
bother him so much now because they have
driven holes all over him and all they have to
do is thrust their pumps in the old wells and
get busy.Quite a number of the boys went to Phila-
delphia or Atlantic City over Sunday and they
do not work Saturday, Sunday or Monday,
and those who remained in camp had a num-
ber of visitors from the city.
It was a peculiar incident that brought
former Judge Joseph Thompson to the Camp
last Sunday, when he found Rusty Wright,
who formerly rode on a neighboring ranch of
the Judge's in New Mexico."Bunch" Allen, who started in "Mrs.
Wicks of the Cabbage Patch" in Australia, is
to leave shortly for Chicago, where he will
visit his mother prior to opening in a new
production in New York. His departure will
be regretted by all.
The sculler had the pleasure of spending a
day in camp recently and was highly en-
tertained by all hands, including the cook
and the valets the sentiment of other visitors
in saying that the boys are pleasant, earth-
ly, but, with whom it is a real pleasure to
associate.Among the visitors during the week were
Mrs. Lubin, wife of the proprietor, who looked
over the grounds Sunday, and a brother of
Director Stanley. Mr. Griffin's father has been
visiting him, also a very particular friend,
Lou Weber, entertained his sister and several
friends from Philadelphia. "Blackie" came
down in a "big machine" Sunday with a big
crowd of friends and relatives of the boys.
Visitors at Camp Lubin have been frequent
during the week, both from the town and
passing motorists, curious to see the "novel"
made. Quakers for the members of the com-
pany have been more than comfortable by a
liberal amount of mosquito proof netting,
though most of them are "scurrying" in the
night, though. Plates are held in the mess
for twenty-five cents and fifteen cents
punchers.

AID FOR FIGHTING FIRES.

National Appropriations For Protec-
ting State Forests.A co-operative agreement which has been en-
tered into between the U. S. Department of
Agriculture and the State of New Jersey pro-
vides for an expenditure by the Government
of not to exceed \$100,000 during next year
and making the expenses of forest fire pro-
tection in New Jersey. The co-operative agree-
ment is made possible by the terms of the
Weeks law, which Congress passed last winter.
This law, besides providing for the purchase
by the National Government of lands on the
landwaters of navigable rivers for the purpose
of creating National Forests to protect these
rivers, carried also an appropriation of \$250,000
which the Secretary of Agriculture might ex-
pend in order to protect fire, in cooperation
with the States, similar lands in State or
private ownership. It was provided in the
law that expenditures by the Federal Govern-
ment in any State should not exceed the
amount spent by the State itself in the co-
operative work. Other States which have
signed similar co-operative agreements with
the Government are Maine, Vermont, New
Hampshire and Wisconsin.

Shipping Many Potatoes.

The potato shipping season began in earnest
at several stations this week, with good pro-
spects prevailing at all points. Twenty-one carloads
have been shipped from Kinner this year and
as far as we have been able to learn, there has
been a total of one hundred carloads to go out
from the different shipping stations. While
the prices have hovered around the \$3.50 mark
they have been as low as \$2.00 and as high as
\$4.00 on Wednesday.

centre of Vineland by Charles K. Landis, the
founder.

TWELVE NEW CITIZENS

NATURALIZED BY COURT

Foreign Born Residents Appeared
Before Judge Higbee In Natural-
ization Court to Secure Fran-
chise Under Old Glory.Sitting in the Naturalization Court Thurs-
day last, Judge E. A. Higbee heard and
examined twenty-two applicants for final
naturalization papers, out of which number
twelve foreign born residents proved their
right to full citizenship and became subjects
of the United States, with the full protection
of the Stars and Stripes. The ten who were
refused papers were unable to pass the exami-
nation or developed other untimely, but some
of these will apply again at the September
term. Federal Examiner Meloney, of Phila-
delphia, assisted the Court in conducting the
examination of applicants.Some of the answers to questions, as usual at
these sessions, were ludicrous in the extreme
and the monotony of the proceedings was
often broken by a bit of unconscious comedy
that caused merriment among the officials and
spectators. Asked to name the two Houses in
Washington, one applicant stated off by
naming the White House, and another de-
signed the "top and bottom houses."Investigation of a land scheme at Mizpah
under the name of the International Capital
and Development Company caused as the result
of the manager, Luciano Casale, applying
for citizenship. Ex-Prosecutor J. E. F. Ab-
bot was one of the chief witnesses against
Casale, testifying to alleged shady transactions
of the company which is said to be obtaining
money from its investors in its land rights and
left. The United States Post-office authorities
are after the company, it is said, and investi-
gation is also to be made by local authorities.
After hearing the evidence, the Court refused
to admit Casale as a citizen.Those who were admitted were as follows:
John Fallvine, Steelmanville; Roberto Bar-
lorio and Domenico Dorazio, Egg Harbor City;
August Strobel, Peder Salvensen,
Meper Helber, Isaac Miller, Lewis Vilenky,
Max Schwartz and Frederick J. Heuser, At-
lantic City; Josef Margana, Rislley; Carl A.
Ragstron, Absecon.

GOVERNOR SIGNS LAST BILL.

Legislative Work of Last Session Com-
pleted by Wilson.Governor Wilson yesterday filed with the
Secretary of State the final annual appro-
priation bill, carrying appropriations of \$6,000,
000, for the support of the State government
for the year commencing November 1 next.
The Governor cleaned up the remainder of his
bill by vetoing without comment the Leavitt
bill which made it a misdemeanor to cut
for human consumption from ponds of the
State without first getting a certificate of
wholesomeness from the State Board of Health.
This measure was endorsed by the medical
profession to the interest of exterminating
consumption.At the last session of the Legislature, he
has by his approval of 32 bills put that
number of laws on the statute books for 1911.
Besides the bills approved, the Governor ap-
proved 8 joint resolutions and vetoed 4 bills.
Last year Governor Fort approved 306 bills
and 2 joint resolutions.

National Waterways Convention.

Atlantic City will be well represented at the
fourth annual convention of the Atlantic
Deep-sea Waterways Association, which will be
held in Richmond, Va., October 17, 18, 19 and
20. The program includes two entire days of
convention work, during which the meetings
will be addressed by many men distinguished
in public life. The Chamber of Commerce of
Richmond and the people of that enterprising
city are preparing a plan of local entertain-
ment that will exhibit southern hospitality at
its best. It is a pleasure to note that mem-
bership in the association is a qualification for
the privilege of this five days' excursion, members
of the association and delegates are privileged
to make reservations for friends who may be
interested in the waterways movement.

Played to Crowded Houses.

The Manhattan Stock Company, which gave
a series of dramas at the Opera House during
the week, with moving pictures and vande-
ville specialties, played to crowded houses
every night of their stand here. The liberal
patronage of residents leads encouragement to
the belief that good support would be given to
a series of clean, interesting productions dur-
ing the warm season at least, affording the
people an occasional entertainment.

E. C. SHANLEY,
Editor and Publisher.

Entered at the May's Landing Post-office as Second-class Matter.

MAY'S LANDING, JULY 22, 1911.

Wanted: a sanitary appliance to replace the public drinking cup lost by Mr. People in New Jersey. Popularity and plenty of "mazuma" promised for the right article.

Maybe one-half of the world doesn't know what the other half is doing half the time, but each half of the average country village knows a whole lot about the other half, alright, alright!

The May's Landing Yacht Club has been inactive this season. Interest is lagging in motor-boating on the Great Egg Harbor River. When the facts speak for themselves, what need is there for argument?

An "Old Home Week" is planned by Vine-land's progressive people, to celebrate the founding of that municipality a half-century ago. Why not a similar event for May's Landing, just four times as old?

"The Out of manufacture at home and abroad" is, in my interpretation, a tariff under which the present standard of American living and American wages shall not be broken down.—Hon. John J. Gardner.

"We believe these truths to be self-evident: that all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these rights are life, liberty and the pursuit of happiness."

Declaration of Independence.

The man who makes money in a community has a duty to perform to that community. It may be that he has made his money by his superior business ability, and that he would have done as well anywhere. It does not alter the case. If his gifts are used for his responsibility is equally as great. No man was placed on earth, for the sole purpose of making money for himself.

Act of clarity, but the performance of a simple duty of the man who has made money, to pass a little of it on for the benefit of the community, even though he never expects to see a dollar of his contribution back.—Ocean City Sentinel.

We have heard considerable discussion of late relative to paving Main Street, on the part of those who are not disposed to suggest improvements without reworking the question from an economical standpoint. It is said, and the statement is worth investigating, that a paved road would be cheaper in the end than maintaining the road with gravel from year to year, to say nothing of other benefits accruing from the improvement. If this is so, it would be wise to pave the street, an assertion needing no argument. Automobile traffic has grown to such proportions that it is difficult as well as expensive to keep the road in decent repair, and the wear and tear is growing worse every day. Should an investigation of the cost of such paving and the length of time it will wear prove that it would be cheaper than gravel, taxpayers will approve of it.

"Making two blades of grass grow where but one grew before" is what the State Agriculture Department is endeavoring to teach the farmers of the commonwealth. One authority believes that the most effective way to introduce scientific farming is through the children of the farmers who persist in clinging to old-fashioned methods. Land now producing from ten to fifteen bushels of corn an acre, say the agriculturists, should produce one hundred and give the farmer an excess of food for his stock where he now buys corn and feeds at an excessive price. Despite the hindrances given by the apparent indifference of many tillers of the soil, the introduction of up-to-date farming methods is growing more widespread every year and in ten years, then, it is hoped, Jersey's crops will be doubled. This is a consummation which is to be desired, not only for the farmers, but for the general public as well. Abundance of farm produce is important to everyone at all times.

When it was proposed to remove several trees from Main Street near the post-office, there were many protests; but how many would now contend that their removal was not for the best? The precedent established then might easily be applied now with like good results, to other trees growing in the municipal highways, some of which, more over, are beginning to decay. It was well worth while to "dig around the trees" years ago, what it is now, but remember the fact that the trees now are for the benefit of the community, and a clear in both directions, the highways will be young trees at length, for the benefit of the community.

Teach Children To Save

Did you ever think how well it would have been for you if you were taught to save when a child?

Instead of giving your child money for candy, etc., why not make it much better for them and you, by teaching them to deposit their pennies at 3 per cent. interest in the

FIRST National Bank.

OF May's Landing.

The same careful attention is given to small depositors as others. Deposit a dollar for the boy or girl and get a small savings bank.
