COUNTY ASSESSORS WILL RETURN TAX DUPLICATES

TAXATION BOARD TO MEET AT COURT HOUSE,

Increase Expected In Property Values Throughout The County -Board of Registry and Elections to Organise.

Puesday rext at the Court House to return their tax duplicates to the County Board of Taxation, it is expected that the figures will show a substantial increase in the value of property throughout the County. The increase as shown by the figures, however, will be only comparative : but it will nevertheless be suffi ient to indicate that the value of land throughout the district is advancing.

The Board of Taxation consists of the follow ing members: Dr. John R. Fleming, William Harris and Lewis Smith. Franklin E. Smith of Pleasantville, is Secretary of the Board, The officials will receive from the Assessors their duplicates for the current year, which they will retain for examination and computa tion of County assessments.

On Tuesday next, it is expected that the At lantic County Board of Registry and Elections will meet at the Court House for organisation. Harry Jenkins, of this place, is Chairman of the Board; John D. Carver, of Elwood, is Secretary; the other members are William Howenstein and Louis A. Repetto.

The Tale Of A Pig.

Saturday last a porker, the property of for small craft Expressman Dan Smith, broke loose from her pen and proceeded to take a walk. Not wishing to cross the Dry Run Bridge, she swam the creek and there wandered until the owner found her enjoying her freedom. He endeavored to coax the porker home with a peck of apples and tried to drive her home with a switch. The apples she enjoyed but not the switch, which was used vigorously. Mrs. Porker would not cross the bridge. A passerby told Dan he had the porker winded, "Yes," ne replied "and I am too." Finally be got a rate and rope and lassoed the pig and then rated her until he could find time to bring ner home. Dan left for awhile and in the meantime the pig, not liking her close quarers, broke loose and took another ramble with the rope fied to her leg. She make herelf happy by boring holes in the sand until her master came back. After much difficulty te at last managed to get her home. Ask him w.---l'ontributed.

HAMMONTON WON CLOSE GAME. Capitol Boys Couldn't Hit the Sphere--

Score Only 1 to 0.

In one of the fastest and most interesting games ever played at Hammonton the strong team of that place won Saturday last from the Association by the close score of 1 to 0. The game started at 3.45 o'clock and from the time the first ball crossed the plate until the last man died at first at five the spectators were kept guessing. Only once did the Association have a chance to score, when second and third were filled and W. Abbott came to bat. The fans were as much surprised and disappointed as "Doc" when he failed to connect with the shoots Piez put over the dish, but no one blamed him for fanning, because no man on the team knew when he stepped to bat whether

Things looked rosy for the Association when W. Abbott came to bat with two men on bases, but there must have been a hole in the bat somewhere. In a practice game Thursday afternoon at Pastime Park, a "pick-up" team composed

COUNTY RESIDENT DIED AT EIGHTY-FIVE

MRS. HESTER THOMPSON WAS WIDELY KNOWN:

Born In Pennington Homestead She Lived Here Half Century-Special Train Will Convey Remains to Final Resting Place.

Death claimed one of the County's oldest and most respected residents yesterday afternoon, when Mrs. Hester Taylor Thompson, widow of the late William W. Thompson and a daughter of Capt, John Pennington and Elizabeth Taylor, passed away at The Muncaster, St. James Place, Atlantic City, in her eighty-fifth year. Mrs. Thompson had been bed-ridden for nearly a year and the end was not altogether unexpected.

She was born October 30, 1825, in the old Won. Lost, P. C. Pennington homestead that stood on the river road until a year or so ago, when it was torn down because of its decayed condition. Residing at this place the greater part of her long .333 life, she enjoyed the friendship and esteem of a large number of County residents, and was known at least by sight to almost everyone who lived in this neighborhood. Although during the last years of her life she has resided 0 at Atlantic City, she has frequently spent the 9 Summer here at the Moore Villa.

Mrs. Thompson is survived by three children: 0 Mrs. Hannah Moore, ex-Judge Joseph Thompson and Miss Eliza Scott Thompson; also five grandchildren, Charles Moore, Miss Minnle Moore, Mrs. E. E. Lanther, of Pittsburgh, John and William Thompson. Services will be held Monday next at 2.45 P. M. from her late residence, after which the body will be conveyed to this place by a special train and interment made in the Presbyterian

The first court sessions of Atlantic County were held in the old Pennington homestead, only a few years after her birth, and she witnessed the gradual growth of her native town as the County Capitol, the decline of shipping after the railroad was built and knew personally many of the old captains who sailed vessels from this place, built at local ship-Association......... 0 0 0 0 0 0 0 0 0 0 yards and often manned by local sallors. More About Flies on Food. Editor of The Record.

DEAR SIR:-In all this hue and cry about getting rid of the house-fly and keeping thepests from the food one eats, there is one point would like to emphasize it right here: How, in the name of all that is good to eat, can house-wives keep their food clean when it has been covered with filthy flies while laying on store counters waiting to be sold?

I have gone into markets, not very fai away either, and seen steaks, hams and other meats on the butcher's block, fairly black with swarms of flies; I have looked into cases where bakery products were exposed, and "fly pie" was the only kind I could see-the storefore he could tell apple from lemon.

keeper himself had to shoo the flies away be-Some of the storekeepers, I am glad to say, are more careful. I suggest that housekeepers make a note of those who keep their wares clean and wholesome and my their meals and groceries at those places. If they are unpolluted when they are purchased, we have some

chance of getting them into our stomachs free

of filth and germs.

MAY'S LANDING, JULY 30, 1910,

As the time-for the primary election is clos at hand, officers and candidates should study well the new election laws, which provide for the time of filing petitions and include several changes from the old law.

Tree-trimming along the municipal highways is greatly improving the appearance of the town and making life along the highways more pleasant by admitting more light and air to private residences. Trees on private property should also be trimmed.

There is evidently a growing spirit of ar preciation of the part-insectivorous birds play in keeping down the hordes of insect plagues that beset the tiller of the soil and destroy his crops. Quail, robins and many other common species are the farmer's best friends in this regard and he will do well to look to their protection and propagation.

Every bridge on the County highways should be wide enough to lessen the danger of Aves, \$4,500. accidents. Some of the bridges now are barely large enough to allow autos to pass. They must be at least ten feet wider. Auto travel to the shore should be made as safe as possible, for its popularity means much to the resorts. Auto drivers, too, ought to lessen the danger o accidents by slowing down when going over

The field-days of the Young Men's Republican League have been so successful that the are likely to become annual events. cans from every part of the County gathered for a days outing and incidentally to strengthen the bonds of fellowship that unite them as a whole and promote harmony. Now that Somers' Point City and Egg. Harbor City hav been honored by the League, May's Landing looks forward to entertaining the members of this popular organisation. The glad hand in the middle of 12th St. and First Road, as awaits them here

one of the worst things people can do in thi warm weather, say physicians, is to take ic cream, sundaes, sodas, and other cold refresh-Many of the numerous "Summer complainfs" of which people complain is attributed to the use of ice-cold materials crowded into the stomach regardless of consequences lee-water should also be avoided. Most people know these things to be true, yet they keep right on taking cold drinks to "cool off" until they are overtaken with stomach trouble or something more serious.

Lack of convenient transportation means between Hammonton, Elwood and Egg Harbor City with the County Capitol offers a good opportunity for the establishment of a paying | 51,000. trolley or automobile line. There are a great many residents of these places who have oceasion to travel to May's Landing and as it is they must either go by way of Atlantic City or North of Ave. A, \$10. drive from Egg Harbor. Establishment of transportation facilities would develop travel and commercial intercourse between these tended to other municipalities.

The people of the County Capitol have given the Base Ball Association good support this season and the team is in a fair way to become the County champion. It requires considerable funds to defray the necessary expenses of a base ball team and every resident who has contributed to the support of the Association, either by cash or attending the games, has cor. Oriental and Massachusett Aves. 3500. helped the boys to win. Games have been played at home almost every Saturday and holiday, while the teams secured have been without exception worthy opponents. There is plenty of material for a good " second team " in the town and one should be formed pext season, if only to train players for positions in the Association

Plans are under way for the second annual regatta of the May's Landing Yaeht Club to be held at Catawba during August, Last Vent's mist was a his success and the event this season will doubtless prove still more interesting. The organisation of the Club was the municipality and its influence is steadily growing. Next season will probably witness the erection of a suitable Club House and wharves for the convenience of local and North S. Carolina Ave. \$700. visiting yachtsmen, which will do much to promote interest in motor-boating on the Great Egg Harbor River. Everybody should lend the Club's helping hand to make this year's regatta an event long to be remembered.

Several changes will probably be made in the courses of study in the County public next to impossible to find two teachers who agree on "the best" curriculum, there are approval of all. For instance, in the First Adams, Howard G. Harris, Lewis T. Imlay, | Carlton Godfrey.
