THIRTY-THIRD YEAR—NO. 52.

MAY'S LANDING, N. J., SATURDAY, SEPTEMBER 10, 1910.

WHOLE NUMBER 1726.

## SCHOOL WILL BE HELD IN TEMPORARY QUARTERS

### OPERA HOUSE LEASED FOR ADVANCED GRADuates.

### Four-Hour Sessions Will be Conducted Giving Instruction for Every School Child and Employment for All Teachers.

At a meeting Tuesday evening last, the Board of Education decided to open school in this district Monday, the 13th inst., in order that the school children may not be deprived of their right to free schooling and that the state law which requires that the school be open for a minimum of 120 days attendance may not be total. It is thought that the High School building will be ready for occupancy December 1.

Quarters will be provided in the Opera House for four departments which will hold four-hour sessions daily. Two primary departments will be held in the Presbyterian Church, one in the morning and one in the afternoon. This will give all the children an opportunity to attend and give work to all the teachers engaged for the district. Miss Rachel Ingalls' primary department will be held beginning Monday next from one to five o'clock in the basement of the Presbyterian Church, and Miss E. M. Smith's department will be held from eight to twelve o'clock in the morning. Full details of the hours for the other departments will be made known next week.

Work on the high school is proceeding as rapidly as possible. Plans are being made and the school is being held in the Opera House. Plans are being made and the school is being held in the Opera House.

## GOOD BRICKMAKING SEASON.

### Three Million Bricks Made At Atlantic Works Since May Last.

After a temporary closing of a week owing to a shortage of hands in the clay-pit, the works of the Atlantic Brick Mfg. Co. will resume operations Monday next, stated Manager William W. Jackson yesterday, unless orders come today from purchasers to the contrary. Charles E. Remmey was notified to reopen the plant Monday morning next. There is not a shortage of clay, as reported, but a shortage of hands to dig the material to supply the machines. Where twenty-five men are required in the clay-pit, only half that number have been working, owing to a scarcity of laborers and those could not supply clay enough to keep the machines in steady operation.

There has been a good season for brick-making, three million bricks having been made since May last. Last month was the record month since the year 1908. About five million bricks are stored in the sheds as the demand for finishing bricks is not sufficient to keep up with the supply.

Louis Kuehnle, while the champion heavyweight of the town, Campbell, rolled over the five three fathoms ahead of the League's champion. There were not many sack races, potato races and all kinds of original athletic stunts, much to the edification of the non-athletic crowd that did the hand-clapping.

The train left Atlantic City at 12:45 with four hundred longers and friends on board and arrived at Minotola at half-past one. A large delegation of residents was on hand to welcome them and see that they didn't get lost on their way to the race course and ball grounds. ## ROAD CONTRACT VOIDED.

### WILL RESURVEY ROUTE

Subject to the approval of State Road Commissioner Fred. Gilkyson, the Board of Chosen Freeholders, at a meeting held Wednesday last at the Almshouse, voted to revoke the contract for the improvement of the road from May's Landing to Tuckahoe because the contractor, Fred. Hillpot, of Red Bank, cannot complete the work in the time called for under the contract. This is no fault of the contractor, as he was delayed by the refusal of Gilkyson to approve the contract owing to the Shore Road difficulty.

If Gilkyson sustains the action of the Board bids will be advertised for immediately and a new contract awarded for work under practically the same plans. The only change in the survey will be at the South River bridge, where a dangerous curve will be eliminated, and few minor alterations at various points. The same high standard of construction will be insisted upon as the bondward will be one of the most important in Atlantic County, joining as it does the county seats of two counties. Bids will be received and the contract awarded for the next morning and it is hoped to have the work started this Fall.

Plans and specifications from County Engineer Rightmire's office of the proposed changes to the bridges on the Meadow Boulevard were approved by the Board. They provide for the widening of the Fish Creek and Jonathan's Thoroughfare Bridges, first two from Pleasantville, to a width of eighty feet, uniform with that of the Boulevard, and for the widening of the bridge at Chelsea Heights to the same width. The plans also provided for the eliminating of the bad turn at this bridge, it being proposed to acquire sixteen feet of adjacent land so as to allow an easy turn. Concrete will be used in the construction of this bridge.

Bids for the work of the proposed improvements will be advertised for, and will be opened at the next meeting of the Board, which will be held at the Grand Army Hall, Atlantic City, on September 15th. It is estimated that \$48,500 will be made of the places and in the installing of a number of "culvert" bridges, in place of numerous small bridges in different parts of the County, this latter change having been authorized at a previous meeting of the Board.

In the work of replanking and widening the bridges, the lumber necessary will be bought direct, and the work done by men employed by the County. This is expected to save some hundreds of dollars on the improvements.

State Road Commissioner Gilkyson, in a letter to the Board officially confirmed his verbal approval of the new road from Port Republic to Colgate, made on the occasion of his inspection of the highway last month, and also outlining the use which will be made of the \$5,000 which will be given to the County from the \$50,000 appropriated for an Ocean Boulevard. He explained that the money was for use for the building of a number of road curves from the route between the Mallica River Bridge and Absecon, making the road safer at every point.

It was decided by the Board that an effort would be made to have the Suburban Company expend \$20,000 on the improvements, so that the improvements to that highway, now completed to a point near Northfield, might be extended to Somers Point.

MAY'S LANDING, SEPTEMBER 10, 1910.

Second District Congressional Convention Call.

Pursuant to the authority vested in us by the rules of the Republican Party, we hereby call upon the Republican voters of Atlantic, Burlington, Cape May and Cumberland Counties, comprising the Second Congressional District of the State of New Jersey, to elect delegates to a convention to be held at Cape May Hotel, Cape May City, N. J., on Thursday, the 15th day of September, 1910, at 12 o'clock noon, for the purpose of nominating a candidate for the House of Representatives of the United States for the Second Congressional District of New Jersey, to be voted for at the next general election to be held on November the 8th, 1910.

The basis of representation under this call will be one delegate for each one hundred Republican votes cast at the last gubernatorial election for the gubernatorial candidate, and one delegate for each fraction thereof exceeding forty votes. The said delegates from each county will be apportioned among the several subdivisions of the counties by the representative chairman of the several County Committees. The number of delegates to which each county is entitled under this call will be as follows:

Atlantic, sixty-one; Burlington, sixty-six; Cape May, twenty-nine; Cumberland, fifty. The delegates to said convention shall be elected at the primaries to be held on Tuesday, the 14th day of September, 1910.

By order of the Republican Committee of the Second Congressional District.

LOUIS KRYESSER, Chairman. THOMAS J. ALCOFF, Secretary. Members of the Republican Committee of the Second Congressional District. Dated August 6th, 1910.

"Naghty" shows are aided rather than injured by criticism.

Don Cupid's "loose" season at the seashore is about over. Now he will buy a ticket for the city to hunt in fields anew.

The post-card dealer who has placed souvenir cards of the municipality on sale depicting a cemetery and tombstones is either possessed of a grim sense of humor or he is doing the town a "grave" injustice.

Organization of a fire-fighting corps for forests is becoming as important as the maintenance of a fire department in the city. National or State appropriations for this purpose will undoubtedly be much larger in the future as the public appreciation of the good work increases.

The County Capital base ball team is entitled to the claim of County Champions, having defeated all its rivals for that honor. Its defeat last Monday at Ocean City was no disgrace, as the team of that place is on the semi-professional order and on the diamond almost every day. All hail Manager Sam Kirby and his champs!

The growing popularity of the road from the County Capital to Somers' Point City will probably cause an improvement of this highway or its conversion into County boulevard. Many motorists prefer this road to the Pleasantville boulevard when travel on the latter is heavy, as it passes through picturesque wooded country and adds only a few miles distance to the Meadow Boulevard.

The part the electric railroad is playing in the popularity of Atlantic City with the general public can be easily understood by those who have had occasion to use the service during rush hours on holidays. Last Monday every car on the road, even the baggage cars, was pressed into service and still there was a shortage of trains that caused considerable delay before the people home in the evening. Carload after carload was rushed across the site and then the "crumple" were hurried back by more. Up to late hour the streets in the vicinity of the station were blocked by waiting passengers. The steam roads gave good service, but the bulk of the travel was over the electric road.

From all parts of the country veterans of the Civil War will come a week from today to attend the annual encampment of the Grand Army of the Republic, to be held at Atlantic City. It is a national honor for the resort to entertain the old soldiers, who are fast passing into history. A very few years more and the last of the "boys in blue" who fought to preserve the Union will have answered the last roll call. Year by year their number diminishes until the ones who survive are but a handful to those who came back from the war. The Nation cannot too highly honor these heroes of the ranks, nor can the people of Atlantic City and New Jersey at large overlook their welcome to them.

On Thursday next primary elections will be held throughout New Jersey for the purpose of nominating candidates for the various party tickets. The object of the primaries is frequently misunderstood. It is held in order that the members of a political party may vote for their candidates when there are several aspirants to an office, instead of nominating candidates at a party convention. The direct primary in New Jersey has proved satisfactory thus far, although it entails more expense and a greater confusion of the election laws. Every Republican voter should go to the polls Tuesday next to register his vote for candidates, and when the ticket is made up, all differences should be forgotten and everybody loyally support it.
