GRIFFIN HAD JUST SERVED TEN-YEAR TERM:

Court Disposed of Several Cases at Special Session - White Given Eight Months for Receiving Stolen Goods.

Two years in State Prison for Harry Griffin, ed burgiar, was the heaviest sentence imposed by Judge E. A. Highee Wednesday at the Special session of Criminal Court, convened to hear the cases of several prisoners who waived the right of indictment by the Grand | duty as an American citizen. Jury and trial by a petit jury.

Griffin was released from a Pittsburgh prison on August 20, after having served a ten year sentence for highway robbery and burglary. He found his way to Atlantic City and a few weeks later was discovered early one morning in a store at 2717 Atlantic avenue by the proprietor, who overpowered the negro after a hard struggle. REPUBLICAN TICKET.

For President:

WILLIAM H. TAFT,

Of Ohio.

For Vice-President: JAMES S. SHERMAN,

Of New York.

E. C. SHANER, Editor and Publisher.

Every good Republican will go to the primaries Tuesday next and select his nominees for the various offices to be filled. As a result of the new Primary law, there will be a greater number of candidates than for- does every good citizen. merly from which to chose, but after this all differences will be forgotten and every staunch follower of the party will turn in to the support of the straight Republican ticket as representing the wishes of his partisans. It is the plain duty of every citizen to go to the polls Tuesday and express his wishes, and those who fail so to do must not find fault afterward if the nominees chosen are not to their liking. The primary as now constituted is of equal importance with the November election—far too important to be overlooked. It must be remembered that the success of the party depends largely, though not altogether, upon the men who are chosen to stand for office, and that the results of the election are foreshadowed by the primary. There isn't the least doubt of the success of the Republican ticket, but that should not be taken as an excuse for apathy and overconfidence. and demonstrate his loyalty.

Every improvement to the fire department of a municipality is its own justification, and in the end pays. While the present fire fighting equipment of Reliance Hose Company is first class so far as it goes, it can be greatly improved and strengthened by additional paraphernalia, and who is there who will not feel justified in voting therefor at the primaries next always probable, the firemen should have every assist- the history of the County. ance possible in the way of up-to-date equipment to overcome the blaze and prevent its spread. If the department saved but one building or residence a year by the acquisition of further appliances, it would be a paying proposition. The main reason for the purchase of additional equipment is not, however, to save property exclusively, but to give residents assurance of safety at all times and encourage building and municipal development by maintaining efficient protection. Such protection cannot be too good.

The municipality is now free from the former heavy burden of high insurance rates, a fact due a matter of fact, it is only in line with movements that are being made solely to the purchase of efficient fire apparatus and in other states to develop highways that promise to be in the future the installation of an adequate water supply. The reduction in the underwriters' rates means a saving of thousands of dollars annually to property owners last Fall by Governor Fort in his address to the legislature, and he is and is an incentive to the erection of further residential and industrial buildings. To insure the continuance of low rates, the water supply must be maintained and the fire protection improved. It is intelligently. not enough to merely meet the requirements of the underwriters' association; the service must be improved at every opportunity. Our insurance rates are now as low as can reasonably be expected. But the insurance that comes from corporations organized for that purpose is secondary to the insurance every that it would be attractive to thousands where to-day it appeals to resident living within the town limits should have in knowing that the supply of water is inexhaustible and the fire fighting equipment adequate for any emergency. That is the best kind of insurance.

Mr. Roosevelt has favored and when an attempt was made, years later, to revive the principle, regulation of the business in which evils have grown up so as to stamp out the evils and permit the business to continue. Tho tendency of Mr. Bryan's proposals has generally been destructive of the business with respect to which he is demanding reform. Mr. Roosevelt would compel the trusts to conduct their business in a lawful manner and secure the time in March of next year. The passenger service between destroy the entire business in order to stamp out the journey requires but seven hours and the fare could be cut to less than evils which they have practiced.

Political interest in this State has thus far centered largely on local issues, for which the new primary law is largely responsible. This will be given its first trial Tuesday next, and as a result will be watched with interest.

Good roads continue to be a leading theme this Fall. The roads of Hamilton Township are in general J. E. P. ABBOTT, good condition with the exception of a few little-used highways. The road leading to Cologne is not in keeping with the Township system of good roads and steps will probably be taken for its improvement next Spring. Under the new road law introduced at the last session of the Legislature by Senator Edward A. Wilson, County aid may be asked for Township roads by those owning property thereon, where the Township appropriation is insufficient for their proper maintenance. Recourse may be had to this law in order to improve several stretches of highway in the Township that in some instances are of use to the FLI H. It is hard to imagine the mental status of an individual who could stand up and say that "the public schools are too good for this town and cost too much." That man has no place in a civilized community. Too good? If the amount now expended annually for their support were trebled there isn t a good citizen who could honestly say the school, were a specialty.

STATE PRESS COMMENT.

"Governor Fort's proposition that the State undertake to build a boulevard to extend from Atlantic Highlands to Cape May at a cost of many millions of dollars may seem to be an extraordinary one, but, as most traveled and most enjoyed by the people "The scheme has not yet ripened, and it is impossible to give, at

New Jersey is fast becoming the sanitorium of the United States, and its seashore towns are visited yearly by men and women of wealth from Europe, who put their money into a general circulation that is helpful to every New Jersey citizen engaged in business here or who is dependent upon his labor for his bread and butter.

"It is easily seen, therefore, that the spending of millions of dollars in the improvement of roads and the development of the shore front so hundreds, would be of incalculable benefit to the whole State."

"The simple truth is that no man has done more to place union abor on a sound, square, law-abiding, respected and self-respecting footing than William H. Tuft by his decisions in labor cases. Both employer and employed have acknowledged the justice of his rulings The chief difference between the Republican and and learned to abide by them, and to-day there is not an Intelligent worker or fair-minded employer who would seek to abrogate them.
