### Grew Pumpkins For Neighbors.

Postmaster L. W. Cramer's neighbors all say he is a good fellow, because he is furpishing them with pumpkins for their pies. Last Spring the postmaster planted a number of hills of pumpkins. The vines grew and grew, until they reached through the fences and bore their fruit on the neighbors' property. Now the latter are reaping the harvest, while the postmaster sits on his back porch and and thinks of all the hard work he put on those hills last Summer.

### Fishing Good In Great Egg Harbor.

Fall fishing down the Great Egg Harbor, say fishermen, is unusually good and somenice catches have been made. Weakfish are taking the hook freely in Broad Reach and other favorite fishing grounds, while hake or king-fish, are frequently caught by the anglers. Umb-bait seems to be the best killing lure for the fish, with grey mussels a close second.

Agricultural Department Advises Farmers As to Care of Trees-Yield Regulated by Improving Condition of Soil.

In a bulletin recently issued, M. A. Blake, of the Department of Agriculture, says that because of its ability to gather nitrogen and crimson clover. Hairy vetch and cowpeas are the crops most frequently used in New Jersey.

Crimson clover has proved to be almost an ideal cover crop for the sandy soils of central and Southern New Jersey because of besides its nitrogen gathering capacity. Owing the crop of crimson clover seed is limited and the fee per bushel is unusually high. Fruit on Tuesday, owing to the death of his sister, growen are now asking what crop can be Mrs. Reuben C. cover crop for the orchard, but where the soil is quite dry, and especially if the crop is sown in late Summer, it fails to make much growth before cold weather. The first frost kills the plants and a considerable portion of their nitrogen content is lost in the wintering quite high.

Hairy or Winter vetch is a very hardy plant, grows well even under dry conditions in Fall, continues to make growth during mild weather in early Winter and has all the other advantages of crimson clover. It also dries out the soil less rapidly in Spring than Crimson clover, which is sometimes a distinct livered by Rev. Harry Blake. In the afternoon advantage where there is a large area of orhard to be plowed. Until recent years the price of hairy vetch

seed has been too high to permit of its general use as an orehard cover crop, but at the present time it is not likely to be more expensive than crimson clover.

Where peach trees are making too much vegetative growth a cover crop of oats is recommended. This crop will dry out the soil in Fall and check any late growth of the trees and will not add any nitrogen to the soil.

# WILL PROTECT LANDS

OYSTERMEN WILL NOT USE FORCE.

Postall With Officers Will Anchor Along Beds Prepared to Enforce New Statute — Tongers Will Appeal to Supreme Court.

With the opening of the oyster season to-day, Commissioner Harry Postall, of Atlantic City. together with other members of the Commission and officers, will anchor in the yacht "Hobo" in the vicinity of the Great Egg Hurbon oyster beds to protect the rights of those who have leased the land from the State, under the law enacted last year,

Oystermen along the bay and river, while objecting to the new law, say they will not Kentucky Aves. 215 ft. North of Pacific Ave.; attempt to fight it with force this year but will carry the matter into court, having organised an association and retained attorneys. If the statute cannot be broken in a legal manner. they say, they will go on the grounds forcibly and take oysters as they have been doing heretofore, without leasing the land. The Commission does not anticipate any violence, despite the threats of the oystermen, says Commissioner Postall.

The land is now leased at three dollars an acre, this giving the sole right to take oysters from the beds. The oystermen complain that the Commission did not give their applications for land equal consideration but showed partiality.". This is accounted for by Commissioner Postall in the fact that the best land was leased to people with capital to plant it properly. It is a fact, admit the oystermen, that the men who secured these lands did follows: 30x100 ft. West side Massachusetts Ave. | spend several thousand dollars in this manner, dumping several schooners loads of shells overboard along the shores of the bay and lower reaches of the river.

"Your health is not safe if your milk is no pure or adulterated milk, or milk from animals infected with any disease, is highly dangerous. Both animals and milk should be subject to frequent inspection.

The encampment of the Grand Army at At lantic City was by far the most pleasant ever held by the veterans and only the call of other municipalifies to be honored by their presence prevents the old soldiers from returning next year. The people of the city and of the State at large are to be congratulated on the grand reception they gave the Boys in Blue,

the Board of Oyster Commissioners with a torce of officers will camp on the oyster grounds prepared to protect the rights of those who have leased the beds from the State under the new law. The officers anticipate no trouble ready to arrest anyone who attempts to take oysters from leased grounds, The law should be given a fair trial.

Vivian M. Lewis' candidacy for Governor Is most satisfactory to Republicans throughout the State and he has the support of many voters in the Democratic ranks, men who do not wish to see a Democratic governor elected. It is generally conceded that Lewis will win out over Wilson with one of the greatest majorities in the history of Jersey elections. "School-master government" doesn't appeal to the people of New Jersey.

Two serious accidents, one resulting in a death, have taken place in the County recently and both were caused by negligence. As it happened, the persons injured were the victims of their own carelessness. It often happens that carpenters and others working at heights [ become heedless of danger and trust to luck. Sometimes luck is favorable and sometimes it is not. The accidents should serve as a warning to every workman to safeguard himself and his fellow workmen by taking every precaution to see that scaffolds and other devices are safe. A nail or two in time saves an

The increasing number of catastrophies at grade crossings has caused great public in dangerous places. The majority of the accidents have occurred on the electric line of the West Jersey, which is crossed by scores of death-traps, unprotected or at best provided The Housewife with a tinkling bell which cannot often be heard above other poises. It is time the railroad took cognizance of these dangerous cross and made an effort to eliminate the danger to autoists, drivers and pedestrians. Jersey is getting a bad name among autoists and it will pay the people of the State to look better to their protection.

Most people are afraid of snakes and Imagine them the most deadly of living things, but they tolerate files and mosquitoes, which are far more dangerous and cause a hundred deaths to one caused by snake-bite. Statistics show that few people die of snake venom, death from that cause, even where the wound is inflicted by the dreaded rattlesnake, being rare. The bite of a tarantula is not necessarily fatal, neither is that of a spider or a lizard or a scorpion's sting. But flies and mosquitoes spread disease germs of most dangerous nature and their work is even more deadly because of the ignorance of people in regard to their agency in the spread of typhoid, small-pox, diphtheria and other diseases.

### RINGING RESOLUTIONS.

#### Second Congressional District Republican Platform.

We, the delegates assembled, in the Republican Congressional Convention of the Second District, of the State of New Jersey, are proud of the party achievements in National and will meet for the purpose of making State affairs, and promise every effort for still greater accomplishments for the good of all the people. We ask all who believe in the policies

President Taft regardless of party affiliations, to unite with us in the support of a Republican Congress, to the end that the people's work, conducted so successfully under his administration, may be continued and extended until all wrongs of special privilege have been corrected, and the enactment of new laws for the protection, wise use and conservation of National resources in accord with the policies of Presidents Roosevelt and Taft,

We commend to the consideration of th people the splendld administration of William H. Tait. We point triumphantly to the result of office and during a single legislative year he has accomplished more (in conformity with to the Nation than perhaps any pervious ad-to the Nation than perhaps any pervious ad-ward, House of Sarah Greer; Second Ward, Flre House in City Hall. ministration in our history.

The tariff has been revised in accordance with, the Republican doctrine of protecting home industries and American labor, The revision did not raise the rate of duty on a single article of common consumption. The increases made were on luxuries and articles not of ordinary use. It was intended to afford only adequate protection to the industries of the Nation, and to be fair alike to consumers. Anborers and producers. No tariff bill was more unjustly assailed. It has justified the ex pectations of its friends by turning a National deficit into a surplus, while at the same time reducing the average rate of all duties. Its maximum and minimum rates have operated to give us for the first time equality of opportunity with other nations in our foreign trade. A court of commerce has been created extending into a sound and equitable system, the vital matter of rate regulation. A tariff commission has been established that tariffs may be hereafter scientifically laid by accurate data. The powers of inter-state commerce

The White Slave traffic has been checked by a law that will well nigh emdicate it. A postal sayings bank system has been created for the better security of the people's savings. We commend the action of Congress in the creation of a commission to investigate the question of employers' liability laws and workmen's compensation acts, and to make recommendations to the President and to Congress. Wishelieve that industrial accidents to work men should be treated as inevitable incidents to industrial operations and the compensation thereof as part of the cost of productions. We are persuaded that the experience of other countries demonstrates that this principle can be applied to our industrial condition without

increasing the burdens of industry. The Republican party through Congress and the President has shown its progressiveness in County of Atlantic, State of New Jersey, promoting navigable inland waterways, and will meet for the purpose of making in this connection we most earnestly com- registration of voters on slature of New Jersey in supplementing these National waterways improvements with the great work which is being accomplished on the inland waterways of our State.

This convention endorses the Governor and the Legislature of New Jersey for the liberal State aid received in the extension of good roads through the counties of the Second Con gressional District.

We heartily endorse Mr. Gardner's efforts to secure the second class privilege to fraternal and labor publications; to make prison made goods subject to the laws of the State where offered for sale; to prevent the purchase of such goods for the public use and his earnest cooperation with the President in securing the establishment of Postal Savings Banks, and especially that feature, peculiarly his own, which authorizes the issue of 2 1-2 bonds in denominations from 20 to 100 dollars so that the national debt may be held by the people

of small means. In the Congress of the United States, as in the State House of New Jersey, the Hon. John J. Gardner, the Representative of the Second Congressional District has accomplished much for the people. His life has been spent in the military and civic service of the State and Nation, and the delegates of this convention unanimously endorse his carnest efforts towards obtaining legislation for the benefit of laboring classes, for the promotion of the welfare and prosperity of the Nation, State and District, and for his untiring and unfailing efforts to aid the Soldiers and Sailors of the Civil War and their widows. We feel confident that the welfare of of this district will be best served in his keeping, and the Nation will be better for his continued service in the National Capitol. His record is earnestly commended to the people.
