HAMILTON TOWNSHIP EN-JOYS GREAT PROSPERITY.

Insurance Rates Reduced Owing to Installation of Water Works and Purchase of Fire-fighting Equipment—Continued Progress.

Under the last twelve years of Republican administration Atlantic County has prospered exceedingly, Hamilton Township especially enjoying the fruits of the era of prosperity resulting from a wise and beneficent admini- The ground had became very dry. railroad crossing the County and connecting Philadelphia with Atlantic City has been the Audubon, N. May's Landing, under the old nesday. steam line, had four trains daily. Now we are able to take a train in either direction almost any hour from early morning until midnight. If the Republican party fosters the interests of legitimate corporations, the result of that policy is in this one instance fully apparent.

Two years ago May's Landing celebrated the completion of one of the finest public water works plants in South Jersey, and the occasion was a memorable one. Fire companies from all parts of the County helped to celebrate the occasion and although the people of May's were proud of their new manicipal ac inisition, they did not fully realize until last Autumn the full results that were to follow. What happened is evidenced in the following statement issued by Theodore W. Shimpf,

Secretary of the Atlantic City Underwriters' "In 1907, dwellings in May's Landing were rated at \$0.40 for 1 year, 1 per cent. for 3 years \$1d \$1.00 for 5 years. In 1908, dwellings in hay's Landing which are within 500 feet of fire Bydrant, are written at \$0.30 for 1 year, \$0.60 for 3 years and \$0.90 for 5 years. Private stables in 1907 were rated at \$0.50 for 1 year, \$1.60 for 3 year and \$3.20 for 5 years. In 1908, private stables located within 500 feet of fire hydrant, are rated at \$0.50 for 1 year, 1 per cent, for years and \$1.50 for 5 years. All rates on business, mercantile and industrial buildings, located within 500 feet of fire hydrant, in 1908, because of the Water and Fire Department Pro

tection, were reduced 10 per cent," The same effect was apparent in other sections of the County where such protection, had been

the requirements of the Underwriters' Association." writes William Morgenweck, Jr., City Clerk of Egg Harbor City, "resulted in the reduction of fire insurance rates of ten per cent. on property within 500 feet of a public fire

Pleasantville is perhaps one of the be examples of what better fire fighting facilities, N. R. Andrews, Borough Clerk: "In regard to fire insurance outside of fire

protection the rate per year is twenty-five per cent, greater than in protected districts. For per annum and protected at \$0.30. One year policies on proteteed property are rated at 30c., three year at 60c, and five years at 90c. On unprotected property the rates for the same terms are 40c., \$1.00 and \$1.60 respectively. It will be noted from this that in unprotected districts you pay 33 1-3 per cent, more on one year, 66 2-3 per cent, on three year and 77 7-9 per cent, on five year policies."

This is only one instance of the manner in which public improvements, fostered by na tional prosperity, have aided the residents of Atlantic County.

The Republican party in Hamilton Township this year proposes to purchase additional fire equipment and add to the efficiency of the water works system by supplying an additional well at the pumping station. Good roads, of which we are justly proud, have been the direct result of Republican policies. In this Township the Republicans purpose to expend on their maintenance and improvement next year 53,000, while the Demoerats, in their appropriation allow but \$2,000, ignoring all thought of providing for the maintenance of tire protection.

A mute testimonial of the good times resulting from Republican administration is the public fountain here, one of the finest in the State and erected by public subscription two years ago. The erection of this fountain marks one of the most prosperous eras in the history of Hamilton Township.

Public schools have been improved an maintained to an unprecedented standard during recent years. Under the late main stem tax assessed on the railroads of the State a large sum of money has been made available for schools and a heavy tax lifted from property

The prosperity thus fostered and maintaine by the Republican party will be continued during the coming years if its representatives are elected to office. The same policies heretofore adhered to will be continued, and good times assured for the laborer, the farmer, and every honest, industrious citizen. Hamilton Township will make no mistake in returning her Republican Township Committeemen to office this year.

it be for that candidate who represents continued whether Taft or Bryan is elected President. Thus he appears as a expired; and no appointment or nomiprosperity through protection of home trade and straddler who bids for votes on both sides. The American voter hasn't the American laborer.

When Grubb ran for Governor on the Republican ticket many years ago, nothing was too severe, no charge too serious, for his Democratic opponents difference between the cost of production abroad and at home, and to make. Those very speakers who then ridiculed his the wages abroad and embrace a reasonable profit to the American candidacy and advertised his unfitness for public producer. and praise his suddenly discovered worth. Why the standard of living of the laboring man. It is the policy of the Repubdifference? Was Grubb any different then than now? It is a pitiful spectacle to see Grubb, in his old age, enticed from the path of party loyalty and fidelity to political belief by such empty praise.

keen business man and a decided factor in the lower return as great a majority for the Republican ticket as has ever branch of the State Legislature. Some of his speeches in the Assembly last Winter evidenced a keen insight into the affairs of the State and won for him the that the highest figure will be reached, but Republicans generally will be returned to the state and won for him the content with the buyer of some intermediate estimate. The main of the whole State or of any country will marrie with the state of the majority will marrie any of esteem of fellow mem office with flying colors.

In his forty-one years of public service Congressman John J. Gardner has been identified with every public improvement affecting directly or indirectly the interests of the Second Congressional District of New Jersey. Railroads have been built, low fares introduced, and general transportation facilities improved. Forty years ago the railroad facilities

throughout the District were poor, while to-day they rank with the best, all because of wise and beneficent legislation. The railroads have prospered, but their prosperity has resulted from that of the people, and increased in equal ratio. Many measures affecting this State be and the same are hereby the development of good roads may be directly traced proposed, and when the same shall be to the influence of Mr. Gardner, and every laborer is indebted to this veteran legislator for the eight hour of Assembly, the said amendments time law now effective. The farmer has been well looked shall be entered on their journals, after with Rural Free Delivery systems and good referred to the Legislature next to spective commissions or terms of markets resulting from excellent railroad facilities be chosen, and published for three office, and until their successors may and good roads. Thousands of veterans owe their the first Monday of November next, good fortunes to "Uncle John," who is a veteran in at least one newspaper of each all difficers whose terms of office would himself with the loyal, unsullied, faithful heart of a county, to be designated by the Presitrue patriot. What has he done? It might better be the House of Assembly and the Secre- qualification of their successors in asked of him, what has he not done. He has, if not tary of State: the actual instigator, been directly associated with every movement for the public good for forty-one years; the finger of dishonesty or hypocrisy has never been pointed at him; and he has at all times, under held every two years on the first to be held next after these amendall circumstances, acted the part of a faithful public servant, an ardent patriot, and a man. With such a bhousand nine hundred and ten, and record no man ought to hesitate to cast his ballot for every second year thereafter; and the sary him and continue "Old Brains" in Congress.

Enoch L. Johnson, Republican candidate for Sheriff of Atlantic County, has been charged by his Democratic opponent with the serious crime of being thereof the following: a young man. The charge comes from a man well one senator from each county in the on in years, whose age should have taught him better. State, elected by the legal voters of Age is respectable only when the opportunities it has presented have been improved, and gray hairs deserve no reverence when years of experience have taught no respect for ability. Mr. Johnson is indeed a young man in years, but he has the head of a veteran on his shoulders. He is a young man who has improved his opportunities and in whom the County will receive a faithful, efficient servant. The esteem in class shall be vacated at the expirawhich he is held by the people of the County, and tion of the second year; of the second the confidence they repose in his ability, will be demonstrated at the polls.

"The wage-earners of the United States," says the New York Press, "are not voting upon the oratory of William Jennings Bryan; they are voting upon the opportunity to work and earn their livings. They are not voting upon the sound of his voice, the sweep of his gesture and the dramatic capacity of his features. They are voting upon the question of open mills or closed mills; industrial activity or industrial stagna-tion; live business or dead business; pay envelopes or bread lines. That is why William Lennings Bryan is bread lines. That is why William Jennings Bryan is no nearer the White House to-day than before.'

The universal and intelligent discussion of great questions of public policy by the American people according to the number of their in- the numbers of the following paraduring a Presidential campaign is the most useful and the most hope-inspiring school of government in the world. The political mud-slinging indulged in by United States decennial census here-Bryan and his ilk is not creditable to the party under which he seeks to be elected. The calm, judicial personality of William H. Taft is a remarkable contrast to the erratic course of the Bryan meteor.

The Republican campaign in Hamilton Township will be finished this evening with a big rally at the rivery in a compact form, but no and grant reprieves, commutations, Court House. The campaign has been an aggressive county, or part thereof, shall be join- pardons and paroles, after conviction one, and as a result not only Hamilton Township but ed with any other county, or part in all cases except impeachment, The the entire County will return one of the heaviest that each county shall, at all times, be shall hold office for five years, and reparty majorities on record. Party leaders are sanguine, and predict success for the entire ticket.

Samuel Kirby, Republican candidate for County Clerk, is so popular that he will be elected by an overwhelming plurality. It is a fitting testimonial of his worth and ability that his opponents have not view any division and arrangement cared to attack either. The affairs of the County Clerk's Office, under his charge, will be conducted in a thorough, up-to-date manner.

"The office of Coroner often requires an enerthe common defense and promoted the general wel- getic, capable incumbent," said ex-coroner Gaskill fare; policies which were set forth in the original recently. Many Influential Members of That Party Refuse to Support Bryan.

New England, New York, New Jersey, Maryland and the Southern States All Furnish Evidence of a Sweeping That Taft and Sherman will have the otes of a very large number of Democrats on Nov. 8 is not remarkable. It would be remarkable if the Democracy, ney at Amsterdam, N. Y., and chairand in various branches of industry, were united behind Bryan, who reprebusiness and industry and to paralyze every form of legitimate enterprise. Bryan's past has been followed and studied by thoughtful, intelligent and conservative members of the party to which he claims to belong, and the result is not favorable to Bryan. In the view of many Democrats he has grown worse instead of better, and his free silver folly of twelve years ago has not been improved upon by his free trade, bank guaranty and 50 per cent business limitation vagaries of more fecent date. Bryan is not exactly like the person in the Scripture who got rid of one evil spirit only to let seven more take its place. He has a warm corner yet for the first devil besides the later arrivals, and there is no telling what new schemes for turning things topsy turvy are being conjured

in his volatile brain. No wonder, therefore, that many sane Democrats are for Taft. All of them do not speak their feelings. Most of them probably are silent, except when circumstances make it imperative that they should speak. For inelected president. With him join the stance, Ferdinand Strauss of Boston and Charles S. Davis of Plymouth, Mass., were so quiet about their intentions to vote for Taft that they were named as presidential electors on the Bryan ticket. Then they spoke out and said they were for Taft, and their places on the Bryan ticket had to be filled by others. Messrs. Davis and Strauss doubtless typified a very numerous class of Massachusetts Democrats who prefer the Republican candidates, policies and principles to a

witch's caldron of Bryanism. Rhode Island was never more secure for the Republicans than in the present national campaign. The real old fashloned Democracy, typified by men like Charles Sisson and Dr. James L. Sullivan, is either outspoken for Taft, like the gentlemen named, or quietly waiting for election day, when many Democratic votes will be given to the candidates who represent the policies which have made Rhode Island a great little state. In New Hampshire also the old line Democrats are largely for Taft. Among the more prominent who will vote for the Republican candidates are Kirk S. In the beginning of our occupation of the Philippines the problems there of this the first Philippine commission The commissioners decided that it was

Mr. McKinley was advised to try to do nothing by civil power, but to give the superior court bench in Ohio to a military governor full sway. This would have been a fatal error. Any continuance of the military government beyond the time when its stern rity is reckoned and already doing restrictions were required to induce peace and maintain it would still further have jeopardized the trust of the natives in our good faith. And it had already been so strained that it would stand no more tension.

The people at home, too, were growing thoroughly out of conceit with "the little brown brother." Our appetite had become sated of military conquest. Too many long, narrow boxes were shipped over sea and land for interment in village churchyards, too many mothers mourned sons, done to death by bullets or bolo, to support general

conviction in the doctrine of expansion. We thought we had no prototype of Cromer, no giants of colonial administration upon whom Mr. McKinley might call to "lay the foundations of a superior civilization, with specific reference to the needs of the people to be governed and with definite reference to the welfare of the islands, both-material and moral," as he had put it. There was dearth of men wholly in

harmony with the president's conception of what our national duty to the Filipinos comprised, who would constantly bear in mind that it was liberty they wanted, liberty that they should have, as Mr. McKinley had promised, pledging our faith as a nation-liberty, as he wrote, "of the whole Filipino people and not of a decimal fraction of them, who through the leadership of education and property have acquired a domination over

the great mass." Mr. Taft had not been thought of. If tion was known it was patent that he was neither a believer in Mr. McKinley's policy nor in our ethical right to be in the islands. Said the president one day to the then secretary of state. William R. Day, "I want a man who is strong, honest and tactful, a man of education and executive ability, a man who is fearless, but conservative, who will get along with the army people." "Judge Taft fills the bill if he will take the job," said Mr. Day in a stroke

It has never ceased to honor the officers and men who composed the victorious army. Every Republican president elected since the close of that the Federal army with the exception H. Taft to request President Rooseof President Roosevelt, whose brill velt to withhold his appointment as liant record in the Spanish war is a justice of the United States supreme matter of just pride to the American court that would have brought him people.

Republican Pension Legislation. Republican legislation for the old soldier, his widow and his miner children has been generous and bountiful The invalid pension law of July 14, 1862, and the dependent law of June 27, 1890, are monuments of Republican achievement and bear witness to the country's tender care of its soldiers and its sailors and their families.

The act of June 27, 1890, is a fitting illustration of the generosity of the Republican party toward the veterans of the civil war. This law was passed by a Republican congress, was signed by a Republican president, and through its administration there was expended during the next fiscal year a total amount of \$68,798,860.71. The number of soldiers receiving the benefit of this act was 443,721, while the number of the dependents relieved by number of pensioners under this net | ton to state the case of the Philippines over the previous year was 8.643, and to a committee of congress, "but if the gain from June 30, 1890, to Jan. 5, you should offer me a justiceship now.

The Republican party passed the act of April 19, 1908, increasing pensions as governor, I should go straight back of all widows from \$8 to \$12 per month and granting pensions without reference to the value of property or income. The Republican party also passed the act of Feb. 6, 1897, granting pensions to soldiers by reason of age alone, without regard to disability.

Democratic Opposition Record. The Democratic party, as such, has opposed every measure voting appropriations for pensions. Its record for the past forty years is one of opposition to those men who bore the hardships of war and jeopardized their lives that the Union might be preserved. Here is a brief list of their official adverse acts in congress toward the veterans of the civil war:

In 1878 a bill passed the house repealing all limitations of time in which applications for arrears of pensions should be made. This was opposed by a majority of the Democrats. The bill increasing the pensions for widows from \$8 to \$12 per menth was opposed by the Democrats. The amputation bill passed Aug. 4, 1896, was opposed by the Democrats and voted for solidly by the Republicans in the house. The widows' arrears bill and the disability pension bill were both fought

bitterly by the Democrats. In the Forty-third congress a dependent pension blll was voted on in the senate, the Republicans supporting it solidly and the Democrats opposing It by a two-third vote. In the house this bill was voted for solidly by Republicans and opposed by a majority of the Democrats. After it had passed the house and senate it was vetoed by President Cleveland, a Democrat. An effort was made in the house to pass the bill over Cleveland's veto, the Republicans voting 138 for it and the Democrats voting 125 against it.

This vote showed that twenty-nine Democrats who had originally voted for the bill hastened to avail themselves of the opportunity afforded by the president's veto to vote against it. thus testifying their real sentiments. while twenty other Democrats who had dodged the first vote came up promptly and supported the veto. The dependent pension bill was bitterly opposed by the Democrats, the Republicans putting it through despite the opposition. This bill, as the old soldiers well know, was promptly signed by President Harrison.

Democrats Dislike Veterans. To sum up, the following gives the

total of fourteen votes of congress demand, but he will not consider i upon the most important of the varions pension measures presented since the war-viz:

Democrats for the bills..... Democrats against the bills..... Republicans for the bills....... 1066

The official records of national legislation show that of all the Republican presidents since the war only one has withheld his signature from any pension bill, and that was General Grant,

have been in power for only a few for political ends and purposes, we debrief years since the war, and their clare that the Democratic party is in president, Grover Cleveland, vetoe: favor of so umending the constitution 529 pension bills. Every pension unfitted to appreciate its importance, bill vetoed, 529 in number, was vetoed as it affects the stability and preservaby a Democratic president except five.

For the past fifty years the Democratic politicians have juggled with the soldier vote and pension question in their platforms. While giving every evidence of being really hostile at heart, they have thrown out bits of political balt from time to time in the hope of cajoling the veterans into voting the Democratic ticket. During all these years the Republican platform has rung as clear as a bell on the pension question, as per this plank in the 1908 platform:

"Another Republican policy which must ever be maintained is that e generous provision for those who have fought the country's battles and for the widows and orphans of those who have fallen. We commend the increase in the widows' pensions made by the present congress and declare for a liberal administration of all pension laws, to the end that the people's gratitude may grow deeper as the memorles of the heroic sacrifice grow more sacred with the passing years."

The Democratic platform favors pensioning "the surviving veterans and their dependents because it relieves the country of the necessity of maintaining a large standing army." The patriotism of the veterans is ignored. This platform does not favor pension-The Republican party has just cause ing widows and dependents of de-

The choice, it says, is not so much between parties as be tween men. "The people, we believe will decide in favor of restoring prosperity through Mr. Taft rather than in turning prosperity from the door through Bryan. The people now desire above all things the return of nor mal business and industrial conditions and industrial peace. The working people want employment and good, wages. We do not believe that these things can be attained by a man who has won prominence, not by sound and enlightened statesmanship, but by ceaseless agitation, by ceaseless strivings after something new and strange. Mr. Taft will carry out fearlessly and faithfully the policies which the people necessary to throw the country into bankruptev and business stagnation in order to make it virtuous."

Gardner and the Old Soldiers.

It may be of interest to men who were in the Civil War to know how Congressman Gardner stands in regard to the old soldiers. He was one himself and carries seven wounds received in battles, yet he has never received a pension but has done much to secure pensions for others.

In the past two years he has handled over 2,500 pension cases granting increases, and in the past three years has had passed twenty
