TARE CARE OF THE BODY.—The following from Dr. Elam's "Physician's Problems," is both forcible and sensible:

"Fear not to do manfully the work for which your gifts qualify you; but do it as one must give an account of both sonl and body. Work, and work hard, whilst it is addy; the night cometh soon erough,—do not hasten it. Use your faculties, use them to the utmost, but do not abuse of the immortal. The body has its claims—it is a good servant; treat it well, and it will do your work; it knows its own buslices; descripting the sure of the standard packages at adouted, and the manus and addresses of all manufacturers who have, up to that time, kpulled for and received the brand of the Association, the light of the Light of the Light of the Light of the immortal. closs and freshness of youth. Thin mir is thickened, fallen-hair-checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophical and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sodiment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning grey or falling off, and emsequently prevent baldness. Tho restoration of vigality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Erres from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Dear Madam:

In the selection of a Sewing Machine, it is important, first, to consider THE uses to which it will be put. If heavy work only is to be done, a slow and ponderous machine may, perhaps, BEST answer the purpose; but if it is designed for general family service, the strength and ELASTICITY of the SEWING should conform to the flexible character of the materials which usually predominate; while the MACHINE itself should be simple in its construction-rapid, quiet, and easy of moveme tand not liable to disorder. IN all these respects, the WILCOX & GIBBS Silent, Family Machine stands far in advance of all others. THE superiority of this machine for all light sewing is obvious; and its popularity is rapidly extending the WORLD over. I herough examination of it, is respectfully solicited.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We san assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfectpd preparation for restoring GRAY DR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white-and clean. It removes all cruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Philadelphia, A. D. 1873.

In the selection of a Sewing Machine, it is

Dear Madam:

important, first, to consider THE USES to which it will be put. If heavy work only is to be done, a slow and ponderous machine may, perhaps, BEST answer the purpose; but if it is designed for general family service, the strength and ELASTICITY of the SEWING should conform to the flexible character of the materials which usually predominate; while the MACHINE itself should be SIMPLE in its construction—rapid, quiet, and easy of moveme t and not liable to disorder. IN all these respects, the WILCOX & GIBBS Silent, Family Machine stands far in advance of all others. THE superiority of this machine for all light sewing is obvious; and its popularity is rapidly extending the WORLD over. A thorough examination of it, is respectfully solicited.
