

THE ITEM.

H. E. BOWLER, M. D., Editor & Prop.

SATURDAY, MAY 17, 1873.

HAMMONTON ATLANTIC CO., N. J.

The expedition fitted out with the steamer Polaris, under the command of Capt. Hall, in 1871, to explore the North Sea with the hope of finding an open polar sea, has met with a serious drawback it is a failure, in the death of Capt. Hall, who died of apoplexy in latitude 81° 38', and in the return of a number of his men. The expedition reached North latitude 82° 16'. The rescued party, some 15 in number, had landed from the Polaris, were driven from her by a gale which burst her workings, on the 15th of Oct., 1872. There are 14 persons left on board the Polaris, with plenty of provisions, but the vessel was in a leaking condition. Prof. Baird, of the Smithsonian Institution thinks that the news from the Polaris Expedition is far from disheartening. The vessel, at the time those rescued by the tug were separated from her, was in no worse condition than she had been for a long time, and was then in no danger. Enough of her crew were left aboard to manage the ship. Her entire scientific corps remained, with all of their apparatus, and unless there has been some mistake in the reports, they must have accomplished about all that for which the expedition was sent out. They have sailed further north than any former expedition, and with seals have reached the highest latitude ever attained, except by Prof. Parry. Prof. Baird thinks that if the expedition ever returns, as he greatly hopes it will, it will have added greatly to our knowledge of the geography of the Arctic Regions, its fauna and flora, and its geological and meteorological characteristics. It will have accomplished more than the German expedition, of which so much has been written and said.

Russia has been successful in her operations in Central Asia. Khiva is taken. A riot at Rome, demanded the entire abolition of the religious corporations.

It is announced that all things being ready, the National Railway Company have commenced work upon their road. Senator Sumner has been granted a divorce from his wife on grounds of desertion.

Hon. Oakes Ames, of Credit Mobilier notoriety, died at his residence, in North Eastern, Mass., on Thursday, the 8th inst., of apoplexy, complicated with pneumonia.

Victims of a series of horrible crimes have recently been discovered at a place called Cherrynia, Kansas. A family named Bender, who lived on the premises where the bodies were found, and who suddenly disappeared, are the suspected parties. Great excitement prevails among the people.

Since the death of President Lincoln there has not been so marked evidence of sorrow over a public man or even those of Chief Justice Chase, as he lay in the Chamber of the Supreme Court. Every public and many private buildings were draped in mourning. On every flag-staff the stars and stripes were at half-mast.

The President thinks the appointment to fill the vacancy caused by the death of Chief Justice Chase, too important to be acted upon hastily, and that he will take time to look about, that he may elect a gentleman who will be generally acceptable to the entire country, and it is wished that the nominee shall be confirmed by the Senate before entering upon the duties of his office.

The Cincinnati Gazette discusses thus on the Congressional vote for increase of salary, &c.:—"The Congressional salary bill has killed more public men politically than any measure ever adopted by any legislative body. And it has killed them without regard to party relations. We have never observed such a storm of indignation, or a greater unanimity of sentiment than has been exhibited on this subject. It is not a partisan verdict, but a verdict of the people without regard to party. And the storm will not blow over. Those Congressmen who expect it to subside will be grievously disappointed."

The "Mines Journal" takes a sensible position in regard to the new postal arrangements; calls upon editors of country papers to meet immediately in convention, and by memorial or otherwise, appeal to the Post Master General for a fair construction of the law—and filling in this heading upon the repeal of a proviso placed there through party spirit and calumny. This, we think the wisest course, and what is done must be done quickly.

Our Washington Letter.

WASHINGTON, D. C., May 11, 1873. Truly, certainly, is the driest spring in Washington that has been experienced in our history, and the coldest—no colder a weather and the hottest, at one time the mercury rising to 88 degrees—another with mercury half, or a rain, and under showers, so the winter it may be properly denominated the cold spring of the age. The crops around Washington are not generally the best ever raised, although the soil is rich, and the water is full to the brim, we had not a drop of rain since the 1st of April, and the ground is so parched that the vegetation is withered. The drainage of the city is not by any means perfect, notwithstanding hundreds of thousands of dollars have been expended in the past few years. It is estimated that not less than 5000 persons between the hours of 1 and 4 o'clock, visit the Supreme Court house to witness the cases of Chief Justice Chase, and it was reported by an eye-witness that they were not only a matter of curiosity, but a matter of business. The most important topic of interest, now talked at by the leading men in the city, is the appointment of Chief Justice Chase to the office of Chief Justice of the United States. The late Chief Justice Chase, who was appointed to the office of Chief Justice of the United States, was a man of high standing, and his appointment would be a great honor to the country. The President is expected to appoint him, and it is believed that he will do so. The news of his appointment was received with great satisfaction, and it is believed that it will be a great benefit to the country.

Board of Chosen Freeholders.

An adjourned meeting of the board of Chosen Freeholders of Atlantic County was held at the Court House, May's Landing on the 13th inst. A full attendance of the members were present, and a large number of bills were passed, and warrants ordered drawn. The Financial Committee reported as follows: To the Board of Chosen Freeholders of Atlantic County: Your finance committee, having examined the books and vouchers of D. E. Leonard, County Collector, would respectfully report the accounts to agree with the report prepared by him (with the exception of \$2.36, an error in interest account, in his favor. The committee would call the attention of the board to the item of \$2,221.13 which your Finance paid on 22d of the month of April, which is in the opinion of your committee, should have been furnished by the different townships through their Poor-Overseers, and as they cannot find no warrant of law to justify the furnishing of relief by the board, they recommend the practice be hereafter discontinued. Your committee with pleasure congratulate the board and the people of the County upon the fact, that the County is virtually out of debt. The annexed balance sheet, showing an excess of \$785.66 over all liabilities, notwithstanding the court expenses of the last year exceeded any former year by the sum of \$1501.74. The committee in view of the large cash balance \$3,329.03 in the hands of the collectors, (which sum has been largely increased since the settlement), would recommend that the Collector be authorized to call in all outstanding obligations of the County, and cancel the same by payment within 30 days from the date of notice, in order that interest on the same shall cease. Your committee would ask authority to purchase a Fire-proof safe, for the use of the collector, believing it necessary for the safe keeping of the books and valuable papers, in his charge, the nominal sum received for his services not warranting the purchase at his own expense. In conclusion the committee would commend the Collector, for the prompt and courteous manner in which the business of the County has been transacted, the intercourse between the committee and himself has been one of pleasure, and from the admirable system in which the books and papers are kept, of profit to the County. All of which is submitted.

Hammoniton the Best Place No. 10. One great advantage we have over most other places is not having to fence. Colorado seems to me about the best place out West, but there, according to a land agent's circular, just at hand, it cost \$1.48 for a three pole fence, or at least, \$2.00 per rod for a good fence. Now, to fence around one of our four acre lots would cost about \$3.00. Besides, we would have to fence against everything, and if we had to fence against everything, we most sections do, for who would make a hedge if he had to keep a fence outside to keep pigs, geese and unruly cattle out? Again, it is a great nuisance to have to be eternally opening and shutting gates and bars, and occasionally have a team run away, and smash up, perhaps with or child, as well as carriage, while attending to the gate. But the three most important things to secure are Health, Wealth and Morality. That our place excels most in all these, is well known by all here that I need not argue the question, and will only add, in passing, that we are very much prone to greatly underestimate their importance. Let us all try to appreciate our moral and intellectual superiority. Wealth! "Oh, if we could only make money here," says one. "It would be the best place indeed." I am not at all sure wealth is so important, but have not a doubt it can be had here most abundantly, and if you, Mr. Editor, and your readers will bear with me and let me tell the truth as I see it, I have no doubt of being able to tell how to obtain it, how to make money in Hammoniton. But you need not expect any thick and thin out-guessing and lying about our ability to excel in all things, for the truth is, we have great advantages for doing a few things, while there are many crops and many kinds of business which it is folly to attempt here, as so many know, to their sorrow. Some of us have been here long enough to begin to find out what the place is adapted to. Having owned land here nearly fourteen years, and closely watched everything and tried it in a small way a great many things here, and traveled forty thousand miles in about a score of other states, I think I ought to know something about it. We can most assuredly make great profits at a few special crops, but to build up our place to a city of forty thousand inhabitants, manufactures must be our main reliance. We have made a good beginning, and now if we, one and all, only set our hearts to it, we will certainly have forty thousand inhabitants in Hammoniton. Let us all speak good words, talk and encourage the new firm just starting.—BEN. RADICAL. Rates of Postage. After June 30th next, in accordance with the law passed last winter, subscribers to county newspapers will be required to pay postage, and postage upon all exchanges must be paid at the office of delivery. The rates of postage have not been changed. Letters to all parts of the United States, three cents per half ounce. Newspapers sent by mail must be prepaid by stamps; needless to say, if sent by sea or regular subscribers by publishing or newsdealers, when the following rates are charged, payable quarterly in advance, either at the mailing or delivery office. Six times a week 35 cents. Tri-weekly 30 cents. Semi-weekly 15 cents. 10 cents. Weekly 5 cents. Semi-monthly, not over 4 cts. 6 cents. Monthly, not over 4 cts. 3 cents. Quarterly, not over 4 cts. 1 cent. Newspapers and circulars dropped into the office for local delivery must be prepaid at the rate of one cent per two ounces and an additional rate for every additional two ounces or fraction thereof; and periodicals weighing more than two ounces are subject to two cents, prepaid at all letter-carrier offices. The postage on regular papers, &c., must be paid in advance, either at the place of delivery, to the carrier, or at the office, otherwise they will be chargeable at transit rates. HAMMONTON Cornet Band. Engagements for PARTIES, PIC-NICS, Serenades, Dances, &c., &c. AT REASONABLE RATES. For further particulars address IRVING S. POTTER, Sec'y, Hammoniton, N. J.

THE ITEM.

SATURDAY, MAY 17, 1873. Mr. R. W. WOOLLEY has the ITEM for sale at his new store. Persons wishing extra copies of the ITEM, or the same price as at our office—single copies for 25 cts. or 2 copies for 25 cts. LOCAL MISCELLANY. Go to A. G. Clark's with your cash, to get bargains. The DePuy's have been replenishing their furniture rooms. What about the Fire Extinguishers? Are we to have any? What about the Park lot at the head of the lake? Is it to remain as it is forever? Hammoniton avenue, between Old Hammoniton and Main road, is in a bad condition. Is it to be repaired? Politeness is an essential help to a man of business. So think our neighbors, Anderson Bros., judging by what only said. The old board of Freeholders went out on Tuesday, and the new board was organized on Wednesday, at May's Landing. I will rent one "undivided half" of my store to a good, responsible person in Hammoniton, on business, on very reasonable terms. WILL R. REEFORD. The new firm of Burnham, Metcalf & Co. are here, and are getting ready for an active campaign in the manufacture of an improved Venetian-Blind. Success to them. It was not "Biram's" wood we saw moving, but Crowell's floral collection in a living, blooming beauty, moving from his hot house, down to Atlantic City. "Hops the people" "down by the sea" will appreciate this enterprise. A. G. Clark has a full assortment of dry goods, groceries, food, etc., which cash buyers will get at extremely low prices. The Camden and Atlantic Railroad Company gave an excursion to Atlantic City, on Wednesday, with three hundred and sixty guests. They had an excellent opportunity to do Atlantic City, and are astonished at the wonderful improvements and growth since last season. The Camden & Atlantic Railroad Co. have put a number of new cars on their road. They are elegantly furnished, and decidedly an improvement on the old cars, in comfort and in appearance. Notice is hereby given that there will be a meeting of the County Board of Examiners of Atlantic County, to the examination of candidates for teachers, on Wednesday, at May's Landing, on Saturday, the 21st inst., at 10 o'clock. GEORGE J. WIGOR, County Sup't. Beauty was the fancy, but merit was the soul. Rutherford, the artist, combines both in his every day photographs. His work is far superior to anything heretofore taken in Hammoniton, and price of all, they are just too low. Any style of work in his line, he can make for you. Frames, albums, mats, &c. in abundance. He invites all to call and "take a look" whether they want work or not. Success to him. Rooms adjoining our office, as he says, on the popular side, Bellevue ave., Hammoniton N. J. Don't fail to give A. G. Clark a call, where you will find the largest and best stock of goods in Atlantic County. We refer our readers, with a good deal of pride and satisfaction to the Financial Report of the Board of Chosen Freeholders, made at the recent meeting at May's Landing. It will be seen that our County is out of debt, with nearly \$800 to its credit. This is the first time the County has been out of debt. All the great cry that has come up from dissatisfied agitators and grumblers, in the County, and waste of public funds in the County, show how little they understand the financial transactions of the County. This report speaks most commendably of the late board of Chosen Freeholders, and shows conclusively that they have understood the duties devolving upon them, and have performed them faithfully. The record is a good one, and we are glad to see it done, good and faithful.

Ayer's Hair Vigor,

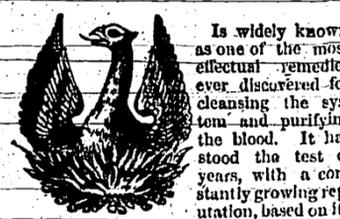

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. It soon restores faded or gray hair to its original color, with the gloss and freshness of youth. Thin hair is thickened, fallen hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Ayer's Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities, or diseases that have lurked in the system for years, soon yield to this powerful antidote and disappear. Hence its wonderful cures, many of which are publicly known, of Scrofula, and all scrofulous diseases, Ulcers, Eruptions, and eruptive disorders of the skin, Tumors, Blisters, Bolls, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, and Internal Ulcerations of the Uterus, Stomach, and Liver. It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhoea, when they are manifestations of the scrofulous poison. It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even when no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

Keystone Mill Company's Prepared Wheat

SUGAR OF MILK.

Patented July 23, 1872. A FARINACEOUS FOOD FOR INVALIDS AND INFANTS.

By the peculiar process in which this preparation is made, all the flesh forming constituents—EARTH and ALKALI elements of the grain are retained with none of the starch, all of which being converted into DEXT. INS. It contains all the LIME, SUGAR, PHOSPHORUS, IRON and MAGNESIUM for the animal juices; and OIL and FETUCA for respiration and fatty tissues, with the proteic compounds (GLUTEN, ALBUMEN, &c.) from which nerve and muscle tissues are formed. It is believed by the most intelligent men that much of the suffering, sickness and mortality of mankind is traceable to deficient or faulty nutrition. To the same cause may also be assigned the frequent disappointments of physicians in the result of the action of the most approved remedies. We feel sure that this article will supply the deficiency.

Sugar of Milk.

[LACTIN.] Is a crystallized sugar, obtained from the whey of cow's milk by evaporation. It is manufactured largely in Switzerland and the Bavarian Alps as an article of food and for medical purposes. It has been used considerably in England as a non-nitrogenous article of diet in Consumption and other PULMONARY DISEASES, and with excellent effect in extreme INFLAMMATORY OF THE STOMACH, (see Wood & Hulse's Dispensatory.) We manufacture two grades:—No. 1, in yellow wrapper, round coarse, to be eaten as cracked wheat, with cream. No. 2, white wrapper, is ground into Flour for Puddings, BLANCO-MANUS, and BREAD.

DIRECTIONS.

FOR MAKING MUSH with No. 1, GROUND SUGAR—Mix four tablespoonfuls of the Wheat with a gill of cold water; rub into a smooth paste; then pour it into a pint of boiling water, stirring briskly; boil for 20 minutes. To be eaten with rich cream. FOR PUDDINGS, &c., USE No. 2, GROUND SUGAR.—Mix a tablespoonful of the Wheat with a small quantity of cold water; rub to a smooth paste; add to one-half pint of boiling water, constantly stirring, and boil about 5 minutes over a moderate fire. Add milk and sugar to taste. For bread, use as ordinary flour. PRICE 50 CENTS A POUND.

GROFF & PHILLIPS, Publishers, Philadelphia, Pa.

Philadelphia, A. D. 1873.
Dear Madam:
In the selection of a Sewing Machine, it is important, first, to consider **THE** USES to which it will be put. If heavy work only is to be done, a slow and ponderous machine may, perhaps, **BEST** answer the purpose; but if it is designed for general family service, the strength and **ELASTICITY** of the **SEWING** should conform to the flexible character of the materials which usually predominate; while the **MACHINE** itself should be SIMPLE in its construction—rapid, quiet, and easy of movement—and not liable to disorder. **IN** all these respects, the **WILCOX & GIBBS** Silent, Family Machine stands far in advance of all others. **THE** superiority of this machine for all light sewing is obvious; and its popularity is rapidly extending the **WORLD** over. A thorough examination of it, is respectfully solicited.
D. S. EWING,
720 Chestnut Street.

Monday, Oct. 1, 1873.

New Jersey Chemical Co.

AMMONIATED Super Phosphate

The New Jersey Chemical Company having purchased the Chemical Works late of P. & Klett, are now manufacturing Ammoniated Super-Phosphate of Lime, fully equal in quality and condition to the Rhodes Super Phosphate, formerly made by Potts & Klett, a high has heretofore given such general satisfaction. We are now prepared to furnish consumers and dealers with the above Super-Phosphate, and shall be glad to supply our old customers and others.

We also beg to call your attention to the "Orchilla Guano." This Guano we receive direct from the Orchilla Island. Wherever it has been fairly tried it is pronounced one of the best and cheapest fertilizers in the market. YARNALL & TRIMBLE, (Sole Wholesale Agents), 147 South Front St., Philadelphia, March 16, 3m-sept-3m
