PHILADELPHIA, Jone 18.

The anniversary of the Old Man; Home wis obstrated on Tuesday in their besttiful building at Thirty ninth and Arch streets. The attendance was very large, and, as usual, the ladice made up the best part of the visitors. The spanious edifice was crowded, and also the surrounding groupds. The inmates of the house occupied places in front. Rev. Dr. Newton. of the Episcopal Church, read the minth annual report, and stated that the building was formally opened on June 12th of last year. If it had not been for the loss of \$3000 by the failure of Jay Cooke, the debt would have been entirely cancelled, and the gratifying announcement could have been made that the expenses were all met. There are thirty-one inmates at present, and they enjoy all the comforts adapted to their advanced age.

The conditions of admission are: - For applicants of the age of 70 years and upward; \$150, for persons between 65 and 70 years, \$250; for those under 65 years, \$500. No one will be received who is less than 80 years old.

Several interesting address on the occasion, and not withstanding the extreme heat of the day, the exercises were much enjoyed by all who had the privilege of being present. Upon their conclusion, the visitors partook of refreshments, the receipts from which were for the benefit of the funds of the house. THE INSANE.

For many years it has been the custom to have balls and other ontertainments for the insane at our Almshouse. The patients seem to enjoy these little attentions, and several of them have been materially benefited by them. Every week during the sesson at least one ball takes place, and so attractive have they become that growds of visitors attend. The chief physician is Dr. D. D. Richardson, to whose kind treatment and acceptific acquirements the present improved condition of the department is entirely due .-On Friday the last ball of the season took place, and there will be no more until the oold weather in the autume.

THE PRANKLIN SAVING PUND.

This institution was doing a large business when it suddenly collapsed, and its doors closed on their hinges. A person named Cadwallader was in the halit of quoting trite proverbs in his excensive adsertisements, and in this arrivel manner roped in many an unsuspecting victim. The deposits were large and many, and when it reached the fitting time, the bubble burst, and bankruptcy became the fate of this concern. Of course the deporitors will lose the greater part of their money, nothing will be done with the managers, and after a short time all will be forgotten, and another swindling company will rise out of the ashes to chest and defraud the innocent. It is time that a law was passed to reach such eases, and If the officers were held individually responsible, even to imprisonment, perhaps there would not be so much of roguery bereafter. The certainty of escape now encourages designing and dishoness men to embark in defrauding schemes.

A DOG PIT CLEANED OUT. The police received information that a dog fight was to come off last Monday at a notorious place on Richmond street. Thirty-five policemen made a raid upon the den, and the ismates seempered off in every direction. Some of them got outon roots, into attie windows, and in every other way efforts were made to escape.-One man who got into a loft fell through the plastering upon a woman and children who were in bed in the room below, and the excitement was increased by their screaming "murder." The total of our tures was 61, including Pat. Carroll, a noted dog fighter.

LFFECTS OF 10E WATER.

The steerage passengers by the Indiana which arrived this week, were tak a te the West Philadelphia depot for transportation to their distant destination.-The day being very hot, some of them initalized in drinking freely of ion water, and one, a Danish girl, 19 years of age, died in consequence of this imprudence, of any State is the country. There are and several others were seriously all. For in that State fewer persons under ten

vailed among them.

THE HOT SPELL This year has been remarkable in its weather statistics. The mouth of May was the chilliest, and June was the hottest month we have had for many a year. The thermumoter reached 95 degrees on the 9th justant, and much suffering was experienced by the brute creation, several horses falling dead in the streets. While other places have been visited with copious and refreshing showers, our city has not been favored by the clerk of the weather with any immediate relief, and the extreme and debilitating heat still continues with us.

THE PUBLIC BUILDINGS. On July 4th, the corner-stone of our new public buildings at Broad and Market streets will be laid with impressive ceremonies. Hon. Benj. Harris Brewster will deliver an oration on the occasion, and the ceremonies will be principally those of the Masonio Order. When will our people be informed that the cornerstone of the Centennial Buildings will be laid?

PINANCIAL.

A duliness somewhat resembling that which reigns during the middle of the heated period was observable to-day on Third street, and prices generally show a elight-weekness. Rumors, however, may be quoted active, and as they ware issued from both sides of the speculators, may be said to have equalized each other Among those most prominent was upe to the effect that the committee appointed by the late meeting of the stockholders of the Pennsylvania Bailroad Company to investigate the affairs of the company, appraise its properties, franchises, and leases, would make a report during the coming week. Perhaps nothing of more importance to the credit of the company named could occur at this time, as actual facts are sorely needed to restore the confidence which some time ago was lost in that stock. The intention on the part of the present managers to reorganize ite affairs and conduct the business on the most economical plans meets with the unqualified approval of the shareholders and if the committee is able to show a uniform system of improvements, together with valuable assets, for the large amounts expended by the company, the community will feel that its confidence in the road and its managers has not been misplaced.

There was rather more demand for money to-day, but the rates remain about the same as last quoted. Call loans rule at 4@5 per cent. Prime mercantile paper ranges at 5@6 per cent.

The Stock market was rather unsettled auting the part of the day. Gold is quoted at 111.

The markets generally have been dull during the past week, and prices of most of the leading articles are unsettled.

Truly thine, BROADBRIM.

BEING BORN. SOME PUBLICUE STATISTICS.

According to Protes-or Walker, Superintendent of the ninth consus, the children who are born blind are about equally divided in respect to sex; but as bore erow older the greater dungers to which they are exposed sense more of them to become blind than girls at the same ago. Mon's blindness comes from accident; women's from abuce. At about sixty the daugers in both soxes grow less. There are more males blind or deat and dump than females,

The announcement that the greater part of invently was among females was received with much merriment by the strener sex, but the tables were quickly turned when the Prolessor went on to say that idiocy was more common among the males than the femeles. This is to be explained from the fact that woman's pervous organisation is more easily unbalanced, while man's duller faculties tend word readily to idloor.

There are in Maine, and all the emigrating States, more fumeles than males, because the younger men all go West. New Hampshire has the lowest birth rate a short time the emigrants thought they years of age than between twenty and striution.

From Our Own Correspondents were possessed und great excitement pre-thirty. In Usak the birth rate is in mense. In Nevada by far the great proportion of the inhabitants are ma between twenty and forty years of age. This is also the case in California, and is accounted for by the large emigration of miners into those regions.

in the United States, of the matis population, 30 out of every 100 are under ten years of age, but of the foreign popelation this is true of 41 1-2 out of 100. Persons are least liable to die between the agos of ten and twenty. The prise of childhood are Last and the dangers incident to the labors of life have not begun-

CHANGE IN NEWSPAPPE POSTAGE. The House Post Office Committee trave agreed to report a bill providing that each all newspapers and periodical publications mailed from a known office of publication or news agency, and addressed to regular subscribers or news agents. postage shall be charged at the following rates:

"Newspaper and periodical publications.
saued weekly and niony frequently than once a week, one cent and a half, and on those issaed less irroughtly than once a week three cents for each pound or frac-tion thereol. On the receipts of such newspapers and periodical publications at the office of mailing, they are weighted in bulk, and the postage paid there spools atherive stamp. Newspapers
One copy to each actual anberriber residing within the sounty Where the same
are printed in whole at in pars and published go free through the mails, such shall not be delivered as the letter car-rier offices, or distributed by carriers, unless the postage is paid thereon as by law provided; and newspapers and magazines reciprocally interchanged between publishers, not exceeding sixteen ounces in weight, to be confined to a single copy of each publication, so through the mails. All mattable matter of the third class may weigh not exceeding four pounds for each package thereof, and pushing small be charged thereon at the rate of one cent for each two owners or fraction thereof; but nothing herein contained shall be held. to change or amoud section 134 of said. set. Affidavita are to be made by publishers or news result to secure their ad-berence to these provisions, for the vio-tation of which prosities are prescribed.

URANBERRY DISEASE, OR THE SCALIN. -Hou Samuel Dobbins recently called at the Agricultural Department, in company with the Rev. Mr. Brown, of Tranton, to represent to the Commissioner of Agriculture the presenty for an investigation of a new discuss which during the last two seasons has made great haves with the cranberry cultivation of this State. De Brown stated that a company ture of that fruit loss no less than \$1005-000 on the crop last, many, through the great has been the sugglegate loss in the State from the same dance as to create interest, which represents capital to that amount of more than one million dellars. may be utterly distroyed uplets some thing can be done to arrest, the progress. of the blighte. The microscopist of the Department, in the presence of the gentiones above samed, againsed a number of betries, and leabd a spoles of fungas growing chrough and through them, preorrating their cells, and filling their inter-cellular specce. But while this examina-tion determines in a general way the neture of the disease, its proper treitu can only be ascertained by a thorough investigation of the condition of the bush at various stages of their growth, as well as their judiuses of sail and atmospheric conditions in promoting or checking the epread of the fungur.

One of the most ismentable instances of political persecution is found in the case of Gen. O. D. Howard, whose public administration has recently been the publect of investigation. The trial resulted in his complete vindication, but now fallows what should bring the tolush of shame to his enemies. It is stated that he has been compelled to expend more than five housand dollars for attorney's free, &c., in defending himself from the charges recently brought against him, and to repay this money he is about to sell his house and furniture, the only property that he has in the world. When such perseention is practiced, what mockery are the professions of political opponents I blis been the object of their malies. Thet which was his decree transure, they have med age him the comfort and refinement of his own bone. Her been and ignoble the motive that prempted the arge against the majoud bero and Uhristian sentlumen. - Woodbury Chur

Season Song.

'Sweet love,' said I, "'tis the birth of the year,

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The snow is gone, and the roses are blowing;
Oh! say my hope may banish my love.

The widow may wor are bot like those of last wor are love.

The widow may wor are bot like those of last wor are love.

The widow may hope may banish my love.

Local Politics.

ing, anxiously, too, for something to turn

watching, waiting, thinking, in silence, and in grief, sometimes, at the political aspect, and how different do the same things appear to the different lookers-oa, which they make observations. To one the nation's political aspect is bright, working out a stupendously great, graud from the thraidom of ty anny and oppres- throw overboard the dishonest and 800 The practical repeal of the mojety law son in every form; a solving of the deep while the other can see nothing but ty ranny, oppression, wrong, corruption, fraud. deceit. and the abomination of desolation, sitting in high places, com is none good, -- no not one, from highest to lowest—and even the best are full of uncleanness. Thus the spirit of party everything that rises on the political horizon. But there are those among us who look without prejudice, and while they see much to blame, they see equally as much, if not more, to praise and admire. Perfection is attained by none, and perfeat legislation cannot be expected from imperfect men. Men, as noble, true and just as is possible, may do things with a pure motive, and yet their acts may have

a decidedly bad effect, Then at present, it is hard to tell what the political future may bring forth. Parties are divided, sections are at variance. sectional wants blind the eyes to all else, and there seems at times to be a great want of national patriotism. State rights, cr what is equally as dangerous to national prosperity, sectional rights, are demands should be heeded, but should they be paramount? That this sectional feeling has had much to do with the defeat of the Centennial bill in Congress, there can be no doubt. The sectional with State rights sentiments, led tae Bouth to rebellion, bringing innumerable evils upon themselves, besides death, suffering, and devastation, as well as placing a mill-stone on the neck of the nation in the shape of debt. Now the States of the South are mourning and greaning ever their self-induced troubles, for which Ahey blame Congress and the Republican party. South Carolina is but reaping her seward for her treachery and fratricidal doctrines, which were instilled into every shild born and bred in the State, from earliest life up, and she deserves but little madseas, which was stopped in its revo-Intion, and they were lett at the bottom. Why should they complain? They must facily they are being purished for the dameable crime of treason, and not trea-

Success Based Upon Merit. Success Based Upon Merit.

It is sethifed of general remark, among both wholesale and retail druggists, that no medicine introduced to the American public has ever gened such a popularity and met with so large a saie in all parts of the land, in the same langth of time, as Dr. Pierre's Golden Medical Discovery. This cannot depend upon its having been more largely advertised than any other medigine, as such is not the case. The correct explanation, we think, is found in the fact that this middidine produces the most wonderful and perfect curse of very had cases of bronchial. this medicine produces the most woulderful said
perfect cures of very had cases of bronchial,
throat and lung diseases, is undoubtedly the
most perfect and efficient remedy for all kinds
of coughs that has ever been introduced to the
public, and at the same time possesses the
greatest of blood-purifying and strengthening
properties that medical science has been able to
produce, thus rendering it a poverough remedy

THE GEORGI PLANO-FORTES. IMPENEWS REARDING THEM

The Georgi Piano-Fortes have taken the first premium over all competitors at the State Fair of West Virginia, in Kentucky, and at all other fairs and expositions where they have been exhibited.

Their durable build and refined expression of ton- causes them to be the favorite feetrument in seminaries of learning.

From Rev. L. VAN BOKKELEN, Rector of Jane Grey Seminary,

Mr. Monnis, N. Y. August 14th, 1873.

"I have planes of other celebrated unders in the Seminary, but the theory was selected and used at the concert as the best. It is preferred by teachers and pupils.

From Ray WAI F WADDICAN D.

From Rev. WM. F. MORRISON, Rectors of St. Luke's Church, Buffalo, N. Y.

"On leaving Iows, I was religiountly obliged to part with my Georgi Plane Forte. When
Leettled in Buffals one of my first cares was to provide my family with time of the same mann casture. It fully sustains the high reputation the Georgi instruments have in all parts of the

Mr. JOHN-ZUNDEL, Organist of Henry Ward Beecher's Church Brooklyn, says: "The Georgi has an exquisite action, and everything about it shows thorough werkman-ship and indicates dur. bility."

Bev. S. H. McCOLLESTER. President of Buchtel College, certifies:

"We have been using two of your planes the past year in our college, They have given steat satisfaction. We regard them superior instruments."

From the New York Independent:

"As tery were highly recommended to us, we bought one for our own use, and we find that they are worthy of all the praise they have received."

The above are only a few selections from letters continually arriving which proves The Georgi to be the Leading Piano of the day.

I guarantee entire satisfaction and never fail to give it. FOR CIRCULARS AND TERMS ADDRESS GEORGE A. GEORGI,

MEDICAL TRIUMPH

Dr. D. S. PERRY'S Vegetable Aromatic Bitters.

These Bitters must become the universal remedy of the age. There is nothing like them or equal to them un for the nun. They restore the weak, invigorate the feeble, and give new life and thus to the broken down system. In miasmatic and majarions districts they dre worth a ship load of quisine pewders and pills. They are especially adapted to persons suffer-

Dyspopula, Liver Complaints, Costlyeness, Hendach

Mouraigia, Ehrumatian, Chille, Pever and Piles.

TO DELICATE FEMALES.

Latiles, old or young, will find these hitters en-perially adapted to diseases peculiar to their ear. Reryourness Lacaltude, Want of Appe-tite, and General Debility, all yield to the marks charm of these inestimable litters.

Deliver of the same of HEAR WHAT IS SAID.

MEAR WHAT IS SAID.

CIAB WHAT IS SAID

Wonderful effects have resulted from your

"Wonderful effects have resulted from your Dr. Perry's Bitters."
"My chille are gone. I can hardly believe it."
"Sand 'me one case Perry's Bitters again. Nothing like than here."
"I enclose spidavit of my case. I had to do so loconvince you of the wonderm enre."
"Sately, they are the most delightful wine tonic in the world."

(Dr. Wilson says that you are a public bene-

factor." No more rhenmatique." " No more headached, thanks to you.

We could fill this paper twice over with just edob genulne extracts, but the above must suffice. Our Bitters are propared under the supervision of Dr. D. S. Perry, Member of the Royal College of Physicians and Burguens, London. Bugland, and of the Medical Clinic of Glasgew. All orders should be addressed to the

Perry Aromatic Bitter Co. MEW YORK, U. S.

These Bitters are seld either by. the bette or case at \$1 a Bettle.

Partial in sending letters for advice as to their disease, will confer quite a favor by giv-ing name of Ounty as well as Town where they mode. It will save us a wonderful smeame of time and anneyance if this with be charved, THE PART AROMATIC BITTER CO.
