The Cheapest
AND
The Best!
Life Insurance at Actual Cost
THE NATIONAL LIFE INSURANCE COMPANY OF CHICAGO, invites the attention of those contemplating insuring their lives to its Mutual or Reciprocal PLAN, which enables even the poorest man to provide for his family in case of death, without paying a team of the necessities of life, as do any who endeavor to pay the high premiums of old life companies, who charge for Annual Death Losses Which Never Occur, and add a heavy loading for extravagant expenses. On this plan you only pay for the cash actually experienced, and as they occur, with a small fixed sum for expenses. Call on the agent for circular fully explaining this system.
The Practical Results!
Since its organization, in 1870, the NATIONAL has paid in death losses \$57,704, at a cost to the insured of \$791.90 in premiums. Old Life companies would have paid, for the same premiums \$21,221, showing a gain by insuring in a NATIONAL of over \$36,480.
The Capital and Securities of this Company are sufficient to comply with the Insurance laws of any State in the Union.

IF I COULD KEEP HER SO.
Just a little baby, lying in my arms—
Would that I could keep you with your baby charms,
Helpless, clinging fingers, downy, golden hair,
Where the sunshine lingers, caught from other where;
Blue eyes asking questions, lips that cannot speak,
Roly-poly shoulders, dimple on your cheek;
Dainty little blossom in a world of woo,
Thus I fail would keep you, for I love you so.
Roguish little dame, scarcely six years old—
Feet that never weary, hair of deeper gold;
Restless, busy fingers, all the time at play,
Tongue that never ceases talking all the day;
Blue eyes learning wonders of the world about
Here you come to tell them—what an eager shout!
Winsome little damsel, all the neighbors know;
Thus I long to keep you, for I love you so.
Sober little school girl, with your strap of books,
And such grave importance in your puzzle looks;
Solving weary problem, poring over sums,
Yet with tooth for sponge cake and for sugar-plums;
Reading books of romance in your bed at night,
Waking up to study with the morning light;
Anxious as to ribbons, de't to tie a bow,
Full of contradictions—I would keep you so.
Sweet and thoughtful maiden, sitting by my side,
All the world's before you, and the world is wide;
Hearts are there for winning, hearts are there to break,
Has your own, shy maiden, just began to wake?
Is that rose of dawn, glowing on your cheek,
Telling us in blushes what you will not speak?
Shy and tender maiden, I would fain forgoe
All the golden future, just to keep you so.
Ah! the listening angels saw that she was fair;
Ripe for rarer unfolding in the upper air;
Now the rose of dawn turns to lily white,
And the closed shut; eyelids veil the eyes from sight,
All the past I summon as I kiss her brow—
Dad and child and maiden, all are with me now.
Oh! my heart is breaking; but God's love I know—
Safe among the Angels, He will keep her so.
Mrs. Moulton in Independent.

From Our Own Correspondent.
PHILADELPHIA, Aug. 15.

After several weeks of pleasant weather, the thermometer has again gone up among the nineties, and our citizens experience much discomfort from the intense heat. Each departing train and boat carries away with them sweltering masses of humanity, who go to join the thousands who are rusticated in the mountains and valleys.

THE ZOOLOGICAL GARDEN
in our Park has, since it opened, received a number of consignments of animals from different parts of the world. Six giraffes were recently added to the collection. These animals were captured in the interior of Africa, by a band of hunters, composed of one hundred men, who take a specialty of securing these animals. The giraffes arrived in good condition, and average from six to twelve feet in height. They are from one to two years of age, and cost \$3,000.

The success of the Zoological Garden has exceeded the expectation of its most sanguine projectors. Over fifty thousand persons visited it last month, and the Society contemplate making extensive improvements at an early day.

THE CHILDREN'S FREE EXCURSIONS are still being carried on, and are productive of much good. On Wednesday last, the largest excursion of the season took place. No less than 1438 persons, including 100 babies, went out to Rockland and spent the day. As on previous occasions there was a band of music, which played frequently during the day, and appreciative audiences were delighted by three "Punch and Judy" performances. A larger amount of refreshments were issued than at any of the other excursions, the report showing the issue to have been as follows: 1525 buttered buns, 1525 sandwiches, 175 pounds of sponge cake, 240 pounds of ginger cake, 250 quarts of ice cream, 1525 bags of nicknacks, and a large quantity of milk.

THE PRESBYTERIAN HOSPITAL has taken a "new departure" in the construction of hospital buildings. It was found, during the war, that patients who

were under the surgeon's care, were much more likely to recover when treated in a hospital tent, than when treated in an enclosed building. Their recovery was attributed, in a great degree, to their having perfect ventilation, and the patients not being crowded together. The trustees of the Presbyterian Hospital are building a one-story pavilion ward upon their grounds. They have contracted for a building which will accommodate from 28 to 32 beds, giving to each bed 1500 cubic feet of space, with a window on one side. The building will be of brick, 143 feet in length, and with the first floor five feet above the ground. There are at present about fifty patients in the hospital.

This hospital, although carried on by the Presbyterian denomination, is open for the reception of patients of any race, creed or color, from any portion of the State.

THE JEFFERSON MEDICAL COLLEGE has been neatly fitted up and repaired, preparatory to the opening of the Fall session, which commences on the 7th of September. The dissecting room has also received a number of improvements. In consequence of the recent election of Dr. William Pancoast to the chair of anatomy this department of instruction will devolve upon Dr. Thos. H. Andrews.

The University of Pennsylvania (Medical Department) has completed the erection of their new buildings in West Philadelphia, which are imposing structures, and are quite an ornament to that portion of our city. Preparations are being made for a large class of students, and the indications thus far are very favorable in that direction.

BASE BALL IN ENGLAND.

The Athletic and Boston base ball clubs have created quite an excitement in England among the sporting classes. Base ball, although much played in this country, is little known in Europe, and the game being a novelty, has drawn large crowds. The Englishmen, very generously, have given the visiting clubs all the game money which has been received, and there is no doubt our clubs will find their visit a paying one. The London newspapers speak very highly of our players, and take great interest in the matches which they are playing. The Athletics will return home about Sept. 1st.

CENTENNIAL NOTES.

The Centennial Committee of the Independent Order of Good Will have approved of a design for a monument to be executed in Rome, by Mr. Ezkiel, a young American sculptor, of Cincinnati, and unveiled in Fairmount Park during the Centennial celebration, and afterwards removed to Washington, to be placed in the Capitol grounds, as a free will offering of the Israelites of America to the cause of liberty and religious freedom.

Information has been received that an exhibition is to be held in Algiers, opening November, 1875, and closing in February, 1876. The general interest felt throughout the world in the Centennial is shown by the fact that the programme of the Algerian Exhibition states that a special committee has been appointed to make a selection of the best articles on exhibition and to arrange for their transmission to Philadelphia in season for the opening of the International Exhibition.

The Government of Brazil have appointed a commission to give direction to a preparatory movement in the empire towards a proper representation in the U. States Centennial.

Among the applications for space received by the Secretary of the Commission, is one from the Aberdeen Granite Company, of Aberdeen, Scotland.

The work of construction at the Centennial grounds is progressing rapidly, and the number of men employed is being gradually increased.

Proposals were invited for furnishing the wrought-iron beams needed in erecting Memorial Hall. Beams of foreign make were offered, at one half the price of American beams, but preference was given to our home made iron, as it is intended that the Centennial buildings shall be constructed of American material.

Truly thine, BROADBURN.

Philadelphia has the largest shovel factory in America.

GENERAL NEWS.

Postmaster General Jewell arrived in New York on Thursday morning.

A tunnel under the Niagara river near Buffalo is being talked of.

The new Constitution, submitted to the people of Ohio, has been defeated by a majority of at least 20,000.

The New Jersey Republican State Convention, meets on Thursday of next week at Trenton.

Our Convention will be held this P. M. at Egg Harbor City, to elect delegates to the State and Congressional Convention.

The employees of the West Jersey Railroad were on Sunday last tendered a free excursion to Cape May, by Gen. Sewell. A large number embraced the opportunity to visit the shore. Just like him.

THE END NOT YET.—Tilton has sued Beecher. Tilton has retained as Counsel Morris and Pearsall, Mr. Beecher has retained as Counsel Shearman and Sterling, who have requested the immediate service of papers upon them. It seems a pity that the Almighty has changed his method of administering justice on earth, from the mode of ancient times, when He rained fire and brimstone upon Sodom and Gomorah which from accounts were not half as wicked as the City of Churches or its foster mother, New York. May be He thinks justice impossible, or maybe He is waiting for the ten righteous ones to turn up.

The Boston Advertiser, in a brief resume of the market of that city for the past week, says:—"Business generally is gradually improving, and while a conservative policy is pursued by purchasers, and there is little disposition to anticipate the future, the volume of trade is quite equal to that of former seasons. The low price of flour seems to have attracted the attention of buyers, and the sales for the past few days have visibly increased. Wool continues fairly active, and the sales of foreign and domestic foot up to 2,000,000 pounds. Prices are well sustained, and all grades are firm. The market for hides continues firm, and no domestic prices have improved slightly. Leather is in steady request, but the prices obtained for the common grades are not satisfactory to the tanners. The movements of boots and shoes indicate a heavy business, and the sales of men's boots have been unusually large. There is some complaint that prices are not leaving much of a margin for profit, but as a whole, this branch of trade has been quite as large as was anticipated. In dry goods there is some improvement, and the market is gradually assuming a more active appearance. The clothing trade are receiving more orders, and there are indications of increased activity."

There is much in an artistic way in the August Atlantic which will delight all lovers of the beautiful. Nothing more graceful or charming has ever been seen in an American magazine, than the full page picture called "The Village Beauty," drawn and engraved by the eminent French artist, C. Mettall. The flowers and shrubbery by which she is surrounded, the naturalness of the drapery in which she is clothed, the rustic path she treads, the spontaneous expression of her face, all combine to make a rare and lovely picture. This work has been engraved in a delicate and exquisite style, resembling bank-note engravings. Mr. J. D. Woodward contributes a series of grand and bold pictures of the Falls of the Hudson, some of the most striking scenery in America. The full page picture of the "Falls of the Palisades" is massive and solid in appearance, and will give the reader a new idea of these great works of nature. Two large pictures, contributed by Peter Moran, called "The Shady Lane" and "The Hazy Slope," are so arranged to attract attention and please the eye, since they represent pastoral scenes with which all Americans are familiar. The cattle and sheep in the woods, or seeking the brookside for water, are true to life, and full of the spirit of summer time. A picture, full page, remarkable for its light and shade, its rich foliage, and deep, clear waters, is from the pencil of Kruseman van Elton, and is a view on Esopus Creek, near Kingston, N. Y. The other illustration in this number consists of three fine views of Westminster Abbey, a portrait of Augustus Daly and "The Brook-fair," by Epp, a German artist. The literary contents of the August Atlantic consist of seventeen articles, all original, and all replete with interest. Joseph Watson writes of "William Hogarth," Fanny Roger Fenwick has an article on "White Elephants," Eugene Fox relates an interesting incident in the life of Ludwig van Beethoven; Mrs. M. E. W. Sherwood has a story called "My Only Ghost," J. C. Stockbridge has an essay called "Memories of Fleet," and Mrs. E. W. Winthrop, sister of the lamented Theodore Winthrop, has an article on "American English and English." Dr. Fuller-Walker has a second article on Westminster Abbey. The poems and numerous editorial articles in the August Atlantic are of the usual merit and interest. Subscription price, \$5, including chromos "The East" and "The West," James H. Ton & Co., publishers, No 55 Madison Lane, New York City.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and a small dark spot near the top center. The right edge of the page is bordered by a dark, possibly black, binding strip. There is no text or other markings on the page.

[illegible][illegible][illegible]

A blank, lined page from a notebook. The page features horizontal ruling lines and a vertical margin line on the right side. The paper is heavily stained and discolored, particularly along the right edge where there is a large, dark, irregular mark. The overall appearance is that of an old, worn document.

Notice
TO ALL CONCERNED.

After the 20th of June, 1874,
our terms will be CASH.

Ten years of experience has fully satisfied us
that the credit system is injurious to all parties
involved. We now reduce everything to a cash
basis, and propose to buy and sell for cash or
exchange, thus avoiding all loss in bad debts
and saving all discounts in buying. We feel
confident that by so doing we can give our cus-
tomers as good goods at less prices than for-
merly. Our stock is large, larger than usual
—and our prices will be made on a cash basis.
Any reasonable quantity of goods will be de-
livered. Firewood, both of oak and pine, four
feet or seven length, delivered anywhere within
the limits of the station without extra charge.
Thankful for past patronage we solicit a con-
tinuance of the same in the future.

WATERS' CONCERTO ORGANS

WATERS' Philharmonic, Vesper
and Orchestral ORGANS
are the best made, and combine PURITY
of tone, and great volume of sound.
Suitable for PARLOR, CHURCH, or
MUSIC HALL.

Waters' New Scale Pianos
have great power and a fine singing
tone, with all modern improvements,
and are the BEST PIANOS MADE. These
Organs and Pianos are warranted for 6
years. PRICES EXTREMELY LOW, and
cash or quarterly payments. Second-
hand instruments taken in exchange.
AGENTS WANTED in every County in
the U. S. and Canada. A liberal dis-
count to Teachers, Ministers, School Agents,
etc. ILLUSTRATED CATALOGUES MAILED
ON REQUEST. ADDRESS: WATERS & SON,
481 Broadway, New York, P. O. Box 3567.

TESTIMONIALS OF WATERS' PIANOS
AND ORGANS.

"Waters' Concerto Parlor Organ possesses a
beautiful and peculiarly soft tone. The Con-
certo Stop is, without doubt, the best ever placed
in any organ. It is produced by an extra set of
reeds, peculiarly voiced, from which the effect
is most charming, and its imitation of the hu-
man voice is superb. For sweetness of tone and
orchestral effects it has no equal."—N. Y. Times

"The Concerto Parlor Organ is something
entirely new: it is a beautiful and useful orna-
ment to a parlor, and a most valuable in-
strument in every organ. It is a most com-
mendable invention, and holds a high place
in public favor."—N. Y. Evening Post.

"An Orchestral Organ in the Parlor.—The orche-
stral organ is the most of a new and re-
cently introduced by Horace Waters & Son.
The instrument takes the name from its recent
invented orchestral stop. The effect of
this is peculiar, producing the effect of a full,
sweet orchestra. Its effect is pro-
duced when the stops are drawn. Then the full
chords are toned down, so that an orchestral
effect is given. The case is unique and makes
a handsome article of furniture."—N. Y. Times

3:30 A. M.

A MEDICAL TRIUMPH!

Dr. D. S. PERRY'S

Vegetable Aromatic

Bitters.

These Bitters must become the universal
remedy of the age. There is nothing like them
or equal to them under the sun. They restore
the weak, invigorate the feeble, and give new
life and tone to the broken-down system. In
malarial and malarious districts they are
worth a ship load of quinine powders and pills.
They are especially adapted to persons suffer-
ing from

Dyspepsia, Liver Complaints,
Costiveness, Headach,

Neuralgia, Rheumatism,
Chills, Fever and Piles.

TO DELICATE FEMALES.

Ladies, old or young, will find these bitters es-
pecially adapted to diseases peculiar to their
sex. Nervousness, Lassitude, Want of Appetite,
and General Debility, all yield to the magic
charm of these invincible Bitters.

HEAR WHAT IS SAID.

HEAR WHAT IS SAID.

HEAR WHAT IS SAID.

"Wonderful effects have resulted from your
Dr. Perry's Bitters."

"My child is gone. I can happily believe it."

"Send me one case Perry's Bitters again.
Nothing like them here."

"I enclose a list of my cases. I had to do
so long as you are the most delightful wine
taste in the world."

"Dr. Wilson says that you are a public bene-
factor."

"Hush! No more rheumatism."

"No more headaches, thanks to you."

We could fill this paper twice over with just
such glowing extracts, but the above must suf-
fice. Our Bitters are prepared under the super-
vision of Dr. D. S. Perry, Member of the Royal
College of Physicians and Surgeons, London,
England, and of the Medical Clinic of Glasgow.

All orders should be addressed to the
Perry Aromatic Bitter Co.,
NEW YORK, U. S.

These Bitters are sold either by
the bottle or case at \$1 a Bottle.

Parties in sending letters for advice as to
their diseases, will counter quite a favor by
giving name of City as well as Town where
they reside. It will save us a wonderful amount
of time and annoyance if this will be observed.

THE PERRY AROMATIC BITTER CO.

Prof. H. J. Doucet, M. D.

TREATS DISEASES OF THE LUNGS, AND
ALL CHRONIC AFFECTIONS.

THE GEORGI PIANO-FORTES.

LATE NEWS REGARDING THEM.

The Georgi Piano-Fortes have taken the first premium over all
competitors at the State Fair of West Virginia, in Ken-
tucky, and at all other fairs and expositions
where they have been exhibited.
