

The Hammonton Item.

DEVOTED TO THE INTERESTS OF HAMMONTON AND MAKING MONEY.

VOL II.--NO. 49.

HAMMONTON, N. J., SATURDAY, DECEMBER 20, 1873

\$2.00 PER YEAR

Our Washington Letter.

WASHINGTON, D. C., Dec. 12, 1873.

Senator Ferry, of Michigan, made a speech in offering resolutions on reform in our finances that has made an excellent impression. It has just been issued in pamphlet form for general circulation. He proposes in lieu of National Bank notes to extend the limit of a U. States currency circulation to \$800,000,000, and to make it convertible on demand into new Government bonds bearing 3-65 per cent. per annum, to be known as currency bonds. The volume of current circulation not to be diminished while making the change, and the bonds securing the present national currency to be adjusted with the banks by purchase or surrender. The forty-four millions of Treasury reserve to be issued in the purchase of bonds bearing the higher rates of interest, and as fast as possible like bonds to be purchased with U. S. currency up to the maximum of circulation. Also due notice of a given time for redemption of the fractional currency in silver, beginning with denominations of 25 cents and under. The resolutions were referred to the Committee on Finance, of which Mr. Ferry is a member. The plan appears to be practicable as well as comprehensive.

Captain A. A. Fongar, late of the Revenue Cutter Service, has just been bidding his friends of this city good-bye. He has resigned the command of a revenue cutter, and accepted an election by the Philadelphia Steamship Company to command the Illinois, one of four splendid steamers on the new American line running between Philadelphia and Liverpool. They are all elegant and swift steamships of 3,000 tons burthen, and named respectively the Pennsylvania, Ohio, Indiana, and Illinois. Captain F. will sail on the 10th of January, with the good wishes of many friends.

The House Committee on Appropriations yesterday agreed to give four millions, instead of the five asked for by Secretary Robeson, for the immediate use of the Navy Department.

The Committee on the District of Columbia is organized, and already has its hands well filled with work. Gov. Shepherd and Vice President Willard of the Board of Public Works were before the Committee to-day presenting the claims of the District improvements to its consideration. Liberal appropriations ought to be made for the finishing of comprehensive improvements of both a useful and ornamental character. The national benefit derived cannot fail to commend them to the favor of the Committee.

The speech of Mr. Stephens, of Georgia, in the House to-day was the sensation of the hour. Feeble as he is, and requiring to be supported while walking on a crutch, and wearing a velvet cap on his head while at his desk, to avoid cold from drafts, he is still a power, though a lesser one than in former days. A journalist himself of no mean prominence, he bitterly denounced the present errors of the press in proclaiming universal corruption among public men. Especially severe was he on the press for using vituperative language instead of argument on the salary question. He boldly announced that if he had been a member of the last Congress, whether he voted for the bill increasing Congressmen's pay or not, he would have drawn the back pay. Members had a perfect constitutional and moral right to vote for and receive back pay. They ought to have mental calibre, intellect, education and training to command the highest wages.

The West Virginia contested seats were considered to-day in the House. Mr. Davis, of the First District, occupied the morning hour in making an exhaustive argument, which it will be difficult, if not impossible for Mr. Wilson, his opponent, to combat. Mr. Wilson failed to beat Mr. Davis at the regular election, Mr. Wilson is shown to have taken another chance when there was no proper call, no general election, and very few votes polled.

Captain General Jewell issued an address last evening to the people of Cuba that it was his duty to deliver and theirs to submit quietly to the surrender of the Virginias and her living captives to the U. S. Government, under the penalty of a

war with that Government, unaided by Spain—final orders to that effect being received by him from Madrid.

Private advices from Cuba show that all the fortifications of the harbor of Havana are undergoing thorough repairs—the work going on day and night, and the press of the Island continues as defiant as ever. Americans are threatened and are preparing to leave the Island. Our preparations for war may yet be needed to give Cuba a lesson that she deserves, if the apparent submission is intended only as a deception to gain time.

The Colored National Equal Rights Convention now in session here have had thus far rather a stormy time of it. Considering that equal rights is the theme it is thought that there was rather too much selfishness manifested by many of the delegates in claiming priority and prominence on committees, &c. Senator Sumner declined to address the Convention for the reason that he could better aid the cause of equality by looking after his Supplemental Civil Rights bill. His reply to the committee, after much correction, appeared to be regardless of the rules of grammar. Now that a bill securing general amnesty has passed a Republican Congress, the Liberal Republican Committee have just passed a resolution taking credit to themselves and to Horace Greeley as their leader for the passage of this measure. Mr. Greeley as a Republican leader advocated the measure, together with President Grant and many prominent Republicans, long before Liberal Sorehead Republicanism had any existence. Senator Patterson of South Carolina, who was charged with using money to procure his election to the Senate, has been acquitted of the charge—the witnesses against him admitting that the purpose in bringing the charge was to extort money from him. W. B. Jones was promptly arrested for perjury. I have just received the advance proof sheets of the report of the Chief of the Bureau of Statistics now in press. They contain voluminous figures, giving a full exhibit of the trade of the United States with the principal foreign countries during the past fiscal year. The following totals given in specie value are all that I have room for, viz: Imports, \$663,617,147. Domestic Exports, \$649,132,563. Foreign Exports, \$28,149,511. Most of our citizens are shocked by the result of the trial of Bazaine, a Marshal of the empire of France. The sentence of disgrace and death is thought to be caused by intrigue, and the commutation of the punishment to twenty years' banishment, just reported, it true, is itself a severe sentence upon one who has for almost half a century performed brilliant military service to his country. LIFE. THE STATE CROPS. —The report of the Department of Agriculture for the past year shows that New Jersey is hardly up to her average this time, owing mainly to the drought. The corn crop was hurt by the dry weather in Sussex, Mercer and Warren counties. In Atlantic, Gloucester, Burlington, Union, and Hudson it was mainly good and abundant. Potatoes were unusually good in Atlantic county and also in Burlington, in which latter county it is reported that the Early Rose and Peach Blow varieties did extraordinarily well. Union and Hudson county did poorly. Mercer suffered by rot and drought. The hay crop was good in Hunterdon and Sussex, and bad in the rest of the State generally. Atlantic reports that salt hay and black grass are the main dependance. Cumberland and Gloucester make but half the average. The latter, however, and Burlington had a heavy Fall crop. Hudson was injured by the drought. In buckwheat the only report is from Warren county, which is a good average crop. In fruit Hudson reports that the grapes are injured by drought, apples hardly a half crop; pears are more abundant than usual; the late varieties being the best. Gloucester complains that fruit does not keep well. Warren reports apples short. The other counties do not report.

GENERAL NEWS.

Extensive prairie fires have been doing much damage to property in Kansas and Dakota.

The U. S. steamer Powhatan, with the monitor Manhattan in tow, passed Hesperia a few days since, on her way south.

Vice President Wilson left Washington on Wednesday for his home in Massachusetts, from whence he will go to Florida for several weeks' recreation.

One hundred and twenty-five men left New York on Wednesday for Boston, to go on the U. S. ship Ohio. One hundred and fifty recruits are expected at the Brooklyn Navy Yard from New Orleans.

Attorney General Williams has ordered proceedings against the Mobile and Ohio Railroad for duties paid the Confederate Government during the war to be suspended, and if a suit is brought it will be dismissed.

In his annual message to the California Legislature, Governor Booth favors a revision of our treaty with China, to restrict Chinese immigration. He also recommends legislation to enforce a system of uniform freight and passenger rates on the State railroads.

The Board of Apportionment of New York City, on Saturday, appropriated \$795,000 for distribution among the various hospitals, asylums and charitable institutions of that city, to supply food, shelter, clothing and medical attendance to the poor.

A young lady of Brooklyn was recently struck, with the uselessness of her life, and immediately went to work with a vigor to learn plain sewing. At latest date she had hemmed one side of a towel, which the proud parents have framed and hung in a conspicuous position in their parlors.

Nobody will be sorry to hear that the Florida orange crop promises to be unusually good this year. There is no orange better than that of Florida in flavor and general excellence and they are fresher in market than the Havanas. May they be plenty enough to bring lower prices than in years before.

At Lawrence, Mass., the Atlantic Cotton Mills, which have been running only part of their machinery four days in the week, resumed full operations on Monday. The Washington Wollen Mill has resumed on large Government orders for navy cloth. At Lowell, the Appleton Company resumed on full time, with full wages, on Monday.

The 16th was the day fixed for the electors of Pennsylvania to vote on the new Constitution. We have not taken the time to read it, but the comments, pro and con, have led us to conclude that it has many commendable and some objectionable features. But whether it is not better to submit to the objectionable features for the sake of obtaining needed reforms which it insures, is a serious question. But it has been adopted or sustained by a large majority of the voters of the State, and whether good, bad, or indifferent, it must be submitted to. It cannot make matters any worse, and it remains to be seen how much better the united wisdom of the great Commonwealth have made this new Constitution than was the old one.

The remarkable work of turning the first sod of the first railway in Persia has been accomplished at Keshd, a town the capital of the province of Ghilan, on the shore of the Caspian. Few nations have experienced so many remarkable changes as Persia, but this event is the most significant and hopeful of any which is told of in this history of her national career from its very first point of inception to the time of Cyrus the Great, and thence to the occasion of the Shah's visit to the outside nations.

Cuba is a little larger than New York, and has about 1,333,000 population, of whom 333,000 are slaves. The island is 600 miles long and 132 miles wide at the widest point. It lies 130 miles off Florida. The richness of the island is its sugar crop. It has an annual export trade of seventy or eighty millions, and has been literally run down, by the husbandry of Spain. The mother country has never regarded her as other than a common scullion, daily flogged to earn revenue for the Madrid treasury. The present civil war has cost \$150,000,000 and 80,000 lives in five years. No one doubts the misery of Cuba, but it is hardly more miserable than Spain.

Prospectus for 1874--7th Year.

THE ALDINE.

An Illustrated Monthly Journal, universally admitted to be the Handicraft Periodical in the World. A Representative and Champion of American Taste.

Not for Sale in Book or News Stores.

THE ALDINE, which issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and graceful literature, and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of the Aldine will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, the Aldine is a unique and original conception, alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then there are the chromos, besides.

ART DEPARTMENT--1874.

The illustrations of the Aldine have won a world wide reputation, and in the art centres of Europe it is an admitted fact that its woodcuts are examples of the highest perfection ever attained. The common prejudice in favor of "steel plates," is rapidly yielding to a more educated and discriminating taste, which recognizes the advantages of superior artistic quality with greater facility of production. The woodcuts of the Aldine possess all the delicacy and elaborate finish of the most costly steel plate, while they afford a better rendering of the artist's original.

To fully realize the wonderful work which the Aldine is doing for the cause of art culture in America, it is only necessary to consider the cost to the people of any other decent representation of the productions of great painters. In addition to designs by the members of the National Academy and other noted American artists, the Aldine will reproduce examples of the best foreign masters, selected with a view to the highest artistic success and greatest general interest. Thus the subscriber to the Aldine will, at a trifling cost, enjoy in his own home the pleasures and refining influences of true art.

The quarterly tinted plates for 1874 will be by Thos. Moran and J. D. Woodward.

The Christmas issue for 1874 will contain special designs appropriate to the season, by our best artists, and will surpass in attractions any of its predecessors.

Premium for 1874.

Every subscriber to the Aldine for the year 1874 will receive a pair of chromos. The original pictures were painted in oil for the publishers of the Aldine, by Thomas Moran, whose great Colorado picture was purchased by Congress for ten thousand dollars. The subjects were chosen to represent "The East" and "The West." One was a view in the White Mountains, New Hampshire; the other gives the cliffs of Green River, Wyoming Territory. The difference in the nature of the scenes themselves is a pleasing contrast, and affords a good display of the artist's scope and coloring. The chromos are each worked from thirty distinct plates, and are in size (12x16) and appearance exact fac-similes of the originals. The presentation of a worthy example of America's greatest landscape painter to the subscribers of the Aldine was a bold but a peculiarly happy idea, and its successful realization is attested by the following testimonial, over the signature of Mr. Moran himself.

NEWARK, N. J., Sept. 20th, 1873.

Messrs. James Sutton & Co.—Gentlemen:

I am delighted with the proofs in colors of your chromos. They are wonderfully successful representations by mechanical process of the original paintings.

Very respectfully,
THOS. MORAN.

These chromos are in every sense American. They are by an original American process, with material of American manufacture, from designs of American scenery by an American painter, and presented to subscribers to the first successful American Art Journal. If no better because of all this, they will certainly possess an interest not foreign production can inspire, and neither are they any the worse if by reason of peculiar facilities of production they cost the publishers only a trifle, while equal in every respect to other chromos that are sold singly for double the subscription price of the Aldine. Persons of taste will prize these pictures for themselves—not for the price they did or did not cost, and will appreciate the enterprise that renders their production possible.

If any subscriber should indicate a preference for a figure subject, the publishers will send "Thoughts of Home," a new and beautiful chromo, 14x20 inches, representing a little Italian exile whose speaking eyes betray the longings of his heart.

TERMS.

\$5 per annum, in advance, with all Chromos free. For 50 cents extra, the chromos will be sent, mounted, varnished, and prepaid by mail.

The ALDINE will, hereafter, be obtainable only by subscription. There will be no reduced or club rate; cash for subscriptions must be sent to the publishers direct, or handed to the local canvasser, without responsibility to the publishers, except in cases where the certificate is given, bearing the fac-simile signature of James Sutton & Co.

CANVASSERS WANTED.

Any person wishing to act permanently as a local canvasser will receive full and prompt information by applying to

JAMES SUTTON & CO.,
42 Publishers, 55 Maiden Lane, N. Y.

THE NEW YORK TIMES.

DAILY, SEMI-WEEKLY, AND WEEKLY.

THE NEW YORK WEEKLY TIMES

IS THE
Only Republican Journal
IN THE CITY OF NEW-YORK.

The high character which the Daily Times has borne in the past is a sufficient guarantee for its conduct in the future. It will continue to advocate the cause of the public, without reference to the interests of individuals. No expense will be spared in the maintenance of its position as the foremost of American Journals. It is the best daily family newspaper in the country. It has the latest news, the best foreign correspondence, and the largest staff of home correspondents. All objectionable news and advertisements are rigidly excluded.

TERMS TO MAIL SUBSCRIBERS.

The Daily Times per annum, including the Sunday edition..... \$12
The Daily Times per annum, exclusive of the Sunday edition..... 10
The Sunday edition per annum..... 2

The Semi-Weekly Times.

The Semi-Weekly Times contains a very successful epitome of our foreign and home correspondence; an interesting selection of current literature from the best foreign and domestic magazines; a choice variety of agricultural matter and the very latest news up to the hour of going to press. Terms—\$3 per annum. Club rates—Two copies, one year, \$5; Ten copies, one year, \$25, and one extra copy free. New names may be added to clubs at any time during the year at club rates.

The Weekly Times.

The Weekly Times is undoubtedly the best paper for the farmer, for the mechanic, and for all who live in localities which are served only by weekly mails. It contains, in addition to editorial comments on current topics, an excellent condensation of the news of the week; the most important events, both home and foreign, are reviewed at length, and a large quantity of matter is given especially interesting to the farmer and mechanic. Its market reports are the fullest and most accurate in the country. Terms—\$2 per annum.

Club rates of the Weekly—all to one Post Office address—Five copies per annum, \$7 50; Ten copies per annum, \$12 50; Twenty copies per annum, \$22; Thirty copies per annum, \$30, and one extra copy to each club. For every club of fifty, one copy of the Semi-Weekly Times to the getter-up of the club.

When the names of subscribers are required to be written upon each paper of the club at one Post Office address, ten cents for each copy additional to the above rates.

The Semi-Weekly and Weekly mailed for one year to clergymen at the lowest rates.

These prices are invariable. Remit in drafts on New York or Post Office Money orders, if possible, and where neither of these can be procured send the money in a registered letter. Terms—cash in advance.

THE NEW YORK TIMES,
New York City.

THE SUN.

WEEKLY, SEMI-WEEKLY, AND DAILY.

THE WEEKLY SUN is too widely known to require any extended recommendation; but the reasons which have already given it fifty thousand subscribers, and which will, we hope, give it many thousands more, are briefly as follows:

It is a first-rate newspaper. All the news of the day will be found in it, condensed when unimportant, at full length when of moment, and always presented in a clear, intelligible and interesting manner.

It is a first-rate family paper, full of entertaining and instructive reading of every kind, but containing nothing that can offend the most delicate and scrupulous taste.

It is a first-rate story paper. The best tales and romances of current literature are carefully selected and legibly printed in its pages.

It is a first-rate agricultural paper. The most fresh and instructive articles on agricultural topics regularly appear in this department.

It is an independent political paper, belonging to no party and wearing no collar. It fights for principle and for the election of best men to office. It especially devotes its energies to the exposure of the great corruptions that now weaken and disgrace our country, and threaten to undermine republican institutions altogether. It has no fear of knaves and asks no favors from their supporters.

It reports the fashions for the ladies and the markets for the men, especially the cattle markets, to which it pays particular attention.

Finally, it is the cheapest paper published. One dollar a year will secure it for any subscriber. It is not necessary to get up a club in order to have the Weekly Sun at this rate. Any one who sends a single dollar will get the paper for a year.

We have no traveling agents.

THE WEEKLY SUN.—Eight pages, fifty-six columns. Only \$1 00 a year. No discount from this rate.

THE SEMI-WEEKLY SUN.—Same size as the Daily Sun. \$2 00 a year. A discount of 20 per cent. to clubs of ten or over.

THE DAILY SUN.—A large, four-page newspaper of twenty-eight columns. Daily circulation over 120,000. All the news for two cents. Subscription price 60 cents a month, or \$6 00 a year. To clubs of ten or over, a discount of 20 per cent.
