HO!

FOR THE

"Old Reliable!"

There is reliable information that the

Bank of England will soon issue \$1

notes redeemable in silver. The notes,

which are already being printed, will be

put in circulation as soon as Parliament

passes the necessary bill which the govern-

ment will promote.

Ex-Governor Abbott was on Tuesday

inaugurated as governor, the attending

ceremonies being of a brilliant character.

In his inaugural address Governor

Abbott advocated at some length the

Australian system of voting, and out-

lined what a ballot reform law should

contain, the essential features being

universal registration, official ballots,

and secret compartments for the voter.

The king may be dead and all that

sort of thing, but the New Jersey Dem-

ocrats continue to shout "Long live

Leon Abbott!"

At Johnston, Pa., the decrease in

taxable property owing to the flood is

\$700,000. This is exclusive of the pri-

vate losses of corporations.

When Baby was sick, we gave her Castoria,

When she was a Child, she cried for Castoria,

When she became Miss, she clung to Castoria,

When she had Children, she gave them Castoria.

A Sound Legal Opinion.

E. B. Hilditch, Esq., County

Attorney, Clay Co., Texas, says: "Have

just read Electric Bitters with most happy

results. My brother also was very low

with unalleviated fever and jaundice, but was

cured by the timely use of this medicine.

As a matter of fact, Electric Bitters saved

his life."

Mr. D. I. Wilkinson, of Horse Cave, Ky.,

adds a like testimony, saying: "The posi-

tively believe he would have died had it

not been for Electric Bitters."

This great remedy will ward off, as well

HAMMONTON ATLANTIC CO. N. J.

SATURDAY, FEB. 1, 1890.

Mrs. Mary D. Loom, mother of Mrs. Heczekiah Buzby, is 81 years old, a pensioner born in Massachusetts, N. J. She has reared eight children, all of whom have preceded her to the other world except Mrs. B. Like many old ladies, she is a persistent knitter, having completed several pairs of stockings this winter, besides doing a share of general housework.

WHAT IS MENTAL SCIENCE?

Perhaps no better short explanation can be given than that it is the Science of Man and God, an understanding of what God's character must be through realizing what man's true character is.

We can know God only through man, and all the universe. God put his own nature in all he made. Man should be the study of mankind. We have studied everything but man, and have thus neglected self-knowledge.

Mental Science is the knowledge or science of man as God made him. — Go's likeness, out of man as he appears, a mixture of good and evil, a creature sick and diseased, a good share of the time. We have been educated to look for health, strength and happiness outside of ourselves, and we have found the search useless. Mental Science enlightens us by teaching us to look within for all that is good. All is to be found in the real self, and must be found there if anywhere.

What a mistake to go miles from home to gain health and strength from change of climate, when change of thought will surely bring the desired improvement.

This science of man includes all other science. Man is the highest expression of intelligence, and when he has reached the full realization of what he is, the highest thought of God, his body will express just the nature of his thinking; it will manifest health, strength, and harmony. If your thoughts are of the beautiful and pure, your body (which is but the expression of your mode of thinking) will also be an expression of God's perfection. We call for body when we are pure in thought; and when our thoughts are opposite to this we neglect body, or positively abuse it.

Our bodies require no special thought given to them, and need no particular care beyond that needed for cleanliness; our care should be to have our habit of thinking of a spiritual nature.

Body expresses the man (mind) for man is all mind, so each person's character is proclaimed for those to read it who are able to do so. I trust this better way of caring for the body will be satisfactory to all. It should be a more universal thing than it ordinarily is, to think for ourselves. The real educator, then, of man is from within, not from without. The external education tends to shut out this light (God) by holding the attention upon things of the outward world, and interpreting them only in the light of senseless understanding. Through the method of external education, from the standpoint of the senses, and physical science, the attainment of personal mastery and spiritual supremacy is absolutely impossible. Physical Science alone can never raise man above the limitations of the senses and life and the physical organism; but through the spiritual soul finds its deliverance from the flesh, and rises into the freedom and perfection of Divine Being, in communion with the Father. It will now be seen that the whole personality of the man was constituted for the sole purpose of realizing and embodying in organic function this individual life of God, and thus attaining perfection of organic development and supremacy of personal life. Hence it is only through the appropriation of this individual life, that man can exalt the body as the physical instrument of the soul's activity in the outer world, to that degree that it shall respond to every demand of his living personality.

Our natural bodies live from our spiritual bodies, the indestructible form of the soul. Just in proportion as the soul acquires self-possession, it will hold possession of the body; and will be able to prevent and heal disease in every form. MENTAL HEALER, Hammonton, N. J.

It is believed that the defalcation of George H. Lounsbury, cashier of the New York post office, will amount to about \$47,500, of which \$18,500 is the value of the missing postage stamps.

There was a scene of wild excitement in the national House of Representatives on Wednesday, over the action of the Speaker in taking a list of Democrats present and not voting on a motion. During the turmoil the "rebel yell" was given on the Democratic side. An appeal from the Speaker's decision was made, which was discussed fully, amid great confusion, and not decided until the following day. The Speaker was sustained.

President Harrison received the credentials of Senors Valente and Mendonca, on Wednesday, the accredited envoys from the Provisional Government of Brazil. This formally recognizes the new republic.

The President has appointed Blanche K. Bruce, the colored ex-Senator from Mississippi, to be recorder of deeds for the District of Columbia.

Canadian annexation sentiment could not have had a stronger proof than is offered by the absence of over fifty members from the vote on a "loyalty" resolution in the Dominion, Thursday. No one would vote against it now; ten years ago no one would dare to be absent; ten years more will have changed tact absence from a vote on "loyalty" to an active agitation for annexation.

The cold wave has been scared off. It couldn't look the sun in the face and preserve its frigidity.

Wonderful Cures.
W. D. Hoyt & Co., wholesale and retail druggists, of Rome, Ga., say: We have been selling Dr. King's New Discovery, Electric Bitters, and Bucklin's Arnica Salve for four years. Have never handled remedies that sell as well, or give such universal satisfaction. There have been some wonderful cures effected by these medicines in this city. Several cases of pronounced Consumption have been entirely cured by use of a few bottles of Dr. King's New Discovery, taken in connection with Electric Bitters. We guarantee them always. The "Boston Stars" to-night.
Walter Ellis has a new "Safety" bicycle.

A few Hammontonians are still suffering from la grippe.
No lover of music should miss the entertainment this evening.

Mrs. John Kitchenman of Philadelphia, visited Hammonton friends.
The Weymouth paper mills, it is said, will resume operations in a few days.

The carpenters will begin work on W. H. Bernshouse's new house on Monday next.
Bertie Filer has opened a new depot in the building lately occupied by Major Jordan.

Mr. Samuel Anderson, Sr., is to sell a lot of blooded cattle at auction, on Thursday, Feb. 20th.
The "Cricket on the Hearth" will be put on the stage by Mr. Whitmore, early in March.

No, wealth is not essential to happiness; but there is a deal of satisfaction in a good bank account.
We understand that there are a few seats yet unsold for the "Boston Stars" entertainment, this evening.

There was a pretty fair chance for gunners, this week. There are too many unmuzzled dogs on the street.

Variable weather, this week, but not very cold. Rain storm Wednesday night, lasting until after daylight next morning.

The frame of Mr. French's paint factory is partly up. It is 40 x 54 feet in size, two stories high, with basement under the whole.

Many think the completion of the Reading's double-track will give an impetus to all the towns along the line. Shouldn't wonder.

One of those magnificent "A. B. Chase" pianos will be used by the "Boston Stars" at their entertainment in Union Hall, this evening.

It was Senator John J. Gardner, a Republican, who introduced the bill increasing the Governor's salary from \$5000 to \$10,000. No notice there.

It is stated that the old Egg Harbor and May's Landing branch railroad will soon be started up again and its line extended to Tuckahoe and Cape May.

Loan Association meetings next week. Workingmen on Monday evening, in Black's Hall. The Hammonton on Thursday evening, in the Council Room.

Next Friday, Feb. 7th, will be Mr. Lewis Hoyt's seventy-sixth birthday. Congratulations are appreciated by those who are thus far advanced in life's journey.

Mr. Elmore Stevens is recovering from his long illness, and hopes to be well enough, about May 1st, to return with his family, to their former home, Stevensville, Pa.

The Baptists have increased the seating capacity of their house of worship, by moving the pews nearer to the altar, and placing over one hundred chairs in the space thus vacated.

To the Public.—I have sold my laundry business to Mr. Henry G. Thayer, who will conduct it at Bassett & Son's store, on Bellevue Ave.

C. M. JORDAN.
The iron foundry and casting works of J. C. Lake, at Ocean City, were destroyed by fire on Saturday night. The fire originated from burning rags, which had been kindled by a party of boys.

We heard something unusual on the street, Monday afternoon. One young man met two others, and said: "Hello! where are you going so fast?" "Going to get a drink; come along!" was the reply; and the three went a few steps further, into —. It sounded very much like the conversation heard near a rum shop.

Insure with A. H. Phillips, 1328 Atlantic Ave., Atlantic City.

Foot meeting to-night.
Admission tickets for the Boston Stars concert will be sold at the door, for 25 cents. This price will not guarantee a seat.

St. Mark's Church. The festival of the Purification will fall upon Sunday, Feb. 2nd, and the services for that day will be: Litany, Sermon, and Holy Communion at 10:30 A. M. Evening Prayer, 4:00 P. M. Sunday School at 8.

Mr. and Mrs. G. W. Kates, will speak in Union Hall to-morrow, Sunday, Feb. 2nd. Morning lecture at 10:30; evening at 7:30. After each lecture Mrs. Kates will give readings and tests. Seats free.

We have received a handsome catalogue of new, rare, and beautiful flowers, plants, vegetables, fruits, etc., from John Lewis Childs, of Floral Park, Queens County, N. Y. The covers of this pamphlet are themselves works of art, and among the inside pages are four grand colored plates. Altogether, it is a book that every one will admire. Send ten cents to the address given above, and secure a copy.

The Board of Pension Examiners, Mrs. T. K. Reed, H. E. Bowles and D. B. Ingersoll, meets on the first and third Wednesday of each month, in the room under the Journal office. This fact should be remembered by applicants as the Government is continually sending out notices notifying ex-soldiers that the board meets every Wednesday, and in that way bringing men to Atlantic City on a fruitless errand.
