It is the intention of the association to open negotiations with the Camden & Atlantic Railroad Company, for the abolishing of the station at Murphy's Crossing, and have the same transferred to Rosedale, which will afford excellent facilities as the Atlantic City Railroad already has a station there.—W. J. Press.

The Board of Education at its last meeting decided to establish a school savings bank, by which the pupils in our school may be enabled to save the pennies. The plan is briefly as follows: At roll call on Monday morning, any pupil may, when his name is called, bring to the teacher any amount from one cent up; this will be placed to his credit, and the total amount collected will be deposited in the bank to the credit of the Hammononton Public Schools. As soon as the savings of any pupil amount to one dollar, this sum will, by the bank, be transferred from the general fund to the pupil's account, a separate account will be opened with him, a bank-book will be given him, and he will thus become an individual depositor. It is hoped that parents will give this plan their hearty support, as by it many school children all over our land, have been taught habits of thrift and benevolence. Prof. Salisbury has advocated this move for some months, and by properly setting it forth before the Board, succeeded in securing its adoption. There is much to be said in its favor, and next to the postal savings bank is the most practicable plan we have heard of.

For two days and nights he tried various remedies recommended by friends and neighbors. He says: "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it, as a last hope, and am happy to say that after two doses he slept until morning, gave him to him next day, and a cure was effected. I keep this remedy in the house now, and as soon as any of my children show signs of croup I give it to them, and that is the last of it." 25 and 50 cent bottles for sale by druggists.

Pastor Wagg gave a good talk from the words found in Rev. xiv. 18: "Blessed are the dead which die in the Lord from henceforth; yea, with the Spirit, that they may rest from their labors; and their works do follow them." Two handsome floral pieces were presented,—one from the Post, one from the Fruit Growers' Union, of which Mr. Rogers was a director. The departure of so good a man is sincerely mourned; his place will be hard to fill.

Andrew K. Bernhouse broke through the ice on the lake, Monday, while skating rapidly backward. He came up under the ice, which gave way and let him through, but was too thin to support his weight. He swam to a better spot, and was assisted to safety by a comrade. A cold bath, surely.

Some folks are feeling blue over their annual bills which custom makes payable at this time. If each one will do his best, all will be enabled to tide over the temporary stringency. Pay all you can, and all can do the same. It's wonderful how many bills a dollar can pay, if once started round the circle.

Many think that the present heating and ventilating apparatus in our handsome brick school-house will have to come out,—and hot water substituted. At any rate, it is said that wherever the system now in use has been put in, it has eventually proved unsatisfactory.

"It is a pleasure to sell Chamberlain's Cough Remedy," says Stokney & Dentler druggists, Republic, Ohio, "because a customer, after having once used it, is almost certain to call for it when again in need of such a medicine. We sell more of it than of any other cough medicine we handle, and it always gives satisfaction." For coughs, colds, and croup, it is without an equal. Druggists sell it.
