TO MAKE A HOME.
To make a home you need not build
An edifice of stately size
With tapestries and treasures filled
And turrets reaching to the skies
The jeweled window, gilded dome—
It is not these that make a home.
To make a home you need not wait
Till fortune fills your lap with gold;
A simple cot, an open gate,
May more of cheer and comfort hold
Than all a Caesar's castled Rome—
For love, not splendor, makes a home.
To make a home, take some content,
A little saving year by year,
Some homely-fashioned ornament,
A hospitable heart with a tear,
A voice to greet you in the gloom—
Such little matters make a home.
To make a home, take simple things—
A pleasant fire, an ample chair,
A picture that to memory clings,
A quiet beauty everywhere—
To other towns you need not roam
To buy the things to make a home.
—DOUGLAS MALLOCH.

New Factory in Prospect.

A party in New York is thinking of opening an underwear factory in Hammonton. He already has several shops in operation, in different localities, and promises to do well by many employes here, if they can be secured.

There is the question: can a sufficient number of girls be found to make the establishment worth while here?

Suppose every girl and woman who wishes employment of this kind sends her name to Mr. A. J. King, Hammonton. Don't wait; do it now. If enough can be secured, the party promises to do his part promptly.

Does \$100 Look Good to You?
I will save you that much and more if you are looking for a piano or player piano. What's the use of buying a second-hand piano when you can have a new one of better grade at the same price. What's the use of buying cheaper quality when you can have the best direct from the factory at the same cost, or less?
Don't be old-fashioned and say, "I don't see how it can be done." Look into my proposition and see for yourself. Just because pianos have never been sold here before on this plan and at such low prices, is no reason they cannot be. I save you the middleman's profit.

SATURDAY, JANUARY 23, 1913

You can hear a thousand-and-one stories on the street, if you keep your ears open,—some of them strange and incredible; but the strangest and most unbelievable lately told is to the effect that a stranger is contemplating the purchase of a prominent business corner in Hammononton, and is willing to pay a great price for the property, provided he can obtain "a license to keep a hotel."

Why man, you don't need a license to keep a "hotel." You can open your office, furnish any number of rooms, fit all up in good style, and provide entertainment for man and beast, with the same freedom that you would open a grocery. You don't need a license.

But that license condition is the key to the situation. You don't care to keep a hotel. You want the privilege of selling rum. You would like to start another drunk factory in town, and place it where no eye could miss it; where passers-by must of necessity inhale its nauseous fumes; where ladies must perforce pass by and encounter the products of your bar.

It has been the wish of this community, and the policy of our Town Council, to grant no license to sell liquor on Bellevue Avenue,—to keep this main street of the town free from the blight of the sights and sounds that accompany the sale of liquor. We sincerely hope that this policy will be adhered to by our present Council; that if the application is made, a prompt negative will be returned.

Accompanying the story referred to, came a comment, to the effect that between the cost of the property referred to, and the price named as to be paid, there is a very large margin, enough, in some communities, to ensure the granting of a liquor license. But this will not apply in Hammononton; we haven't that sort of Council.

The latest contribution from the State Fish and Game Commission, just received, consisted of 150 black bass, 200 perch, and 100 crappies. Some of these weighed as much as two pounds each, and will be a valuable addition to our Lake. We hope that our local minnows will not abuse the privilege, but will insist on others keeping within law and reason. This is one of several lots received through the Rod & Gun Club; and the waters of the Lake should be well stocked for those who like the sport.

A commendable bill was introduced into the State law mill, this week, increasing the age limit for chauffeurs to eighteen years. It was fifteen years,—too young to be responsible for his own safety, or that of his passengers, or others along the street.

Grape Street gas lamps have been replaced by electric incandescents, thereby lighting the street from end to end, instead of in spots. While the change suits most of the residents, they do miss the all-night service.

Probably you know that the name of a habitual drunkard can be legally posted in every saloon and bar-room, and no liquor can be sold to him there. If you are interested, state the facts to the Overseer of the Poor; he will take the matter to a Justice of the Peace, who will in turn take proper action. Further, any person who procures liquor for a man so posted is guilty of a misdemeanor,—can be arrested, held for Court, tried and punished. One man had a little scare, the other day, after supplying a posted man with a half-pint.

Not even the advertising in a newspaper will find lost articles, if the finder is disinclined to return it to its rightful owner. There was a time when we could safely guarantee the return of anything, from a pocket-knife to a horse; but we are now living in a different generation. "Findings keepings," seems to be the motto of some people. Many articles have been lost since New Year's,—watches, spectacles, etc., and most of them are as yet unreturned. Parents of children are largely responsible for this, in not impressing it on their minds (or some other place) that to hold onto an article found is equal to stealing it.

We are in receipt of two suggestions for relieving Bellevue of its "symp." The first is, to scoop it up and cart it away; and the other, to mix in a proper proportion of cement, spread it out smooth, and keep teams off until it hardens.

Children are enjoying the cement walks,—roller-skating. There's no reason why not, so long as they give pedestrians the right of way.

A Jury Commission bill was presented by Senator Read, minor leader. It provides for the appointment of a jury commission, consisting of three residents of each county, to be appointed by the Circuit Court Judge. This commission will draw all the grand and petit jurors in the county. The commission appointed by the last Legislature to regulate the question of jury reform found that only in New Jersey and other state was the ancient system of the sheriff drawing grand jurors still in vogue. The report of the commission is interesting and shows that the move for jury reform inaugurated by the Republican Legislature last year was carried out in good faith. There are other bills of a similar nature already introduced and the demand for public hearings on these measures will hardly be denied.

The so-called reciprocity act passed last Winter at the demand of automobile manufacturers and visiting automobilists has aroused so much opposition, especially among the farmers, that a repeal has been introduced by Senator Conant, of Gloucester County, Master of the State Grange. The State Commissioner of Motor Vehicles recommends changes in the law.

Protect Your Children's Eyes

THE greatest desire of parents is to see their children well nourished, strong and healthy—physically well equipped to make a success of life.

Yet, how many parents are there who endeavor to protect that most important sense of all—the eyesight of their children by providing the most suitable light for the study hours?

Modern methods of schooling and the necessity for completing their primary education at an early age imposes a severe tax on the eyes during the growing period of life. In many cases this strain weakens the eyes, or results in loss of sight simply because the little ones are compelled to study under a poor or improper light.

Edison Mazda Lamps now afford the most suitable electric light to study by as well as for general home use, and furnish it at minimum cost.

Give your children the benefit of this light. We will be glad to advise you as to the most beneficial way to use Edison Mazda Lamps.

SPIRITISM SAID TO BE DEMONISM.

A most interesting little brochure has recently come off the press setting forth with Bible proofs that the communications received by and through spiritistic mediums is of demon origin. The writer traces his subject through the Scriptures from the time when certain of the holy angels became disobedient. He proves from the Scriptures that these fallen spirits persuade the human soul, with whose past history, spirit, though invisible, are thoroughly acquainted. He shows that they also frequently personate the Creator and the Redeemer, commanding their deceived ones to pray, do penance, etc. This, however, is nobly to lead them on and to bring them more thoroughly under demonic control. Sometimes by breaking down the natural barrier, the human mind, they possess their victim, and rob him more or less to his ruin—frequently sending such to the mad-house. Numerous illustrations, scriptural and otherwise, are given. The price of the little book is but five cents; it should be in the hands of all interested in Spiritism or who have friends interested therein. Copies attainable to the Bible and Tract Society, 17 Hicks Street, Brooklyn, N. Y.

PETER'S MESSAGE FOR THE NEW YEAR.

The Flery Trial and His Compensation. You have again visited your friends and neighbors a "happy new year."

But if that is all the meaning we can put into the word "happy," our New Year's wish falls far short of meaning.

When we bear this in mind, it is not strange that the Gospel and Epistle for the first Sunday in the New Year should bring us face to face with the infant Redeemer.

And what is Peter's message for the New Year? As if to mock our new year's wishes, he holds before us the prospect of a fiery trial.

Why is This Flery Trial? It is not strange that the Gospel and Epistle for the first Sunday in the New Year should bring us face to face with the infant Redeemer.

MILK BY THE YARD. An Irishman passed a shop where a notice was displayed saying that something was sold by the yard.

A thing of beauty is a joy forever; or at least until we find out how much it costs.

Sunday School Lesson.

CAIN AND ABEL. Gen. 4:1-15.

Golden Text.—Whoever hateth his brother is a murderer. I John 3:15.

Peter dares to speak of rejoicing in the "fiery trial." Here is something new—something that is not to be despised.

When we bear this in mind, it is not strange that the Gospel and Epistle for the first Sunday in the New Year should bring us face to face with the infant Redeemer.

THE MARK OF CAIN.

Genesis 4:1-15. Jan. 26.

The first tragedy of Earth was disobedience to God—the eating of the forbidden fruit.

The United States division of ornithology has prepared a list of birds to do not list, the ravages of insects are costing the farmers and fruit growers of this country some \$100,000,000 every year.

CORRECTING CHILDREN.

None of us enjoy being reproved or corrected, and the person who attempts this in public, or when there are several people present, we have very little, sometimes no recollection of the matter.

The boys and girls who success-
fully competed in the Atlantic
County Corn Growing Contest have
won additional honors. The prize
winning corn displayed at May's

exhibition at the Fortieth Annual
Meeting of the New Jersey State
Board of Agriculture held at Trenton
January 7th to 10th.
The following received recognition
by being awarded prize ribbons:
White Dent Variety (best single
ear) first prize, Frank Bartolino,
Buena Vista Tp., Landisville, N. J.;
Pearl Pop Corn (best ten ears),
first prize, Frida Heuman, Galloway
Twp., address, Egg Harbor City.

ears), fourth prize, Lewis Miline,

land, N. J.
Yellow Dent Variety (best ten

The boys and girls of the whole
State competed in this contest, and
it speaks well for the boys and girls
of Atlantic County to have carried
off four of the twenty-four prizes
offered.

State Tax Commission.
The Tax Commission appointed
by Governor Wilson, in accordance
with the Joint Resolution of the
Senate and House of Assembly
have submitted its report to the
Governor. The members of the
Commission are Senator Carlton B.
Pierce, of Union County, Frank B.
Jess, President of the State Board
of Equalization of Taxes, of Cam-
den County, Senator Albert R. Mc-
Allister, of Bridgeton, Arthur C.
Pleydell, of Somerset County, and
Thomas B. Usher, former Secretary
of the State Board of Taxation, of
Hudson County. In its report, the
Board, after reviewing the existing
conditions, make the following re-
commendations. Bills will be
drawn in accordance with these re-
commendations and submitted to
the law makers for consideration.

1. Assessment system should be
put on a business basis with direct
responsibility from top to bottom.
The State Board of Equalization
should have authority sufficient to
secure uniformity and efficiency
throughout the State.
2. Establish office of State As-
sessor, to supervise county assessors.
3. Establish County Assessor
in each Co., to have general su-
pervision of local assessments.
4. Revise county tax boards so
they shall consist of the County As-
sessor and two associates, to hear
appeals and equalize valuations.
5. Taxing districts now too
small to require entire time of a com-
petent man should be consolidated
for assessment work.
6. All cities should be assessed
as a unit by one assessor or board.
7. Public utility property now
locally assessed should be assessed
by State Board of Equalization with
aid of data from Public Utilities
Commission, and valuations certi-
fied to local taxing districts.
8. State Board of Assessors
should be abolished. State Board
of Equalization should assess rail-
roads, using data furnished by
Public Service Commission.
9. Tax Maps should be required
gradually until the entire State is
mapped.
10. Notice of assessment of all
taxpayers, and appeals should be
heard before tax rates are fixed.
11. Appeals should be simpli-
fied.
12. Taxes should be collected in
advance of expenditures, and col-
lection date changed to following
January.
13. If above change is made,
tax payments may be made semi-
annual.
14. Banks and trust companies
to be taxed at a uniform rate of one
per cent on capital, surplus and un-
divided profits, with no deduction
for exempt securities.
15. Household furniture and per-
sonal effects should be exempted.
16. Poll tax should be abolished.
17. Taxing districts should be
permitted to exceed maximum tax
rate when increase is approved by
vote of the people.
18. Further investigation should
be made of exemptions, collection
methods, tax sales, liens, etc.
19. Revision of the fundamental
basis of taxation should be consid-
ered.

There are more than 9000 policy-
holders of the Prudential Insurance
Company in Atlantic County, to
whom notices are being sent this
week that the company is preparing
to make a stiff resistance to an at-
tempt being made by James R.
Nugent to force through the
Legislature at the present session a
bill which will materially reduce the
dividends payable to these policy-
holders on their policies.
In a statement issued by President
Forrest F. Dryden it is pointed out
that the bill if passed will effect
nearly one person out of every five
in the State. The measure, which
is known as House Bill 57, was in-
troduced in the House Monday by
Assemblyman Rowe of Newark.
In this county alone there are 9284
policyholders who will be affected.
In the State there are 444,943 such
policyholders.
The bill provides that the City of
Newark shall have the right to tax
the accumulated dividends on the
company's deferred dividend policy
holders.

The right of the city to tax these
funds has already been threshed out
in the courts, and the company won.
Having failed under the existing
law, Mr. Nugent is now trying to
change the statutes so as to give
express authority to tax this one
fund.
President Dryden declares that
the Prudential will exert every leg-
itimate means to prevent the bill
becoming a law. He says the chief
thing to remember is, that the fund
sought to be taxed is entirely the
policyholders; and that the company
cannot make one cent for itself from
it in any way. Every cent of interest
the fund draws goes back into the
fund to be paid to the policy-
holders.
In view of the fact that the policy-
holders who own the fund are chiefly
those whose average premium is ten
cents a week, President Dryden
asks if it ought not to be as sacred
from hands of the taxing authorities
as are the building and loan funds
and deposits in saving banks. He
asks if New Jersey wants to be the
first State in the Union to begin
taxation of this sort. Another
point raised by President Dryden
is, that there is no reasonable ground
why policyholders living outside of
Newark should be called upon to
help pay Newark's taxes.
