NO. 8

GEORGE ELVINS

We could talk to you this week about many things interesting, both in regard to quality and in regard to price, but omitting to mention those beautiful Union Silk Umbrellas at \$1.75, those decorated semi-porcelain Dinner Sets at \$8.40 and Tea Sets at \$3.60, and those Tasty Toilet Sets at \$2.40 and \$3.25. We pass on to something which will surprise and delight you all with its lines of beauty and elements of strength. This is the

Eclipse Bicycle.

If anything inanimate is capable of stirring the passion of love in a wheelman, I believe this same Eclipse wheel is able to do so, when you consider the massiveness of its strength. We believe there is no treacherous part in its whole mechanism. Parkhurst, mounted on an Eclipse Flyer, will strive for laurels this year. Will have a sample wheel in stock in a few days. Wait for it.

Fertilizers

We have placed our orders for several carloads, including Mapes' and Taylor's, D. and G. Fish, Nitrate of Soda, and Murate of Potash.

MR. EDITOR:—A few words with regard to the business methods in our schools, with a view to ultimate benefit. The school meeting, for the election of officers, now approaching, I think should be held in the evening, instead of afternoon as now, thereby affording opportunity for workmen and others to attend, who under the present system cannot do so without loss and inconvenience. The writer has lived in this town for some years, and for the above reasons has never been able to vote at a school meeting. The present system is to be deprecated, and is unusual so far as my experience goes. Every facility should be afforded to all, in order to get a full and fair expression of the wishes of the people.

And now a word in regard to the sessions of our Board of Education. If I am rightly informed, they are behind closed doors,—secret. This also is an innovation, and is un-American. In our state, municipal and national legislatures, and in all assemblies where the people are served, they are, with scarcely an exception, open, as they should and of right ought to be. This is a fundamental principle. Star chambers are repulsive to the American people; and in support of this, what is more obnoxious in national affairs than the executive sessions of the United States Senate? Our friends of the Board should be willing to stand each on his individual record. All public men are judged by that, and should be, for reasons that are obvious. Secret sessions give no opportunity to know this; neither does the annual report deal with it. No disparagement is meant to any, but I would say, Open the doors, gentlemen, and invite, instead of repelling, criticism, as the present methods would imply. Permit the people to be the judges as to how they are being served. To this privilege they are entitled.

CITIZEN.

MR. EDITOR:

There has been some talk around town of running me for Overseer of Highways. Now, for reasons best known to myself, I hereby publicly announce that I am not a candidate for the position. Having carefully considered it, I would not accept the office under any consideration.

In my opinion there is no roadmaster needed. I would suggest a plan that I think would be more satisfactory to the taxpayers. Have a competent committee appointed to go over the highways in the different districts, and decide in their judgment where repairing and building is most needed, and have it let out to the lowest bidder, under specifications stating when and how such work should be done. Repairing and scraping could be done in like manner. By adopting this plan it would give the different people who are familiar with this kind of work a chance to bid on it if they saw fit to do so.

CAN TALK FOR MILES.

WONDERS OF THE LONG-DISTANCE TELEPHONE.

By the Use of Prof. Bell's Invention Four Millions of People in the United States Are Now Within Speaking Distance of Each Other.

Linked by a Copper Wire. By the use of the long-distance telephone 40,000,000 people are within speaking distance of each other within the United States.

In 1876 Professor Bell exhibited to the public at the centennial exposition in Philadelphia his patented telephone instrument. It was the beginning of a new era.

Between Chicago and New York the time is 300 miles. The poles are of cedar and chestnut, thirty-five feet in length and average forty-five to fifty miles.

There are a great many business houses there that have been especially constructed for the business man who does not wish to have any one employ his hearing.

Chicago where the old style of wire is still in use, and the long-distance telephone is used for all practical purposes.

Many stories are told of the strange uses of the long-distance telephone. The day the line was opened to Mr. Hill, a Chicago man, hunting in the Northern woods, came into town and learned of the invention.

his family. As they had a telephone in the house, the talk was small one.

"Hello, Gyp," called the master from the telephone. The master whistled cheerily, and the setter barked directly into the receiver.

In mechanical operation there is little to be seen. A telephone is a telephone. A telephone exchange is as much a place of business as a store.

There is a resource in the telephone for the stroke of trouble or the rush of business. A telephone exchange is as much a place of business as a store.

One is permitted to fancy a congregation of Armenians listening with rapt attention to their cars while they receive an address from them from the back of a stage in Chicago.

The Earth Lodge the Most Elaborate Structure of the East. The most elaborate structure ever erected by the Indians of the Century Magazine, was the earth lodge.

The first attempts at salvage were made two years after the wreck, with primitive appliances, boats fastened to long poles, and from nets. Gold and silver coin to the value of \$5,771 was recovered.

Across the sea, the boats that have sailed to the wreck once or twice, but died before any of the gold was recovered.

Another Indian structure is the sweat lodge, built with possible on the margin of a stream and used for the purpose of a bath.

SATURDAY, FEB. 22, 1896.

The Odd Fellows Lodge received their new regalia and other paraphernalia last Wednesday evening, and are more than pleased with the purchase. They are certainly the handsomest things in the line ever brought to Hampton.

The District Clerk requests all who have bills against the Board of Education to present them to Mr. Wm. Rutherford without delay, as he can obligate them. The year closes March 31st, and all bills should be in before that time.

In addition to the timetables of all railways the Rand McNally Railway Guide gives a Gazetteer of all important towns in the United States, Canada and Mexico, and much other information to travelers, shippers and the public at large.

Washington's Birthday Social this evening, in Union Hall, given by the Y. P. C. U. of the Universalist Church. "Freezing a Mother-in-Law," fancy dancing by children, a dance for everybody. Admission, 15 cents; dancing, 10 cents extra.

TO RENT: A very desirable house in the city of Philadelphia, large piazza, and plenty of shade. Stable and garden privileges, good chicken houses. For a desirable tenant would let very reasonable, especially if permanent. J. EDWIN WATKINS.

The "Hickory Farm" troupe gave an enjoyable entertainment last week, Friday evening. Their male glee club was especially praiseworthy; the second bass being one of the best basso singers ever heard here, and one of the tenors almost equally good.

Mr. Bloch, the clothier, hired a lively team the other day, and started for a ride with a friend. The horse was frightened at something, and whirled around so suddenly that the carriage was upset and badly wrecked, and the young man considerably injured.

We can heartily recommend the lecture to be given by our townsman Joseph Mason, next Wednesday evening, in Union Hall. Mr. Mason was born a slave, in Virginia, was sold many times, had a varied experience, and can tell his story in a very entertaining manner. Go and hear him.

It is reported that scarlet fever and measles prevail among our Italian population, and if so the physicians who know of such cases should report them to the proper authorities, as it is necessary to keep children out of schools who live in houses where such diseases exist.

In Philadelphia, a test of new lenses for use in street lamps was made recently, with unqualified success. Wonder if that is not the future light for our streets. It is cheaper than gas, with no expensive plant to furnish, and more readily provided than electricity.

A full house is promised at Chaplain McCabe's lecture, next Friday evening, in the M. E. Church. Doors open at 7 o'clock. It is worth going to hear the old Chaplain sing, and his lecture on "The Bright Side of Life in Liberty Prison" interests audiences everywhere.

The citizen who does not attend town and school meetings should not find fault after the meetings are held, if his views were not considered. Each one should state what he wants. A request has been made to the Board of Education to hold the school meeting at night, so as to give all an opportunity to attend.

The Volunteer Fire Company's monthly meeting was held on Monday evening last, eighteen members present. Moved, that the Trustees arrange with Mr. Brown for his lot on Bellevue Avenue and move the Company's building there. After discussion, motion carried by a vote of ten to five. Miss Austin was unanimously elected Trustee, in place of N. B. Hinchman, resigned. Secretary instructed to present J. W. Boller with a certificate, in place of one destroyed by fire. Bills paid:

John E. Hoyt went to Atlantic City recently and took the teachers' examination. He received a congratulatory letter from the County Superintendent, reminding him that his age debarred him from receiving a teacher's certificate, though his averages were above the required figures.

It seems strange that people cannot be made to understand that no reputable paper will publish anonymous communications. We have one now on hand, containing an interesting item, but no name attached, or anything to indicate who was responsible for the statements. Sign your name, unless you can hand in your contributions personally.

Some folks have evidently forgotten that it is a violation of law to dump garbage or old tin cans, or any such obstruction in or along the highways of Hammonton. For example, some one threw a whole wagon load of such trash over the bridge on Middle Road; and others have followed the bad example thus set. Just notice as you ride along there, and elsewhere, how ornamental these things are. An example should be made of some offender.

The usual spring rumors are afloat. One indiscreet individual said to our reporter, "We will have a licensed hotel in Hammonton this year." Of course the only way to accomplish this is by choosing a majority of liquor men to Council. Therefore, ye temperance voters, be careful for whom you vote. A liquor shop is neither needed nor wanted; yet its friends seem determined, and may yet accomplish their desire, unless more interest is manifested by temperance people.

Sunday night brought us a strong sample of Arctic weather. At day-break, mercury stood four degrees below zero, and failed to climb over the nothing mark until sometime after sunrise. Tuesday was somewhat more moderate—about three above, and warmed up considerably during the day, allowing a slight fall of snow. Wednesday was much more comfortable, though the wind blew strong and enough snow fell during the afternoon to cover the ground. Thursday colder and windy but fair. Friday, a little colder.

That Frances Willard's noble work for temperance is not overlooked was proven by the large number of people who gathered at the residence of Mr. L. Monfort, Tuesday evening. The occasion was that of a parlor social, given jointly by the W. C. T. U. and Y. W. G. T. U., the topic of the evening being the life and work of Miss Willard. On the program was a quartet by Misses Jessie Swift and Lila Smith, Messrs. H. Tomlin and S. Newcomb; a duet by the Misses Swift; a piano solo by Mr. Krebe; a sketch of the life of Miss Willard by Miss Olney, and selections from her autobiography by Miss Nellie Dupuy and J. E. Hoyt. After enjoying these and some games, the company was served with refreshments (such as were consistent with the white ribbon), which were of course duly appreciated.

Figures showing the cost to Spain of the Cuban insurrection are given by a London newspaper, and they are certainly startling. The government borrowed \$10,000,000 last year from the Bank of Spain to be used in suppressing the revolt and that sum was all expended in three months. English capitalists were next asked to extend their aid, but it is not known what was the result of the application. A short time ago the Bank of Spain was asked to make a second loan, and another \$10,000,000 was secured on Cuban bonds, but the bank intimated that its accommodation would go no further. It is estimated that apart from the destruction of property in Cuba the cost of the war to Spain up to the close of 1895 was \$80,000,000. Now funds for local use are proposed to be obtained by the Spanish Bank of Cuba issuing currency to the extent of \$24,000,000 and that institution's deposits of coin are to be re-enforced by demands upon Cuban capitalists by Captain-General Weyler. The financial situation seems to be equally as desperate as is the military situation.

A protective tariff greases the wheels of public and private business. It stands for a competency in revenue, not a deficiency.

Office seekers find Gov. Griggs very secretive and dextrous as to his purposes in making appointments.

Governor Griggs' nominations are not being adversely criticised. Have you noticed that? Their personnel requires no apology. So much for reform in one year.

The Legislature is going to cut down those \$30,000 fee offices to \$6,000 a year. This will be bad for the new fellows, and good for the State—if the law shall be made practical enough to cover the \$24,000 or \$25,000 into the public treasury.

The Name of The Next President of the United States

WILL BE ANNOUNCED IN
The NEW YORK Weekly TRIBUNE
Of Nov. 4th, 1896.

Public interest will steadily increase, and the question how the men whose votes turned the scale at the last election are satisfied with the results under the administration they elected, will make the campaign the most intensely exciting in the history of the United States.

THE NEW YORK WEEKLY TRIBUNE, the leading Republican family newspaper of the United States, will publish all the political news of the day, interesting to every American citizen regardless of party affiliations.

Also, general news in attractive form, foreign correspondence covering the news of the world, an agricultural department second to none in the country, market reports which are recognized authority, fascinating short stories, complete in each number, the cream of the humorous papers, foreign and domestic, with their best comic pictures, fashion plates and elaborate descriptions of woman's attire, with a varied and attractive department of household interest. The New York Weekly Tribune is an ideal family paper, with circulation larger than that of any other weekly publication in the country issued from the office of a daily. Large changes are being made in its details, tending to give it greater life and variety, and especially more interest to the women and young people of the household.

A special contract enables us to offer this splendid journal and the South Jersey Republican—both

One Year for \$1.25—cash in advance.
The regular price of the two papers is \$3. Subscriptions may begin any time. Sample copies can be had at this office.
