monton Grange is the purchase of  
hay in ton lots through their secre-

Miss Helen Imhoff accompanied her.

The Bulletin of Monday con-  
tained the Philadelphia marriage

We wish to thank the many  
friends for their very kind expres-  
sions and acts of sympathy during  
our bereavement.

Grace Osgood,  
Mary Osgood Taylor.

**Lycium Course.**

The sixth number of the Lycium  
Course will be given in Victor Hall  
on Saturday evening, March 4th,  
when the Oceanic Ladies Quintet  
will appear as the entertainers.

This entertainment will be a treat  
for music lovers, and will appeal to  
all classes. The Oceanic Quintet  
has been abroad, serving during the  
war in France and England. They  
were chosen to represent American  
lady musicians in a concert trip to  
the Antipodes, and they are con-  
templating a trip to the Orient to  
present American music in Japan  
under the auspices of Japanese  
business men.

Three of these young ladies are  
exceptional singers, and the flute  
and trap player has more than usual  
ability in her work as a reader.

This entertainment is one of the  
big numbers as was the former num-  
ber, and will make a fitting close  
to the best Lycium Course Ham-  
monton ever had.

A play entitled "Old Days in  
Dixie," will be given in Victor Hall  
on March 30th and 31st, the pro-  
ceeds of which are to help in pay-  
ing the deficiency yet existing on  
the Lycium Course.

Rehearsals for the play are under  
way. The play is a real one, a  
comedy drama in three acts, and  
is a fine true to life picture of ante-  
bellum days in Dixie in 1849.

After the Lycium entertainment  
on Saturday evening the usual Sat-  
urday evening dance will follow.  
The price of admission to the enter-  
tainment is 50 cents. Consult your  
season tickets and find the date is  
March 4th.

P. P. F. A. Tomkinson and T.  
M. Sparks, of the local Camp, P.  
O. S. of A., attended the Fourth  
Annual Washington's Birthday  
Celebration and Class Initiation in  
the Academy of Music Philadelphia.

Invitations will be issued for a  
St. Patrick's Dance, March 16th,  
given by the same young ladies as  
the "Flower Dance." Those re-  
ceiving invitations will do well to  
recall the other and come to this.

Volunteer Fire Company, No. 1,  
appointed a committee, Monday  
evening, to act with one from Co.  
No. 2, with the idea of conducting  
a fair, carnival, or old home week,  
next summer. They are to report  
at a near date.

Another of Hammonton's old  
landmarks has been removed,—the  
tumble-down shop formerly occu-  
pied by G. Valentini, for the manu-  
facture of caskets, for in those  
days they were made to order by  
the undertaker himself.

**Town Council.**

Council met on Wednesday morn-  
ing; all members were present.

Engineer Vosbury recommended,  
after inspecting the sewerage plant,  
the substitution of another pump,  
the present equipment being two  
inadequate. A half hour discus-  
sion resulted in the agreement to  
consult Mr. Vosbury in regard to a  
less expensive change, the installa-  
tion of an additional pump, which  
would prove sufficient for a few  
years.

**I-I-Hearing** applied for permis-  
sion to erect guard rail about his  
cellar entrance. As this is beyond  
the building line, it was referred to  
the Highway Committee.

Sam DeSistano applied for a  
pool room license, to be separated  
from his barber shop by partition.  
After discussion, the request was  
refused.

Complaint was made by John  
Jacobs that people were trespassing  
on his berries when dumping rub-  
bish at the Twelfth Street gravel  
pit; also that waste paper is blow-  
ing all over the neighboring farms.  
Referred to committee to investigate.

Permission was given to dump  
rubbish at that place; but as it is  
now filled up, members thought  
that a new place should be selected.

The Child Welfare Society ex-  
pressed gratitude to Council for the  
support afforded them.

Mrs. Engarth presented claim  
and letters, pertaining to loss of  
shade trees along her property front;  
which were removed by road con-  
tractors. After discussion it was  
decided that it is a matter to be  
settled between herself and the firm  
of Sutton & Corson.

Water Commission asked for a  
new well at once, for use in the  
summer. Referred to committee.

Highway Committee recommend-  
ed the repairing of certain streets.  
This was approved by their fellow  
members.

Among the recommendations  
were: Beginning March 1st, wages  
for teams of two horses and driver  
shall be \$5.25 per day of 8 hours,  
and 75 cents per hour for each ad-  
ditional hour; and for man perform-  
ing laboring work, 25 cents per  
hour. It shall be the duty of the  
Overseer to have all work performed  
on the hourly basis. Wagon bodies  
for hauling gravel, etc., shall be as  
tight as possible, and be made to  
contain not less than one cubic  
yard.

The following streets are to be  
turnpiked ready for gravel: Pass-  
more, from Grand to First Road;  
Madison, from Twelfth to Passmore;  
Monroe, from Pleasant to Passmore;  
and the following be put in repair:  
portion of Pine, near Main; Old  
Columbia Road, between Union  
and Basin; part of Walnut, North,  
Maple and Valley Avenue.

Also recommend that Engineer  
give lines for sidewalk along Egg  
Harbor Road to Park, as recom-  
mended by County; also to give  
approximate cost of paving of some  
form on the following streets: Egg  
Harbor Road from Bellevue to  
Orchard; Second, from Vine to  
Orchard; Horton, from Bellevue to  
Orchard; Third, from Central to  
Orchard; also to take up the mat-  
ter of stone sewer from Ice and gas  
plants.

SATURDAY, FEBRUARY 25, 1922

Don't cart off paper or other combustible material with your rubbish. Burn it; otherwise it will blow over people's properties and become an eyesore.

How do you like this balmy weather? It's alright, provided nature does not inject a few blizzards after the fruit buds are out. Another season like last year would put most of us on the blink.

At Council meeting, Wednesday, Mr. Brownlee took the stand that the Town, thro' the Shade Tree Commission, should look to the contractors, Messrs Sutton & Conson, to replace, or pay for, the trees of Mrs. Hingarth, on Egg Harbor Road, which they removed without permission. We have followed up the case, and have a blue-print of the property, and believe Mr. Brownlee is right. If Mrs. Hingarth had removed them herself, she would be compelled to replace them; and why not outside parties?

Those who have occasion to travel down Central Avenue and Pleasant Mills Road, appreciate the great improvement made by the city.

The suggestion has been made to us by several, that the two Fire Companies and the American Legion unite in conducting a big Old Home Week. We believe it would be a success, as the promoters would certainly have the support of every citizen. Talk it up.

Don't be in too much of a hurry to let your "uncle" have your overcoat. You may need it soon.

We believe the change of Town Council's meeting hour, from evening to morning, will prove very satisfactory. They certainly will not have to hurry through business in order to get beauty sleep.

Flags were conspicuous by their absence, on Washington's birthday. We saw a few, to be sure, but there should have been others.

Did you get "stung" by the agents of a fake auto concern, recently? According to Friday's papers, it was pronounced a gigantic swindle by U. S. Attorney Kun.

Wednesday, the 22nd, contained a combination of figures in the date that will not happen again for a hundred years—2-22-22.

Our local-photographer, A. Olivo, achieved much free advertising last week through his reported feat in disposing of a large number of hot cakes. We have heard readers remark: "I would give a thousand dollars to be able to do that." A good appetite is a thing much to be desired. Mr. Olivo is now one of the most widely known men in Atlantic County today, a good step toward business success in his line, photography.

All will agree that Second Street, half way to Vine, is a disgrace. It has been called Conover's lake, and other appropriate names. It will be pleasing to know that Town Council is considering the permanent paving of that street, from Orchard to Vine. There seems to be no drainage between those points, in either direction; consequently, the water has no opportunity of flowing away.

Thursday's temperature was the warmest February day for almost fifty years.

Town Council did right, we believe, in refusing to grant another pool room license at Wednesday's meeting. The last application was to be located in connection, or in the rear of, a barber shop. We believe it would be a detriment to all concerned, especially to the owners of business, unless he derived more revenue from that than the barber business. Who wants to hear the language used at such places, while getting a haircut? Then, on the other hand, Hammonton has entirely too many of these rooms. We have been asked, where can our young men go? It is not necessary for us to say that any young man properly trained will not have to resort to those places. Our local tailors and shoe makers would doubtless notice the difference on their books if there were no gaming houses in Hammonton.

A lawyer in court-room may call a man a liar, scoundrel, villain, or thief, and no one makes a complaint when court adjourns. If a newspaper prints such a reflection on a man's character, there is a libel suit on a deaf editor. This may be owing to the fact that the people believe what an editor says; what the lawyer says cuts no figure.

Notice to the Public:

Owing to the reduced cost of manufacturing the Red Cross Pipeless Heaters, we are able to install them at from \$26 to \$40 less than last year's prices.

Two cars came together, Monday evening, on Bellevue, both Buicks. One driven by Clara Houck was turning off the road into a yard, when another, operated by Rodney Bennett, came together. Fortunately neither driver was seriously injured, though the fronts of both machines were badly damaged.  
Dr. H. L. Harley, formerly of Hammonton, is now on the staff of the Atlantic City Hospital, having been recently appointed by the board of managers. He has been assigned to the department of eye service, in which branch of the medical profession the doctor now specializes.  
Class Organizes.

The officers were elected as follows: President, Ethel Burt; Vice President, Anna M. Mealey; Treasurer, Gertrude Keyser; Secretary, Madge Priestley.  
The class gave themselves the name of the "Victorious Class," which they hope and trust they may live up to.  
The class are selling chocolate candy, and would like the cooperation of all they trust that everyone will give them orders for the same. Orders should be given the committee who are, Dorothy Brown, Dorothy Elliott and Ethel White.

The Odd Fellows and Rebekah Lodge's entertainment, last Saturday evening, was a real success. Notable features of the program was a solo by Phyllis Craig; E. T. Tarrigan gave a sleight of hand exhibition which included some clever tricks, but was only a part of the many he performs for society benefits, etc. After lunch, they danced until the closing hour.  
Harry Smith, one of the most highly esteemed of the middle-aged men here, died on Monday after a lingering illness, following serious injury between cars in Philadelphia a few years ago. Mr. Smith was liked by all for his hearty good nature. He was a valued member of our local operatic society, which for several years had an enviable reputation. In athletics and every movement for the town's betterment, Mr. Smith was one of the moving spirits. Mrs. Smith and her son, Lee, have the sincerest sympathy for their many friends.

FRIDAY Special:—Priscilla Dean,—"Reputation." Once again Priscilla Dean proves her ability as an actress of first rank. Her acting is so impressive that she makes the characters of her two roles come to life. A Pioneer is "one who goes before, as into the wilderness, preparing the way for others to follow."

It is not always necessary that he wear a coonskin cap and carry a rifle.

When the young Alexander Graham Bell forty-six years ago first sent a voice over a wire by means of an electric current he was a Pioneer, going forth into the little known wilderness of electrical science.

Since that day every development of the telephone has been a pioneering feat. There have been no guide posts to point out the way; no route maps to show which were the smooth roads and which the rough ones.

And Bell Telephone "pioneers" who are today planning for millions of subscribers five, ten and twenty years hence are "preparing the way for others to follow."

Every community served by the Bell System profits by this arrangement. A discovery in California, Texas or Maine is at once available right here in our own state. If the pioneers in our company find something to improve telephone service it is at the disposal of every office in the system where it might properly be used.

Only by such an organization has the Bell System of today been made possible, and only by its continuance is future progress assured.
