HAMMONTON, N. J., SATURDAY, FEBRUARY 26, 1921

No. 9

Independent Fire Company meets on Wednesday evening next.

Hammonton Loan Association meets on Thursday evening next.

The Chamber of Commerce holds a banquet on Friday evening next. The Girls' Club, of St. Joseph's Church, has issued a neat eight-page bulletin.

Mr. and Mrs. Jas. P. Patton are entertaining their daughter from Seattle, Wash.

The High School play, "The Heiress Hunters," will be presented again this evening.

The household goods of the late D. W. C. Russell will be sold at auction at one o'clock to-day.

Dr. Pollard, the eye specialist, will be at Dr. Crowell's office as usual, on Sunday from 11 to 2 o'clock.

Mrs. A. C. Clemens received word that her father had been injured in an elevator in Philadelphia, breaking a bone in his hip.

The monthly meeting of the Civic Club will be held at the club room Tuesday afternoon, March 1st, at 3:30 p. m. Election of officers.

All Republican women are invited to hear Mrs. R. H. Ingersoll, of Atlantic City, speak at an open meeting, March 3rd, in Civic Club Hall, at 3:30 p. m.

Mrs. A. F. Emgarth has returned home from a six weeks stay at the Aldine Hotel, Philadelphia, and two weeks at Lanserch, Pa., and Palmyra, Riverton, and Atlantic City.

Kate Aylesford Chapter, D. A. R., celebrated Washington's Birthday at the home of Mrs. Laton Parkhurst. The house was beautifully decorated, and a most pleasant time was enjoyed by all.

A Card. We thank the many friends who in many ways manifested their regard for our brother, T. C. Ballard, and to those who contributed the beautiful floral offerings. D. M. Ballard and family.

Jacob Mihl, Sr., one of the earliest of Hammonton's settlers, and esteemed by all who knew him, died on Saturday last, after intense suffering, aged eighty-one years, being preceded by his wife only a little over six months ago. Several of the best berries were originated by him on his farm on Union Road. Funeral services were held on Wednesday.

The mite box opening exercises of the Woman's Home Missionary Society of the M. E. Church, will take place in the Church on Sunday evening, February 27th, at 7:30 o'clock. Will those still holding boxes kindly bring or send to the Church at that time?

The Evangelistic Services in the Presbyterian Church begin Tuesday evening, March 1st, and continue to Sunday evening, March 14th. The public is invited to hear Rev. William T. Bartlett, D. D., of Chattanooga, Tenn., and is assured of no annoyance, and of much helpfulness.

Resolution of Respect.

Hammonton, N. J. Feb. 20, 1921.
On the above date, upon knowledge of the death of Bro. Teke C. Ballard, Washington Camp No. 73, P. O. S. of A. adopted the following Resolutions; that

Whereas, it has pleased Almighty God in His wisdom, to remove from our midst our brother Teke C. Ballard, therefore be it,

Resolved, that while bowing to the will of Almighty God in thus removing our beloved brother, we deeply deplore our loss, and join in sorrow with his family and friends in their bereavement.

Resolved that the charter be draped for thirty days, and these resolutions be spread on the minutes of Camp No. 73, and copies of same be sent to our local papers, and to the family of our departed brother.

Resolved that we hereby express to the family of our Brother our sympathy in their bereavement, and pray Almighty God to guide and assist them to be reconciled to their loss, and enable them to bear their bereavement in hope that they will meet again in eternity.

Committee { Thom. M. Sparkin,
Jan. Gerstenfeldt,
Wilbur Meszley.

Mrs. Laomi Monfort, mother of Charles R. and Miss Nettie Monfort, died early Wednesday morning, after a very short illness. She was a quiet, earnest Christian woman, a member of the M. E. Church since our earliest recollection, and was beloved by all. Funeral service will be held this (Saturday) afternoon, at 2:30 o'clock, at her late residence, on Bellevue Avenue.

AMONG THE CHURCHES.

Hammonton Baptist Church. Rev. Edward A. Rook, Pastor. 10:30 a. m., Morning Worship. Subject, "The Kingdom and the Will," second of a series of sermons on "The Model Prayer." 12 m., Sunday School and Bible Class.

6:45 p. m., Christian Endeavor. Subject, "How can we make our lives useful?" Leader, Miss Mary L. Hoyt.

7:45 p. m., Evening Worship. Subject, "The Lion's Den." The ordinance of Communion will be administered on the first Sunday morning of each month.

Thursday, 7:45 p. m., Prayer and Praise Service. Subject, "The Light of the World." All are cordially invited to our services.

First M. E. Church. Rev. Pennington Corson, Pastor. 10:30 a. m., Morning Worship. 12 m., Sunday School session. 7:30 p. m., Evening Worship. Thursday even'g, Prayer Service.

Christian Science Society. Services, Sunday, 11 a. m. and Wednesday, 8 p. m., in Civic Club Hall.

First Presbyterian Church. Rev. Charles O. Mudge, Pastor. 10:30 a. m., Morning Worship. Subject, "The Sin of Unconcern." 11:45, Men's Bible Class. 12 m., Sunday School. Adult and High School Bible Class. 7 p. m., Y. P. S. C. E. Subject, "How can we make our lives useful." Leader, Mrs. O. C. Rogers.

7:30, Evening Worship. Subject, "A Man—a No. 1." Thursday, 3:45, Jr. C. E. Thursday, 7:45, Church Prayer Service.

St. Mark's Church. Rev. G. R. Underhill, Rector.

Town Council.

Council held a record-breaking meeting on Wednesday evening, for they went through routine business and adjourned at 9:15. All were present except Mr. White, who is still on the sick list.

Committee reported progress on siren purchase; also, that the firemen wanted a gas mask instead of the plug sign, which would be in the way of operation.

Law and Order Committee stated that the publicity through the newspapers was accomplishing results.

Communication from Chamber of Commerce was received, thank-Council for prompt action in regard to street signs, etc.

Louis Conley asked permission to erect sign at his entrance; granted, and Highway Committee to oversee same.

Residents of Fourth Street, near Fairview, asked for city water extension. Referred.

The sale of the six acres of gravel land on farm land was deferred, as it is possible that there is a gravel deposit thereon.

Committee was instructed to secure two gas masks on trial, same to be purchased if satisfactory.

Chief was empowered to purchase suits for police. The salary of assistant engineer Geo. Klunk was raised from \$60 to \$65.

Legion Auxiliary.

There will be a meeting, probably Thursday, to organize a Woman's Auxiliary to the American Legion Post.

Notices will be sent to all ex-service men, the first of the week.

Mothers, sisters, wives and daughters of ex-service men are eligible for membership in the auxiliary.

The Outstanding Event in March occurs when Harding is inducted into office. No event will please us more than the pleasure of seeing you here soon.

Individuality, Style and Good Fitting Qualities

are the distinguishing features of the

New Spring Suits

Moving day for the President. We aim to please you and trust this will "move" you to give us a trial.

Spring is always looked forward to with great expectations. First, because it brings wonderful weather; then again, with Easter just a few weeks away, you can wear your spring suit early and get more stylish wear out of it. A suit that is modest and fits properly, gives out a striking appearance and if you want a real smart, fashionable model, one which will be admired, come to this store and make selection. No description or illustration can do justice to the wonderful fabrics, shades and styles. They have to be seen to be appreciated.

Blue Serge Suits, \$15.00, \$18.00 and \$22.50.
Tricotine Suits, \$25.00, \$32.50, \$35.00, and \$37.50.

Chats With the Woman in the Home

Have you ever noticed that although the first question asked of a person who has been to a party is invariably: "Did you have a good time?" the second is just as sure to be: "What refreshments did they serve?"

There really seems to be nothing new in that line, but the caterers are going back ten years or more and serving dishes that were popular then. For one thing the refreshments of today are quite simple; that is, the dishes themselves may be elaborate, but fewer are served. At a luncheon, for instance, you are apt to have a clear soup, a petite with potato croquette and peas and dessert. Now there is certainly nothing very elaborate about that. However, the present probably has a special of chopped mushrooms in it, and is served with a fancy shaped bread and butter sandwich. Or if fruit cup is served the fruit is topped with a spoonful of orange water ice, pineapple sherbet or the like.

Chicken salad is often served in cream cup shells. Or for dessert the shells are filled with a spoonful of hot chocolate sauce, is poured over. Another dessert that was popular ten years ago and now is along the lines of parfait. Tall parfait glasses are used, or if you do not have them, tall tumblers such as are used for ginger ale. First is a spoonful of coffee cream, then two or three whole strawberries, then a spoonful of whipped cream, then ice cream, etc., ending, of course, with the whipped cream and berries. A quart of ice cream, a box of berries and a scant pint of cream whipped will serve ten generously.

If you are looking for an entree for dinner or for a Sunday meal for a simple luncheon, try asparagus tips with Julienne potatoes and sautéed sweetbreads in cold salted water for one hour, cook for another minute in boiling salted water and plunge immediately in cold water. Remove the membrane and cut in small circles with a cookie cutter. If you are using broken sweetbreads they may be cut in narrow strips. Sauté in butter for five minutes and serve with asparagus tips with cream sauce. One pound of sweetbreads and two cans of asparagus will serve ten.

Personally I could never see that potatoes stuffed with sausage were much of a success either as an appetizer or as a main course, but when it comes to apples stuffed and baked with sausage it is another question.

Paré the apples half way down if the skin is tough, if not cut all the way down. Remove the inside of the apple, leaving a shell about a quarter of an inch thick. Chop this apple and mix with fresh cooked sausage, stuffing about one link to each apple. Roll the apple and bake until tender. This may be served for luncheon, or instead of ordinary baked apples as a garnish for roast beef. It may also be served for sausage try chopped bacon.

From month to month we go on wearing black clothes, and we never seem to think that they require cleaning. It is enough that the dirt "doesn't show," we don't worry at all about its hiding there all the time. Think how quickly soiled a white garment would be, and how a couple of days make our muffled waists years for the wash-tub, and perhaps you will realize that black, too, is unhygienic and unclean, even when it looks all right, and much more so when it has actually the appearance of being soiled and rusty.

At any time the appearance of black clothes may be greatly improved if they are thoroughly sponged with a solution of tea or coffee provided they are first of all well brushed and shaken. But they may also be washed without coming to grief. Experiment with a blouse and go on to a skirt, and you will find the same method equally viable, serge, cashmere, lawn and cloth may be cleaned.

Add a little ammonia to lukewarm water and soak the garment, without, however, rubbing it, then take it out, squeeze, but do not wring it, plunge it into cold water, then hang it dripping in the air to dry, having selected, of course, a fresh and breezy day for washing. Before beginning the process all stains should first be removed.

If you are looking for place cards and are discouraged, as you certainly are, at the prices asked, here is a suggestion that may be followed and will give most attractive articles for no cost at all—in the matter of money, that is, for they do cost something as far as time and taste go.

You have of course heard of the idea of cutting out the funny little figures that decorate magazine covers, and pasting them on black cardboard to serve as tally cards. In just such an employment you have probably disregarded several of the figures because they were too wide or too large for the conventional size card. Yet they are just the thing for place cards.

The popular fashion magazines of which have most grotesque figures, and those covers. Though these are of different sizes from month to month, they follow the same general idea. Cut the figures out of the dress or some such material, and use them on cardboard or a bulletin to stiffen them. Do not have a magazine as you do for the tally.

If there is a space in the design—a plain part of the dress or some such thing that will serve as the place for the name—well and good. If not, paste a tiny piece of white paper somewhere or other and on it write the name. Paste a little tab at the back to support them or not, as you wish.

The best place for fishing is where some small brook empties into the river. A "red tide" and "white miller" are the best flies. Cast them gently, so they will sink a few inches below the surface of the water, and you will have great sport landing a two or three-pound bass, especially if the tide is flood.

In the crevices and under the banks of small water holes it is best to stick bait. Attach to one end of the wire a heavy spike and to the other end the line. After fastening the leader and hook to the horizontal projection of the wire T, you are ready to fish.

Fishing for Striped Bass

The striped bass is the salmon of the salt water, and by all odds the greatest fish on the Atlantic coast. He fights with the activity of the tiger and the tenacity of the bulldog. It may be minnow or it may be large before he succumbs, but only when he is safe in the landing net or squarely held by the gaff, it is certain he won't escape.

He is the embodiment of placid strength, from his powerful sharply-forked tail to his square-jawed jaws and voracious mouth. His body is like the machine's long and great but much more compact and stout. His gigantic, bristling fins are admirably adapted to his incongruous life on the surf. He has a large, wide-looking eye, big, silver-colored scales, his runs in also anywhere from six inches to five feet, and in weight from a half pound to a hundred pounds.

The striped bass, which does not appear in the bays, creeks and rivers before the middle of August, nor remain much later than the first of October.

The methods of fishing for him are as various as the places in which he is found along the rocky shores of New England and Long Island, and the sandy beaches of New Jersey, channels or swamps in the marshes. In the bays you can still fish or troll, wait in the creeks and rivers you can cast the fly with certain success. The methods most in vogue, however, are chumming and still-fishing.

A suitable outfit should consist of a stout two-joint rod; a reel, holding about two hundred yards of line; a job of spoon hooks, and landing net, a number of sinkers and some wire T-anchors.

For surf fishing the angler should have a twenty-one thread line, a hook O'Shaughnessy hooks, a landing gaff, some stout woolen clothes or gilet and a deli with a socket in which to rest the butt of his rod.

The best place for fishing is where some small brook empties into the river. A "red tide" and "white miller" are the best flies. Cast them gently, so they will sink a few inches below the surface of the water, and you will have great sport landing a two or three-pound bass, especially if the tide is flood.

In the crevices and under the banks of small water holes it is best to stick bait. Attach to one end of the wire a heavy spike and to the other end the line. After fastening the leader and hook to the horizontal projection of the wire T, you are ready to fish.

Shedder-crawls, squids, rod and white worms are equally good as bait. The bait should be well put on the hook, or the striped bass pounces upon it with the voracity of a bluefish and is apt to tear it off without looking himself.

Striped bass can also be caught by trolling with a metal snail, but "chumming" is the most killing method of all.

A lot of menhaden is shipped up and thrown overboard, making an oil slick which drifts to leeward and attracts the bass in the neighborhood. A slice of fish from the back of a menhaden is baited on the hook, and the line, weighted by the hook and bait only, is thrown overhead to drift away from the boat.

The very finest baits, however, is found in the surf. On a "short" Jersey coast you cast from the beach; elsewhere the fishermen stand on a strong wall that juts a hundred feet or more into the breaker.

The most favorable conditions for fishing are an overcast sky and a brisk wind from the outward, and then the northward of the surf in his play.

The bait line forward, and motion upon the water a hundred feet or more distant. It sinks to the bottom and remains there a few minutes. It is reeled in and again sent flying over the water.

Hardly has it fallen on the water when the rod bends like a rod and the line whips as the bass takes it from the reel. The line is almost out below the boat, west of the boat, which the angler's thumb, pressed on the reel, has caused, doubles on his tracks.

Conductors' Coin Carriers that are Built in Sections

The little four-barreled coin-carrier devices made up of by car conductors are of great assistance to these officials in making change, particularly as long as the nickel fare was in vogue, but with the change of fare, which has been nearly universal, there has been a demand for something different. The usual form of change maker ejects but one coin at a time, hence, with a 6-cent rate of fare in force, it is necessary to operate a device four times to eject four pennies in making change for a dime. Improvement on this style of change maker provided for ejecting the four pennies at one operation. This was satisfactory as long as fare remained constant. However, the frequency with which the rate of fare has changed on many properties has made a further refinement in the change maker highly desirable.

Working along this line a novelty has been introduced which, it is said, will meet all demands, is it adjustable; that is, any barrel may be readily adjusted to eject from one to five coins, or one to six tickets, at one operation. Only a screw-driver is needed to change the adjustment. This arrangement does away with the necessity of discarding a change maker should a new rate of fare require the ejecting of a different number of coins or tickets.

The flexibility of the device is further enhanced by the unit construction employed. Each barrel is complete in itself and may be used separately or as one unit of a group made up with whatever number of units are needed to meet local conditions or a conductor's notes.

The framework and slides are made up of 1/8 inch nickel silver, which is exceptionally rigid and will not corrode or tarnish. All parts not subject to wear are made of steel to provide increased mechanical strength and light weight.

Current from the usual trolley wire is often used to operate machines such as the device here shown, which is a simple, compact, portable, and it is important that the machine or equipment be operated continuously. With the old method it was necessary to remove the device each time a street car passed; but with the use of a new device recently introduced, the passing of street cars does not interfere with the taking of current for operating the machine. In other words the current-tapping member does not interfere with the passage of the trolley wheel. The device is supported on a column that stands at one side of the track, a sufficient distance away to enable a car to pass. From this column the arm extends out to the trolley wire, and is held tight against the upper part of the trolley wire by means of a rope. The device can be set up or taken down in a minute.

It is well to remember that when you drop a roman numeral for you to pick it up again, and some one else is very likely to do so.

San, I'm writing a letter to Mother—how do you spell pneumonia?

Well, come on, how do you spell it?

That ought to be an easy word to spell.

Keep your shirt on, you'll find it!

For goodness sake, can't you spell a common word like pneumonia?

Well, I'll look it up!

Well, you can't expect to find it in the dictionary, can you?

I still maintain that dictionary is only a date!

Well, don't you think you had a pretty good time today? How about you say?

Inventor of the Caterpillar Tractor

Benjamin Holt, of caterpillar fame, died early in December. Mr. Holt was the inventor of the machine that bears his name, and the one from which it is generally understood that the British army engineers got the immediate inspiration for the tank. While the tractor-lager more than most inventions

who anticipated in more or less completeness by numerous early inventors, it is equally true that the work of these pioneers to an unusual extent led with them; and Holt is recognized along the highway. The first genuine grass growing on plains and down hollows affords antelope, deer and other large game excellent feeding ground. A well equipped sportsman need not have many full days hunting there from the time of the autumnal equinox up to Christmas.

Two young men, David Rubebaugh and Albert Camden, just out of college had been taking a hook at the mining camp of a branch of the Santa Fe Railroad, with a view to investing in mining stock. Not being favorably impressed with the outlook just then, they decided to turn sportsmen for two or three weeks, before completing their inspection of the mines in that part of New Mexico.

Equipping themselves with everything necessary for a hunt, they secured ponies and the services of a guide, and set out for the mining camp one beautiful day in November.

The guide led them to a wonderful canyon, where their first camp was established.

Rubebaugh and Camden were both lovers of Nature, and found plenty of material here to gratify their love for picturesque scenery, as well as to give employment to their guns.

The canyon in which they had encamped was a deep winding one, a half mile wide. It went its crooked course for more than ten miles, between huge slopes and dizzy precipices that towered hundreds of feet above the grassy bottom.

Here and there were groves of live oak and cottonwood trees, while occasionally scattered everywhere were pine and cedar; their undulating growth a beautiful contrast to the silvery stream that gushed from a rugged height, and went trickling down the canyon, until it formed a small rivulet along the highway.

Though they were with an experience in "laying for deer," Rubebaugh and Camden were not slow to acquire the way of the hunter.

With only a few directions from the guide, the young men soon learned to shoot cautiously away from camp to the entrance of some dark gulch in the canyon, where, concealed under the low oak, they did not often miss a big game animal came trooping forward, either at sunset or before sunrise.

Having enjoyed fine sport and feast of on venison for almost two weeks in the canyon, Rubebaugh and his companion, under the leadership of the old guide, transferred themselves and their camping life to the Elk Mountains, a range to the north of their first camp.

The name is derived from the principal game to be found in that region. It is necessary to climb high for the elk, because they stay on the wooded slopes and tops of the mountains, until the snow drives them to the gulches and valleys below.

Their paths through these mountains are as well worn as cattle trails, and only a few years ago they were seldom disturbed by the wandering hunter.

While the guide was "setting up the camp" on a pine-covered slope just above a clear stream, the young men

Lassoing an Elk

They were not intending to hunt any that evening, and carried only their revolvers with them.

Lost in admiration of the scenery which they passed they rode higher and higher without realizing how far they had gone from the camp. As they entered a small valley, with clumps of trees here and there, Rubebaugh halted his pony, and pointing toward a grove before them, said to his companion:

"Stop, Albert! I just caught a glimpse of something big moving among the trees. There it is now—look! What can it be?"

Albert Camden did look in the direction indicated by his friend, and saw among the foliage of the grove the head and antlers of a large elk.

"Not a gun with us," added Rubebaugh, hesitatingly.

"It's a great shame," "And our first elk!" "He hasn't seen us yet. The wind in our favor."

"I'll tell you, par," whispered Rubebaugh, unconsciously dropping into frontier talk: "Here are our larks to do with the elk?"

"Quite much," replied Rubebaugh, and, being fully alive to the hope of getting his rope also over the elk's horns. "I'll be tied and follow the rope around so tight that the monarch of the mountain could not possibly escape."

The wind being in the favor of the hunters, the elk did not know of their proximity, until two ropes simultaneously whizzed through the air toward his head.

There was a quick start on the part of the elk, and as he bounded forward from his covert, the noose thrown by David Rubebaugh snatched down taut around the great, pronged antler.

The next moment pony and rider were almost lifted over on the rocky ground by the mad plunging and pulling of the captured animal.

But Rubebaugh's pony was a sturdy fellow, and he planted his feet firmly to resist the very best the movements of the elk.

Then Camden gathered up his lasso and again flung it outward, with the hope of getting his rope also over the elk's horns. "I'll be tied and follow the rope around so tight that the monarch of the mountain could not possibly escape."

The race seemed to cover an hour to young Rubebaugh, as his pony sped on barely keeping abreast of the terrible horns that were in such dangerous nearness to its flying head.

Just before him, on the edge of a forest, a great tree had been split by lightning, and the upper half broken and bent downward to the ground, forming a triangular space between the two parts.

Chats With the Woman in the Home

Have you ever noticed that although the first question asked of a person who has been to a party is invariably: "Did you have a good time?" the second is just as sure to be: "What refreshments did they serve?"

There really seems to be nothing new in that line, but the caterers are going back ten years or more and serving dishes that were popular then. For one thing the refreshments of today are quite simple; that is, the dishes themselves may be elaborate, but fewer are served. At a luncheon, for instance, you are apt to have a clear soup, a petite with potato croquette and peas and dessert. Now there is certainly nothing very elaborate about that. However, the present probably has a special of chopped mushrooms in it, and is served with a fancy shaped bread and butter sandwich. Or if fruit cup is served the fruit is topped with a spoonful of orange water ice, pineapple sherbet or the like.

Chicken salad is often served in cream cup shells. Or for dessert the shells are filled with a spoonful of hot chocolate sauce, is poured over. Another dessert that was popular ten years ago and now is along the lines of parfait. Tall parfait glasses are used, or if you do not have them, tall tumblers such as are used for ginger ale. First is a spoonful of coffee cream, then two or three whole strawberries, then a spoonful of whipped cream, then ice cream, etc., ending, of course, with the whipped cream and berries. A quart of ice cream, a box of berries and a scant pint of cream whipped will serve ten generously.

If you are looking for an entree for dinner or for a Sunday meal for a simple luncheon, try asparagus tips with Julienne potatoes and sautéed sweetbreads in cold salted water for one hour, cook for another minute in boiling salted water and plunge immediately in cold water. Remove the membrane and cut in small circles with a cookie cutter. If you are using broken sweetbreads they may be cut in narrow strips. Sauté in butter for five minutes and serve with asparagus tips with cream sauce. One pound of sweetbreads and two cans of asparagus will serve ten.

Personally I could never see that potatoes stuffed with sausage were much of a success either as an appetizer or as a main course, but when it comes to apples stuffed and baked with sausage it is another question.

Paré the apples half way down if the skin is tough, if not cut all the way down. Remove the inside of the apple, leaving a shell about a quarter of an inch thick. Chop this apple and mix with fresh cooked sausage, stuffing about one link to each apple. Roll the apple and bake until tender. This may be served for luncheon, or instead of ordinary baked apples as a garnish for roast beef. It may also be served for sausage try chopped bacon.

From month to month we go on wearing black clothes, and we never seem to think that they require cleaning. It is enough that the dirt "doesn't show," we don't worry at all about its hiding there all the time. Think how quickly soiled a white garment would be, and how a couple of days make our muffled waists years for the wash-tub, and perhaps you will realize that black, too, is unhygienic and unclean, even when it looks all right, and much more so when it has actually the appearance of being soiled and rusty.

At any time the appearance of black clothes may be greatly improved if they are thoroughly sponged with a solution of tea or coffee provided they are first of all well brushed and shaken. But they may also be washed without coming to grief. Experiment with a blouse and go on to a skirt, and you will find the same method equally viable, serge, cashmere, lawn and cloth may be cleaned.

Add a little ammonia to lukewarm water and soak the garment, without, however, rubbing it, then take it out, squeeze, but do not wring it, plunge it into cold water, then hang it dripping in the air to dry, having selected, of course, a fresh and breezy day for washing. Before beginning the process all stains should first be removed.

If you are looking for place cards and are discouraged, as you certainly are, at the prices asked, here is a suggestion that may be followed and will give most attractive articles for no cost at all—in the matter of money, that is, for they do cost something as far as time and taste go.

You have of course heard of the idea of cutting out the funny little figures that decorate magazine covers, and pasting them on black cardboard to serve as tally cards. In just such an employment you have probably disregarded several of the figures because they were too wide or too large for the conventional size card. Yet they are just the thing for place cards.

The popular fashion magazines of which have most grotesque figures, and those covers. Though these are of different sizes from month to month, they follow the same general idea. Cut the figures out of the dress or some such material, and use them on cardboard or a bulletin to stiffen them. Do not have a magazine as you do for the tally.

If there is a space in the design—a plain part of the dress or some such thing that will serve as the place for the name—well and good. If not, paste a tiny piece of white paper somewhere or other and on it write the name. Paste a little tab at the back to support them or not, as you wish.

Entered as Second-Class Matter by WILLIAM O. HOYT, PUBLISHER

SATURDAY, FEBRUARY 26, 1931

The new town hall project is progressing satisfactorily.

This has been a short month, exactly four weeks.

White most of the merchants cleared off the snow from their sidewalks.

It was noticeable how large some of the small children were, this week, having the time of their lives, coasting down hill or "hooking on" behind wagons and sleighs.

Don't worry! We meant nothing personal by the lines: "Dead men tell no tales!"

We are ready for another blizzard. We had one this week, and two more are promised.

Special Price on Hams!

- Picnic Hams (12 to 14 lbs.) 16 c. lb.
Picnic Hams (4 to 5 lbs.) 20 c. lb.
Skin Back Hams 28 c. lb.
Sugar Cured Bacon, 30 c. lb.

ON THE SCREEN

Palace Theatre To-Night.

Select Special, — "Seeds of Vengeance."

Harold Lloyd Comedy, "Number, please."

Doors open 4 o'clock, admission to first show, 17c. thereafter 20c.

Program for Week of February 28th.

MONDAY:—Madge Kennedy, — "Help Yourself."

Second Episode, "Invisible Ray."

TUESDAY:—Louise Huff, — "What Women Want."

Fun with Firearms and Fox News.

**WEDNESDAY Catherine Calvert } "Dead Men Tell
Special and Special Cast, } No Tales."**

The man who wrote "Raffles" has contributed to the screen a story so closely knit, so filled with action and suspenseful thrills, that everybody who enjoys an unusual picture is going to be delighted with this Vitagraph seven reel special. Century Comedy, "Happy Daze." Admission, 20 c.

THURSDAY:—Eva Novak, — "The Torrent."

Final Episode "Bride Number Thirteen."

FRIDAY:—Geraldine Farrar, "Woman and Puppet."

Robin Comedy, "Pinning it On." Fox News.

SATURDAY Charles Ray, 45 Minutes from Broadway

This is the Ray masterpiece, the one that set the "Great White Way" aflame. Charles Ray is everybody's favorite, and this production is everybody's picture.

Comedy, "Monkey Stopp."

Doors open 4 o'clock, admission 17c to first show, thereafter 20c.

EAGLE THEATRE.

**TUESDAY:—Catherine Calvert } "Dead Men Tell
Special, and Special Cast, } No Tales."**

He baited his evil schemes with a beautiful and innocent young woman. What did he hope to catch? Can a man plot and execute a fiendish crime so cleverly that he will not be discovered? See—"Dead Men Tell no Tales."

Episode Number Four, "Fighting Fate."

Doors open 7 o'clock, admission, 20c.

SATURDAY:—May Allison, — "Are All Men Alike?"

The story treats of the heroine, the unmanageable daughter of wealthy parents, who dislikes to be kissed. Her boyhood chum kisses her and she resents it. When she becomes of age she decides to make her home in Greenwich Village, when she can be free, and then things begin to happen.

Sunshine Comedy, "Roaring Lions on Parade."

Doors open 7 o'clock, admission 20c.

Fireman Injured.

While attending his duties at a fire on First Road, Monday noon, Elmer DePuy, one of the oldest and most faithful members of the up-town company, was run over by a front wheel of Company No. 1 chemical, and the leg near the ankle broken. First aid was rendered by Dr. Crowell, and he was hastened to St. Joseph's Hospital, Philadelphia. At last reports he was resting easier.

The fire was on the wagon sheds and barn, belonging to Pasquale Cirrolo, both structures burning to the ground. The other buildings, but a few feet away, and the large dwelling were saved, however. Owing to poor pressure on the small mains, the firemen were badly handicapped. They did well in saving adjoining properties.

The Board of Education meets on next Wednesday evening.

In Chancery of New Jersey.

To Anna Williams, Harry M. Williams, Francis DeAndrade, Francis V. DeAndrade, John DeAndrade and Mary A. DeAndrade.

By virtue of an order of the Court of Chancery of the State of New Jersey made on the day of the date hereof, in a cause wherein William L. Black is complainant and you are defendants, you are required to appear, answer or object to the bill of said complainant on or before the 15th day of April, 1921, or the said bill will be taken as confessed against you.

The said bill is filed against you to foreclose an agreement made by William L. Black and Carrie A. his wife, and Joseph DeAndrade and John DeAndrade, dated October 20th, 1914, concerning lands in Atlantic Township, Atlantic County, New Jersey, which agreement was afterwards assigned by John DeAndrade to Joseph DeAndrade, on September 10th, 1915, and you, Francis DeAndrade and John DeAndrade, made parties to the said bill, because you are the heirs at law of Joseph DeAndrade, deceased, and, by reason thereof, claim some interest in the land described in said agreement, and you, Francis V. DeAndrade and Mary A. DeAndrade are made defendants herein you are the wife of the said Francis DeAndrade and John DeAndrade, and by reason thereof, claim an inchoate right of dower therein, and you, the said Anna Williams, and Harry M. Williams are made defendants herein because you are the husband of the said Anna Williams, and claim some interest therein.

What Is Your Furniture Worth?

Go down to a furniture store and see what it would cost you to replace your household furnishings. The dresser for which you paid \$50.00 would now cost you \$75.00, and so on through the list—the furniture you bought five years ago has at least doubled in value.

Have you doubled your insurance?

If not, and you should have a fire, your insurance money would replace less than half of your household goods.

AETNA-IZE

Immediately with a policy in the Automobile Insurance Company that will cover this great increase in the value of your furnishings.
