## A LENTEN PRAYER.

Let me be a little kinder,  
Let me be a little blinder  
To the faults of those about me;  
Let me praise a little more;  
Let me be, when I am weary,  
Just a little bit more cheery;  
Let me serve a little better  
Those that I am striving for.  
Let me be a little braver  
When temptation bids me waver,  
Let me strive a little harder  
To be all that I should be;  
Let me be a little sneeker  
With the brother that is weaker,  
Let me think more of my neighbor  
And a little less of me.  
Let me be a little sweater,  
Make my life a bit completer  
By doing what I should do  
Every minute of the day;  
Let me tell, without complaining,  
Not a humble task disliking,  
Let me face the sunniness calmly  
When death beckons me away.

SATURDAY, FEBRUARY 28, 1914

One of our oldest citizens writes us in advocacy of better protection at our railroad crossings. Last Monday evening he attempted to cross the Pennsylvania tracks at Twelfth Street, and was warned by the gateman just in time to narrowly escape a flying train (a special, he thinks), which whizzed by without even ringing a bell. The gateman was at his post, but a blinding snow-storm precluded his seeing the approaching train in time to lower the bars. Our correspondent thinks there should be an automatic bell in the "mansion," to warn the gateman that a train has entered his block; but believes, like the rest of us, that all grade crossings should be abolished.

There were some complaints, this week, of a disagreeable taste in the Town water. There was nothing harmful about it, but it was found unpalatable. It was caused by a preservative compound which had been applied to the inside of the great stand-pipe. The bad taste is still there.

But few of our people realize what Mr. Van Fleet is doing for the Town. He receives absolutely no pay for his hours of writing and study—doing it all because he believes in Hammonton, its advantages, and its future.

Nearly everybody who has a telephone appreciated it the past week, when walking was difficult, and the cold intense. To call up the grocer, the doctor, the editor, the coal man, or one's family, was a snap.

Have you made your income tax return? If your net income will exceed \$3,000 a year, such return should be made by March 1st.

Commencing next Saturday, as advertised, the Republican office will close at 12.30 noon.

FINDING FAULT. The kicking game will give you fame unpleasant, grim, and ghostly, so call a half if finding fault is what you're doing mostly. Some men seem born distressed, forlorn, them nothing ever pleases; in every cause they find the flaws, the spaving and disastes. They kick at home and when they roam about the town they grumble, and every talk they make's a knock, and every step's a stumble. They scowl, they hoot, they hoot, they hoot, at every forward movement; they hunt the town, and hold it down, and bark at each improvement. There is a trail of woe and wail where'er they've gallivanted; the boaster hates such moldy skates and thinks they should be planted. They are a bore, the town grows sore beneath their ceaseless wigglings; the hand will play some music gay when they have skipped the diggings. Just look around and note, cogs wound! how much the ground is hated, then make a half to clear your brow, and keep your bilabited. So call a half if finding fault is now your daily pastime; let out a roar just one time more, and let that be the last time!

WALT MASON,

Never Pay their Way.

The licensed saloon does not pay its way anywhere. It is always a liability, and never an asset. In a speech made recently in Pittsburgh, one of the county commissioners, gave some statistics on the "model" saloons in that county. He said the people who thought the county made money from licenses are mistaken. He said further,

"I find in going over the books of Allegheny County, that the county's share of the license money received in 1912 was \$69,000. The amount of money spent by the county the same year that in local saloons directly against the liquor business was \$6,700. This was spent to take charge of drunkards in workhouses, jails, etc., and to pay for crimes they committed. I observed that nearly all the cases in criminal court are due to drink."

## Taking Account of Stock.

Every good business man takes account of stock now and then, in order that he may know "where he is at" in his business operations. The rules that govern a successful business enterprise should also control the work of a Board of Trade. Where are we at, just at the present time? Are we making any progress, starting out two weeks in Hammoneton, which will give employment to two or three thousand people at good wages and opportunities to get to work and can find efficient help. They cannot do this with help that is on the job one day and off the next, or that does not render good service when on the job—but with efficient help they can and will do it. This certainly means more to Hammoneton than anything else.

In August last, when Mayor Breary, of Chesilhurst, started the ball rolling, there was nothing in the way of assets to begin business on—except Mr. Breary's optimism and the cheek (or "brazen impudence," as some called it) of the winter. The whole town was then split up. There had been a Board of Trade, which had done some efficient work for the Town; but that organization had long ceased its activities, not having held a meeting for years. Even the good things that came knocking at the door were allowed to pass on to the next town, with only a scant show of courtesy. We failed even to invite them in and show them around.

After about six months of effort, what is our stock in trade to-day? Suppose we figure up, and see?

1st. We have the town stirred up—stirred up as it has never been before in regard to this matter, if we may believe what some people of very good judgment have told us. About one hundred and thirty of the most enterprising men in the town—the young and vigorous ones—have agreed to unite in a vigorous effort to boom Hammoneton. With these men, apathy has given way to earnestness, and something will evidently be done, and that right soon.

2nd. While the new movement has been struggling to its feet in an effort to get into shape to do business, the old Board discovered that it still lived. It had a change from the State and about \$150 in its treasury, and that no organization of the same name and purpose had a right in this field. For a time, this condition of affairs promised some friction, but happily the matter has been adjusted to the satisfaction of all concerned. The old Board have been amalgamated with the new, and are a part of the new organization. They know the influential members of the Legislature and this has co-operation very valuable asset in the business in which we are engaged.

Mr. James Breary, now ex-Mayor of Chesilhurst, will work in all these matters. He knows the railroad people and the truly men, and is a great factor with them. He knows the influential members of the Legislature and this has co-operation very valuable asset in the business in which we are engaged.

# We Promise You Relief from All Stomach Troubles- Or Your Money Back

We honestly believe we have the best remedy in the world for indigestion and dyspepsia. We urge you to try it at our risk. If it doesn't relieve you—as we feel sure it will—we'll give back your money without a word. You know us—your family druggist. You know we wouldn't dare recommend anything we didn't know about, nor dare to break a promise. Therefore, when we recommend any remedy it is because we believe it to be better than any other to relieve the ailment for which it is made, and when we prove our faith in it and our sincerity toward you by promising to give back your money if it doesn't relieve you and in every way satisfy you, you have no possible excuse for doubt or hesitation.

are, we honestly believe, the best remedy made for Indigestion, Dyspepsia and all other Stomach Ills

## We Know They're Good

Rexall Dyspepsia Tablets, in addition to other ingredients, contain Pepsin and Bismuth, two great digestive aids used by the entire medical profession. They soothe the inflamed stomach, check the heartburn and distress, stimulate a healthy secretion of the gastric juice, aid in rapid and comfortable digestion of the food and help to quickly convert it into rich red blood, and thereby into flesh, bone and muscle. They relieve stomach distress promptly, and, used regularly for a short time, tend to restore the stomach to a comfortable, easy-acting, healthy state. They aid greatly to promote regular bowel action.

## Delays Are Dangerous

Don't neglect indigestion, for it frequently leads to all sorts of ills and complications. The pain and discomfort is not the most unfortunate part. The fact that when the stomach is not acting right, the material needed to repair the wastes that are constantly taking place in the body is not being given to the blood either in the proper condition or fast enough is far more serious. Nothing will cause more trouble than an unhealthy stomach. The blues, debility, lack of strength and energy, constipation, biliousness, headaches and scores of other serious ailments result from the failure of the stomach to properly do its work.

## You Risk No Money

Our willingness to have you use Rexall Dyspepsia Tablets entirely at our risk proves our faith in them. We always sell them this way, and it is because we know that they have greatly benefited scores of sufferers to whom we have sold them. There's no red tape about our guarantee. It means just what it says. We'll ask you no questions. You needn't sign anything. Your word is enough for us. We know that when they help you you will consider it money well spent even if they had cost you ten times as much. If they don't help you, the money you paid for them is yours, and we want you to have it.

Sold only at the more than 7,000 Rexall Stores—the World's Greatest Drug Stores. In convenient boxes—three sizes: 25c, 50c, \$1.00

From a New York City Friend.

MR. EDITOR: As a frequent visitor, I have had occasion to remark many times on the advantages which Hammonton can boast of, both as a centre of business activity and a place of residence. To my mind, there is no good reason why the five hundred families which Mr. Van Fleet's article alludes to as necessary to the future of Hammonton, should not be found and induced to "join the band." I assume that work to that end is what your new Board of Trade was organized for, and I see no need of stopping with the five hundred—why not a thousand?

With an ample supply of the finest drinking water I know of anywhere, with gas, electric light, telephone, excellent stores, and a climate that is hard to beat, with High and Grammar Schools which are certainly fully equal to any, and with a quick communication by two railroads with the world outside, what more would any newcomer ask?

One suggestion that may help,—a few months ago, I was passing through Worcester, Mass. Within say two hundred feet of the track, and near the station, I saw an immense sign with lettering which could be easily read from the train, electric-lighted nights, setting forth the advantages of Worcester, in a business and residential way. It occurs to me that a similar sign, set up on ground which is at present unoccupied to the South-east of both stations between the tracks of the two railroads, seen by every

one passing through, would be a great attraction to the city. It would be a good advertisement for Worcester, and would bring many people here.

J. A. VAN FLEET.
