DID YOU EVER

Stop to think what a fine piece of mechanism your watch is? and that you are injuring it by letting it run too long without having it cleaned and oiled?

A watch is injured more in one month, when running dirty, than in a year's time when properly cleaned and oiled.

Why neglect to have it cleaned, when you can get it done, and guaranteed, for One Dollar?

AT DUDLEY'S,
HAMMONTON, N. J.

ELVINS & ROBERTS.

Flour.

The Flour market has advanced from 15 to 25 cents per barrel, first hands; but having secured a large stock before the advance, we still hold our price at old prices, thereby giving our customers the advantage.

We quote from \$4.50 for good Family to \$5.50 for Best Blended—Spring and Winter Wheat mixed—under our special brand "Royal," and for all baking purposes is certainly well worthy its name.

Feed.

We have always a full stock of all kinds of Feed.

While the market price on some kinds has advanced considerably, yet at the prices we are now quoting you will find us very low,—if anything, a little under the wholesale prices now prevailing.

Fertilizers.

We strongly advise placing orders for Fertilizers EARLY, especially for Dried and ground Fish Guano, which is exceedingly scarce. We have secured all we can, and are prepared to take orders; but the supply being very limited, "the first come first served." Order what you will want, NOW.

Mapes' Complete Manures for all crops are still popular. Our orders are now in for these goods, and they will be ready for delivery about March 1st, when we will be pleased to quote prices.

Berry Baskets.

We are now prepared to take your order for Quart and Pint Berry Baskets, for which, in view of the recent action of Commission Merchants in several of our markets, we anticipate unusual demand.

Place your orders early, as later they may be hard to get.

Agricultural Implements.

Can furnish anything and everything in the line, from a Corn Cutter to a Mowing Machine.

We are agents for the "Bissell" South Bend Plows.

Canned Goods.

Tomatoes and Corn especially, are also advancing. We quote at only a trifle above old figures:

Corn, 10, 12, and 13 cents.
"Peerless" Tomatoes at 11 cents are a bargain. Other good brands at 10 c.
"Bear" brand Salmon at 16 c. is cheap.
Fresh Mackerel (in one pound tins) is good eating, and at 12 cents per can is cheaper than mackerel in the salt.

Shoes.

A nice line of Women's and Misses' Shoes now in stock. We quote only one style as a sample.—Woman's Dongola Button at \$1.25. We think it the best shoe for the price now on the market. We have others, costing more money, which will give the wearer no better service.

Outing Flannels.

For Spring are beginning to arrive. Some of them are beauties, and at the uniform price of 19 cents per yard are very popular. Call and see them.

Garden and Field Seeds.

Will be here shortly.

Seed Potatoes.

It may seem a little premature to mention Seed Potatoes before the snow is gone; but we just want to remind you that the time will be here soon, when there will be a sharp demand for them. We shall have them in all the best varieties, at prices as low as the present condition of the market will warrant.

Don't buy until you get our figures.

Washington Letter.

From our regular Correspondent.
Washington, Feb. 27, 1893.

The President is not losing any sleep because of the failure of the Senate to ratify the treaty providing for the annexation of Hawaii, and the report that nearly one-half of the Senate is opposed to its present ratification, some of them (mostly Republicans) because they doubt the wisdom of immediate annexation, believing a protectorate preferable; and others (mostly Democrats) because they do not wish the credit of acquiring the islands to go to the Republican administration. Mr. Harrison has done what he conceived to be his duty in negotiating the treaty and in sending a message to the Senate recommending that it be immediately ratified. When that was done, the responsibility was transferred to the Senate, and there he is willing to leave it. Mr. Cleveland may not have taken a hand in this business, but the sudden change of mind among the Democratic Senators, some of whom were only a few days ago clamoring for prompt action, is, to say the least, suspicious. Some people (but your correspondent is not one of them) believe that Judge Gresham is responsible for the failure of the Senate to act, and that he is opposed to annexation for no better reason than that it is favored by Mr. Harrison.

Unless there is a radical backdown on the part of the friends of the Sherman amendment to the Sundry Civil Appropriation bill, authorizing the Secretary of the Treasury to issue 3 per cent. bonds if he considers it necessary, an extra session of Congress will have to be called. This bill is now being considered by the House, and the ultra silver men are apparently determined to kill the whole bill by filibustering if the Sherman amendment cannot be defeated in any other way, and it cannot be unless its friends (a majority of the House) will consent to its defeat, and there is no present indication that they will do that. Republicans do not favor an extra session, because they do not believe that it will be advantageous to the business interests of the country, although from a strictly political standpoint it would be extremely advantageous to the Republican party.

The President has issued the usual proclamation convening the Senate in extra session at noon on the 4th day of March. This extra session is called to act upon the nominations made by the new President, but it may in this case also act upon the Hawaiian annexation treaty, unless Mr. Cleveland withdraws it, or it shall be acted upon before then.

Secretary Foster made, on Saturday, a supplementary report on the condition of the Treasury, to the House Ways and Means committee, in which a reduction in his previous estimates was made. He said that he had not made allowance for the payment of the Choctaw Indian claim, which will take about \$8,000,000, and that receipts from customs had already fallen below his estimate because of the expectation of early changes in the tariff law. He also told the committee that he thought it probable a deficit would exist in the fiscal year beginning July 1, 1893, and that if he were to remain at the head of the Treasury Department he would like to have an addition of \$50,000,000 to the balance, \$25,000,000 of which he would use to maintain the gold reserve. The Secretary takes no stock in the wild talk about the danger of a panic, either now or in the near future. Such talk has been persistently put forward by those who expect to benefit by a financial scare and its consequent effect upon the commercial interests of the country. It is creditable to America that the most of these financial jackals and vultures are foreigners, without interest in the United States, further than the money they can make.

Speaker Crisp was guilty of a bit of usurpation, the other day, that would have been cried from the Democratic house-tops had he been a Republican. It came about this way: The House committee on Elections decided by a

party vote the contested election case of Miller vs. Elliott—in favor of the sitting Democrat of course—and instructed Mr. Paynter, of Kentucky, to prepare the majority report, and Mr. Johnson, of Indiana, the minority report. Mr. Johnson, although sick in bed, prepared his report and took it down to the House, although advised against leaving his room by his physician, only to be informed that the majority report had not been prepared and would not be until this week. Knowing that to mean that the majority report would probably never be made, Mr. Johnson presented his report to the House, and it was by a vote ordered printed. He was surprised, an hour later, to be informed by the printing clerk that Speaker Crisp had issued an order forbidding the printing of the report until the majority was presented. Mr. Johnson was naturally indignant, and he went to Speaker Crisp and called his attention to the fact that the House had ordered his report printed, and that the Speaker had no authority to suppress it. All the same the Speaker did suppress it. How is that for Czarism? HARRY.

The Press has the best possible organization to secure news from the most important sources, and with nearly 400 correspondents in Pennsylvania, New Jersey and Delaware, the State and near-at-home news is covered with a minute carelessness and attention to detail not even attempted by any other paper. The Press has also the best of correspondents in all the great cities of the United States, as well as financial and railroad experts in Chicago and the West, who keep the paper more than abreast of all events. The columns of the Sunday Press are enriched by contributions from those whose names are written high in our lists of great authors, novelists, essayists, as well as from men of high rank in public life. The best authors know that their best audiences are the readers of the Daily, Sunday, and Weekly Press.

In politics, the Press knows no other matter than the people, and the past year has seen, as has been seen before, the marked fact that it is subservient to no political boss. It has no political ambitions to favor, but looks after the interests of its readers, and delivers itself upon the issues of the day in a manner both frank and fearless, letting the facts speak for themselves and avoiding no issue, but meeting them all on the basis of fair play to all men at all times. Its pages know no distinctions, and the rights of one class over another are not recognized nor supported.

PAINT! PAINT!
—THE—
HAMMONTON.
When you buy the Hammonton
Paint, you do not buy seven-
eighths of a gallon for a gallon,
or three pints for a half gallon;
nor do you get one of those
packages that weigh 12 to 14
pounds, and containing so much
alkali that it appears to be so
thick that it is impossible to
use it without thinning; but in
buying the Hammonton you get
a full standard gallon of paint,
weighing 14 to 16 pounds to the
gallon, made from the best
materials known to the trade,
and costs the consumer from \$1
to \$1.60 per gallon for honest
paint.

If the purchaser doesn't want
honest paint, and wants to be
honest to himself, then be sure
to buy the Hammonton Paint,
and the manufacturer will give
a receipt with every gallon sold
telling you how to make two
gallons of paint out of one of
the Hammonton. It will cost
33 cents for the extra gallon.
One Dollar.
And then you have Commercial
Paint, in 30 shades, —the best wearing
paint ever put on the market for so low a
price as \$1 per gallon, and guaranteed
to be a first-class wearing paint. If any
one should want to play so high a
game for a good exterior paint, then work
the 33 cent racket, and get two gallons
for \$1.33. Manufactured at
Hamonton Paint Works.

The Republican.
PUBLISHED WEEKLY
WEDNESDAY, MARCH 4, 1893.

The obnoxious race-track bills passed by the State Senate last Saturday, were filed on Monday, and became laws in spite of the Governor's veto. The whole State was aroused with righteous indignation, meetings were held almost everywhere and resolutions of condemnation poured in upon the "ambitious herd." On Wednesday, one of the largest meetings ever held in the state gathered in the Assembly chamber, which proved too small, and they adjourned to the Opera House. Addresses were made by judges and lawyers, preachers and teachers, none of whom were sparing in their denunciation of the means, methods, and men by the use of which the present deplorable condition was brought about. A series of vigorous resolutions adopted call for the immediate repeal of these obnoxious bills. Large delegations were present from all parts of Jersey. Both branches of Legislature adjourned for the week, Tuesday, "to make arrangements to witness the inauguration."

They had heard that the people were coming, and had no appetite for the legislation they had passed. There is a faint rumor that several who voted for these gamblers' bills have professed sorrow and proupled to vote for their repeal; but neither Hoffman nor Beake are named in that list.

Mr. Cleveland has completed his Cabinet, and was disappointing to the very last in its selections. His advisers will be—that is, if he will let any one advise him:
Secretary of State, Walter Q. Gresham, of Indiana.
Secretary of the Treasury, John G. Carlisle, of Kentucky.
Secretary of War, Daniel S. Lamont, of New York.
Secretary of the Navy, Hillary A. Herbert, of Alabama.
Secretary of the Interior, Hoke Smith, of Georgia.
Secretary of Agriculture, J. Sterling Morton, of Nebraska.
Postmaster General, Wilson S. Bissell, of New York.
Attorney General, Richard Olney, of Massachusetts.

Somebody calls this a political mosaic of wonder-ful design.
If the people of New Jersey have not sunk to the same level of shame, they might avenge themselves when they act as sovereigns at the ballot box. Such shameful surrender to the race track influence and interests should be followed by the most thorough repudiation of the party that is responsible for it.
The party that went wild over the inquiry of Local Option as applied to the liquor traffic swallows it whole when applied to the race track. Does New Jersey realize its shame?

Camden capitalists are the principal stockholders in a street railway company that has been formed, with a capital of \$20,000, to build a trolley line two miles long in Millville. The road will be extended to Bridgeton, a distance of ten miles, as soon as possible.
The directors of the Young Men's Christian Association of Camden have decided to erect a building. About \$10,000 has already been subscribed.
Even if we could see ourselves as others see us, most of us wouldn't stop to look.

The Republican's Town Caucus was called for Monday evening in the Council Room; but when the hour arrived the room was found to be entirely too small, and Union Hall was opened and quickly filled by voters and lookers-on. It was the largest party caucus we ever saw in town—180 votes being cast.
Called to order by J. C. Anderson, of the Executive Committee, M. L. Jackson elected Chairman, Orville E. Hoyt, Secretary, E. W. Strickland and Wm. H. Bernhouse appointed tellers.
The following were nominated:
Town Councilmen, Theodore B. Down, William A. Elvins, Sr., William Cunningham, John Augustus J. Smith, Collector and Treasurer, Alonzo B. Davis.
Assessor, Edward W. Strickland.
Overseer of Highways, William H. Burgess.
Justice of the Peace, James B. Hyatt.
Town Justice, John Atkinson.
Overseer of Poor, Geo. Bernhouse.
Commissioners of Appeal, Marcellus L. Jackson, Edward K. Sproul, George W. Proseay.
Pound Keeper, Wm. Sturtevant.
Money for Town Purposes, \$1100.
Money for Highways, \$2500.
Money for Poor, \$500.
Money for Street Lights, \$400.

There were but three contests,—A. S. Gay receiving 40 votes for Overseer, to Burgess 90. For Town Justice, G. W. Proseay received 37, Atkinson 63. For Pound-keeper, Harry Little 21 votes, Sturtevant 88.
The following resolutions were read by the Secretary, and on motion adopted by a unanimous vote, with the very unusual accompaniment of cheers and applause:
Resolved, That we, Republican voters of the Town of Hamonton, in regularly called caucus assembled, do hereby express and publish our condemnation of the race-track and disorderly-house bills passed by the New Jersey State Legislature.
Resolved, That by their votes in favor of said bills, Senator Samuel D. Hoffman and Assemblyman Charles A. Beake deserve and receive our disapproval, and have forfeited the respect and support of all right-minded Republicans.
Resolved, That the Secretary of this caucus forward to Messrs. Hoffman and Beake a copy of the above resolutions, signed by himself and the Chairman.
The Democratic caucus, last Saturday evening, was also well attended. Their ticket is the same as the above, except for Councilman, T. B. Down, S. H. Holland, John M. Austin, for Town Justice, G. W. Proseay; no Overseer of the Poor; Pound Keeper, Harry Little; money for the Poor, \$400.

Regular meeting of the Town Council, last Saturday evening, presided over by Messrs. Down, Bernhouse, H. Woodson, Andrews, Absent, Messrs. Holland and Rogers.
Bills ordered paid:
H. E. Andrews, salary \$40.00

Last week, a young Italian who was temporarily in charge of Stephen Malchiorre's place, caught two of his countrymen stealing chickens. One of them escaped in the darkness; the other was recognized, and threatened the young man with a knife. Complaint was entered, and on Friday Justice Atkinson sent the thief to jail, in care of Constable Bernhouse. Saturday eve's the young man sat at the table eating a lonely supper, when crash! bang! and his hat flew from his head. There was no one quick-witted enough to start an immediate investigation, but appearances indicate that some one showed the barrel of a shotgun through a window-pane, and quickly fired, the shot tearing away part of the crown of the young fellow's hat, and passing through the board sheathing just above his head, bursting off plastering on the other side of the partition. It was a daring attempt at assassination, and came unaccountably near succeeding. No clue.

When the race-track bills were before the Assembly, for passage over the Governor's veto, Charles A. Beake was present and voted in favor of the devilish bill, and is reported to have added a gratuitous insult, by saying that his constituents had a race-track, and desired it legalized. Beake knew better, unless he is a fool—and that he is not. Contumacious language fails to express the contempt we feel for every man (?) who voted to legalize the satanic orgies daily witnessed at Gloucester and the pest holes, under the name of horse-racing. Their excuses are more nauseating than their actions.
Wednesday, March 3rd, will be a big day for our farmers and fruit growers. At two o'clock that afternoon, Professor Voorhes will speak on "How to buy and use fertilizers." President Burgess or Secretary Dye, of the State Board of Agriculture, will follow with an address on the Ocala Experiment Station. In the evening, Prof. Smith will speak on "Insects injurious to fruit and fruit trees," and Prof. Halstead on "Fungus diseases injurious to fruit and fruit trees." Both meetings are free to all who have interest enough in their business to attend. Union Hall. Of course the ladies will be welcome. They are equally interested in the production of good crops, and should be posted as to best means and methods.
Mr. Error—I want to say a few words, and won't hide behind a nom de plume in saying them.
S. D. Hoffman, our misrepresentative in the State Senate, has had his day: he has unblushingly and openly voted to legalize the worst form of gambling in any country, and by the lowest class of cut-throats, thieves, and hangers. He was once a teacher; but God save the mark for his latter-day—and last-teaching! He has sunk to rise no more. Of little Beake, no one expected it, to do else; than talk.
Right here let me say, Mr. Editor, that at the next legislative election, I will vote for no man, be he Democrat or Republican, who does not previously pledge himself to vote, if elected, for the repeal of these infamous laws and their twin brother, the county excise commissioners act.
Let your readers observe the names of those who legalized these crimes, and they will see that the real leader was a man from the most beautiful isle of the sea, who no doubt unintentionally conferred a favor upon said isle by leaving it. I refer to one Tom Flynn, once of Ireland.
And Hoffman's "name led all the rest." There's no "Riddle" about that. It is said that \$300,000 were spent to bring this devilishly infamous measure about. I don't think Mr. Hoffman received or would receive one cent of this bribe. I believe that he was honorably elected, and that it would be infamous to turn him out; but I know that he has turned himself damn, and that "for good."
Wm. RUTHERFORD.

New Jersey has made herself, at the hands of the Legislature, the dumping ground for all the race-track gamblers and gambling of the country. What do the people intend to do with the Democratic party for this disgrace?
The passage of those three race track bills is said to have cost \$200,000. What does the State get as a return?

Mr. McKinley was with having appeared before him the other day. McKinley was to be taken by inquiring: "I'd like to know what else we are in power for." Of course, of course. By all means "rip it up the back," as Mr. Watterson says, as speedily as possible. But the course of the Democratic party to do what it is pledged to do will fail it at the critical time. Discretion will then be better than courage.

Democratic free-traders begin to hedge on the tariff, and express fears about the silver question and gold exports. These fears may be well grounded, but what are petty silver troubles or the export of a paltry \$13,000,000 of gold a month compared to the \$700,000,000 of yearly tariff burden which Mr. Springer says tariff "reform" can lift off the bowed shoulders of the people?

New York Tribune, 1893
Greatest of Republican Papers.
National in its Aims, and Devoted to the Welfare of the Masses of the American People.

The **New York Tribune** concedes the election of Grover Cleveland, but insists on defending the Republic on Finance and Protection, with all the **South Jersey Republican** commands. The discount of the farmers which caused the Democratic victories of two years ago. The **New York Tribune**, addressing itself directly to them for the last two years, has carried on a campaign of discussion for their benefit, and the result, coupled with Whiteley's very great service to farmers, has been that the agricultural communities have stood faithful to the Republican party, in a campaign in which, in other localities the party went completely to pieces. This year, the Democratic leaders changingmen. They pointed to the higher prices of farm products, and the workmen of Northern cities that the British tariff system, (that is to say, lessened protection to American farming and industry) would lower the prices of food and manufactured products, and the profits of "monopolists" in this country, while at the same time the laboring classes were being no the highest ever known in the United States. By false pretense, deception, and a pandering to the lowest passions of uninformed men in large cities, they have carried the country and elected a Democratic President and Congress.

The **Tribune** conscientiously awaits the result. Not for one moment will it allow the **Tribune** yield one inch of ground in the battle for American policies. Howell G. Horst's great articles will be among the features of **The Tribune**, the coming year. Men of every political faith are invited to read them. They will state the Republican view with frankness, point out the probable consequences of a change in the policy of the country, and the results of the tariff and other facts bearing upon the subjects discussed. Their thorough treatment of fundamental principles will aid every reader to a better understanding of profound and important issues.
A page a week will be devoted, during 1893, to war stories and news of interest to Union veterans. Old soldiers, who have some expectations as to which one of our war heroes should be selected to send the story to the **Tribune** for publication.
Farming has now become such an enormous interest in the United States, that there is an imperative necessity for making more of a specialty of the business interests of the farmers of the country at large. Plans have been formed which ought to be made semi-weekly and the **Weekly Tribune** absolutely indispensable to every tiller of the soil during 1893.
A large number of entertaining features of general interest will also appear. "How to Succeed in Life," "Village Improvement," special articles by brilliant men and women of high reputation, Chess and Checkers, and a hundred other things which cannot be recited in a brief prospectus, will give the **Tribune** a readership of more than the thousand and one things which refresh the mind, entertain the imagination, and guide the reader in the prosecution of business and social life.
The **Tribune** asks for reports as to the operations of Village Improvement Societies, from those who are acquainted with their operations.
A list of the names of excellent premiums will be sent free on application.
The **Semi-Weekly** is particularly commended to the attention of general readers. It gives more of the keen incisive editorials, book reviews, foreign letters, and other valuable features of **The Tribune**, than there is room for in the **Weekly**. The large type and broad columns of the **Tribune** make it easy to read.
WEEKLY, \$1 a year. **SEMI-WEEKLY**, \$2. Sample copies free.

Friends of Agriculture, Industry, and the Republican Party are invited to make up clubs for this paper in their localities. There are four years of trial, of new experiment of discussion of great public interest before the country. The **Tribune** will lead in the presentation of the Republican view. The friends of the splendid record of the Republican party can aid in the final triumph of Republican principles by seeing that the people read the **Republican** side of the story.
