## Cycling News.

A tri-state 150 mile relay race be-  
 tween Philadelphia and New York will  
 be run off about June 1st. It will be  
 similar to last year's, and open to riders  
 from Pennsylvania, New Jersey, and  
 New York. The Pennsylvania team  
 was victorious last year.

Wheeler starts for Europe on March  
 20th to compete in this season's races.

Who is to be the official referee? The  
 names of several prominent wheelmen  
 are named as having a "sure thing" on  
 it.

The Pennsylvania handicapper will  
 have New Jersey south of Trenton under  
 his charge. This is quite an improve-  
 ment over the previous arrangement  
 under the New York official.

A large chain factory claims that they  
 turn out over a mile of chain per day.

Hansen, the long distance rider, re-  
 commends a century in the morning  
 between three and ten o'clock, as good  
 training for long distance riding, and  
 says you will feel like "working" when  
 you get to business after finishing the  
 hundred. Perhaps; but every rider  
 isn't built that way.

One of the leading lights of Class B is  
 responsible for the following on training:

One should be very careful not to  
 overdo the thing when beginning. Start  
 in easily with light exercise. Gradually  
 increase the length of your daily ride;  
 for instance, the first week let three or  
 four miles suffice, morning and afternoon,  
 at a 3 30 gait, gradually increasing this  
 until the mile is traveled in 2.50. Final-  
 ly, add your sprint, "let out" at the end  
 of your ride for 100 or 200 yards. Follow  
 this plan for a couple of weeks, then the  
 rider will be in condition to do harder  
 work. Do your work about two hours  
 after eating, 10 a. m. and 4 p. m.

Do not ride too soon after eating, as  
 the stomach has its work to do in digest-  
 ing the meal. If the blood is used by  
 muscles brought in use, the digestion  
 suffers, and the stomach is weakened.  
 The great secret, in my mind, to be a  
 great rider is to have plenty of rubbing  
 with linaments, and with the correct  
 massage treatment the stiffness and  
 soreness will leave as though by magic.

The position a rider strikes on his  
 machine is another very important  
 point, if he wishes to be a success. So  
 many ride too low a reach, or else too  
 long, or too far forward or too far back-  
 ward—there is a happy medium, viz.:  
 Turn the cranks of the machine so that  
 they are parallel with the top of your  
 saddle. Then take a plumb line and  
 move your saddle forward so that the  
 peak is just about two and one-half or  
 three inches forward of the pedal.

Alcohol is the barrier to an athlete's  
 success—here he stops and falls to pieces  
 if addicted to its use. It not only ruins  
 the stomach, but plays havoc with the  
 muscles and nervous system, and ren-  
 ders a man unfit for any mental test of  
 nerve and agility,—causes weakness  
 and instability.

Tom Winder, of Warsaw, Ind., has  
 just started from New Orleans on a  
 trip around the United States. The  
 distance is estimated at about 21,600  
 miles, and he expects to make it in 300  
 consecutive days.

A bill has been introduced at Trenton  
 placing a penalty of one month's im-  
 prisonment and \$100 fine on any person  
 throwing glass or anything liable to  
 injure pneumatic tires in the street.  
 Another provides that all railroads  
 shall carry bicycles free when accompa-  
 nied by the owners.

Everything points to a very early  
 riding season.

## OLD WHEELS

Will sell more rapidly  
 "fixed up" a little. Some  
 enamel, maybe a little  
 nickeling, a new bell or pair  
 of pedals.

All these things are right in my line.  
 A can of the best Bicycle Enamel costs  
 25 cents. Then we've a sort of stain  
 that makes a metal rim look like wood—  
 50 c. a package. Everything here that  
 cyclists use, you know.

## The Weather:

Special Forecast for New Jersey.

Lower temperature, heavy frosts, and high  
 thin winds, are predicted for South  
 Jersey, especially in the vicinity of  
 Hammonton. Vessel owners, land-  
 lords, farmers, business and profes-  
 sional people would do well to make  
 immediate provision for cold wave,  
 purchasing stoves, ranges, and heaters  
 from S. E. Brown & Co., whose goods  
 are known to be the best of their class.

All stations in  
 territory described will continue to display cold wave  
 signal till further orders.

List of uncollected letters in the Hammonton Post-Office, on Saturday, March 9th, 1895:  
John L. Griffin, Arthur Lawton, E. F. Waller, Lucia De Potts, 2, Miss Louise Schuler.  
FORWARD.  
Antonio Marco.  
Persons calling for any of the above letters will please state that it has been advertised.

**JOHN T. FARNER, P. M.**  
The District Clerk had posters printed, calling the annual school meeting; but a letter from the County Superintendent changes the whole matter except date. New laws give the District power to reduce the number of members comprising the Board from nine (as now) to five or three. The Board had a special meeting on Thursday evening, and new notices will be prepared.  
On Tuesday afternoon at the Winslow Brick Works, J. W. Logan was feeding clay into the crusher. The machine was stopped to clear out the gravel, and started up before Logan had removed his hand, which was caught by the rollers and crushed to a pulp up to and including his wrist joint. He was brought home, and Drs. Crowell, North and Cunningham attended the hand (the right one) above the wrist joint. Mr. Logan has resided here for several years, has a wife and several children dependent upon his labor for support, and has the sympathy of all. He stood the trial well, and at last accounts was doing well.

The Senate Investigating Committee is doing a good work. It has already made some amazing discoveries in connection with the administration of Mr. Bernard J. Ford, as Superintendent of the State House, and there are more to follow. That office as conducted must have been a veritable bonanza, for the expense of the State House maintenance which averaged \$20,000 per year from 1875 to 1890, gradually increased to \$71,000 in 1894, under Mr. Ford's careful nursing. The investigation was badly needed and it would be a good idea to enlarge its scope so as to embrace other departments.  
No grander achievement may man enjoy than to be able to say, as did the Master, "I have finished the work Thou gavest me to do."  
The President breathes more freely—his own Congress has expired.

**May do as much for You.**  
Mr. Fred Miller, of Irving, Ill., writes that he had a severe trouble for many years, with severe pains in his back, and also that his bladder was affected. He tried many so-called kidney cures, but without any good result. About a year ago he began use of Electric Bitters, and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles, and often gives almost instant relief. One trial will prove our statement. Price 50 c. for large bottle, at Croft's.

"Perhaps you would not think so, but a very large proportion of diseases in New York comes from carelessness about catching cold," Dr. Syrus Edson.  
"It is such a simple thing, and so common, that very few people, unless it is a case of pneumonia, pay any attention to a cold. New York is one of the healthiest places on the Atlantic coast; yet there are a great many cases of catarrh and consumption which have their origin in the neglect of the simplest precaution of every day life. The most sensible advice is, when you have got one, get rid of it as soon as possible. By all means do not neglect it." Dr. Edson does not tell you how to cure a cold, but we will. Chamberlain's Cough Remedy, 15¢ per bottle, relieves the inflamed membrane, opens the secretions, and soon effect a permanent cure. 25 and 50 cent bottles for sale by druggists.

## Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. 25 cents per box, at Croft's pharmacy.  
For seven years or more, Mr. W. D. Londer, of Quincy, Ky., was subject to severe attacks of cramp colic. Mr. S. R. Morse, a druggist of that place, recommended Colic, Cholera, and Diarrhoea Remedy, which has effected a permanent cure, saving her much suffering besides the trouble and expense of sending for a doctor, which was often necessary. For sale by druggists.  
The disposition to look on the bright side of things, and to make the best of everything that is good, is equivalent to a fortune to its happy possessor.  
It is estimated that Philadelphia daily consumes over half a million eggs.

**NOTICE TO CREDITORS.** Levi G. Horn, Executor of the estate of Mary Horn deceased, by direction of the Surrogate of the County of Atlantic, Jersey, gives notice to the creditors of the said Mary Horn, to bring in their debts, demands and claims against the estate of the said deceased, under oath, within three months from this date, or they will be forever barred of any action thereon against the said Executor.

**Notice to Absent Defendants**  
IN CHANCERY OF NEW JERSEY.  
To Lewis B. Hickman, Catherine MacCarroll, and Lewis F. Lins.  
By Virtue of an order of the Court of Chancery of New Jersey, made on the day of the 1st instant, a cause wherein Maria C. Collins, executrix of Anna C. Bradbolt, deceased, is complainant, and you and others are defendants, you are required to appear, plead, answer, demur to the bill of said complainant, on or before the eighth day of April next, or the said bill will be taken as confessed against you.  
The said bill filed to foreclose a mortgage given by Lewis B. Hickman and others, to Isaac A. Bradbolt, dated the seventh day of October, 1875, in favor of said Bradbolt, and others, in the Town of Hammonton, Atlantic County, New Jersey, and you Lewis B. Hickman, Catherine MacCarroll, and Lewis F. Lins, are made defendants because you own said mortgage, and you are required to answer the bill to the same on or before the eighth day of April next.

A year ago, after a Democratic Assemblyman had been elected by Hammonton votes, the Democratic committee thought the time was ripe for choosing town officers of their political faith, so called a caucus and nominated a ticket. Now, some of that party condemn the Republican committee for following their example. A specimen of Democratic consistency!

FOR SALE. Store property at Elm. Post Office on the premises, apply to R. J. VAN DOREN, Hammonton.  
A CARD.—We desire to take this opportunity to express through your columns our sincere and heartfelt thanks to all who so kindly and generously assisted us in our recent fire and bereavement.  
FRANCIS THOMAS, BLANCHE E. THOMAS, F. N. THOMAS.

**THE CAUCUSES.**  
The Republican caucus was held on Wednesday evening. Called for Firemen's Hall, the attendance proved too large and they adjourned to Union Hall, where caucus was called to order by Dr. Bowles. John C. Anderson was chosen Chairman, Orrville E. Hoyt Secretary. The highest number of votes cast was 97—for Overseer of Highways. The ticket nominated is as follows:  
For Councilmen, Wm. Cunningham, James F. Fatten, Alvin Adams, Town Clerk, J. L. O'Donnell, Collector and Treasurer, Frank E. Roberts, Assessor, Charles F. Crowell, Overseer of Highways, Wm. H. Burgess, Justice of the Peace, no nomination, Commissioners of Appeal, Edwin B. Sprout, Gerry Valentine, Marcellus L. Jackson, Chosen Freeholder, Marcellus L. Jackson, Overseer of the Poor, George Bernhouse, Town Justice, John Atkinson, Pound Keeper, Chas Titus, Appropriations, Highways, \$5000; Town Purposes, \$1200; Poor, \$600; Street Lights, \$450; Water, \$200; Fire Company, \$100.  
The "Citizens' Caucus" was held last Saturday evening, as advertised. P. H. Jacobs was elected Chairman, A. J. Smith Secretary. The attendance was estimated at not less than one hundred and fifty, but the highest vote recorded was thirty-nine. This indicates that a large majority were spectators; many were Republicans, who, having called a separate caucus, felt that they had no right to participate,—though the call was for "all legal voters." The following is the ticket nominated—there being but little contest:  
Councilmen, Wm. Cunningham, Cyrus F. Osgood, Lyford Beverages, Town Clerk, Augustus J. Smith, Collector and Treasurer, Alonzo B. Davis, Assessor, Robert Anderson, Overseer of Highways, William H. Burgess, Justice of the Peace, George W. Pressey, Town Justice, George W. Pressey, Commissioners of Appeal, Edwin B. Sprout, Gerry Valentine, George W. Pressey, Chosen Freeholder, Marcellus L. Jackson, Overseer of the Poor, George Bernhouse, Pound Keeper, William Sturtevant, Appropriations, Highways, \$2500; Town Purposes, \$1200; Poor, \$600; Street Lights, \$450; Water, \$200; Fire Company, \$100.  
ANNUAL MEETING of the Stockholders of the Peoples Bank of Hammonton for the election of Directors for the ensuing year, will be held on Thursday, March 15th, 1895, in the Banking Room, between the hours of one and three P. M. W. H. BERNHOUSE, Cashier.

MISSILES FROM THE SKY

SHILLONS FALL, BUT COMPARE MILLIONS OF METEORS WHICH STRIKE THE EARTH EVERY TWENTY HOURS—FACTS ABOUT THEM.

Not less than 10,000,000 Meteorites strike the Earth Every Twenty Hours—Facts About Them.

Only the other day the Blue Mountains were the scene of a meteorite which fell near Beaver Creek, Washington. It was reported as bursting with several sharp reports in quick succession, the first explosion being the loudest. The noise was heard twenty-five miles away, and was mistaken for thunder or a blast of dynamite. Following the report was a whizzing sound. Several fragments of the missile from the sky were picked up.

"It is a mistake to suppose that meteorites burst in the proper sense of the word," said a scientist to a Washington writer. "But it does happen that they are broken to pieces on striking the atmosphere of the earth. This may seem surprising, but let me call your attention to an analogy. Strike the surface of a hard substance, and, though a fluid, the resistance it opposes to the blow seems almost as strong as if it were a solid. Now, the meteorite is moving at a tremendous rate of speed. It is not on fire, as is often said, until it strikes the air, and, after glowing for a moment brightly, is consumed.

"On any night this summer you will see shooting stars as they come. They are meteorites, which, on coming into contact with the earth's atmosphere, are set afire.

This is not surprising, inasmuch as they approach the earth with a velocity of a speed which often attains forty-four miles a second. By causing the destructions of meteorites the atmosphere serves as a protection for people on the globe, who would otherwise be pelleted with such missiles to a dangerous extent. It is estimated that not less than 10,000,000 of them, big enough to be visible to the naked eye, strike the earth every twenty-four hours.

"By contact with this planet the meteorites are raised to a temperature which reaches from 3,000,000 to 4,000,000 degrees—high enough to consume the matter which strikes. The distance they travel is so large that they are almost instantaneously heated. They are so hot that they are actually burnt up. The greatest number of such bodies can be seen just before daybreak, when they are on the front side of the globe as it moves through space. The elevation at which most of them are visible has been found to be between 30,000 and 50,000 feet. They are seen at a greater height than 100 miles.

"It is believed by most astronomers that some very large meteors have entered our atmosphere and have passed into space again, their great momentum being sufficient to take them away from the earth's attraction. What these flying bodies are is a question that has been much disputed, but it is generally held that they are the debris of broken-up comets. In one recent instance the correctness of this theory has been strikingly proved. It was the case of the comet of Biela. It was discovered in 1826, and was again observed in 1832, 1845 and 1852. In 1845 it had split into two parts, and in 1872 it fell apart—when—when—there it should have been—when it had been smashed up, and prediction was made that there would be a great meteoric shower composed of the remains of the lost comet. This prediction was fulfilled.

"Certain groups of meteors move in elliptical orbits around the sun. Occasionally the earth passes through their—clusters—producing what are known as meteoric showers. Such showers occur annually from the 9th to the 12th of August, and there is a similar display in November once every thirty-three years. The stream of the August shower is estimated to be from 5,000,000 to 10,000,000 miles thick. The earth, though traveling with a velocity of 4,900,000 miles a day, is immersed in it for several days.

"The fall of meteorites to the earth is sometimes accompanied by a great display of light, occasionally illuminating an area of many thousand square miles, when such an event occurs at night, and by loud detonations, so great in some instances as to shake houses and frighten men and animals. The explosions are caused by the breaking up of the meteor. Ordinarily you will find that meteoric stones are coated on the outside with a black substance, which is the effect merely of fusion of superficial material by great heat. A piece of Biela's comet was actually picked up in Mexico in 1872, at the city of Puebla. It is very interesting. Naturally it is considered very interesting.

BOY ATTACKED BY EAGLES

A Boy Attacked by Eagles.

A boy named DeJener, aged thirteen years, in the employ of Frank W. Winkley, of Belmont, N. J., recently had an experience which he never had a parallel in the country. A cold rain fell all day, coming down in torrents. At five o'clock DeJener was sent to drive the cows, and, to protect himself from the storm, drew over his ordinary clothing a pair of Mr. Winkley's trousers and a rubber coat, and wore a rubber cap with a rubber attachment similar to a hat, covering all his face except his eyes, nose and mouth. Thus attired, the boy mounted a horse, and accompanied by his dog, started for the pasture. His search for the stock took him to a piece of wood, and before reaching it he saw two eagles rising from the ground and disappearing in the trees. As he rode to the point both birds swooped down upon him, striking him with beaks and talons, and hurting him from his horse by the force and force of their assault.

DeJener says that but for the protection of the rubber hat, which he wore, he would have been taken off in the first attack. The eagle followed the boy to the ground, renewing his attack, but the dog came instantly to the boy's aid, barking and driving the attention of the birds and finally driving it into the woods. Meantime DeJener had managed to ward off from his face the beak of the eagle which had been striking him with its beak and claws, and his unusual thickness of clothing protected his body from injury until he succeeded in finding a club, with which he gave the eagle a rattling. Finally he dealt it a blow that stunned it, when he quickly hooded it with his mitten, and grasping its legs with one hand and neck with the other, he mounted again and rode to the house triumphant with the evidence of his attack and escape. Long before he had reached Mr. Winkley's the bird had revived, but was prevented from fighting by the boy's sharp grip upon his throat. Had the boy been clad only in his ordinary wear, and if the dog had not been with him, there is little doubt that he would have been killed. The eagles must have been rendered desperate by hunger, and such attacks, it is said, are not infrequently made when they are nesting in the vicinity, and were a great deal upon the nest.

The captive bird is of the species known as the golden eagle, and when DeJener was tended the spread measures seven feet.

Niagara is Seven Thousand Years Old.

The leading geologists of the United States and Europe have long been engaged in an attempt to figure the relation of Niagara Falls down to a point where the deduced and observed age of the cataract. The opinions on the subject that have been advanced vary from the "million years" of M. B. W. to the "hundred thousand years" of the late Dr. C. D. Walcott. The latter is the basis for estimating the exact age of the cataract. The opinions on the subject that have been advanced vary from the "million years" of M. B. "I am surprised that a man of your intelligence and old family could find no better name than Andrew Jackson," said a woman to a man who had just said that he would name his child after the general. "You don't understand my motive. He will never succeed in being a duke with such a name as that."—Indiana Journal.

We want many men, women, boys, and girls to work for us a few hours daily, right in and around their own homes. The business is easy, pleasant, strictly honorable, and pays better than any other offered agents. You have a clear field and no competition. Experience and special ability unnecessary. No capital required. We equip you with everything that you need, treat you well, and help you to earn ten times ordinary wages. Women do as well as men, and boys and girls make good pay. Any one, anywhere, can do the work. All succeed who follow our plain and simple directions. Earnest work will surely bring you a great deal of money. Everything is new and in great demand. Write for our pamphlet free, and receive full information. No harm done if you conclude not to go on with the business.

**Patents**

Can I obtain a patent? For a prompt answer and an honest opinion, write to Munn & Co., who have had nearly fifty years' experience in the patent business. Communications strictly confidential. A Handbook of information concerning Patents and how to obtain them sent free. Also a catalogue of mechanical and scientific books sent free. Patents taken through Munn & Co. receive special notice in the Scientific American, and thus are brought widely before the public without cost to the inventor. This is the only way to secure weekly, or monthly, or yearly, or longer term, in color, and photographs of new inventions, with plans, drawings, and models to show the inventor's ideas, and receive complete information. Munn & Co., New York, 361 Broadway.

**MR. EDITOR:**—At our meeting last Sunday afternoon, after singing a sprightly song, Mr. Ransom, while under spirit-control, said that there was a host of spirits present, and some who had but recently passed away; and then our spirit friend Z. U. Matthews came, and the spirit of Bro. Frost, who confirmed what I said in last Saturday's paper, and said he found no fault, but he was a spiritualist still and believed in the Christ within, but did not accept him as the personal saviour, and was happy. The spirit of Bro. Drown was present, and spirit Matthews spoke for him and said he found that spiritualism was true, and that he had not seen the Saviour. The spirits of Bro. Parkhurst and wife were there, and she spoke for the spirit of Mrs. Cochran, whom she had brought with her. She said she knew something of spiritualism before she passed away. Spirit of Rev. DePuy came, and said in the controversy with Mr. Ransom "he was right and I was wrong," and this confirms what he said through another medium, at my house. G. VALKENTINE.

**\$140 REWARD.** Four of our children had hundreds of communications from spirits, but in over forty years could never get one from our father. We will pay forty dollars for one. We have no picture of any kind of our father, and will pay \$100 for a correct life-size likeness of him, such as I have seen of dead persons, drawn by mediums in a few minutes in the dark. These rewards are offered in good faith, and I will be personally responsible for their payment for the next sixty days from date.  
W. M. B. POTTER, M. D.  
Hammonton, N. J., March 23d, 1894.

Post Master General Bissell resigned. Reports are to the effect that his department management has been a losing operation,—expenses having increased instead of decreased, as was the case with Mr. Wanamaker. Mr. Bissell's withdrawal left a berth which has been filled by free-trader Wilson.

The New York World, which is nothing if not Democratic, affirms that money transactions of the last fortnight established beyond controversy that Mr. Cleveland's bond issue was the largest financial botch of which our country has knowledge.

France has followed the example of Germany and Belgium in prohibiting the importation of American beef. Instead of opening new foreign markets to products of this country, the Democratic policy is closing up the old ones. Democratic schemes usually pan out that way.

**Knights of Maccabees.**

The State Commander writes us from Lincoln, Neb., as follows: "After trying other medicines for what seemed to be a very obstinate cough in our two children we tried Dr. King's New Discovery, and at the end of two days the cough entirely left them. We will not be without it hereafter, as our experience proves that it cures where all other remedies fail." Signed F. W. Stevens, State Com. Why not give this great medicine a trial, as it is guaranteed and trial bottles are free at Crook's Pharmacy.

A severe rheumatic pain in the left shoulder had troubled Mr. J. H. Loper a well known druggist of Des Moines, Iowa, for over six months. At times the pain was so severe that he could not lift anything. With all he could do he could not get rid of it until he applied Chamberlain's Pain Balm. "I only made three applications of it," he says, "and have since been free from all pain." He now recommends it to all persons similarly afflicted. For sale by druggists.
