### THE BUTTER

Market this week favors buyers. We reduce our price 2 cents per pound, which makes it 31 cents. Quality remains the same, viz: unexcelled.

As considerable has been said recently concerning "Name" as applied to fertilizers, we desire to say in reference to the Mapes Manures for all crops, that since their introduction by us, twenty years ago, the demand for them has steadily increased, and the past year our sales more than doubled any previous one; and this notwithstanding the fact that they have been brought into competition with many other mixtures and compounds claiming to be "just as good," for a little lesser price. This we think the most conclusive and convincing evidence of their superiority over all others.

Should be pleased to furnish to any one desiring a pamphlet containing full description and directions for use of each special Manure, and also some very interesting statements of results obtained by many persons now using them exclusively.

Taylor's Prepared Ham we reduce to 14c. per lb. Quality unexcelled. Remember, no salty taste to this meat. Try it.

That Apple Butter in four pound jars at 25c. is very popular. Verdict of customers,—quality of the preserve unsurpassed; and such a "lovely" little jar.

Nice assortment of Preserved Fruit by the pound, at 8 cents.

Have added to our line of Crackers a very popular "Toast." Let us have your order for at least one pound. Our word for it, you will be back for more. We quote to introduce, at 9c.

Call at our Second Street Store and get a sample package of

### Faultless Graham Flake.

As their name indicates, they are absolutely without fault. Samples free; but we sell the goods, and will be pleased to supply you. 16 c. per pound.

We have a little drive in

### Genuine Indigo Blue Prints at 6 cts.

It is needless to say anything concerning the quality of these goods. Everybody knows what an Indigo Blue Calico is for wear and absolutely fast color; and at such an unheard-of low price we expect they will move quickly.

Muslins,—both Bleached and Unbleached, are lower. We quote in a general way, from 6 to 10 c. Send for samples.

We cut off half-a-cent per pound from the price of Rolled Oats this week—offer at 3 cts.—has been 3½ c. per pound. Nothing the matter with the quality, simply a squeeze in the market.

Pettijohn's Breakfast Food at 12 c. per package is also very low. Many people prefer it to anything else for breakfast.

Garden and Field Seeds will be on hand in a few days. Please bear in mind that we handle only fresh seeds, fully warranted in every way. Small seeds in full size papers at 2½ c. per paper.

Early Peas, Beans, and Onion Sets will be here at the same time. We cannot quote prices yet, but be sure we will be as low as the lowest.

Early Seed Potatoes are beginning to arrive. A little early to plant, but a good time to be looking for the best varieties and "right" place to purchase. We shall be with you as to quality and price.

Eating Potatoes, just received, an exceptionally fine lot of N. Y. state White Stars, bright, solid and sound. We offer at 85 c. per bushel.

Some folks may not know it, but we do quite a business in Nails. In these "good old-fashioned times," Iron is law. We quote Cut Nails at 2½ c. pr pound. Special price by the keg.

First quality Jersey Axes,—light, medium, or heavy,—we reduce 12½ per cent.

What is the duty of mothers in the temperance work? To inform themselves of the need of the world everywhere, and so prepare themselves to know the need of the children that belong to them. What they desire of good for their own children they must see that other people's children possess. The safe-guards they would have for their children must be the protection of all the children in the world. You cannot elevate isolated cases except in rare instances. The elevation of the one must come through the elevation of the mass. To mother your own child completely, you must mother the children of all the world.—Lady Henry Somerset.

Judging from all the elections which have been held since last November, inclusive, it will be considered a misdemeanor, by next Fall, to vote the Democratic ticket. There has been too much Grover and altogether too little clover to suit most folks.

The South Jersey Railroad will be finished to Cape May in time for the summer travel. All of the papers have been recorded, and the work of building the road is now going forward.

Justice Harlan, of the U. S. Supreme Court, stated a rock-bound truth when he lately said: "It is no part of the government to teach religion. The government should never pay a cent for the support of religious schools. Let it be remembered that any man is an enemy to our free institutions if he be the enemy of our system of public education."

Citizens of the United States would have more sympathy for the pitiable condition of the finances of Italy were not those of our own government in such a bad plight.

"Give the people back their rights which three successive Legislatures robbed them of," should be the guiding motto of the present Legislature.

Secretary Gresham kicked the white hat under which President Harrison had placed his foreign policy. There was a brick inside, and the ex-Judge hurt his toe. Along came Mr. Cleveland and kicked the same old white hat, and the shock stunned the whole frame of the President.

Coal is said to have been used in England as long ago as 850 A. D.

Persia is about the only country where the telegraph is not yet at home.

There are yet 1,000,000 acres of Government land in Kansas open to settlement.

Southern Pacific locomotives will soon use bricks made of coal dust and asphaltum for fuel.

Every successful man is a help to his town. The more money he makes, if he uses it, the better for the community. The larger business he builds up, the larger the advantage to the community. A town cannot build up without them, and a growing town is a benefit to the surrounding country. Hence it is to the advantage of all to encourage enterprising, successful men in all walks of life, and frown on the petty envious individuals who are ever ready to thrust their more successful neighbors in the back on the slightest opportunity, in an attempt to injure them and destroy their usefulness. The country cannot get along without its successful men, but it can survive the envious backbiter,—a fact which every community should appreciate whenever opportunity offers. The successful man is indispensable. There are men in every little town who should take this lesson to heart.

It seems that there are a number of Democratic Senators who have no doubt of either the constitutionality or desirability of protection, when it is for their own interests.

A FORTY MILE RIDE.—E. R. Sweetnam, of Fairfax Station, Virginia, says: "A party came forty miles to my store for Chamberlain's Cough Remedy, and bought a dozen bottles. The Remedy is a great favorite in this vicinity, and has performed some wonderful cures here." It is intended especially for coughs, colds, croup, and whooping cough, and is a favorite wherever known. For sale by A. W. Cochran, druggist.

That man Morton doth explain too much. His repudiation by the farmers' organizations seemeth to have struck a tender spot.

## Manyon's Rheumatism Cure.

Mr. W. J. Wilson Suffered such agony from Rheumatism that he Considered Death Preferable to Life. He is Entirely Cured.

In reply to the question if he had been benefited by the use of Manyon's Rheumatism Cure, Wm. J. Wilson, 2315 Taylor St., Philadelphia, said: "I have had rheumatism for thirty years, and have suffered untold agonies; was completely discouraged, and felt that death was preferable to life in my suffering condition. My shoulders were so sensitive that even the weight of my coat caused me much pain. I tried everything I knew for relief, and spent hundreds of dollars in medicines, but found nothing that did me any good until I procured a bottle of Manyon's Rheumatism Cure. Before I had taken half of it, I felt relieved. The pain disappeared after taking three doses, and I am now entirely free from suffering."

Between the Compound Oxygen Treatment of Diseases and that by the use of Drugs? It is an important one.

Drugs are taken into the stomach. For this reason their action is not direct. Compound Oxygen is taken into the lungs, and, therefore, comes immediately into contact with and is absorbed into the blood.

Drugs, being generally poisons, act by causing a disturbance in the body. Compound Oxygen, being composed of the elements of the air, and acting upon the blood, is not open to this objection.

But, however it may act, it has certainly cured many cases of chronic disease, in which drugs have failed. This is the point of greatest interest to all chronic sufferers. To all such we say:

Send for our book of 200 pages, — sent free. Read for yourselves what Compound Oxygen is, how it acts, and, above all, what it has accomplished.

It seems from investigations made by the Mexican government that some rich Americans have been heavily investing in paper titles to Mexican land. A gang of American sharpers are systematically working the scheme. They don't own a foot of land, but they have sold millions of acres.

No one can blame the boy who thinks that prize-fighting is our best paying industry. He has been reading the news papers.

Mr. Cleveland might try hypnotism upon the Democratic Senators who still refuse to recognize his assumption of autocratic power.

The tramp manufactory at Washington is working night and day to increase the output.

THEY WANT THE BEST.—"The people of this vicinity insist on having Chamberlain's Cough Remedy, and do not want any other," says John V. Bishop, of Portland Mills, Indiana. That is right. They know it to be superior to any other for colds, and as a preventive and cure for croup, and why should they not insist upon having it. 50-cent bottles for sale by A. W. Cochran, druggist.
