DID YOU EVER

Stop to think what a fine piece of mechanism your watch is? and that you are injuring it by letting it run too long without having it cleaned and oiled?

A watch is injured more in one month, when running dirty, than in a year's time when properly cleaned and oiled.

Why neglect to have it cleaned, when you can get it done, and guaranteed, for One Dollar?

AT DUDLEY'S,
HAMMONTON, N. J.

ELVINS & ROBERTS.

Flour.

The Flour market has advanced from 15 to 25 cents per barrel, first hands; but having secured a large stock before the advance, we still hold our price at old figures, thereby giving our customers the advantage.

We quote from \$4.50 for good Family to \$5.50 for Best Blended—Spring and Winter Wheat mixed,—under our special brand "Royal," and for all baking purposes is certainly well worthy its name.

Feed.

We have always a full stock of all kinds of Feed.

While the market price on some kinds has advanced considerably, yet at the prices we are now quoting you will find us very low,—if anything, a little under the wholesale prices now prevailing.

Fertilizers.

We strongly advise placing orders for Fertilizers EARLY, especially for Dried and ground Fish Guano, which is exceedingly scarce. We have secured all we can, and are prepared to take orders; but the supply being very limited, "the first come first served." Order what you will want, NOW.

Mapes' Complete Manures for all crops are still popular. Our orders are now in for these goods, and they will be ready for delivery about March 1st, when we will be pleased to quote prices.

Berry Baskets.

We are now prepared to take your order for Quart and Pint Berry Baskets, for which, in view of the recent action of Commission Merchants in several of our markets, we anticipate unusual demand. Place your orders early, as later they may be hard to get.

Agricultural Implements.

Can furnish anything and everything in the line, from a Corn Cutter to a Mowing Machine.

We are agents for the "Bissell" South Bend Plows.

Canned Goods.

Tomatoes and Corn especially, are also advancing. We quote at only a trifle above old figures:

Corn, 10, 12, and 13 cents.

"Peerless" Tomatoes at 11 cents a bargain. Other good brands at 10 c.

"Bear" brand Salmon at 10 c. in cheap.

Fresh Mackerel (in one pound tins) is good eating, and at 12 cents per can is cheaper than mackerel in the salt.

Shoes.

A nice line of Women's and Misses' Shoes now in stock. We quote only one style as a sample.—Woman's Dongola Button at \$1.25. We think it the best shoe for the price now on the market. We have others, costing more money, which will give the wearer no better service.

Outing Flannels

For Spring are beginning to arrive. Some of them are beauties, and at the uniform price of 10 cents per yard are very popular. Call and see them.

Garden and Field Seeds

Will be here shortly.

Seed Potatoes.

It may seem a little premature to mention Seed Potatoes before the snow is gone; but we just want to remind you that the time will be here soon, when there will be a sharp demand for them. We shall have them in all the best varieties, at prices as low as the present condition of the market will warrant. Don't buy until you get our figures.

Washington Letter.

From our regular Correspondent.
Washington, March 6, 1893.

The Republican party has turned the Government in all its departments, except the judicial, over to the Democratic party, in accordance with the verdict rendered at the polls last November, and it can now afford to calmly await the result, hoping for the best, and prepared to admit that it was wrong if the new Congress and administration can carry out the platform adopted by the last national convention of the Democratic party without causing a serious shock to the commercial and industrial interests of the country. But it is already apparent that the pledges of the Democratic platform will not be carried out, certainly not the one relating to the tariff. There will be no tariff smashing; only a slight shake up.

Mr. Cleveland's inauguration was quite a freezing affair. Icicles were more plentiful than enthusiasm. Seats on the street stands which were intended to be filled with people—at from \$1 to \$5 a head—were covered by two or three inches of snow and swept by cold northwest winds, which gave the participants in the parade a stiff and half-frozen appearance. The only real enthusiasm your correspondent saw displayed during the day was aroused in the Southern contingent, which it is needless to say was numerous, by the appearance of Gen. Fitz. Lee, of Virginia, who commanded one of the divisions. That enthusiasm was particularly boisterous when Mr. Cleveland nearly bent himself double to return the haughty bow which was given him by the proud Lee as he rode past the Presidential reviewing stand.

General Harrison took Mr. Cleveland from the White House to the Capitol and back again in his carriage, but he declined accompanying Mr. Cleveland upon the reviewing stand, because, for one reason, he had a previous engagement to attend a farewell dinner given by himself and the members of his cabinet and their family by ex-Postmaster General Wanamaker, at the close of which he took a special train for Indianapolis. It is perhaps true also that Mr. Harrison being human, like the rest of us, had not forgotten that Mr. Cleveland declined to stand with him upon the reviewing stand on March 4, 1889.

There is one sentence in the President's inaugural address that has carried consternation into the ranks of the office seekers, who are more numerous in Washington than ever before. The language is emphatic, and they have taken it as intended to be personal to them, as it doubtless was. "One mode of the misappropriation of public funds is avoided when appointments to office, instead of being the rewards of partisan activity, are awarded to those whose efficiency promises a fair return of work for the compensation paid to them. To secure the fitness and competency of appointees to office, and to remove from political action the demoralizing madness for spoils, civil service reform has found a place in our public policy and laws." One of the direct results of this plain talk was the determination of the Tammany bosses, before they left Washington, that no Tammany man should become an applicant for a federal office, although they stand prepared to furnish men to fill as many offices as Mr. C. may offer them; but they must be offered, say the bosses.

I have it on good authority that the issue of bonds, which Mr. Harrison stood out so manfully against, will be an accomplished fact just as soon as the new administration can find a reasonable excuse, and that will not be difficult to manufacture, with the aid of those who for personal reasons want the bonds issued.

Senator Stanford is naturally very much pleased over having secured from Gen. Harrison, before he left for Indianapolis, his acceptance of the chair of constitutional law in the Leland Stanford University, of California, which was tendered him as soon as the result

of the election was known. The ex-President will deliver his first lecture at the University some time in October.

Some of the regular Appropriation bills had close shaves and are somewhat bungled, but all of them got through before time was called on the Fifty-second Congress, and now there is no good reason why an extra session of Congress should be called; but great pressure is nevertheless being brought to bear in favor of one.

Senator Sherman is admitted by all to be high authority on financial matters; hence the importance of his cheering words on the present situation—"There is nothing to indicate a panic so far as I can see. The country is prosperous, and the gold outflow to Europe is not necessarily fraught with any danger in itself." It is the opinion of many that the unusual demand for gold which has been kept up for several months will soon cease, now that Congress is no longer in session. In the opinion of these gentlemen, the demand for gold was manufactured for no other or better purpose than to frighten Congress into financial legislation. HARRY.

THE Philadelphia Press

Daily, Sunday, Weekly.

A FAMILY PAPER

WHICH IS

Clean, Unsensational,
and Just the Paper
FOR THE
American Home!

The Press has the best possible organization to secure news from the most important sources, and with nearly 500 correspondents in Pennsylvania, New Jersey, and Delaware, and near at hand news is covered with a routine carelessness and attention to detail not even attempted by any other paper. The Press has also the best of correspondents in all the great cities of the United States, as well as financial and railroad experts in Chicago and the West, who keep the paper more than abreast with the times. The columns of the Sunday Press are entitled by contributions from those whose names are written high in our lists of great authors, novelists, essayists, as well as from men of high rank in public life. The best authors know that their best audience are the readers of the Daily, Sunday, and Weekly Press. In politics, the Press knows no other master than the people, and the past year has seen, as has been seen before, the marked fact that it is subservient to no political boss. It has no political ambitions to foster, but looks after the interests of its readers, and delivers itself upon the issues of the day in a manly, frank and fearless, letting the facts speak for themselves and evading no issues, but meeting them at the heart of their play to all men at all times. Its pages know no distinctions, and the rights of one class over another are not recognized nor supported. Advertisements of Help Wanted, may be inserted in the Press for ONE CENT A WORD. Advertisements of Situation a Wanted, 1/2 Cent a Word. Special days for advertisements, Sunday, Wednesday, Saturday.

PAINT! PAINT!
—THE—
HAMMONTON.

When you buy the Hammonton
Paint, you do not buy seven-
eighths of a gallon for a gallon,
or three pints for a half gallon;
nor do you get one of those
packages that weigh 12 to 14
pounds, and containing so much
alkali that it appears to be so
thick that it is impossible to
use it without thinning; but in
buying the Hammonton you get
a full standard gallon of paint,
weighing 14 to 16 pounds to
the gallon, made from the best
materials known to the trade,
and costs the consumer from \$1
to \$1.50 per gallon for honest
paint.

If the purchaser doesn't want
honest paint, and wants to be
honest to himself, then be sure
to buy the Hammonton Paint,
and the manufacturer will give
a receipt with every gallon sold
telling you how to make two
gallons of paint out of one of
the Hammonton. It will cost
33 cents for the extra gallon.

One Dollar.

And then here comes Commercial
Paint, in 30 shades,—the best wearing
paint ever put on the market for so low a
price as \$1 per gallon, and guaranteed
to be a first-class wearing paint. If any
one should not want to pay so high a
price for a good exterior paint, the work
the 33 cent racket, and get two gallons
for \$1.33. Manufactured at
Hammononton Paint Works.

GEORGE ELVINS, P. M.
Mr. George Taylor, on Walker

last. On that day, he was about, caring

near death's door with congestion of

he rallied,—symptoms more favorable.
But, at his advanced age, 87 years, it
seems doubtful about his recovery.

There have lately been placed
upon the market several cheap reprints
of an obsolete edition of Webster's Dic-
tionary. These look like given various
names, "Webster's Unabridged," "The
Great Webster's Dictionary," "Web-
ster's Big Dictionary," "Webster's En-
cyclopedic Dictionary," etc., etc. Many
announcements concerning them are
misleading. The Webster reprint por-
tion of each from A to Z is the same,—
forty-four years behind the times, and
printed from plates made by photograph-
ing the old pages. The old book has
been padded out by various additions
culled from various sources, but the
body is the same that was published
when Polk was president and duly
buried at the incoming of Lincoln. The
Webster, current from Lincoln to Harri-
son, is the popular copyrighted "Un-
abridged" which has just been superceded
by Webster's International Dictionary.

SATURDAY, MARCH 11, 1893.

LOCAL MISCELLANY.

On Wednesday, in the State
Senate, the contested election case of
Riddle vs Hoffman came up for final
action. Majority and minority reports
were read, and the latter adopted by a
vote of 17 to 3, which gives Hoffman
the seat.

A public meeting was held in the
Presbyterian Church, Tuesday evening,
to give expression to the people's con-
demnation of the justly condemned
gambling laws recently enacted by our
Legislature, and their indignation at the
disgrace thus brought upon New Jersey.

M. L. Jackson was called to the chair;
C. F. Osgood was chosen Secretary.

The several speakers handled the subject
without tenderness, and were applauded
heartily.

C. F. Osgood, opposed now and al-
ways to gambling—so much so that I
am ready to leave my party and help to
kill off politically all participants in such
an outrage.

Rev. P. Cline. The State disgraced
always proud of New Jersey, her his-
tory, her participation in the struggles
for independence and freedom; but of
late years disgraced with some things,—
with ballot-box stuffing, and when an
upright judge sent the criminals to
prison, the Board of Pardons was man-
ipulated to free them.—Arraigned the
dominant party for this and other evil
deeds.—Now sank deeper in the mire by
gambling legislation. Denounced both
Baake and Hoffman for their votes.

Sink-party next Fall, and elect men
who will represent the morality of the
County and State.

G. W. Pressay. Feels the shame and
disgrace, but rejoices that he did not
vote for either of our county members.

Loves a clean horse-race, but has always
opposed gambling in any form.

Judge B. J. Byrnes. Praised Jersey
for her good government, her proverbial
justice. We used to own the State, but
its has lately passed into the hands of
the lowest and vilest gamblers from New
York and Pennsylvania, who care only
for gain, and will ruin our sons and
daughters to put money in their purses.

P. S. Tilton endorsed what had been
said by others.

P. H. Brown said the same, and invited
old parties to call on the prohibition-
ists for clean candidates.

O. E. Hoyt. In full sympathy with
the meeting, and had tried to make his
contribution clear in his paper.

Rev. H. R. Baudall. These late laws
are a logical following-out of license
policy. We cannot legalize one form of
evil without eventually placing others
on the same footing.

Rev. Mr. Williams. Not a citizen of
New Jersey, but would gladly use his
influence against evil legislation.

Remonstrance and petition for repeal
then read, and signed by all the voters
present. Chairman instructed to send
the paper to Senator Stokes, of Cumber-
land County, for presentation to the
State Senate.

Wednesday of this week was as
fine a day as one could wish for in the
uncertain month of March. Town
Meeting was called to order about ten
o'clock. John T. French was chosen
Chairman, Wm. B. Bernhouse Secy.

On motion, salaries of all town officers
remain same as last year.

Mr. Kent, electric engineer, presented
a detailed estimate of cost of an electric
light plant, expense of running same,
cost of fifty-five lamps for streets, and
amount per lamp to private consumers.
Capital required, \$7000.

On motion, voted,—that Council be
authorized to contract with any electric
light company that may be organized in
town, to properly light the streets at an
annual expense not to exceed \$1000.

Voted, to expend \$150 for supplies for
Fire Company.

Voted, to build a cistern at corner of
Second and Grape Streets,—to be filled
by Hiram Pressey's wind-mill. \$125
appropriated from surplus fund, for said
cistern.

Voted, to appropriate \$225 from the
surplus fund, to purchase a new road
scraper and sulky shovels.

Moved, that Council be instructed to
refund to B. Albrici \$30 paid by him
several years ago for opening Fourteenth
Street,—said street not having since
been opened, and amount assessed to
Mr. Yates for same purpose having been
abated by Council. Lost.

Moved, that Council be instructed to
put Fourteenth Street in a passable con-
dition. Referred to Council.

Question by P. H. Jacob, — Why
does sidewalk not put in good order, as
per resolution of last Town Meeting?
No response.

Wm. Passmore was then given the
floor, at 11:25, and occupied one hour,

The Republican.

New York Tribune, 1893

Greatest of Republican Papers. National in its Aims; and Devoted to the Welfare of the Masses of the American People.

The New York Tribune concedes the election of Grover Cleveland, but promises to defend the Republican policy on Finance and Protection, with all the ability it can command. It was the discontent of the farmers which caused the Democratic victories of two years ago. The Weekly Tribune, addressing itself directly to them for the last two years, has carried on a campaign of discussion for their benefit, almost unparalleled in American journalism; and the result coupled with Whitehead's previous great service to farmers has been seen in the fact that agricultural communities have stood faithful to the Republican party in a campaign in which, in other localities the party went completely to pieces. This year, the Democratic leaders changed their tactics and refuted discontent among workmen. They pointed to the higher prices of farm products, and assured the workmen of Northern cities that the British tariff system, (that is to say, lessened protection to American farming and industry) would lower the prices of food and manufactured products, and the profits of "monopolists" in this country, while at the same time making the wages of labor, these wages being now the highest ever known in the United States. By false pretense, deception, and a pan getting to the lowest passions of uninformed men in large cities, they have carried the country and elected a Democratic President and Congress.

The Tribune confidently awaits the result. Not for one moment, however, will the Tribune yield one inch of ground in the battle for American politics. Roswell G. Horr's great articles will be among the features of the Tribune, the coming year. Men of every political faith are invited to read them. They will state the Republican view with frankness, point out the probable consequences of a change in the tariff policy of the country, and evade no issue, and conceal no fact bearing upon the subject discussed. Their thorough treatment of fundamental principles will aid every reader to a better understanding of profound and important issues.

A page a week will be devoted, during 1893, to war stories and news of interest to Union veterans. Old soldiers, who have some experience to tell, which has not yet been printed, are asked to send the story to the Tribune for publication.

Farming has now become such an enormous interest in the United States that there is an imperative necessity for making more of a specialty of the business interests of the farmers of the country at large. Plans have been formed which ought to make the Semi-Weekly and the Weekly Tribune absolutely indispensable to every tiller of the soil during 1893.

A large number of entertaining features of general interest will also appear. "How to Succeed in Life," "Village Improvement," special articles by brilliant men and women of high reputation; chess and checkers, and a hundred other things which cannot be recited in a brief prospectus, will appear on the Tribune's pages during 1893. The paper will have less politics and more of the thousand and one things which refresh the mind, entertain the imagination, and guide the reader in the prosecution of his career in this life. The Tribune asks for reports as to the operations of Village Improvement Societies, from those who are acquainted with their operations.

An illustrated catalogue of excellent premiums will be sent free on application. The Semi-Weekly is particularly commended to the attention of general readers. It gives more of the best editorial materials, book reviews, foreign letters, and other valuable features of the Tribune, than there is room for in the Weekly. The large type and broad columns of the Tribune make it the easy to read.

THIS PAPER may be found on all at Geo. P. Rowell & Co's Newspaper Advertising Bureau (10 Spruce St., New York). Using agencies may be made for it in any city.

The repeal of the protective feature in our tariff will make the same difference with every Democratic workman that it does with every Republican workman. When the sources of employment are cut off, all, regardless of party, will suffer.

A tortoise, which Dr. Reuben Willits marked in 1834, regularly reappears every Spring on the old Willits farm, at Dias Creek, but the Doctor fears that his old friend may not have survived this severe Winter.

Much distress among working people is reported from Derby, Eng., a city of which silk throwing is an important industry, many thousand persons being employed in it in prosperous times. The Nottingham Guardian attributes the existing lack of employment among the working people to the operations of the McKinley tariff in America and of other tariffs in other countries which, within the last year and a half, have seriously diminished the volume of British exports. Besides silks, Derby manufactures cotton hosiery, iron and woolen manufactures, laces and elastic web. As British free-trade works there may it not so work here if tried? Paupers in London, 102,800, as reported.
