

DR. JOHN BULL'S Smith's Tonic Syrup FOR THE CURE OF FEVER and AGUE Or CHILLS and FEVER, AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PAINLESS cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

"BECAUSE—"

Some drink to make them wide awake,
And some to make them sleep;
Some drink because they merry are,
And some because they weep.
Some drink because they're very hot,
And some because they're cold.
Some drink to cheer them when they're young,
And some because they're old.
Some drink to give them appetite,
And some to aid digestion;
Some for "doctors say it's right,"
And some without a question.
Some drink when they a bargain make,
And some because of loss;
Some drink when they their pleasure take,
And others when they're cross.
Some drink for sake of company,
While others drink more sly;
And many drink, but never think
About the reason why.

The Tribune in a late article gives interesting facts concerning the growth and condition of the silk industry of Paterson now the leading silk manufacturing town of the United States. It says: "Its development under our protective tariff system has been remarkable, and the statistics and other facts relating to this development will be valuable to the student of political economy." One can easily understand after reading the article in question how it is that of late years the importation of silk goods into this country from France have fallen off.

Spring is coming. The lawn-mower elbows the base-burner in the hardware store. Tramps and beggars lurk about the alleys and scare the kitchen girls. The k. g.'s rather enjoy it. The woman figures on the Easter bonnet. The wind is cold and the lambs are shorn and skinned, too. The poker chips are tied. There are cracks in this old overcoat. The cold we caught in October takes a deeper hold in March. The man who said it would be all right in the spring can't prove it. He lied. Winter is a hip ahead of spring and has just caught his second wind. Spring is coming.

It is said that the electric light for locomotive headlights is an assured success. Many attempts to adapt electricity to this have been tried, but it was left to some enterprising Ohio and Indiana men to devise a perfectly balanced lamp to hold the carbons, so that the movement of the engine frame cannot shake them together. It has been tested on one division of the Pan Handle Railroad, and pronounced by the Superintendent to be a success. It is run by a little engine and dynamo placed on the side of the locomotive back of the Westinghouse air brake. The engine is, of course, in constant motion, and fed direct from the boiler by an eighth of an inch tap. This invention will make travelling at night safer, then in the daytime. The electric light will show an obstruction a mile away. Collisions mostly occur on curves, but the cone of light sent out from one of these headlights would pierce the darkness so far in a straight line as to be seen from any part of the curve. Railroad men consider it the most important invention for railroads since the Westinghouse air brake.

Republican State Convention. The Republican electors of New Jersey, and all other states, who are in favor of elevating and dignifying American labor, protecting and extending home industries, giving free popular education to the masses of the people, securing free suffrage and an honest counting of ballots, effectually protecting all human rights in every section of our common country, and who desire to promote friendly feeling and permanent harmony throughout the land by maintaining a National government pledged to these objects and principles, are requested to send delegates to a State Convention, to be held at TAYLOR HALL, in the city of Trenton, on THURSDAY, THE 27TH OF APRIL, at 10 o'clock noon, for the purpose of electing four delegates at large to the Republican National Convention which will assemble at Chicago on June 1st next, for the nomination of candidates for President and Vice-President, to be supported at the next general election. The points of representation under this call are: one delegate for each two hundred Republican votes cast at the last Presidential election, and one delegate for each fraction thereof, exceeding one hundred votes; provided that every township, ward and precinct, legally defined as such in Jersey City, shall be represented by at least one delegate. Under the rules prescribed by the National Republican Committee the Republicans of each congressional district have the option of electing their delegates to the National Convention either in conventions held in the respective districts within fifteen days next prior to the meeting of the State Convention, or as sub-divisions of each State Convention, but the practice in this State has uniformly been to select the district delegates at the same time as the delegates at large. It is recommended that this message be subscribed to, and that the delegates to the State Convention from the several Congressional districts, meeting as distinctive Congressional Conventions in Trenton on the day of the State Convention, elect two delegates each to the National Convention.

On the question of buildings, several resolutions were made; and finally the proposed substitute was offered, and adopted unanimously: That the sum of \$150 be appropriated for additions to the Central and Columbia school houses; said sum to be raised by District Bonds, which the Board of Trustees are hereby authorized to issue; and the same to be payable as follows: Jan. 1st, 1884, \$50; Jan. 1st, 1885, \$50; Jan. 1st, 1886, \$50. The Republican. SATURDAY, MARCH 22, 1884. LOCAL MISCELLANY.

Rain again, on Wednesday—lasting all day. George Potter is now sexton of the Presbyterian Church. Alex. Aiken has engaged a first-class workman for his carriage shop. Mr. Bernhouse is delivering lumber on his home lot. Something new on the tops.

FOR SALE.—About 100 pounds of Galvanized Telegraph Wire. Inquire at the REPUBLICAN office. The Collector and Treasurer has been quiet since for a few days, but is improving. Mr. Sturdevant has several carloads of his 'elephant' in Hammonton, on his lot.

Mr. J. C. Bryant, formerly a resident of Hammonton, now of western Massachusetts, is visiting friends here. C. L. S. C. will meet on Tuesday, 26th inst., at 7:30 p. m., sharp, at the house of S. E. Brown. Remember the poor. That means we—ourselves. If you don't believe it, come in and we'll show you our purse.

Moos Stockwell's house is fairly under way, but all nature has conspired against out-door work. Adam Sopp, Sr., has bought out the wheelwright business at Walters' near the mill. William Aiken was in town this week. He expects to begin the blacksmith business for himself, at Clementon.

The Philadelphia Ledger states that the store of F. Gee, at Elwood, was robbed on Wednesday night. C. S. Newcomb is drawing stone, this week, for the foundation of a new barn, on his premises. The Directors of the Fruit Growers' Union & Co-operative Society have elected Z. U. Matthews, Secretary and Treasurer.

The Fruit Growers' Union's new siding is laid out, and would have been built this week, had the weather permitted. The glass interest here is said to be upon a very uncertain foundation, and that as this is the case the salary of the Methodist minister located at this charge will be equally fluctuating, as the workmen from whom the latter amount is raised are dependent entirely upon the glassworks for their work and pay.

The township committee of Winslow township met at Blue Anchor on Saturday last, and organized by the election of Henry M. Jewett as chairman and Matthias R. Sinnerman as town treasurer. The collector's bond was fixed at fifteen thousand dollars, and the town treasurer's at two thousand dollars. The private school building on the premises formerly occupied by Mr. John R. Hay, is being converted into a Catholic chapel, and will be in readiness for services in a few days.

The annual school meeting was held on Tuesday afternoon. Called to order by District Clerk, S. E. Brown. M. L. Jackson called the chair. Minutes of special meeting held last July, read and approved. Clerk reported that the title to Central School grounds had been made clear by a release from all claims. Voted, that members of the Board of Trustees be paid \$15 per year; the Clerk, \$40; provided school payment be not contrary to law.

Trustees were then elected, as follows: For three years, Samuel E. Brown; for one year, Louis Montfort. On motion (after extended remarks by several gentlemen), voted to raise for the payment of teachers, the coming year, \$1200; for fuel, \$210; for repairs and sundries, \$30; for janitor fees, \$100, total, \$1540.

On the question of buildings, several resolutions were made; and finally the proposed substitute was offered, and adopted unanimously: That the sum of \$150 be appropriated for additions to the Central and Columbia school houses; said sum to be raised by District Bonds, which the Board of Trustees are hereby authorized to issue; and the same to be payable as follows: Jan. 1st, 1884, \$50; Jan. 1st, 1885, \$50; Jan. 1st, 1886, \$50. There will be no school in the High School room on Monday next. This will make up for Washington's birthday. Would it not be a good idea for a few earnest and fearless men in Hammonton to organize as a 'Law and Order Society' for the enforcement of the liquor and other laws? There seems to be no officer who considers it his business to prosecute offenders against either State law or town ordinances.

We shall favor, hereafter, holding the town caucus at least ten days prior to the town election, that there may be time to consider the nominations made, and to improve upon them if necessary. As at present constituted, it seems too much like a snap-game; rushing business too rapidly for safety.

PREMISES TO BE BUILT.—D. C. Potter has material on his lot to build a store. Pardon Ryan has bought the property at the intersection of shore road and W. J. R. R., of Capt. Wm. Robinson. The stables will be moved to Absecon.—Jas. W. Moore will build a store and a cottage on his lot fronting the shore road.

There are several parties in this town and county who have \$1.25 each which belongs to us; and you one of them? There is at least one individual who has a five dollar bill of ours; is it you? If so, please do the handsome thing, and right the wrong.

Jesse Bakely, section boss on the Narrow Gauge Railroad, commenced laying the new rails on wide gauge, last Monday; and will continue the work when not otherwise engaged, from Hammonton to Atlantic. Another gang began at Camden, and will work down this way.

The Philadelphia Times tells how one Barlow stole a march on Keely, 'boss of the motor fame'; got all his best ideas about the motor that would not start; put in his own; made a new machine; and was over to Camden on Saturday night, attached to a hand car, and made a flying trip on the New Jersey Railroad at the fearful rate of seventy-five miles an hour! This is startling, if true, and leaves the holders of Keely stock nothing to do but to go into liquidation. Only think of it, seventy-five miles an hour on a hand car!—W. J. P.

Wisconsin, from the W. J. Press.—The glass interest here is said to be upon a very uncertain foundation, and that as this is the case the salary of the Methodist minister located at this charge will be equally fluctuating, as the workmen from whom the latter amount is raised are dependent entirely upon the glassworks for their work and pay.

The only reason we can discover for calling March a Spring month, is because it keeps one busy springing over mud-puddles. Contrary to tradition, St. Patrick's day was clear and pleasant; Tuesday (Shooley's day) was also fine; Wednesday—oh, my!

Rev. E. E. Rogers preached an earnest and affecting sermon, Sunday evening, from Matt. vii. 13. 14.—'Enter ye in at the straight gate.' etc. By accident, the number of votes received by Clark P. Hill, for Town Justice, was given in the REPUBLICAN as 23. It should have been 231.

Mr. Enos Bean has sold his place, on Pine Road, to Mrs. Anna R. Miller; and bought the property of the late B. H. Bowles, on Valley Avenue, where he will reside for the future.

A. S. Gay sold a litter of eight pigs, the other day, which deserve a first premium. They weighed twenty, four, four and a half, and six and a half pounds; and they were but six weeks old.

The ladies of the Presbyterian church are giving their house of worship a thorough cleaning; after which new carpets will be laid on the pulpit and choir platforms, and new matting in the aisles.

St. Mark's Church, Fourth Sunday in Lent, March 23, 1884. Services, 10:30 a. m.; Morning Prayer, Litany and Holy Communion. 2:30 p. m., Sunday school. 3:30 p. m., Evening Prayer and Sermon.

House cleaning time is approaching. For laying under carpets, covering shelves, etc., there is nothing neater and cheaper than newspapers. We have all on hand which we will sell for such purposes.

Wednesday night's rain was enough to remind one of good old Noah's times, when 'the windows of heaven were opened.' The water seemed to come down in a perfect sheet. Under a tin roof, 'water' is the worst of all that can befall the heaviest thunder.

WAGON FOR SALE.—A new, hand-somely made and well-finished platform spring wagon—two-seated, for sale.—Call and see it, at the shops of J. W. Moore, near the steam mill.

The Carlos Swift farm, on Main Road, Hammonton, is for sale. Twenty-three acres of good land (mostly improved), a good house and barn, excellent location, twenty minutes' drive from the station. For particulars, inquire of M. C. Swartz, on the adjoining premises.

Last Sunday morning, Rev. Mr. Davies' text was Matt. xi. 28-31. Speaking, incidentally, of those who labor, who literally earn their bread by the sweat of their brow, he said: 'Followers are invited to come—even he who toils far away from home; but who labors from early dawn far into the night, to produce things cheap. The curse of God rests upon him who grinds down to cheapness the labor of men, that the rich may become richer, that the idle may continue to live in idleness and sin; for sin dwells with idle wealth.'

Let us look at Hammonton's vote on the liquor question, last year. There were polled on this subject but 210 votes.—112 no license, 63 license; thirty voters making no vote. Last year there were 245 votes, —146 no license, 99 license; 55 not voting. In other words, in 1883, one half of the popular vote, less four, voted no license; in 1884, one-half the full number, less eight; and this year the no-license men did no election work. On the other side, in 1883, one-third the full vote, less one, voted for license; in 1884, one-third the vote, plus eight; but more than one license advocate was employed to bait those whom they had any hope of influencing to vote for license. We hear a rumor that one Hammontonian had a petition for license ready to present at the first meeting of the new Council. The inference to be drawn is this: 100 will cover the number of those who favor license in Ham. mon-ton. The lesson is,—that 'Temp'rance men still have work to do right here at home, if they hope to keep the law in course from their own doors.

On Monday, at the M. E. Conference, at Camden, the annual appointments were made. In this vicinity we had the following: Presiding Elder, — B. Gra v. Atlantic City, — C. K. Fleming. Trustees, — M. C. Mr. E. J. Yinger has his new barnal completed. We will soon be resumed on the Galley church. Mr. Oscar King has purchased a lot of W. J. R. R. on the corner of Central Avenue and Vine St. and will build in the near future.

Eight prisoners in the county jail. The contract for the building of the Sea Isle and Ocean City Railroad was given out in Camden on Tuesday. It is whispered that the Record will be printed in Atlantic City and published in the interest of the State.

The Presbyterian of West Jersey meets in Millville, April 15th, at 7:30 p. m., in regular semi-annual session. Rumored, that S. D. Hoffman, Esq., is a candidate for County Collector. The name of D. E. Lazard, Esq., will be presented to the County Courthouse as a candidate for sheriff.

A Few Facts Concerning the 4 C's, or Trenton College.

It is the most practical and complete course of study. It omits nothing necessary to a thorough business education, yet can be accomplished in a remarkably short space of time. It has novel and original methods of teaching, which are at once by astonishing results. The student is interested from the start, and never fails to make satisfactory progress. It has the largest and best appointed rooms, the most expensive and perfect appliances. It employs the best teachers, and pays the most liberal salaries. In fact, it is the liveliest, most thorough and complete institution in the country. It has been established 18 years, and sent out thousands of young men and women whose success attests its efficiency. It is a member of the Bryant & Stratton Chain of Colleges, or I. B. C. A., with real profit of scholarships, etc., all the advantages of intercommunication so indispensable to a course of modern business training. No person contemplating a course at a Business College, or of doing a practical education, can afford to decide upon a school without investigating the claims of this. Special accommodations for ladies. Fall Session begins September 3d. A handsome illustrated Catalogue and College Paper sent free upon application to **A. J. RIDER, Principal, C. C. C., Trenton, N. HALL'S Vegetable Sicilian HAIR RENEWER

It is the first preparation perfectly adapted to all the diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needed for the proper treatment of the hair and scalp. **HALL'S HAIR RENEWER** has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalleled success can be attributed to but one cause: **its entire fulfillment of its promises.**

The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction.

The use of a short time of **HALL'S HAIR RENEWER** wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dizziness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like the use of alcoholic preparations, but remain a long time, which makes it a matter of economy.

BUCKINGHAM'S DYE FOR BLUE WHISKERS

The Trenton Times for 1884.
 It would take too long to tell what *The Times* has done for the people and the State in its fourteen months of existence. Suffice it to say that from the start it has attacked abuses of all sorts, political, municipal, national and financial. It has been fearlessly independent and independently fearless. Corruption is its bitterest enemy. Extravagance in State expenditures has been persistently fought. *The Times* secured for one thing, the passage of a Printing Contract Bill through the Legislature that will save the taxpayers of the State at least \$35,000 a year. It has kept bad men out of office and put good men in.

The Times for 1884 will continue its independent, consistent course. It will watch every bill introduced into the Legislature. It will ventilate every piece of jobbery, whether that jobbery be the work of corporations or individuals. It will fight to the death every attempt to add to the taxation of the people. It will not be suppressed by political or corporate monopolies. It will be viewed with suspicion. The people and the people's interests will be the special care of *The Times*.

All the news, all the views and all the truths of the day will be given in *The Times*. Therefore every citizen of the State of New Jersey will need the paper. Those who have been without it in 1883 cannot afford to be without it in 1884. *The Times* is five dollars a year or \$1.50 for the session of the Legislature. Send subscriptions always to **THE TIMES, Trenton, N. J.**

He was a duke of the extreme kind. He couldn't have been more so. His overcoat was short, his undercoat long, his collar high, his trousers so tight that it would seem he must have greased his legs to get into them, his shoes pointed. As he entered the reading room, at the hotel everybody looked at him, and a smile went round. There was a bridle dog in the room at the time. As the duke paused at the news stand the dog went up to him, sniffed at him, looked up at him once and walked away with drooping tail and an air of intense disgust. The disgust probably arose from the fact that the duke wasn't the person the dog was looking for, but the animal's whole appearance seemed to say: "This let's me out. I can't stand that thing!" And the crowd howled with laughter.

Great saques from little sealskins grow.

The human heart seems of vegetable origin. It possesses a regular beat and sometimes becomes a pal-pitator.

The publisher of a recently started newspaper, wrote to a large firm in town: "We notice your advertisement in the —, which we will insert at 25 per cent less than what they charge." The reply was: "The — inserts our advertisement for nothing, and we will trouble you for a check for the difference."

It is astonishing how much time people lose for want of 'system.' A girl rises, dawdles about dressing, gets late for breakfast, and then best part of the day is done.

A young fellow has finished his work; he idles about with a few friends, and before he knows it, it is past nine o'clock, and the evening is practically wasted.

No matron or maid, sitting down, for instance, to make knitted counterpane, could do the whole at one sitting; but a quarter of an hour's work every day would accomplish the whole task, long as it is, in the course of a few weeks. The minutes, too, have an odd trick of slipping away so swiftly that, if they are not caught, and applied to a good purpose, they are wasted in a manner which leaves the years periodically a blank.

The young husbands who come home in the evening and grow sulky because their wives are untidy, and the fireplace dirty with the day's ashes, and who are told by their spouses there has been 'so much to do' that time for 'tidying up' could not be found, may make sure that 'system' is lacking somewhere.

The heaviest day's work can be got through, either by the fireside on the wife's part, or out of doors on the husband's side, if time is only taken by the forelock, everything begun early, and everything, too, systematically carried out.

A grudging hand of toil will find a grudging hand of soil.

The profession of a man, no more than the label on goods, always tells an honest story.

Engineer Melville says that there is a peculiar fascination, similar to the passion for gambling, in the Polar exploration business, and he wants to go again. Some people never know when they are well off.

The lighthouse service of the United States is a branch of the public administration in which every citizen can take pride.

When a bachelor says he is single from choice, it makes him mad to ask him why the girl made choice of some other fellow.

Tight boots are said to cause the blood to sear to the face. That's why society girls are all the time blushing.

An exchange tells us that one Chicago cigar factory is manned entirely by women. As a set off to this we will state that one Parisian dressmaking establishment is womaned entirely by men.

As the meeting opened the president announced that the following spring mottoes would be hung on the walls during the coming week:

Pay cash.
 Deal on the square.
 Sell your dog.
 No man can sit on the fence and plant onions.

Time wasted am skill lost out of a hole in de pocket.
 If it am pollyticks against 'taters, take de 'taters.
 An hour wid a saw-buck am more valuable dan an hour wid a statesman.
 De man in debt am a swimmer wid his butes on.

A good dinner is a smile-tinner.

To-morrow's business cannot stop to do to-day's.

A young Baltimorean named d'Biens went, a few days ago, to the City Hospital, in that city, to get relief from the effects of a dose of hashcheesh. I found his face red as two feet from where it really was, and he sometimes thought he had lost his legs and was walking on his chin. He was very much afraid that some one would steal one of his arms. "Something was not done to counteract the drug."

Two ladies moving in the highest circles of Washington society, during a friendly meeting on the street, got to quarreling about their age, at last, as if to end their dispute, one of them turned away and said in a very conciliatory tone of voice: "Let us not quarrel any more. I, at least, have not my mother was; she deserted me when a baby, and who knows but what you may have the heartless parent."

This Company has disposed entirely of all its STOCK PLAN BUSINESS, and having been RE-ORGANIZED, has decided in the future to do a

Strictly Mutual Home Business.

Having succeeded in paying ALL ITS LIABILITIES, and securing an

Actual Net Available Surplus of Over \$30,000,

the Directors feel that they can offer to all who desire insurance not only as LOW RATES and UNQUESTIONABLE SECURITY, but much greater probability of immunity from assessment for years to come, than other Companies. Since this surplus is large enough to pay all probable losses on the policies now in force until their expiration, without any dependence on receipts from new business—a condition which can be shown by but very few companies in the State. The present Director pledges to the Policy Holder an

HELP We don't claim to work cheaper than anybody else,—we can't afford it. We ask "A fair day's pay for a fair day's work."

SCROFULA and all scrophulous diseases, Scars, Erysipelas, Eczema, Eruptions, Ringworms, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for ever forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrophulous diseases.

A Recent Cure of Scrophulous Sores. "Some months ago I was troubled with scrophulous sores (ulcers) on my legs. The sores were badly swollen and inflamed, and the sores discharged large quantities of matter. I tried many remedies, but failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me."

Yours respectfully, **Mrs. ANN O'BRIAN,**
 140 Sullivan St., New York, June 24, 1882.

All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. F. Wilds of 75 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known writer on the Boston Herald, Dr. W. B. Hall, of Rochester, N.H., writes, June 7, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have, during the past three months, of AYER'S SARSAPARILLA, which has effected a complete cure. I consider it a magnificent remedy for a blood disease."

Ayer's Sarsaparilla stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Eczema, Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.
