## DR. JOHN BULL'S Smith's Tonic Syrup FOR THE CURE OF FEVER and AGUE Or CHILLS and FEVER, AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PAINLESS cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if it be continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

BULL'S SARSAPARILLA is the old and reliable remedy for impurities of the blood and Scrophulous affections—the King of Blood Purifiers.  
DR. JOHN BULL'S VEGETABLE WORM DESTROYER is prepared in the form of candy drops, attractive to the sight and pleasant to the taste.

## TUTT'S PILLS

### TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels constive, Sick Headache, Fullness after eating, Lassitude, exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Faintness, Flushing at the Heart, Heat before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and skin is also prompt: removing all impurities through these three organs of the system, producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect ANTIDOTE TO MALARIA.

THE FEELS LIKE A NEW MAN.  
"I have had Dyspepsia, with Constipation, two years, and have tried ten different kinds of pills, and TUTT'S are the best that have done me any good. They have cleaned me out nicely. My appetite is splendid, food digests readily, and I now have natural passages. I feel like a new man."

MR. EDITOR:—  
Elm is getting to be a lively place. Revival meetings every night, and Farmers' Club once a week, on Wednesday evening. This Club had a lively talk last evening. Subject, "The Strangers among us; and the best way to treat them." The conversation was lively, bringing out many points of interest to every one of the members, and others, I trust, who might be in the audience. The subject was finally decided to be one of importance, requiring the wisest and kindest kind of handling. It was shown, by referring to the past, that we were all in a measure strangers, coming under the rule of the Scripture text—"Ye shall not vex the stranger, nor oppress him, for ye were strangers in the land of Egypt." It was further illustrated by referring to the early settlement of this country by the Pilgrim Fathers, showing how the few were at the mercy of the Red Man, the Native of our country; and that we also, in our day, can, or ought, to follow the good example set us by the Indian,—extend to them an interest becoming civilization and a Christian people. It has shown that our prosperity lay in not abusing, but kindly using those who will, in all probability, become the future farmers of our neighborhood.

### From the Capital.

WASHINGTON, D. C. MARCH 29, 1884  
Government receipts to-day; Internal revenue, \$338,156.16; customs, \$306,071.56.

Secretary Lincoln has issued instructions for the observance of the eight hour law as regards the employees at the ordinance grounds at Sandy Hook, but this action does not indicate a general observance of the law as understood by those specially interested in it. Before eight hours become a working day everywhere among U. S. Government employees, more legislation will be necessary.

The late slight fire at the new War Department building and another in the Capitol call attention to the danger to public records in all government buildings here. Hundreds of tons of valuable documents are stored in various department buildings, and, however much we may think building "fire proof" we all know that the phrase can mean nothing under such circumstances. Once start a conflagration in the basement of the Treasury, for example, among the acres of paper filed away there, and nothing but a wreck would remain in a few hours. Hence the need of a separate building for the storage of these records, files &c., where no business of any kind should be carried on and the probabilities of fire be reduced to the minimum. A bill providing for such a building has passed one House at this session.

The week's events in Congress have been the defeat of the Whiskey bill, the debate on Senator Blair's Educational bill, and the Democratic caucus. The whiskey bill, which practically extended for two years the time in which distillers could pay about seventy millions of dollars of tax almost due on whiskey now in bond, was defeated by an unexpectedly large majority in the House. It was such a defeat, probably, as will forever prevent the introduction of another bill of the kind.

Senator Blair's Educational bill gives a very large sum of money, in amounts decreasing each year, to the cause of education, the money to be distributed to the States in the proportion of the illiteracy of their population. So many grounds of objection to the bill are found that I do not think it can pass. Some Senators oppose it because they see in its proposed national regulation of schools an infringement of the rights of States; others because they think too much instead of too little control of the money is given to the individual States; and still others because they say that the scheme is wholly experimental so far as some of the States are concerned—there being no State system of schools to build on—and therefore the amount given at first should be small, instead of large,

and should increase year by year instead of decreasing. The influence in favor of the bill, from educational centres, is great, and it may become a law at this session, but that is not probable.  
The democratic caucus, held last Tuesday evening, was not in all respects satisfactory to members of the party in the House, and informal conferences are daily and nightly held by representatives to complete and modify what was then done. It is not unlikely that another caucus or 'conference' will be held before the tariff bill is called up in the House next week.

HOWARD.

It is proposed to open the Garfield Memorial Hospital in Washington on May 1st.

Shasta and San Diego Counties, Cal., raised last year 125,000 boxes of raisins.

Political observers at Trenton report that the large majority of New Jersey's Republican voters are for Blaine.

Ex-Congressman Goddard, of Indiana, writes that Blaine, if nominated, would carry that State with a whirl.

Hawks have been thinning out the quail up through the State.

A colored baby show, containing 103 infants, is now in progress in Chicago.

A recent report from the Minister of Public Instruction shows that there are 100,000 public school teachers in France.

A proposition to give women suffrage was defeated in the New Jersey Assembly Monday, by a vote of 27 to 24.

The delay in bringing forward the Morrison Tariff bill in the House is accounted for on the theory that Free-traders do not expect to pass the law, but only to raise the issue and have it debated.

The next flood is expected to take place at Montreal. The huge snow banks along the St. Lawrence are beginning to melt, and the river grows higher every hour.

It is ascertained that a filibustering expedition against the Cuban Government is being organized in Key West. Three U. S. Government vessels have been ordered there.

Prince Bismarck's probable withdrawal from the Prussian ministry is said to be due to conflict with the vice-President of the Cabinet, who is supported by the other ministers.

One of the features of South Carolina's exhibit at the New Orleans Exposition are some specimens of iron ore which Korroth smelted and forged into musket barrels for the United States Government, for use in the war of 1812, the works still existing at or near a paper mill in Greenville County, S. C.

Later reports from Khartoum affirm that the city has been reinforced and is in Chinese Gordon's control, and that the two black sheikhs, whose treachery brought about Gordon's late defeat, have been court-martialed and executed.

Of the 40,000 Indian children now living in this country, over 10,000 are being educated in Government schools. This fact is all the more significant when it is remembered that no systematic work had been undertaken until the latter part of General Grant's administration.

To the surprise of Republicans generally of the Second Congressional District, Hon. John Hart Brewer has preemptorily declined the Republican nomination to Congress. This action brought the Republicans of the district promptly forward with the name Gen. John S. Shultz, of Ocean, for the nomination. Should he yield to the solicitations of his friends to be a candidate, he will have a strong following in the four counties composing the district. On only two occasions—once for the Assembly and once for the Senate—has Gen. Shultz been a candidate for office, on both of which he was handsomely elected. He was a soldier in the war for the Union, and was twice severely wounded in native service. He has large landed and manufacturing interests in Ocean county.—W. J. Press.

Of the 21 counties in New Jersey, seven are classed as Republicans, seven Democrats, and seven doubtful. The average assessment for the seven Democratic counties is \$400.80 for each inhabitant; for the seven 'uncertain' counties, \$462.70; for the seven Republican counties, \$461.60.

## THE Manchester Strawberry

What is said of it.

Joseph B. Rogers, Chairman Fruit Committee New Jersey State Horticultural Society, says: "Manchester has done nobly throughout the State. It yielded with me both in matted rows and in hills full double what any other variety did. It cannot be too highly praised."

J. T. Lovatt says: "The Manchester has fairly distanced all competitors in the race for public favor in the season just past. It was without exception by far the most profitable and satisfactory strawberry I have fruited."

List of unclaimed letters remaining in the Post Office at Hammonton, N. J., April 1st, 1884: Nathaniel Bonf, Mrs. Bertson, Miss Mary McLean, Jos. M. Hammel, Uri Reinhardt, Miss Lizette Sheldis, Wm. Wilson (packaging).

What has become of the Hammonton branch of the Society for the Prevention of Cruelty to Animals? Only a few days ago, a man drove a young horse up and down a portion of Bellevue on full run, backward and forward, applying his whip freely. Of course he was drunk; but the animal should have been protected, even if we have no method of punishment for the crime of drunkenness.

We hear friends on the street consulting to how they shall designate the two railroads when they are both broad-gauge, as they will be in a few days. Time is too precious for an American to waste in saying "Camden & Atlantic" or "Philadelphia & Atlantic City," so the words "Old" and "New" are suggested. The idea is a good one, and we shall use those terms, hereafter.

During the first three months of 1883, the value of stamps sold at the Hammonton Post Office was \$388.34; during the same months of 1884, the value was \$565.63—a gain of \$177.29. The value of stamps cancelled during the quarter named was, in 1883, \$416.48; in 1884, \$583.30—a gain of \$117.88 in three months—the business. It is pleasant to record such an evidence of the prosperity and growth of our town.

The removal of the Philadelphia-Post Office to the new quarters in the Federal building was completed Monday.

Hon. Samuel J. Tilden is represented as saying that Senator-elect Payne, of Ohio, could be elected president beyond doubt.

Constable Ben Jarvis had a very exciting adventure not long ago, in making an arrest of one of the burglars who robbed Geo's store, at Elwood. Getting track of the two suspected parties, he gave chase and followed them to a point near Hammonton Lake. There (supposing he had lost the trail) the robbers prepared to spend the night; but Ben was not far away, and came upon them so suddenly that but one was able to escape, the other being covered by the Constable's revolver until he surrendered and was ornamented with nickel-plated bracelets. He was afterward identified as one of the Jones brothers, who are wanted at Vineland to answer a charge of robbery and murder. Constable Noll, of Hammonton, was given a description of the one who escaped, and tracked him to the vicinity of Indian Mills, (at least there is reason to believe him to be the same) where he had been living as a camp for a few days. Mr. Noll arrested him, but lacking proper papers, could not hold him. Jarvis was sent for, and the man spent Sunday night in Hammonton; and was taken to Elwood on Monday morning, for identification. He refused to give any account of himself, or explain the presence of a bottle of hair-dye in his pocket, or the disappearance of the mountains worn when in Elwood, or why he carried two razors about with him.

At Elwood, the prisoner was not identified, and was therefore released. It is rumored, however, that Jarvis has the man he is after.

From Our County Papers. From the RECORD. Our new street lamps will be here next week.

Capt. E. E. Hudson of this place, celebrated his eighty-fourth birthday on Monday of this week. The captain, though getting along in years as the above figures indicate, is still hale and hearty and bids fair to live to cast his vote for more than one successful Republican candidate for the Presidency of this, his native country.

Messrs. Veal and Norcross are making many decided improvements in the American Hotel. New furniture graces nearly every room in the house, new beds have been put in, and in fact everything in the house, from garret to cellar, is new. The proprietors now have a hotel of which they may justly feel proud.

The machinery of the wrecked steamer, Wm. Spioer, ashore near Brooks' Point, is being taken out.

Pardon Ryon has purchased Capt. Wm. Robinson's property at Pleasantville, and will build before summer.

Capt. James Ross, who was reported lost at sea, has returned to his home at Linwood. The Captain intends giving up seafaring life and remain on dry land the rest of his days.

Mr. Edwin Adams has had the remainder of his farm cleared of the scrub oaks, and is now having the land broken.

On the 1st of April, Mr. Sumner Gould moved into his new quarters, No. 70, 5th Ave., Elizabeth, and it is said that he has the finest music store in the State, outside of Philadelphia.

Weymouth and Elwood are now connected by telephones.

Some Republicans claim that it is highly probable that ex-Sheriff Moore will be the Republican nominee for that office again this fall.

We haven't heard anything about the railroad between Egg Harbor City and May's Landing being put in operation again. Has the whole matter fallen through?

The Weymouth Township Committee has had finger boards erected at the different X roads in that township. We are pleased to note the improvement.
