Perhaps your business is in need  
of a prescription. Here it is: Mix a  
little brains with a little ink. That  
done, take a little cash with you and  
inject the mixture into the local news-  
paper. Repeat the dose as often as  
necessary, which is always.

That brain must be very opaque  
Which thinks ads are all a mistake;  
They're the life blood of trade,  
And the error is made  
When the merchant big space doesn't take!

A thorough Hammontonian says,  
"One good canning factory would be  
worth more to the town than a hundred  
sweat shops." He further adds, "The  
opening in Hammonton of one canning  
factory would lead to twenty inside of  
ten years, and would be the biggest in-  
centive to business industry in the his-  
tory of the Town." The project of  
starting a bank in town was frowned  
down upon as a thing impossible, but  
the bank is here.

### The First Ward

Mrs. Geppert spent a few days with  
friends in Philadelphia.

Chas. Money is having his house  
painted.

The report is that Mrs. Fred Small  
is very sick.

Geo. Johnson is able to be out, after  
many months of severe illness.

Rhode Island shows no disposition to  
experiment with Democratic rule. The  
election in that State last week Wednes-  
day resulted in the choice of a Republi-  
can Governor by a majority of 11,000  
and of a Legislature in which there will  
be only eight Democrats.

New Jersey stands well among the  
States from a financial standpoint.  
"Among the Middle States," says  
Bradstreet, "New Jersey and Delaware  
each return fewer failures than a year  
ago." This goes to show that the finan-  
cial interests of New Jersey are well  
looked after; that the people are con-  
servative and judicious, and that the  
conditions of business have been very  
carefully studied. New Jersey stands  
at the head of all the States in the  
average value of products per acre, and  
she takes high rank commercially and  
financially. New Jersey is really a very  
good State to live in.

The Republicans carried Chicago last  
Tuesday by 40,000 majority. The people  
are always safe. The Altgeld-Socialistic  
agitator class have played with fire  
long enough. It was high time to call  
a halt in these anarchical proceedings.  
And the people acted as the sovereigns  
that they are.

What this country needs and means  
to have: Protection to American in-  
dustries and a stable currency.

### Did You Ever

Try Electric Bitters as a remedy for your  
troubles? If not, get a bottle now and  
get relief. The medicine has been found  
to be peculiarly adapted to the relief and  
cure of all female complaints, exerting a  
wonderful direct influence in giving tone  
and strength to the organs. If you have  
loss of appetite, constipation, headache,  
fainting spells, or are nervous, sleepless,  
excitable, melancholy, or troubled with  
dizzy spells, Electric Bitters is the medi-  
cine you need. Health and strength are  
guaranteed by its use. Large bottles  
only 50 cents, at Croft's.

I recommend Chamberlain's Balm for  
rheumatism, lame back, sprains and  
swellings. There is no better liniment  
made. I have sold over 100 bottles of it  
this year, and all were pleased who used  
it. J. F. Fierston, druggist, South Chi-  
cago, Ill. It is for sale by druggists.

[Entered as second class matter.]

SATURDAY, APRIL 13, 1895.

Under the efficient supervision of Prof. R. E. Salisbury, our Hamonton Schools have acquired an enviable reputation wherever they are known; and with the present course of study, graduates will be admitted into many of the higher institutions of learning without preliminary examination. Our citizens have reason to be proud of the work being done in all departments. And yet, we are told, some members of the Board of Education favor a return to the old County course of study, and because the Principal persists in his objections to this backward step, are inclined to demand a motion to re-elect him for another year. Our argument must be that \$1000 per year is too large a salary. It does look large to some of us who earn perhaps one-half of that amount; but demand controls salaries as well as prices. Prof. W. B. Matthews, late Principal, is receiving much more than that salary at Madison, with a less number of pupils, and no more personal teaching. Professional men in other lines, with no better equipment for their work, earn twice or thrice, or ten times one thousand dollars. We sincerely hope that no change will be made, except for incompetency, if any exists in any of our schools. Pupils in the higher departments have presented to the Board of Education a numerous signed petition, asking for the retention of Prof. Salisbury. This was done of their own notion, because they appreciate his methods, and are pleased with the progress they are making under his guidance; and the highest grade are desirous of continuing the course another year, when they may graduate.

Bicyclists should "get together" before next Council meeting. There is a disposition to treat riders fairly, and if an ordinance should be prepared now, forbidding riding on the sidewalks of Bellevue Avenue from Fourth Street to Grand Street, and on cross streets one eighth of a mile each side of Bellevue, we believe it would pass. Riding and rapid riding should be prohibited on all public streets of the town, also; and riders should be held responsible for any damage or injury done to pedestrians by their machines. When the present Town ordinance was passed, all bicycles were of the high "Star" or "Columbia" pattern, and difficult to control; the present machines elevate the rider very little above a pedestrian, and accidents very rarely occur. If cyclists desire recognition they should have a satisfactory ordinance prepared, for submission to the Council.

Pastor J. C. Killian, of the Baptist Church, will give, to-morrow evening, the first of a series of discourses on "What Does the Bible Say?" about 1st, Resurrection From the Dead.

April 14th, 2nd, Condition of the Soul Between Death and the Resurrection. April 21st, 3rd, The Last Judgment. April 28th, 4th, Final State of the Believer. May 12th, 5th, Final State of the Unbeliever.

To-morrow there will be special appropriate Easter music.

While the young folks are gathering Arbutus, hardy plants are blooming out-of-doors, buds are swelling on the trees, and lawns growing beautifully green, it chills one to read of a lake in northern Jersey still covered with ice many inches thick; and the statement that Hudson River steamers only last week began their daily trips, and then with ice on each side of the channel, makes one rejoice that we live a few miles further from the north pole.

Those who never read the advertisements in their newspapers miss more than they presume. Jonathan Kenyon, of Bolan, Worth County, Iowa, who had been troubled with rheumatism in his back, arms, and shoulders, read an item in his paper about how a prominent German citizen of Ft. Madison had been cured. He procured the same medicine, and, to use his own words, "It cured me right up." He also says, "A neighbor and his wife were both sick in bed with rheumatism. Their boy was over to my house and said they were so bad that he had to do the cooking. I told him of Chamberlain's Pain Balm, and how it had cured me; he procured a bottle of it and it cured them up in a week. 50c. bottles for sale by druggists.

The body of a man found in the Delaware River, at Philadelphia, was identified as that of Mr. Alfred Goff, aged about sixty years, long a resident in Hamonton, whose family are still with us. Up to the time of going to press, the manner of his drowning is unknown to us. He was a silk weaver by trade, could find work only in the city, and boarded at the St. James Hotel, on Race Street. According to the papers, he has been despondent for some weeks, doubtless caused by depression in business, and it is supposed that death was sought voluntarily, while mentally irresponsible.

Miss Beale Ash died Wednesday afternoon, of consumption, at the residence of her uncle, Harry Sheppard, near DaCosta. Miss Ash came down about nine months ago, hoping for an improvement in health, but the disease was too far advanced. She was an active Christian worker and passed away in glad hope. The remains were taken to her home in Philadelphia for burial.

Hon. John J. Gardner's name has been mentioned for nomination for Governor. Well, why not? No man questions his ability, and his familiarity with State affairs qualifies him for the position. As a Republican no man in the State deserves it more than he. We hope the State Convention will honor itself and Mr. Gardner, and South Jersey as well, by nominating him.

FOR SALE or TO RENT, Twelve roomed house and twenty-two acres of land, one half in fruit. \$10 per month. Inquire of G. W. PRESSEY.

She had written to her mother and she told her Aunt Julia; and she told her mother and she told her Aunt Julia.

Nettie was ashamed of the feeling. Of course he admired a handsome, clever, charming girl.

Nettie stood watching her eyes fastened on the mirror which reflected the moment she stood there.

When the wind in the poppy comes from the west, the poppies in the corn. The poppies in the corn.

HUMOR OF THE DAY.

No doubt the jail-bird often wishes he could fly.—Fruth. It is the man who is always getting left that talks about his rights.

A Substitute for Tan Bark.

Crowing wild in great abundance in New Mexico and Arizona is a plant that yields a large percentage of tannic acid.

The Tribune dissects the gold bond transaction with cold precision, presenting facts so clearly that no man need err in making up his judgment. It declares that the tremendous rush for American bonds, both here and in Europe, show beyond question that the same bonds would have been eagerly taken in sufficient amount if they had been offered directly to the public by the President. But in that case a small syndicate would not have made the profit of several millions which is now figured for them. The claim that the President was forced to appeal to international wreckers to haul the ship off the rocks is seen to be entirely without foundation. He could have done it any hour himself, if he had not preferred to pose before the world as the greatest champion of gold bonds while negotiating with foreign brokers for the sale of the coin bond now so readily taken. This is one of the most humiliating passages in the whole history of American finance, that bonds for which holders now refuse 116 should have been sold by the Government at only 104 because it was claimed that nobody would buy them if offered directly to the people. Of all the performances of this Administration, this is perhaps the most discreditable in a financial aspect.

Recent consular reports received at the State Department recommend that American packers should turn their attention to shipping horse flesh to Germany.

The superiority of some men is merely local. They are great because their associates are little.

**A Household Treasure.**

D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house, and his family has always found the very best results follow its use; that he would not be without it, if procurable. G. A. Dykeman, druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best cough remedy that he has used in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested. Trial bottles free at Croft's Pharmacy.

Our better halves say they could not keep house without Chamberlain's Cough Remedy. It is used in more than half the homes in Leeds. Sims Bros., Leeds, Iowa. This shows the esteem in which that remedy is held where it has been sold for years, and is well known. Mothers have learned that there is nothing so good for colds, croup, and whooping cough, that it cures these ailments quickly and permanently, and that it is pleasant and safe for children to take. 25 and 50 cent bottles for sale by druggists.
