**Home.**  
Home's not merely four square walls  
Though with pictures hung and gilded;  
Home is where affection calls,  
Filled with shrines the heart hath builded.  
Home! go watch the faithful dove,  
Sailing 'neath the heaven above us;  
Home is where there's one to love—  
Home is where there's one to love us!

Home's not merely roof and room—  
It needs something to endear it!  
Home is where the heart can bloom,  
Where there's some kind lip to cheer it!  
What is home with none to meet,  
None to welcome, none to greet us?  
Home is sweet—and only sweet—  
When there's one we love to meet us.

**The Little Grave.**  
"It's only a little grave," they said,  
Only just a child that's dead;  
And so they carelessly turned away  
From the mound the spade had made that  
day—  
Ah! they did not know how deep a shade,  
That little grave in our home had made.

I know the coffin was narrow and small—  
One yard would have served for an ample  
pall—  
And one man in his arms could have borne  
away  
The rose bud and its freight of clay;  
But I know that darling hopes were hid  
Beneath that little coffin lid

I know that a mother had stood that day  
With folded hands by that form of clay;  
I know that burning tears were hid  
"Neath the drooping lash and aching lid,"  
And I know her lip, and cheek and brow  
Were almost as white as her baby's now:

I know that some things were hid away,  
The crimson frock and wrappings gay;  
The little sock and half-worn shoe,  
The cap with its plumes and tassels blue,  
An empty crib with its covers spread  
As white as the face of the sinless dead.

"Tis a little grave, but O, beware!  
For world-wide hopes are buried there;  
And ye, perhaps, in coming years  
May see like her, through blinding tears,  
How much of light, how much of joy,  
Is buried with an only boy.

**Our Washington Letter.**  
WASHINGTON, D. C., April 12, 1880.  
The Democrats who were so warlike last year  
are holding in their prancing steeds, having made  
up their minds that they never open their  
mouths without furnishing fresh political  
capital for the Republicans. How long this will  
last nobody can tell. When they found they  
could not choke off debate on the troops at the  
polite clause of the army bill, they sat right back  
and said, "take all you want to; we will not  
reply." But the severe words of the Republi-  
can leaders have burned them almost beyond  
endurance, and I would not wonder if they  
opened their mouths to blunder again shortly.

The best evidence that the Democrats are  
frightened is the hesitation in unseating Senator  
Kellogg, of Louisiana. For many days the  
Democratic Senate have been caucusing on  
his case, and the elections Committee have  
earnestly urged action. But there is no action,  
and now it leaks out that several Democratic  
Senators have said that they would not vote to  
steal that seat, and hence the fire eaters dare  
not move for fear of ignominious defeat. Their  
seat stealing career in the Senate and House  
both therefore appears to be suspended if not  
ended. The approaching campaign has a  
wholesome effect on them.

I take occasion here to contradict a report  
circulated by the supporters of Grant and  
Sherman, that the National Blaine Club of this  
city is circulating documents attacking rival  
candidates. Though the accusations have been  
made, not one single document has been brought  
forward to prove them. The Club is not carry-  
ing on a campaign of slander or personal de-  
traction against any one. It simply advocates  
the nomination of Mr. Blaine. It was organ-  
ized without consultation with the Maine Sen-  
ator, and in his absence from the city, and  
even if the Club had sent out documents as is  
charged, Senator Blaine could not be made to  
suffer, he is not responsible for the actions of  
the Club. Mr. Bartlett, the Secretary, says  
that the operations of this Club in the canvass  
will be such that, no matter who wins, there  
will be no hard feeling among the supporters of  
defeated candidates. I repeat, the Blaine Club  
has never sent out a document attacking any  
rival candidate.

Wm. H. Vanderbilt has just made another  
investment in Government bonds, making in all  
that he holds \$51,000,000. He is the largest  
holder of bonds of a single denomination in the  
world. MAXWELL.

A rival of the Mammoth Cave has been dis-  
covered near Hopkinsville, Kentucky. A per-  
fect museum of geological curiosities is de-  
scribed as existing in it. A beautiful forest of  
lapidodendrons forty feet high, tree ferns,  
mosses and other cryptogams flora exist in  
abundance. Marble shells and the fossil re-  
mains of animals resembling monkeys have  
been found by the explorers of this cave.  
Three different routes have been gone over to  
a distance of eleven miles. The main avenue  
has an average width of sixty feet with a height  
of forty.

**The Brakeman who went to Church.**  
This is from the *Burlington Hawkeye*, and  
must be true—to some extent:  
To me comes the brakeman, and seating him-  
self on the arm of the seat, says—  
"I went to church yesterday."  
"Yes?" I said, with that interested inflection  
that asks for more. "And what church did you  
attend?"  
"Some union mission church?" I hazarded.  
"Now," he said, "I don't like to run on these  
branch roads very much. I don't often go to  
church, and when I do, I want to run on the  
main line, where your run is regular, and you  
go on a schedule time and don't have to wait on  
connections. I don't like to run on a branch.  
Good enough, but I don't like it."

"Episcopal?" I guessed.  
"Limited express," he said, "all palace cars  
and \$2 extra for a seat; fast time, and only  
stops at the big stations. Nice line, but too  
exhaustive for a brakeman. All train men is  
uniform, conductor's punch and lantern, silver-  
plated, and no train boys allowed. Then the  
passengers are allowed to talk back at the con-  
ductor, and it makes them too free and easy.  
No, I couldn't stand the palace cars. Right  
though. Don't often hear of a receiver being  
appointed for that line: Some mighty nice  
people travel on it, too."

"Universalist?" I guessed.  
"Broad gauge," said the brakeman; "does  
two much complimentary business. Everybody  
travels on a pass. Conductor doesn't get a fare  
once in fifty miles. Stops at all flag stations,  
and won't run into anything but a union depot.  
No smoking car on the train. Train orders are  
vague though, and the train men don't get along  
well with the passengers. No, I don't go to the  
Universalist, though I know some awfully good  
men who run on that road."

"Presbyterian?" I asked.  
"Narrow gauge, eh?" said the brakeman,  
"pretty track, straight as a rule; tunnel right  
through a mountain rather than go round it;  
spirit level grade; passengers have to show  
their tickets before they get on the train.  
Mighty strict road, but the cars are a little nar-  
row; have to sit one in a seat and no room in  
the aisle to dance. Then there's no stop over  
tickets allowed; get to go straight through to  
the station you're ticketed for, or you can't get  
on at all. When the car's full, no extra coaches;  
cars built at the shops to hold just so many,  
and nobody else allowed on. But you don't  
often hear of an accident on that road. It's  
run right up to the rules."

"Maybe you joined the free thinkers?" I said.  
"Scrub road," said the brakeman, "dirt road-  
bed and no ballast; no time card, and no train  
dispatcher. All trains run wild, and every en-  
gineer makes his own time, just as he pleases.  
Smoke if you want to; kind of go-as-you-please  
road. Too many side tracks, and every switch  
wide open all the time, with the switchman  
sound asleep and the target lamp dead out.  
Get on as you please and get off when you  
want to. Don't have to show your tickets, and  
the conductor isn't expected to do anything but  
amuse the passengers. No, sir, I was offered a  
pass, but I don't like the line. I don't like to  
travel on a line that has no terminus. Do you  
know, sir, I asked a division superintendent  
where that road run to, and he said he hoped to  
die if he knew. I asked him if the general  
superintendent could tell me, and he said he  
didn't believe they had a general superinten-  
dent, and if they had he didn't know any more  
about the road than the passengers. I asked  
him who he reported to, and he said 'nobody.'  
I asked a conductor who he got his orders from,  
and he said he didn't take orders from any liv-  
ing man or dead ghost. And when I asked the  
engineer who he got his orders from, he said  
he'd like to see anybody give him orders; he'd  
run that train to suit himself, or he'd run it into  
the ditch. Now you see, sir, I'm a railroad  
man, and I don't care to run on a road that has  
no time, makes no connections, runs nowhere  
and has no superintendent. It may be all  
right, but I've railroaded too long to under-  
stand it."

"Did you try the Methodist?" I said.  
"Now you're shouting," he said, with some  
enthusiasm. "Nice road, eh? Fast time and  
plenty of passengers. Engines carry a power  
of steam, and don't you forget it; steam gauge  
shows a hundred, and enough all the time.  
Lively road; when the conductor shouts 'all  
aboard,' you can hear him to the next station.  
Every train lamp shines like a headlight. Stop  
over checks given on all through tickets; a pas-  
senger can drop off the train as often as he  
likes, do the station two or three days, and  
hop on the next revival train that comes thun-  
dering along. Good, whole-souled compani-  
onable conductors; ain't a road in the country  
where the passengers feel more at home. No  
passes; every passenger pays full tariff rates  
for his ticket. Wesleyan house air brake on all  
trains, too; pretty safe road, but I didn't ride  
over it yesterday."

"Maybe you went to the Congregational  
church?" I said.  
"Popular," said the brakeman, "an old  
road, too; one of the very-oldest in this coun-  
try. Good road-bed and comfortable cars.  
Well managed road, too; directors don't inter-

fer with division superintendents and train  
orders. Road's mighty popular, but its pretty  
independent, too. See, didn't one of the divi-  
sion superintendents, down east, discontinue one  
of the oldest stations on this line, two or three  
years ago. But it's a mighty pleasant road to  
travel on. Always has such a pleasant class of  
passengers."

"Perhaps you tried the Baptist?" I guessed  
once more.  
"Ah, ha?" said the brakeman, "she's a daisy,  
ain't she? River road; beautiful curves; sweeps  
around everything to keep close to the river;  
but it's all steel rail and rock ballast, single  
track all the way, and not a side track from  
the road house to the terminus. Takes a heap  
of water to run it through; double tanks at  
every station, and there isn't an engine in the

shops that can pull a pound or run a mile in  
less than two gauges. But it runs through a  
lovely country; these river roads always do;  
river on one side and hills on the other, and its  
a steady climb up the grade all the way till the  
run ends where the fountain-head of the river  
begins. Yes, sir, I'll take the river road every  
time for a lovely trip, sure connections and  
good time, and no prairie dust blowing in at  
the windows. And, yesterday, when the con-  
ductor came round for the tickets, with a little  
basket punch, I didn't ask him to pass me, but  
I paid my fare like a little man—twenty-five  
cents for an hour's run and a little concert  
thrown in. I tell you, Pilgrim, you take the  
river road when you want—"

But just here, the long whistle from the en-  
gine announced a station, and the brakeman  
hurried to the door, shouting:  
"Zionsville! This train makes no stops be-  
tween here and Indianapolis!"

A great fire has been raging in the forests of  
Ocean, Monmouth, Cumberland and Atlantic  
counties since Tuesday morning. It originated  
from a spark from a locomotive on the New  
Jersey Southern Railroad, or at least one sec-  
tion of it did, and has since then swept over  
and destroyed immense tracts of woodland in-  
volving great losses. Millions of game have  
been suffocated and a considerable number of  
cattle have been burned to death. People in  
the immediate vicinity of these fires are all the  
time busily engaged fighting to save their prop-  
erty. Trains on the New Jersey Southern had  
to run a fiery gauntlet on Wednesday with wet  
blankets at the windows, and even then heat was  
intense and the cars were badly scorched. Hun-  
dreds of miles have been totally devastated,  
and where in Cumberland, Atlantic and Ocean  
counties there were formerly pine forests and  
nice groves, nothing remains but blackened  
masses. There seems to have been two great  
fires going, one being started by a spark from  
a N. J. Southern locomotive and the other by  
a spark from the Tucker road. The fires  
had in a great measure abated on Friday morn-  
ing.

**General News.**  
The peace strength of the German army has  
been fixed at 427,270 men.  
Rear-Admiral H. K. Thatcher, of the United  
States Navy, is dead.  
The \$2,250,000 asked to complete the Brook-  
lyn bridge has been appropriated.  
The Ladies' Anti-Polygamy Society of Utah  
has started a newspaper.  
The total value of church property in the  
country is placed at \$500,000,000.  
Fifty two newspapers and magazines of this  
country are edited by colored men.  
The Court of Appeals has decided that Chas-  
tine Cox, Mrs. Hull's murderer, shall be hang-  
ed.  
In the new English Parliament the liberal,  
will probably have 340 members, the home rulers  
60, and the Tories not over 250, giving the lib-  
erals a clear majority of at least 80, independent  
of the home rulers.  
Frank Hart, a colored man from Boston,  
walked 585 miles in a pedestrian match in New  
York last week, making about \$20,000 by the  
great feat. It is the best time on record. No  
horse living could have gone over the same  
space in the same time.  
Johnson O. Whitaker, the only colored cadet  
at West Point, was found bound in his room  
one morning, with his ears slit. He claims to  
have been assaulted by three masked men. The  
opinion is entertained by many that he did the  
deed himself to gain notoriety. A board of in-  
vestigation is trying to get at the truth of the  
matter.  
The past ten days have been devoted to dis-  
cussion rather than action in Congress. The  
Senate considered the Ute Amendment bill with-  
out reaching a vote. The Democratic Sena-  
torial caucus laid aside temporarily the Kellogg  
Spofford case. Sharp words concerning West  
Point were drawn from Senators Hoar, Logan,  
Bruce and Voorhees by the colored cadet out-  
rage. In the House the Naval and Army ap-  
propriation bills were under debate. Mr.  
Springer explained away the charges of cor-  
ruption made against him in connection with  
the contest for Mr. Washburn's seat. Mr.  
Sparks, of Illinois, called Mr. Clymer, of Penn-  
sylvania, a liar, during a session of the House,  
and was promptly brought to an apology.

**State Items.**  
H. G. Smith has severed his connection with  
the Atco Argus.  
The silk manufactories in Paterson number  
80, and give employment to 15,000 people,  
mostly females.  
Isaac Jaques, the oldest citizen of Elizabeth,  
is ninety-one years of age. He has seen every  
President of the United States except President  
Hayes.  
At the personal desire of Governor McClellan  
Comptroller E. J. Anderson will retain his po-  
sition as Fish Commissioner, which he has ac-  
ceptably filled.  
James Moore has worked for R. D. Wood &  
Co., of Millville, for eight years and has had  
in that time only \$2.50 in cash, the balance of  
his wages having been paid in store orders.  
A family Bible, printed in London, in the  
year 1558, is in the possession of William F.  
Clay, in Camden, who resides at No. 1727 South  
Sixth street. It is said to be the oldest copy  
in this country.  
Wm. Hulce is a farm hand on the farm of  
Gordon Siddle, at Shrawsbury, where he lives  
in a tenement house with his family. On Wed-  
nesday night, the fire being low, Hulce stirred  
it up, and placed his feet against the stove to  
warm them, when he laid back in his chair and  
soon fell asleep. The fire came up and Hulce  
was not awakened till both of his feet were ac-  
cidentally burned, so that the amputation of one  
of them will be necessary.

**Sheriff's Sale.**  
By virtue of a writ of fieri facias, to me di-  
rected, issued out of the Court of Chancery,  
will be sold at public vendue, on  
Friday, April 23d, 1880,

day, at the Hammonton House, in Hammonton,

town of Hammonton, county of Atlantic and  
State of New Jersey and bounded and described

westerly side of Bellevue Avenue at a distance  
of one hundred and thirty eight feet from the  
corner of said Bellevue Avenue and Railroad  
Avenue as said Railroad Avenue now is located;

line of a lot owned by Cyrus J. Fav one hun-  
dred feet to a point; thence, second, north-  
easterly on a line parallel to Bellevue Avenue

sixty-seven.)

rix, &c., of William D. Smith, deceased, Com-  
plainant, and to be sold by  
M. V. B. MOORE, Sheriff.

**The Pennsylvania Railroad Company**  
has recently been making a careful in-  
vestigation among its employes, espe-  
cially the engineers, to find out the extent  
of color blindness among them, prepara-  
tory to regulating matters relating to the  
signal system. These investigations have  
developed many interesting phases in  
color blindness that will prove of great  
service in the arrangement of the colored  
signals. It is stated that of five thousand  
men examined, many were completely  
color blind; some could tell the color of  
single articles while they could not select  
the same color from a variety placed be-  
fore them, and a great number could tell  
the main colors but could not readily  
distinguish the different shades. It is  
probable that eventually the color sig-  
nalling will be mostly dispensed with, and  
that only the white light will be in gen-  
eral use, with a fixed system of motions  
in the different directions to supply  
the place of the colors now in use.

Maine has passed up its prohibitory law  
this year with another turn of the screw,  
making it more rigid than ever before. By  
the new law lately signed by the Governor,  
it is first declared that resorts where intox-  
icating liquors are kept, sold, given away,  
drank or dispensed in any manner not pro-  
vided for by law are common nuisances. Or-  
der cannot be sold or kept in quantities  
less than five gallons. Special constables  
are to be appointed by the Governor to  
enforce the law where the county or local  
authorities fail to do it. The Governor is  
authorized to remove from office any  
county attorney who does not perform  
the duties imposed by the law. Persons  
convicted of drunkenness can have no re-  
mission or mitigation of sentence except  
by telling where they procured the liquor.  
The penalties for selling or consenting to  
a sale are, for a first offense, \$100 and  
costs, and, in default of payment, ninety  
days' hard labor in the county jail; or a  
sentence of six months' hard labor may  
be imposed. For every subsequent of-  
fense the sentence is to be both a fine of  
\$100 and imprisonment at hard labor for  
six months, and the person convicted is to  
stand committed until the fine is paid.

Shipwrecked.

FROM THE PENCIL OF PHAROOS COPPER.
Before the wind-snap which 'erlocks the
Sita Jean the golly, rough of mien and speech;
On coast-guard now, whose arm was shot
away

My boyhood had been passed 'neath yonder
cliff,
Where an old man—my uncle, so he said—
Kept me at prancing for my daily bread.

But once on sea 'twas ten times worse, I
found
I leaved to take, to bear, and make no sound,
First place, on ship was in the negro trade,
And once off land, no vain attempts were
made.

And as I went about the decks my arm
Was weary used to fend my face from
foes,
No man had pity, blows and stripes all ways,
For sailors know no better than those days.

The Basket of Shavings.

CHAPTER I.
"Becky Fairweather, where have you
been all this while?"
It was a shrill woman's tongue that
put the question; and it was a timid
child's voice that replied: "I've just
been playing in the court here, along
with the girls. Please don't whip me,
Aunt Nora! Please don't!"

CHAPTER II.
She stopped at the door, crying deso-
lately. She would not have dared, regar-
dless of the certainty that it was growing
darker all the while, and that she would be
whipped and scolded for her misdeeds.

CHAPTER III.
"Becky, what are you doing?"
"Nothing, Aunt Nora," she replied,
"but I'm afraid I've done something
wrong."

**SALERATUS**  
Which is the same thing.

Ypono Saleratus or El-Carb Soda (which is the same thing) is often slightly dirty with a color. It may appear white, caused by itself, but a comparison with Chamberlain's Colic, Cholera and Diarrhoea Remedy will show the difference.  
See that your Saleratus and El-Carb Soda is white and pure, as should be all similar substances used for food.  
A simple but severe test of the comparative purity of different brands of Soda or Saleratus is to dissolve a dessert spoonful of each kind with about a pint of water (not preferable) in clear glasses, stir gently until thoroughly dissolved. The deleterious soluble matter in the inferior Saleratus will settle some twenty minutes, caused by the inferior purity of the material and the quantity of floating rocky matter according to quality.  
Be sure and ask for Chamberlain's Soda and Saleratus and see that their name is on the package. The name of the purest and whitest Saleratus is on the wrapper with some milk in preference to being packed, saves twenty times its cost.  
See a pound package for valuable information and directions.

**Cathartic Pills**

Combine the choicest cathartic principles in medicine, in proportions accurately adjusted to secure activity, certainty, and uniformity of effect. They are the result of years of careful study and practical experiment, and are the most effectual remedy yet discovered for diseases caused by derangement of the stomach, liver, and bowels, which require prompt and effectual treatment. Ayer's Pills are especially applicable to this class of diseases. They act directly on the digestive and assimilative processes, and restore regular healthy action. Their extensive use by physicians in their practice, and by all civilized nations, is one of the many proofs of their value as a safe, sure, and perfectly reliable purgative medicine. Being composed of the concentrated virtues of purely vegetable substances, they are positively free from calomel or any injurious properties, and can be administered to children with perfect safety.

Ayer's Pills are an effectual cure for Constipation or Costiveness, Indigestion, Dyspepsia, Loss of Appetite, Foul Stomach and Breath, Dizziness, Headache, Loss of Memory, Numbness, Eruptions, Jaundice, Rheumatism, Eruptions and Skin Diseases, Dropsy, Tumors, Worms, Neuralgia, Colic, Gripes, Diarrhoea, Dysentery, Gout, Piles, Disorders of the Liver, and all other diseases resulting from a disordered state of the digestive apparatus.

As a Dinner Pill they have no equal.

While gentle in their action, these Pills are the most thorough and searching cathartic that can be employed, and never give pain unless the bowels are inflamed, and then their influence is healing. They stimulate the appetite and digestive organs; they operate to purify and enrich the blood, and impart renewed health and vigor to the whole system.

**"DON'T YOU DO IT!"**

Don't part with your money until you know the truth. Interested parties are spreading the reports that MR. JOHN WANAMAKER is not interested in the old and famous OAK HALL Clothing business and does not personally direct its affairs.

Nothing could be more Untrue!

Mr. JOHN WANAMAKER has precisely the same relations to Oak Hall as in the past.

WANAMAKER & BROWN is what it has been ever since Mr. Brown died, 12 years ago.

Mr. JOHN WANAMAKER personally watches over the faithful preparation of the stock of MEN'S AND BOYS' CLOTHING, and the conducting of the store. Nothing is allowed to pass his eye that is not straightforward and true to the interest of those who have patronized the house for 19 years and depend on its reliability.

From all appearances the year 1880 is to be the largest in sales ever known.

The READYMADE Department is Better Stocked  
The BOYS' Department is Better Stocked!!

**CUMBERLAND MUTUAL**  
**Fire Insurance Company.**  
BRIDGETON, N. J.

Conducted on strictly mutual principles, offering a perfectly safe insurance for just what it may cost to pay losses and expenses. The proportion of loss to the amount insured being very small, and expenses much less than usually had, nothing can be offered more favorable to the insured. The cost being about ten cents on the hundred dollars per year to the insured on ordinary risks, and from fifteen to twenty-five cents per year on hazardous properties, which is less than one-third of the lowest rates charged by stock companies, on such risks—the other two-thirds taken by stock companies being a profit accruing to stockholders, or consumed in expenses of the companies.

The guarantee fund of premium notes being now Three Millions of Dollars.

If an assessment had to be made of five per cent. only, twice within the ten years for which the policy is issued, it would yet be cheaper to the members than any other insurance offered. And that large amount of money is saved to the members and kept at home. No assessment having ever been made, being now more than thirty years, that saving would amount to more than

One Million Five Hundred Thousand Dollars

**The Losses by Lightning.**  
Where the property is not set on fire, being less than one cent per year to each member, are paid without extra charge, and extended so as to cover all policies that are issued and outstanding.

**MUST!**

Above product, our "speciely," is the pure unfermented juice of the grape as it leaves the press, and equivalent to this delicious fruit in liquid form. Possessing no alcoholic properties, it is invaluable to Invalids, Temperance people and Churches for Sacramental purposes. "Our" MUST not be mistaken for other so-called unfermented wines, as it is not boiled and hermetically sealed to keep it from spoiling. The only "Process" resort d to by us is to permanently stop fermentation, which naturally must result in the juice remaining as it grew.

The undersigned are now disposing of their new stock prepared from their last grape crop, and warrant that it will keep without special care.
