FOOD FOR THOUGHT.

Sacrifice money rather than principle. It is a woman's wont to have her will. Mark your tendencies, and apply them. Read books for what they can teach you. Use your leisure time for improvement. Extend to everybody a kind salutation. A false flag means a rotten keel below. Be sure you have not mistaken your calling. Injure not another's reputation in business. See what your temperament best suits you for. Fortune does not change men; it un-makes them. Attend carefully to the details of your business. He is below himself who is not above an injury. A short absence quickens love, a long absence kills it. Our whole life should speak nothing but thanksgiving. A towering passion often leads to monumental wrong. Poverty is in want of much, but adversity demands the earth. Revenge is only the pleasure of a little, weak and narrow mind. No one can lay himself under obligation to do a wrong thing. Life is too short to be spent in minding other peoples business. One thorn of experience is worth a whole wilderness of despair. Regret not yesterday; despair not to-day. Take care of the pennies and the dollars will take care of themselves. Try to regard present vexations as you will regard them a month hence. Large charity doth never sell. But only whiten, soft white hands. In the race of life it doesn't take poverty very long to overtake laziness. A grain of common sense may be of more value than a scruple of conscience. The trouble of to-day is easily borne; it is the trouble we anticipate which tortures life. Leisure for men of business, and business for men of leisure, would cure many complaints. There is no surer way of having everybody's help than by trying yourself to help everybody. The world is like a looking glass, laugh at it and it laughs back; frown at it and it frowns back. The easiest money to spend, and the hardest money to save, is that which we have not yet earned. Only what we have wrought into our character can we take with us to the other world. A woman's idea of a true friend is one who will admire her children just as much as she does herself. Everybody truly lives so long as he acts his nature, or some way makes good the faculties of himself. The man who knows every thing makes his life a factory to himself, but he is a nuisance to other people. Poor people with too many naughty boys in their families should send some of them to a nautical school. It is a curious fact in the run of things that the more thoroughly goodly orthodox that to be thoroughly good. Popularity is like the brightness of a fallen star, the fleeting splendor of a rainbow, the bubble that is sure to burst by very inflation. I mark a man of peace; God knows how I love peace; but I hope I shall never be such a coward as to mistake oppression for peace. Many a flower is crushed beneath the feet of the wayfarer. Nature, rich and inexhaustible, replaces them with weedy, ill-timed nature. Hope is the soothing syrup of adversity; enabling us to bear present pains, while looking forward to brighter and happier days. You were willing to be as pleasant as an angel to please in your home as you are in the company of your neighbors you would have the happiest home in the world. Unless good and evil were finally to be separated, how dark the future would be! Let us put into a better investment to us than evil, how hard it would be to struggle against evil as we ought to in the present. Temptation is a necessity, and not only a necessity but a benefaction. If you were to construct a man who would be put into him a certain percentage of temptation that he might become fully developed. We have to low an estimate of human nature when we imagine that it will respond only to self-interest, rather than to the love of sympathy while he believes that people as a whole are kindly and human is certain to have the milk of human kindness in his own veins. Fruits are often gathered a long time after the sowing and planting; the man who looks for them too soon will be disappointed. It is unreasonable, and makes himself uncomfortable, to expect that things will come and will come in their proper season, we should be satisfied.

HOUSEHOLD.

Eggs for Market.—If your poultry is to keep her for a purpose of selling eggs, do not have a lot of useless fowls. The presence of a male has no influence whatever on the laying of eggs, and, if anything, he is a nuisance. The best laying breeds are small ones, such as the Leghorns, and of the larger kinds—For eggs use the Leghorns, and keep no males. If you desire eggs for hatching—make up a special yard for that purpose, and get rid of the males as soon as the hatching season is over. FOR DAMP WALLS.—The following recipe is given by a prominent architect as a sure preventive of dampness in masonry. It is made by mixing one pound of castile soap to a gallon of water, one-half a pound of alum to four gallons of water; both perfectly dissolved before being used. The walls should be clean and dry, and the mixture applied. Put the soap wash on at boiling heat, taking care not to rub so as to froth on the brickwork. This should remain twenty-four hours to dry and harden, when the alum is to be similarly applied. The alum wash should be at a temperature of 60 or 70 degrees when applied. Two coats will perfectly kill good brick, but if porous apply another coat. Put the washes on with a large white-wash brush. AN ALMOND PUDDING.—Blanche one ounce of butter and one-quarter pound of sweet almonds and pound them to a paste in a mortar; add a few drops of rose water and one ounce of Sir one-quarter pound of butter and one-quarter pound of sugar to a cream. Beat well the whites of six eggs; stir the almonds and beaten eggs alternately with the cream, and add a little fish with pure fish, four in the mixture, and bake in a moderate oven not over half an hour. Sprinkle with sugar and serve. HERRINGS IN JELLY.—Wash and clean four herrings, and lay them in a lean pie-dish; sprinkle over with one very finely minced shallot; take six drops of lemon juice and one ounce of two table-spoonsful of mild anchovy sauce and one of vinegar, a little oil, salt, and a pinch of cayenne; heat this mixture, pour it over the fish, cover with a glass, and let it stand overnight. When perfectly cold, serve. SAVORY EGGS.—Hard-boil four eggs cut them in two; remove the yolks and fill the whites with a mixture of minced onion, tongue, anchovy, a little cream and capers; season each with a little salt, and a dash of lemon, and grate over each the yolks of the eggs; serve on crisp dry toast. SOUP MILK DISCOURT.—One quart of flour, two cupsful of sour milk, two table-spoonsful of butter, and one table-spoonsful of lard. Mix with the hand as bread dough only, not stiff. Roll out about an inch, thick, cut and bake in a moderate oven. FRUIT CAKE.—One cupful brown sugar, one-half cupful of sweet milk, one-half cupful of molasses, two eggs, three cupfuls of flour, one table-spoonful each of nutmeg and ground cloves, one table-spoonful of yeast, one cupful of raisins, one cupful of currants (rub them in flour before using), two table-spoonsful of cream of tartar, one of soda. MEAT LOAF.—Take any cold meat and chop it fine—lean and fat together. Add a finely chopped onion, two slices of bread which have been soaked in milk, salt, and pepper, and one beaten egg. Mix well. Press it into a buttered mold and bake. INVERNESS EGGS.—Boil four hard-boiled eggs; make forcemeat (finely parsley, thyme, breadcrumbs, pepper, salt, butter, cheddar anchovy and nutmeg) and put into a certain percentage of temptation that he might become fully developed. We have to low an estimate of human nature when we imagine that it will respond only to self-interest, rather than to the love of sympathy while he believes that people as a whole are kindly and human is certain to have the milk of human kindness in his own veins. Fruits are often gathered a long time after the sowing and planting; the man who looks for them too soon will be disappointed. It is unreasonable, and makes himself uncomfortable, to expect that things will come and will come in their proper season, we should be satisfied.

PREPARE FOR REST.

The Money Maker Should Take Time to Learn How to Be a Wise Spendler. There is a time in man's lives when they need to learn how to work; there is a time for some men when they need to learn how to stop working, or at least how to find enjoyment in what they are doing. In a well-ordered life there is a time for both. The man who works through his whole term a dual course of hours for labor and hours for recreation and improvement. The habit of being busy is not a virtue, but a necessity. For eggs use the Leghorns, and keep no males. If you desire eggs for hatching—make up a special yard for that purpose, and get rid of the males as soon as the hatching season is over. FOR DAMP WALLS.—The following recipe is given by a prominent architect as a sure preventive of dampness in masonry. Without a parable spake he nothing unto them (Matt. 13: 13). He spake by a parable unto them (Mark 4: 36). These things have I spoken unto you in parables (Mark 4: 25). II. The Disclosing Power of Parables: Unto you it is given to know the mysteries (10). I will open my mouth in a parable (Psa. 78: 2). Speak unto the house of Israel: Explain unto us the parable (Matt. 13: 36). How shall ye know all the parables? (Mark 4: 13). III. The Concealing Power of Parables: That seeing they may not see (10). They say of me, is he not a speaker of parables? (Mark 20: 49). They do not become seeing they see not (Ezek. 12: 13). Ye shall hear, and shall in no wise understand (Matt. 13: 14). Unto them, "all things are done in parables" (Mark 4: 11). "He spake by a parable." (1) The audience; (2) The speaker; (3) The form of address; (4) The lessons imparted. 1. Sowing: As he sowed, some fell by the way side (6). They that sow in tears shall reap in joy (Psa. 126: 5). He that soweth righteousness hath a sure reward (Prov. 11: 18). He that soweth iniquity shall reap calamity (Prov. 22: 8). In the morning sow thy seed (Ecc. 11: 6). III. The Seed: This is the word of God (11). The good seed are the sons of the kingdom (Matt. 13: 38). To sow his seed (Luke 8: 5). IV. Of corruptible seed, but of incorruptible seed (12). His seed abideth (1 John 3: 9). "The sower went forth to sow his seed." (1) The waiting fields; (2) The precious seed; (3) The lordly sower; (4) The sower's purpose; (5) The sower's toil; (6) The sower's success. 2. Faith-Falter: For a while believe, and in time of temptation fall away (19). Straightway he stumbleth (Matt. 13: 21). They have no root, but endure for a while (Mark 4: 17). Many went back, and walked no more with him (John 6: 66).

(Entered as second-class matter.)  
HAMMONTON ATLANTIC CO. N. J.  
SATURDAY, APRIL 26, 1890.

The man upon whom the eyes of the Democrats of New Jersey are at present concentrated is Senator John J. Gardner, and he gives promise of riveting their attention for some time to come. He does not propose to stop his investigation of ballot frauds in Hudson until he has included the outlying districts, Hoboken and points adjacent. This makes the Democrats nervous and excites their ire to a wonderful degree, but it is only by making the investigation thorough that the good to be derived from it can be made of lasting character, and which must end, sooner or later, in making New Jersey a Republican State. Let the good Senator Gardner have taken so vigorously in hand the matter. — W. J. Press.

Three Chinese opium smugglers were captured at Buffalo and held by the United States authorities.

In the United States Senate an addition to the rules was proposed, whereby debate can be limited, a time fixed for a vote and the Vice-President allowed to count a quorum.

A National Temperance Congress has been called to meet in New York city on May 18 and 19, to take into consideration the methods by which the liquor traffic may be best controlled and regulated.

The conference will probably be a futile one and productive of much good. The thing needed now is for the friends of temperance to get together. No common ground on which they can work has yet been suggested.

The events of the past few years have made it plain that the solution of the temperance problem does not rest with the Prohibition or Third party.

At the closing public reception at the White House reception, on Saturday, Mrs. Harrison did a very graceful thing. Among the promiscuous crowd was a crippled girl on crutches. Mrs. Harrison departed from her usual and sensible rule of not shaking hands, in favor of the lame girl, and then asked her to sit down and rest, and stay as long as she liked. The girl's face shone with pleasure and gratification.

Orthopedists tell us that no account is taken of the "bump" in debt; but this is not the voice of experience; it has an unpleasantly decided emphasis to be in debt.

An Alabama woman solemnly asserts that John Wilkes Booth is not dead. It is generally believed, however that he is dead enough for all practical purposes.

The oldest Old Fellow has died again, poor man. This makes the fourth time the grim reaper has gathered him in within a year.

The postoffice appropriation bill for the fiscal year 1891, as completed in committee, appropriates \$71,850,982. This is \$5,245,638 more than appropriated for the fiscal year.

The common weariness and disgust with respect to the endless discussion of one feature of the tariff bill may be expressed in two words: Oh, Sugar!

The impression is gaining ground all over the State that either Senator McPherson has too much influence in preventing changes in the postoffice in New Jersey, or that the Republican members of Congress have too little.

SATURDAY, APRIL 26, 1890.  
**LOCAL MISCELLANY.**

We don't like stray dogs, but we despise the meanness of a man who will deliberately spread poison around his premises, to cause death to whatever may happen to partake of it. Of course he will say that the suffering animal had no right to be there; but the law does not permit such a reckless use of poisons. We heard of the killing of three dogs in this way, recently. If a warrant can be secured, it is better to shoot him, and end his career without prolonged suffering.

An immense forest fire attracted universal attention, Wednesday night. Rumor stated that the fire was started somewhere near Elwood, and as sunset its light could be seen extending for miles east and west, driven rapidly in this direction by a brisk south wind. About ten o'clock, the light flashed up brilliantly in one place, and the flames could be seen towering away above the tree-tops. On Thursday we were told that the factory building at East-Hammonton had been burned. Residents at New Columbia found themselves enveloped by clouds of smoke, and felt no little anxiety about their property, but, fortunately, no damage was done there beyond the destruction of timber.

What makes some people fools is not because their sense has been dimmed. The trouble is, you see, your thought don't coincide with his opinion.
