Monday night, a mischievous  
boy scratched the plate glass in a  
number of stores, beginning at the  
Red Cross Pharmacy. The same  
party (it is believed) broke a piece  
out of the corner of a great pane in  
one of Bank Brothers' windows,  
inserted a hand, and stole a dollar  
bill and silver coins which were  
used in an advertising scheme. At  
H. P. Hill's they pried open a side  
window, entered, and helped them-  
selves to candy, pies, cigarettes,  
etc. Suspicion and circumstantial  
evidence pointed to Frank Kurtz,  
a fifteen year old boy, so strongly  
that he was put through the "third  
degree," telling conflicting tales.  
County detective Hatrigan took up  
the matter on Friday, had Kurtz  
arrested, and drew a confession  
that he was held in \$500 bail for  
the Juvenile Court.

### To Be, or Not to Be.

That was the question that was discussed by embryo Websters and Clays and Calhouns, in the High School Assembly Room, Monday evening. As a result, Congress has quite likely been given pointers as how to dispose of the Panama Canal tolls problem.

There seem to be many so-called Americans who are mightily concerned for England's feelings will be ruffled; and they would rather agree to interpret the reading of that treaty from England's point of view than to stand up for what every red-blooded American firmly believes to be our right.

If we know nothing of the treaty except that it was a pact between two nations—supposedly for their mutual benefit,—the mere fact that England—agreed to its provisions would be sufficient to cause a feeling of distrust of John Bull. In any game played where he has had any opportunity to deal, he has shown a rare faculty for dealing himself trumps. It may be but a coincidence, but—

It is a perfectly safe gamble, that when England agrees with another nation, the deal is to be for her benefit first, every time.

Not content with being, in a large measure, instrumental in driving American square-riggers from the face of the waters, old England is now trying to cripple the resources of our coasting fleet by raising a great hullabaloo because we do not want to (or will not) understand the English language as she does. How many people, I wonder, ever heard of John Bull taking the part of the under dog in a fight? If he ever did, he had his eye on the bone of contention. He may have got it, sometimes. At no time is his real inwardness so truly revealed as when he takes the monkey part in the cheese weighing performance.

As a land-grabber he has no equal on earth; and if one cares to turn over the leaves of history he will find many accounts of John's jumping other people's claims. Like a breachy cow, he knows the weak place in his neighbor's fence, and thinks he has found one in our canal fence; and if President Wilson and his supporters neglect their duty in the matter, while the Creator may forgive them, I am sure that the American people, as a whole, never will.
