Chrysanthemums.

This is about the proper season to plant out chrysanthemums or to lay in a stock to grow in pots, and a few remarks on how to grow them may not come amiss. Those who grow specimen plants for exhibition purposes, start them earlier than this and either plant them out and grow them in the open ground during the summer, and report them in the fall, or give them several shifts into larger pots, sometimes finishing up with pots or tubs two feet across, and remove all the buds except one to each stalk, and tie them to sticks, so that some specimens measure four or five feet across and produce flowers of enormous size. Those who buy prize varieties with the expectation of similar results, will very likely be disappointed so far as size is concerned; but some very nice flowers may be obtained by fair ordinary treatment, either in pots or in the open ground. If in pots, however, they should have several shifts, and finish up with pots not less than eight or ten inches, and the tops pinched back several times in May and June to make bushy plants. They should at all times have plenty of water, if it has to be given three or four times a day in dry hot weather. If to be grown in the open ground, a rich and somewhat sheltered position is best, and it is often quite an advantage to plant them where the morning sun will not strike them, as they sometimes stand quite a frost if thawed in the shade, but if the sun shines on them when frosted, it is pretty sure to spoil them. A very fine display may be had, when one is willing to be at a little trouble to secure it, by planting a rectangular plot with a number of varieties, and about the twentieth of September enclose with a frame and cover with cloth prepared by the United States Waterproofing Fiber Co., of New York. This need not be very expensive, and after done flowering it could be removed and the plants covered with pine boughs and a little long manure, and they would generally come out in fine condition for another season.

Wm. F. BASSETT.

The R month of April—where is it? It has sneaked down the back stairway of time. And the obese, white-livered oyster—where is it? It has jumped into bed, and covered up its head, there it will be till September.

TUTT'S PILLS.—Twenty-five years of experience has firmly rooted Tutt's Pills in public estimation. They are largely used in hospitals in Europe and America as well as in the army and navy.

Under the laws of the state of Virginia officers are unable to collect the taxes, and the bankruptcy is threatened.

Senator Call introduced a joint resolution appropriating \$100,000 to be immediately available for the prevention and extirpation of yellow fever in the United States.

Sir Charles Tupper, the Canadian minister of finances, cordially indorses the Mills Free-Trade bill; so do Sir Henry Waterson and Sir John Carlisle. But, friends and fellow citizens, these gentlemen, even including Sir Grover Cleveland, Duke of Holland Patent, do not constitute a majority.

Next Monday, the local option law of Michigan takes effect in those counties which at special elections have voted in favor of prohibition. Thirty-seven of the eighty-three counties have voted on the question, but two of these in favor of license, and one more is expected to decide in favor of temperance this week. In these counties there will be a local sentiment in favor of enforcing the law, and making it effective. As prohibition will remain in force in the "dry" counties for three years, a period sufficiently long to give a fair test of the merits of the measure, the result will be carefully watched by the people of other states, as the success or failure of local option in Michigan will have much to do with the adoption or rejection of the same policy elsewhere.

Scientists declare that the great blizzard blew the Gulf Stream sixty miles out to sea, completely changing its former course. If this proves to be true we may not be surprised to hear some statesman asking Congress to appropriate a few millions of dollars to be used by anchoring the Gulf Stream in its place.

Secretary Bayard's ambition to return to the Senate is timely and laudable. The members of the present Cabinet will all be looking for employment before the next St. Patrick's day.

Now that high license has gone into effect in New Jersey there will be more water and less liquor at the watering-places in the state.

This is the essence of the Free-trade theory: The markets of America belong to the labor of Europe.

The Senate Committee on Foreign Relations decided to recommend the rejection of the Fisheries Treaty with Great Britain.

The House passed the bills to establish a department of labor and to create boards of arbitration between interstate railroads and their employees.

Scientists estimate that insects do \$150,000,000 worth of damage in this country every year.

The star-eyed goddess of Free Trade can't be queen of the May this year. She is laid up with the rheumatism and has no wig fit to be seen at festive gatherings. Besides that, she is a foreign adventuress and is not eligible to the honor.

Renews her Youth.

Mrs. Phebe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. I am now free from all pain and soreness, and able to do all my housework. I owe my thanks to Electric Bitters for having renewed my youth and removed completely all disease and pain." Try a bottle, 50 cents and \$1, at Cochran's drug store.

TOWN COUNCIL.

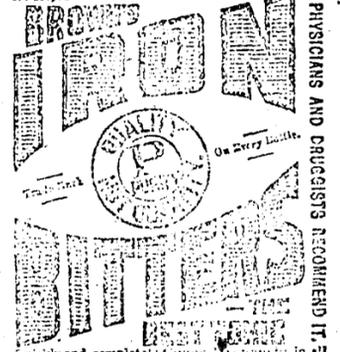

There is much said about what the Council do, and don't do. There are some things that ought to be done,—things that the old Council neglected entirely,—and while the new members were not pledged to these things, probably they will see the necessity for a reform, and if it is in their power, and not prohibited by our Charter, we have no doubt there will be a change for the better. The particular reform we ask for, is of the weather. We have great faith in the Town Council and good weather, and so have provided a good supply of Springs, goods, such as

JAMMONTON, ATLANTIC CO., N. J.

SATURDAY, MAY 5, 1886.

On last Saturday, Sunday, and Monday, the weather was uncomfortably warm, mercury rising to ninety in the shade. Tuesday brought us a very welcome shower, but a cool wave came in with it, making fires and blankets comfortable again. Thursday was more moderate, though not warm.

Mr. Winslow F. Crowell, well and favorably known in Hammononton, but for some time a resident of Wichita, Kansas, started from that place on Thursday of last week, for home. Since that hour, no trace of him can be found by mail or telegraph. It seems very mysterious, and doubly trying to his mother and family, following so closely after the death of husband and father.

Mr. Fowler is ready for business at the Park, with additional privileges and accommodations. You can have a boat-ride at any time. On week-days, if the printed rules are strictly observed, the prices for boats will be one-half of the above figures.

The man who only a few years ago informed his ignorant countrymen that public office was a public trust is chiefly engaged nowadays in distributing public offices among Democratic place-hunters in such a way as will help to extend his own tenure as trustee. The voice was the voice of the statesman, but the hand is the hand of the spoilsman.

The Advocate of the Best Interests of the Home—The Enemy of the Saloon. The Friend of American Labor. The Favorite Newspaper of People of Refined Tastes Everywhere.

Home Newspaper,

It solicits comparison with any other in the country. It is one of the LARGEST PAPER PUBLISHERS in any where, and carries neither labor nor expense to secure for its readers the very best in all departments of newspaper literature.

OUR POLITICS.

We believe the Republican party to be the true instrument of the POLITICAL PROGRESS of the American people; and holding that the honest enforcement of its principles is the best guarantee of the national welfare, we shall support them with all our might; but we shall always treat opposing parties with consideration and fair play.

AGAINST THE SALOON.

The MAIL AND EXPRESS is the recognized leading journal of the country in the great Anti-Saloon Republican movement. It believes that the liquor traffic as it exists to-day in the United States is the enemy of society, a fruitful source of corruption in politics, the ally of anarchy, a school of crime, and, with its avowed purpose of seeking to control elections and legislation, is a menace to the public welfare and deserves the condemnation of all good men.

In brief, all who wish to have in their homes a FIRST-CLASS NEWSPAPER of national scope, broad views, clean pages and courageous, yet kindly, utterances on all questions of general public interest, will not be disappointed in the MAIL AND EXPRESS, and we respectfully solicit their influence and support.

The Tribune for 1888

GREATLY ENLARGED.

Much the Biggest of all the New York Weeklies.

Greater Variety of Contents, New Presses, New Type, and New Appliances.

At the Head of the Republican Press.

The New York Weekly Tribune will be enlarged on or before the 1st of January, 1888, by the addition of from four to eight more pages of actual reading matter (an increase of size of great expense to the Tribune, but without expense to the subscriber. A complete outfit of the new folding and inserting presses will be put into the Tribune's press room in November and December; and the extra sheet will be folded into its place in the Tribune, before it comes from the press. The enlarged Tribune will be the biggest and best of all the New York weeklies, and the new machinery will print it, in the enlarged form, at the rate of seventy two thousand copies per hour. New features and a greater variety of contents will be added to the Tribune during the coming year. Readers will be given nearly half more for their money than ever before. Pensions for the old volunteers, especially Service Pen-sions, are being vigorously agitated in the Tribune, much space is given in every issue to this subject. Better Protection to Farmers under the tariff; the salvation of the country from the cur's of Intemperance; and the rescue of the national government from the hands of the rebel capitalists; these, and all the other live issues of the day are receiving aggressive, earnest and loyal treatment in the Tribune. The Tribune does not attempt to supersede the local State and County press. But in the great Presidential conflict now at hand, every thinking Republican, old soldier, farmer, and temperance man, should have his local paper and the New York Tribune.

Subscription Rates.—Weekly, \$1 a year; extra copy with every five. Semi Weekly, \$2 a year; extra copy with every five. Daily, \$3.50 per year. Sunday Tribune, \$1.50. New subscribers receive the paper until Jan. 1, 1888. Remit always by draft, check, express, or postal money order, or registered letter.

Premiums.—(1) The New York Tribune's History of the United States and Pocket Atlas of the World, 16mo., 254 pages, 50 maps, 50 colored diagrams, price 40 cents; to subscribers, 20 cents; prettiest premium of the year—a fascinating running account of the history of the country, with a great variety of statistics and general information. (2) Presidential Pocket Knife; subscriber's name and picture of his choice for President on the handle; sent for descriptive circular. Price at retail, \$1.75; but given with the Weekly one year for 21.75; two other styles for less money. (3) Popular Picture Gallery—fine large pictures, including the new officers of the G. A. R., Mr. Blaine, Senators Everts and Hancock, "Return of the Mayflower," "Christ before Pilate," and "Children writing to Santa Claus,"—sent for circular. (4) Watchman Watch; expansion balance movement; stem winder, stem set, set jewels, nickel case, strongly reliable and an excellent watch; with the Weekly Tribune one year, \$7.50. (5) Tribune's "Book of Open Air Sports." (6) Webster's Unabridged Dictionary. (7) Wood's "Household Medicine." These premiums cannot be described in full here. Send for circular.

If the Mormons are sincere, as they claim to be, in repudiating polygamy, there is an excellent way for them to prove it. Let them turn in and prosecute those of their members who are still living polygamous lives.

Best Home Paper in America

This is not brag. It is a plain statement of honest fact. Ordinarily, the weekly issue of a daily paper is esteemed to be merely a digest of the week's news, suited alone for rural readers. This is not true in reference to the Weekly Press. It is specially edited by a trained corps of writers selected for the purpose of making the best paper.

It is adapted to the improvement and enjoyment of both sexes, of all ages, of every family whether a resident of the city, village, or country.

Not a word of crime or impure suggestion in any part of the paper.

It is an old paper, and carries its age and reputation equally well.

Now we are seeking a new and larger circle of readers. As an inducement to this end, the Weekly Press in connection with any four dollar magazine in America will be sent for the single subscription price of such magazine.

Or, on application, we will make a special combination of any two or more periodicals published in America, either weekly or monthly, in conjunction with the Weekly Press, at such low rate as will be equivalent to a year's subscription to the Weekly Press free for one year.

We make this exceptional proposition in order that the Weekly Press may go on trial in a million households for an entire year.

This is the most fascinating book to be published. Young men and women beginning life will find the book of great value, and it infuses fresh life into other persons. The book receives the unequalled praise of every one who examines it.

It is a Grand Book for (Salesmen) and because of the population of the U. S. and the interest with their present condition; nearly all are interested in their present calling by the additional light which will be thrown upon it by reading this book; it will keep a glance what a vast field there is for the work of salesmen to do.
