List of unclaimed letters remaining in the Post Office at Hammonton, N. J., Saturday, May 7th, 1892:

Dr. E. W. Russell.  
Tiger Kay.  
Mrs. Ham.

Persons calling for any of the above letters will please state that it has been advertised.

GEORGE ELVINS, P. M.

In Monday's New York Mail and Express we found the following special dispatch from Elwood, N. J.:

In a few days a big tin-plate factory will be opened here. It is owned by Col. A. L. Conger, of Akron, and a syndicate of capitalists, and the estimated turn out is 2500 boxes of tin plate per week from the start. \* \* \* There will be a great demonstration on the day of the opening.

Isn't there a mistake somewhere?

Now is your chance! "A Yard of Pansies," an exquisite oil-picture, a companion to "A Yard of Roses," which has been so universally admired, is given, free of cost, as a souvenir with every copy of Demorest's Family Magazine for June. "A Yard of Pansies" was painted by the same noted artist, Y. Janus, who painted the "Roses," but competent art-critics pronounce the "Pansies" to be superior to the "Roses." This is only one of the many notable features that make the June number the best one ever issued. The first article, "Mammoth Cave by Flash-Light," is the finest one ever published on the subject, and is illustrated by over a score of superb pictures. Sergeant Dunn of the U. S. Weather Bureau at New York has a splendid illustrated article, "How the Weather is Forecast." All who have dabbled in photography will enjoy the humor of "A Successful Failure" and the accompanying pictures. There are excellent stories, every department is overflowing with good things, and there are about 250 illustrations, including a full-page portrait of the publisher. And this June number costs only the usual price, 20 cents. Subscription, \$2 a year. W. Jennings Demorest, 15 East 14th St., New York.

We export about 8 per cent of our agricultural products. All the rest we consume ourselves.

#### Specimen Cases.

Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold at any Drug Store.

**Short Tariff Sermons.**  
NO. XVIII.

In Great Britain the wages average about one-half of the wages in the United States. Few of the working people own their own homes. They have few, if any, luxuries—in fact many of the necessities of life are considered luxuries by them. Every penny earned is needed to make both ends meet, so that after years of toil there is not a dollar saved, and the poorhouse is the last home of hundreds of thousands.

In France the condition of the working people is not so compared to that of the laborers of this country.

In Belgium two thirds of the working class are women. Together with children they work in the mines, in the fields and in the mills. Home life, as we know it, is not found. They sleep in barracks.

In Holland a man considers himself fortunate if he earns \$200 a year, eats meat but once a week, and saving is out of the question.

In Italy meat is seldom eaten even by a wealthy mechanic. Average wages of males, \$3 per week; females, \$1.50.

In Austria a mere pittance is all that is had by a large portion of the men and women even after working 72 hours and more per week. Coarse clothing, poor and but little food, and a miserable life, is the result.

In Germany, perseverance, patience, industry and economy make the worker's lot somewhat better than in some other foreign countries.

In India and China a few cents must suffice the laborer, and lives on rice and rice.

Free-Trade in the United States means one of two things: either our goods will be made by the laborer whose condition is described above; or our laborers must accept the same wages and mode of living.—*American Economist.*

For the first time in the history of these United States our exports exceeded a billion dollars for the twelve months ending March 31. We are living under a billion dollar tariff. That is the explanation.

March 31 marked the close of the first twelve months of free sugar. Results: Increase in free imports from \$29,926,690 for the similar preceding period to 401,473,323 for the period ending March 31 last; decrease in dutiable imports in same periods from \$226,309,045 to \$375,585,062.

It is an actual fact, determined from the figures of our foreign trade for the first twelve months during the whole of which the free sugar provision of the new tariff was in force, that over 55 per cent. of our imports come in absolutely free of duty and less than 45 per cent. are dutiable. How is that for a "worsened-war tariff?"

The Brazilian Steamship Company, which is not a political organization, but a business corporation pure and simple, does not seem to have much faith in the assertions of the Free-Trade traders that reciprocity is a "humbug." Before the reciprocity arrangements were concluded between the United States and Brazil that company ran only four steamers a month between American and Brazilian ports; it now runs 14 steamers a month between those ports, this being made necessary by the increased trade between the two countries. When the "reformers" hear of this they will probably declare that "reciprocity is only another name for Free-Trade, anyway."

A Lyon mechanic, writing to the *Boston Journal*, gives some facts and figures as to wages and cost of living under the McKinley tariff and the tariff laws that preceded it. In 1840 the father of the *Journal's* correspondent worked for 75 cents a day and paid \$0.40 for a barrel of flour. The son now gets \$2.75 a day and pays \$5.50 a barrel for his flour. In other words, it required eight and a half day's labor in 1840 to purchase the same quantity of flour that can now be bought for two days' labor.

Here is another item for the calamity broder. The *Maine Farmer* says: "Mach is alive with the hum of many industries and still its march is onward. New woolen mills, new cotton mills, new pulp mills, creameries, condensed-milk factories, &c., are springing up in many hitherto unknown villages. There is no kind of a chance for a laborer in Maine." And probably "no kind of a chance" for a Free-Trade "reformer," either.

At the meeting of the Maryland State Central Committee in Baltimore, the boom for Gorman as the nominee of the Democratic party for President made its initial appearance.

Either Cleveland or Hill would be glad to change columns with "Un-structed."

**Relieve the Starving.**  
Notice is hereby given to the citizens of Hamonton, that a meeting will be held in Union Hall, on  
Monday Evening, May 10th,  
Commencing at 8 o'clock, for the purpose of devising ways and means for raising money to relieve the starving condition of the people of Russia.  
Done by order of Town Council.  
A. J. SMITH, Town Clerk.

The above action was taken in response to an appeal sent by Council to the National Committee. The circular recites the horrible state of affairs in that far-away but friendly country, where starvation is not only starving tens of millions in the face, but is this moment claiming its victims in large numbers. The Russian government and people are doing their best, but are unable to do a tithe of what is needed. Europe is doing well, but cannot do all. America has made a good beginning, but we must all do our part to feed the poor sufferers, until harvest-time brings them more permanent relief. Let the hall be filled, Monday evening.

Post meeting to-night.

**The Board of Trustees** met on Wednesday, to open bids for the old school building. The W. C. T. U. offered \$250; the Enterprise Association bid \$100. After mature consideration, both bids were rejected, and the Board made the following proposition: They will lease the building to the Enterprise Association on the following conditions:—The Association to move building, which must be fitted up and used for manufacturing purposes; at the expiration of one year, the average weekly pay-roll of such business shall be at least \$100, and so continue to the end of fifth year, at which time the Association shall acquire title,—\$100 having been paid down at the date of lease. Failing to comply with the terms stated above, for six months, at any time, the lease is forfeited, and the Board will take charge.

"Mr. O. M. Thompson (Zecro) the gentleman who is to appear at the Hamonton Hall on May 14th, is certainly a master of his business. While posing as a modest amateur, there is many a professional who envies him his extraordinary skill. It is doubtful if there is anyone, including even the old masters of the profession, who can manipulate cards with a higher finish, or with greater dexterity. Magic seems to be a part of his nature, and tricks when done by him do not seem to be an effort, but fall from his finger-tips in as easy a manner as music from a master's hand. Yet withal he is a most modest gentleman, and it is only on rare occasions that he consents to give a full evening's entertainment. His spiritualistic tricks are simply wonderful, and one could hardly be blamed for a belief in this peculiar religion (or possibly want of religion) after an evening seance with Thompson. His skill has been acquired by years of patient study and practice. He has witnessed the performance of all the master's of the profession, and many of his original tricks are to-day recognized as the acme of perfection."—*From a Philadelphia Paper.*

**The Question Solved.**  
The question of packages in which to ship small fruit has always been an important, and in many cases a serious one. The gift package is now being agitated, and its general adoption is only a question of time. But this year the leading commission houses propose to return crates and boxes, but to get ready for an emergency, I am prepared to furnish shippers a substantial crate, containing baskets and separators, at about half-price. As these packages will be returned this year, filled with boxes, by the commission men, they will place those who secure them in possession of an excellent and cheap gift crate for next year's use.  
I will also have for sale the Mott Carrier, the best approved gift package, at the lowest possible price. Samples can be seen, next week, at the Fruit Growers' Union and Farris' restaurant.  
All inquiries will be cheerfully answered, and shippers of fruit will find that they can save money by availing themselves of the opportunities herein offered.  
Respectfully yours,  
C. P. HILL, Hamonton, N. J.

The Press has the best possible organization to  
secure news from the most important sources, and  
with nearly 400 correspondents in Pennsylvania, New  
Jersey and Delaware, the state and near at home news  
is covered with a routine care and attention to detail  
not equalled by any other paper.  
The Press has also the best of correspondents in all  
the great cities of the United States, as well as financial  
and railroad experts in Chicago and the West, who  
keep the paper more than abreast with events.  
The columns of the Sunday Press are enriched by  
contributions from those whose names are written high  
on our lists of great authors, novelists, essayists, as  
well as from men of high rank in public life. The  
best authors know that their best audiences are the  
readers of the Daily, Sunday, and Weekly Press.  
In politics, the Press knows no other master than  
the people, and the past year has shown, as has been  
seen before, the marked fact that it is subservient to  
no political boss. It has no political ambitions to foster,  
but looks after the interests of its readers, and  
delivers itself upon the issues of the day in a manner  
both frank and fearless, letting the facts speak for  
themselves and evading no issue, but meeting them  
all on the basis of fair play to all men at all times. Its  
pages know no distinctions, and the rights of one class  
over another are not recognized nor supported.

**The TRIBUNE for 1892.**  
Roswell G. Horr on the Tariff.  
The Republican party, triumphant in 1891, where-  
ever national issues were at stake, renews, aggressive-  
ly and bravely, the fight for 1892. The New York  
Tribune, the ablest, most reliable, and best of all  
Republican papers, leads the way.  
During 1892, Roswell G. Horr, of Michigan, the  
witty orator, will continue in the Tribune his remark-  
able article on the Tariff, Reciprocity, Coinage, and  
the Currency. These topics are all understandable;  
the Republican policy on all of them is right, just,  
patriotic, and impregnable; but just has been  
thrown in the people's eyes, and the air has been  
filled with fog, by lying and tricky Tariff Reformers.  
The Tribune prints from one to five exceedingly in-  
teresting articles every week, explaining these  
questions.  
Mr. Horr begins at the beginning of every subject,  
and makes it so clear that every one can understand  
and no one can answer him. Ask any neighbor  
what he thinks of Mr. Horr's writings. He will tell  
you that they are genial, clear, entertaining, and per-  
fectly unanswerable. A specialty is made of answer-  
ing all questions, asked in good faith, on the Tariff,  
Reciprocity, Coinage, the Currency, and the  
prospects of the Farmers' Alliance. The Tribune  
is the best national Republican paper to supplement  
your local paper during 1892.

**How to Succeed in Life.**  
The Tribune will also continue the series of articles  
to Young Men and Women, penned by men who, be-  
ginning life themselves with few advantages, have  
nevertheless succeeded honorably and brilliantly. It  
will also reply to questions as to what young men and  
women should do to succeed in life, under the partic-  
ular circumstances in which their lot in life is cast.  
The replies will be written under the direction of Mr.  
Horr, whose familiarity with America's life and  
opportunities, and whose deep and cordial sympathy  
with all who are struggling under adverse circum-  
stances, promise to make the replies practical and  
satisfactory.

**Vital Topics of the Day.**  
Many special contributions will be printed, from  
men and women of distinguished reputation. Among  
the topics are:—Silver Coinage, the latest views;  
Proder Function of the Minority in Legislation, to  
include one paper each from a Democrat and a Repub-  
lican, prominent in public life; Harmful Tendencies  
of Trusts; Arid Lands of the United States; Million-  
aires of the United States; Free Postal Delivery in  
Rural Communities; Better Pay for Fourth Class  
Postmasters; Importance of the Nicaragua Canal;  
Village Improvement; Our German Fellow-Citizen in  
America,—and many others.

**In addition to the regular two pages a week of how to  
run a farm and make it pay, there will be, during  
1892, special papers on:—Hot House Lumber; Model  
Farms; Tobacco Raising; Sugar Beets; Fancy High  
Priced Butter Making; Care of Bees; Market Gardening;  
Live Stock; and a variety of other equally im-  
portant branches of American farming.**

**For Old Soldiers.**  
For veterans of the war, there will be a page a week  
of war stories, answers to questions, a gossip, gossip,  
and a witty column of news from the West. The Tribune's War  
Stories of the past year have never been surpassed for  
thrilling interest.

**For Families.**  
Families will value the pages devoted to—Questions  
and Answers; Household Decoration; Home Interests;  
Cooking; Knitting and Crochet; Young Folks, and  
the Fashions.

A great editorial pane will be printed, and fiction,  
foreign letters, book reviews, travels, checkers and  
chess and fun abundantly supplied.

**Premiums.**  
Descriptive Circular will be sent free.  
Over \$2000 in Cash Prizes.

Judge Garrison, of Camden, is not a  
Judge Hugg, and William J. Thompson  
and the Gloucester people generally will  
realize this before he is through. His  
charge to the Grand Jury on the subject  
of the notorious violations of the law in  
Gloucester leaves it no excuse for refus-  
ing to do its duty. If Judge Garrison  
is supported by jurymen who regard

fair prospect that order will once more

One of the proofs that the campaign

"there will be fess and feathers and

**THE NATIONAL BAPTIST**  
Philadelphia,  
Prospectus for 1892.

It has not been our custom to issue a pro-  
spectus. A newspaper can never tell before-  
hand just what subjects will be discussed. We  
hold ourselves in readiness, however, with our  
well trained editorial force, and our large staff  
of special contributors, to treat any subject  
which may present itself during the year. Our  
plans for 1892 contemplate an enlargement of  
our news department, a perfecting of the other  
departments, and the bringing up of the entire  
paper to a still higher standard of efficiency.  
**PREFACE.**  
The National Baptist is offering a line of  
most attractive premiums. For example, com-  
munion services, organ and hymn-books, val-

offers is the one offering to the new subscriber  
and to the person securing the new issue, each  
a volume of Prof. Drummond's famous address-  
es, attractively bound in white and gold.

**AGENTS**

new names. Liberal commissions are offered.  
Past experience has shown that a goodly num-  
ber of new names can be quickly gathered by a  
good agent.
