It was the opinion of the members, at the Fifth Annual Convention of Master Painters, Harrisburg, January, 1892, that the best qualities of lead or mineral paints will not last longer than two or three years, and that most of them will not last more than one year. Graphite paint, however, was strongly recommended. One member said that he had used it on a number of roofs, and one roof painted 18 years ago was not repainted until last fall. Another said: "I painted a roof 12 years ago—I can see it every day from my window—and from appearances it does not want anything more for five or ten years to come." Such testimony from master painters is worth consideration, especially when it is remembered that the cost of painting lies chiefly in the money paid for labor. Graphite paint is manufactured by the Joseph Dixon Crucible Co., Jersey City, N. J., and they have some interesting circulars on the subject, which they send free on request.

Senator Cameron introduced a bill appropriating \$25,000 for the survey of the proposed ship canal from Philadelphia to New York across New Jersey.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Large Tonic Restored.
 66 CHEEVER PL., BROOKLYN, N. Y., June 1st, '92.
 For over twelve years my son has been afflicted with spasms; he would have one every two weeks until about six months ago, then even two a week. We took him to a number of first-class physicians and we tried everything and as a number of remedies without deriving any encouragement in his case, and had commenced to despair of ever being able to cure him at all when we heard of Pastor Koenig's Nerve Tonic and concluded to give it a trial. The result has more than satisfied us. It is more than three months since he commenced to take this Nerve Tonic and he has never been sick since. Please accept our most sincere thanks, for we feel that you have not only cured him of a great affliction but have saved his life as well, as we do not think he would have lived long in the condition he was in before he commenced taking your valuable remedy.

Me Found Out Who She Was.
A rather prepossessing young lady entered the office of a well-known lawyer the other day and inquired in a polite tone:
"Is Mr. Brief in?"
"Won't be in for two hours," replied the dapper young clerk whom she addressed, surveying her from head to foot with approving glance. "Anything I can do for you?"
"Yes," was the reply, and the lady produced from beneath her wrap a handsomely bound volume. "I have here—"
"I thought so," interrupted the clerk, with a deprecating gesture. "I sized you up as soon as you came in. But I'm no use. We never foot away money on subscription books in this office. Didn't you see the sign outside. 'No peddlers allowed?'"
"Sir," began the visitor, "this book—"
"Oh," laughed the flippant young clerk, "I've no doubt it's the biggest thing out, but we don't want it! History of the United States, ain't it, from the mound-buildings up to the present day? Big thing. I've no doubt, but we have no use for it, readin'."
"If you will allow me—"
"Really," said the youth, who was greatly amused, "I like to see you against the rules of the office to yield to the blandishments of book agents, no matter how young and good-looking they are. Couldn't think of looking at the book myself. It's Napoleon, ain't it? That's a chestnut. One of our clerks bought one last month for four dollars, and yesterday he traded it off for a yellow dog and then killed the dog."
"I wish to say—"
"Or it may be a humorous work, with wood-cuts that look as if they'd been engraved with a meat axe. No, we don't want it. We keep a humorist here on salary to amuse us."
"Say, you are awfully persistent, my dear, but it won't do you any good. If old Brief were here you might talk him around, because he's a susceptible old duffer and thinks that every young woman who looks at him is in love with him. But I'm not that kind."
"Sir, if you will—"
"I hate to refuse you 'pon my soul, I do, but I'm broke, and that's the truth. Come back again in about six months, after the old man has taken me into partnership. I'll be cash then, and I'll take a bound-up to reward you for your sticktiveness. I say, you're mighty pretty woman to be obliged to peddle books for a living."
Just then the loquacious youth's attention was attracted by the frantic gesticulations of a fellow-clerk in another part of the room, and paused.
"You are Mr. Freshleigh, I presume?"—yes, that is my name," was the reply.
"I have heard my husband speak of you. I am Mrs. Brief. Will you please hand this book to Mr. Brief when he comes in, and take it to him to take it to the blunder's God-morning."
The lady left the office; the mercury in the thermometer crept down out of sight; the office cat had a fit, and the public works of the next day Lawyer Brief advertised for a new clerk.

Friends and relatives of Mr. Claus Spreckels, the sugar king, are mourning his majesty's premature burial with sincere regret and relief. The sure and certain hope of a blessed resurrection. Particulars of the interment are not yet at hand; it is known only that the royal refinery at Philadelphia has passed into the possession of the trust. As the country has had Mr. Spreckels' solemn assurance that this would never occur while he was "out of the earth," and as he is a disciple of the late George Washington, the inference is obvious and inevitable. It is obvious, too, that the interment must have taken place during life, or the transfer could not have been made by him, as it appears it was. It seems rather a mystery with the light we now have, but doubtless the customary public statement will be made under some such title as "A Voice from the Grave." "Thank for the Times," or "Gladstone's Bark," and we shall know how the thing was done. At present we can only wait, cheered by the hope that if the inhumation is permanent an appropriate monument may be reared at the spot to commemorate the virtues of the heroic soul who preferred burial alive to refusal of a good offer. He leaves a large circle of sorrowing friends.

THE kind of reform we most need is that which does not so far away from home to begin work.

MR. GLADSTONE is the owner of the largest lead pencil in the world. It is the gift of a pencil maker at Keswick, and is thirty-nine inches in length. In place of the customary rubber cap, the right leg is somewhat severely textured. The cap, however, which measured 94 inches from snout to tail, or

17 inches to the tip of the tail, and weighed 124 ounces, was quite dead, and all the blows dealt by the bird's beak had been directed at one spot, the neck, and the head was nearly severed from the body. This may be due, perhaps, to the inability to reach the head. The victor, whose lightning might is named "Jenny," was contentedly attended to as it is doing well; but I think his triumph over such a fierce and formidable enemy is worthy of notice, not merely from the fact of his having slain a creature which he had never before seen, but also because of the fact that he was so successful in his attack, but also because of the fact that he was so successful in his attack, but also because of the fact that he was so successful in his attack.

THE estimate of Walt Whitman has not been uniform. It has not been in his lifetime and it is not probable that he was so highly regarded after his death. Mr. Ingersoll, in his eulogy at Whitman's funeral the other day, said: "The most eminent citizen of this republic is dead—before us." Some have said this was extravagant praise. Others have said that he was the equal of Emerson; still others that he was greater than Longfellow, but not greater than Lowell. It seems to us there is not much profit nor much sense in the comparisons. While it is true that Whitman did not and probably could not write after the manner of Longfellow, nor either Whitman nor Longfellow after the manner of Lowell, it is also true that neither Longfellow nor Lowell has written as Whitman wrote. In thought and expression he was nearer to Emerson. It seems to us the relative places of these eminent men is of little consequence. It is well worth while for the curious to read them all, in which case the reader may think the last one he reads is the greatest. All honor to each of them.

THE PENSION SYSTEM.
HUNDREDS OF MILLIONS PAID OUT ANNUALLY.
Soldiers and Soldiers' Widows Constituted a Half-Million Pensioners on the 1st of January, 1892.
The United States stands at the head of the nations of the world in the giving of pensions to the great roll of veterans with ours, and we give away dollars where other governments give away cents. There were few wars like the late civil war. Our armies were the largest in history. More than two million men fought under the flag of the Union before the great rebellion was quelled. Of these more than three hundred thousand fell in battle or were borne in endless processions from a hundred hospitals to the cities of the dead. Hundreds of thousands more suffered from wounds received or from diseases contracted in the service, and our pension roll is the wonder of the world.
According to a statement given out by Gen. Baum, Commissioner of Pensions, and published in the Chicago News, the number of pensioners now on the rolls is 488,000. These are, in round numbers, 398,000 "invalids" and 107,000 are widows, orphans and dependent relatives resulting from the war of the rebellion; 400 are survivors and 8,500 widows of the war of 1812; 12,000 are disabled and 6,500 widows of the Mexican war. Under the operation of the law enacted by the last Congress, the number of pensioners will be increased by probably 200,000 as soon as the claims may be adjudicated. At the time this bill was passed there was pending, under the laws then in force, about 500,000 claims. A large percentage of these will be duplicated by applications for the same service, so that the number of new claims will not be as large as the figures would indicate.
It is not possible to form a definite opinion when the estimate of the pension roll will be reached, or how large it will be then, either in the number of pensioners or the amount paid, as these are wholly contingent upon legislation congressionally.
A careful estimate gives the number of survivors of the Union army July 1, 1865, at 1,702,000. It will be understood that this includes a large number who had enlisted under the later calls for men and who were not in the actual service. Thousands of the camps of rendezvous had not been sent to the front at all. As nearly as can be ascertained, 457,000 of the survivors died between July 1, 1865, and July 1, 1890. The number at the latter date is 1,245,000. This is being reduced by death at the rate of 30,000 a year. During the next fifteen or twenty years the mortality will increase as the survivors grow old. Thirty years hence the ranks will be thin indeed; in forty years few of them will remain. Nearly 150,000 are now of the age of 62 or upward. Others who live will reach that age at the next ten years, an average of 30,000 per year. Those who are now arriving at 62 were above 35 when the war closed. There will be from 15,000 to 20,000 a year for the next half dozen years. From about 1897 the number reaching the age of 62 will increase rapidly, owing to the fact that by far the greatest portion of the soldiers of the Union army were under thirty. The average age at enlistment was about twenty-three. It is estimated that the largest number to reach the age 62 in any one year will be in 1905, when there will be 69,000. Such persons were about twenty-two when discharged from the army, and in 1905 there will be about 44,000; in 1907, 29,000; in 1908, 37,000; and in 1909 only 535. These last are the rear guard of the great patriotic procession. They shouldered muskets at 15 and marched away to the field. The rate of mortality among the survivors indicates that of the present survivors about 580,000 will live to reach the age of 62. But if a service pension should be made operative at that age not more than two-thirds of this number would be upon the roll at any one time. The greater part of those who have already reached that age, or will reach it during the next half-dozen years, will have passed away before the point shall be reached by the youngest.
The aggregate amount paid for pensions since 1861 exceeds \$1,000,000,000, about a third of which was paid by the Government during its continuance. The amount stated includes, however, the sums paid to the pensioners of the Mexican war and the Indian war. About 90 per cent was paid to pensioners of the war of the rebellion. As the laws stand to-day the amount required for some time to come will be about \$140,000,000 a year. It is not likely in any event, unless there be further legislation, to greatly exceed that sum, as the future yearly additions to the roll will be nearly offset by those dropped by reason of death and other causes. The time is not remote when in the course of nature the survivors of the late war will be so reduced in number that the pension roll will cease to be a burden upon the people,

even if it can now be considered such. The records of the pension office show that the old soldiers are scattered over the entire habitable globe. In our own country the number increases in the west, is noticeably large. The war caused a serious disturbance and disarrangement of the life plans of many of the young men who entered the service. They gave up their country careers in the early months of the war, and otherwise they would have devoted to fitting themselves for the professions or other vocations. Thousands left school for the tented field and did not resume their studies. These young men were energetic and ambitious, and large numbers of them from the old States turned their faces westward after being discharged from the army. They have borne a large part in the marvelous development of that great section of the country. That they have been characterized by the highest loyalty of good citizenship is abundantly shown by the boundless prosperity to which they have given rise. In the cities and better communities can be found anywhere in the world than those of the Western States where the old volunteer soldiers are most numerous.
Ohio has a larger number of soldiers than any other State. New York is second and Pennsylvania third; then, in the order named, Indiana, Illinois, Missouri, Iowa, Kansas and Massachusetts. It is probable, however, that the ratio of pensioners to the whole number of soldiers is greater in the older States, as those who went to seek their fortune in the West were the more robust and healthy men, while the 150,000 pension soldiers are, and 6,500 widows of the Mexican war. Under the operation of the law enacted by the last Congress, the number of pensioners will be increased by probably 200,000 as soon as the claims may be adjudicated. At the time this bill was passed there was pending, under the laws then in force, about 500,000 claims. A large percentage of these will be duplicated by applications for the same service, so that the number of new claims will not be as large as the figures would indicate.

Such persons were about twenty-two when discharged from the army, and in 1905 there will be about 44,000; in 1907, 29,000; in 1908, 37,000; and in 1909 only 535. These last are the rear guard of the great patriotic procession. They shouldered muskets at 15 and marched away to the field. The rate of mortality among the survivors indicates that of the present survivors about 580,000 will live to reach the age of 62. But if a service pension should be made operative at that age not more than two-thirds of this number would be upon the roll at any one time. The greater part of those who have already reached that age, or will reach it during the next half-dozen years, will have passed away before the point shall be reached by the youngest.
The aggregate amount paid for pensions since 1861 exceeds \$1,000,000,000, about a third of which was paid by the Government during its continuance. The amount stated includes, however, the sums paid to the pensioners of the Mexican war and the Indian war. About 90 per cent was paid to pensioners of the war of the rebellion. As the laws stand to-day the amount required for some time to come will be about \$140,000,000 a year. It is not likely in any event, unless there be further legislation, to greatly exceed that sum, as the future yearly additions to the roll will be nearly offset by those dropped by reason of death and other causes. The time is not remote when in the course of nature the survivors of the late war will be so reduced in number that the pension roll will cease to be a burden upon the people,

THE BIBLE.
The Bible, the word of God," exclaimed a young skeptic in hearing of a friend. "No, it is the invention of men."
"The Bible claims to be God's Word, does it not?" asked the Christian.
"Yes, that is what I believe."
"The Bible, the men who wrote it pretend that they 'spoke as they were moved by the Holy Ghost.'"
"If the Bible, then, is not what it claims to be, it is, you think, an imposture, and its writers liars?"
"Good men would not lie and deceive, would they?"
"Then the Bible, you are so sure, could not have been written by good men?"
"I feel certain that it is not."
"Now, answer me candidly. Does the Bible condemn sin, and threaten bad men with punishment?"
"Yes, that is what I believe."
"Does it condemn lying and deception?"
"Yes, a little sharply."
"Would bad men—deceivers and liars—make a book that condemns their own sins?"
"They would not be likely to do so, certainly."
"The young skeptic felt the ground giving away under him, and changed the subject—Bible Society Recorder."
The sentimental twaddle about religion is a nuisance. "Good enough for women and children," said a sharp rebuke the other day from Mr. Gladstone, the eminent scholar and statesman. On his way home from the Holy Land, Dr. Talmage was invited to take a chequer and spend the afternoon with Mr. Gladstone at Inverward Castle. The two men had a long talk on religion and political questions. Mr. Gladstone said: "Talk about questions of the day, there is but one question and that is the gospel. It can and will correct everything needing correction. All men at the head of great movements are Christian men. During the many years I was in the Cabinet, I was brought in association with such master-minds, and all but five of them were Christians. My only hope for the world is in bringing the human mind into contact with divine revelation.—Christian Inquirer."
When the faithful horse of a friend of ours went lame, he consoled himself by the thought: "Well, after all, it is better that it is not the horse of some man who gains his living by him." This is like what Fenelon said when his library got on fire he thanked God that it was not the house of a poor man.
Russian Decorations.
When Russian decorations are given to foreigners they usually take the form of medals, which at St. Petersburg are the reward of faithful domestic of the courts. Dumas pere received the medal of St. Anne after he had written a story of a Russian life, but, hearing that such a decoration was of no social value, he returned it to St. Petersburg, where upon a cross of the second-class of that order was dispatched to him, with an apology for the mistake, as it was termed the "Biblical medal." A famous war was once ridiculed at St. Petersburg when he walked about wearing the medal of St. Andrew, which he innocently regarded as being very nearly equal to the light-blue ribbon, gold collar, chain and eight-pointed star, with a blue eagle on it, of that famous order, which ranks with the black eagle of Prussia and with the English garter. The medal, however, is an unbecoming servant's decoration, and Russians laugh to their sleeves when they see foreigners—to whom it is given by decree—wearing it as a mark of high distinction.
The Fickleness of Fortune.
Learn how quickly turns the wheel of fortune, from how high up to how far down went Nubuchadnezzar. Those now in places of position and power, even though they should live, will in a few years be disregarded, while some who are this day obscure and poverty-stricken will ride up on the shoulders of the people to take the place of those who should be the spoils of office. Oh, how quickly the wheel turns! Ballot-boxes are the steps on which men come down as they go up. Of those who were a few years ago successful in the accumulation of property, how few have not met with reverses of fortune, while many of those who then were straitened in circumstances now hold the bonds and the bank keys of the nation and win the most looks on the exchange. Of all fickle people in the world fortune is the most fickle. Every day changes her mind, and was to that man who puts any confidence in what she promises or proposes. She changes when you go up and she laughs when you come down. Oh, trust not a moment your heart's affections to this changeable world. Anchor your soul in God, from Christ's love gather your joy. Then, come sorrow or gladness, success or defeat, riches or poverty, honor or disgrace, health or sickness, life or death, time or eternity, all are yours and yet are Christ's and Christ is God's.

Our Terms.—Our subscription price to all within the county is One Dollar per year if paid in advance. If not paid within the first six months, \$1.25 per year, invariably. To subscribers outside of this county always \$1.25 in advance—as we are compelled to wrap papers and prepay postage.
Short Tariff Sermons.
NO. XIX.
Protection benefits every man, woman and child in the country.
There are no unprotected trades. Those so-called, the building trades for example, have absolutely prohibitive protection. You cannot import collars or houses to drive the mason or carpenter out of employment.
Tariff Protection is intended merely to do for glass blowers and wool growers what nature has done for the mason and the carpenter.
But even in Tariff Protection all the other classes are interested. For whom does it protect? The farmer, the manufacturer and the mill hand may be more directly benefited, but the good results of our Protective Tariff reach all.
Where would the lawyer and doctor get their generous fees if clients and patients were out of work or received Free-Trade wages?
Where would the merchant, the clerk, the bookkeeper, the stenographer, the type-writer, and even the office boy make a living if there were no customers with well filled purses?
If the professional man or merchant could not build or rent the money home or store or office, where would the mason, the carpenter and the painter get his \$3 and \$4 per day?
How would the engineer, the fireman, the conductor and the brakeman fare if no money could be afforded for passenger and freight transportation?
How would Free-Trade journals thrive without prosperous advertisers and numerous buyers?
And yet they tell us that only about 3 per cent. of our labor and industry is protected. The 97 per cent. that say, is taxed to protect the 3 per cent. But they are just 97 per cent. out of the way.
Protection protects, and protects us all.—*American Economist.*
EDITOR HOTT:—Did you ever stumble, as it were, on something that impressed you with awe, even to sublimity? I know you have. I use this as a prelude to what I have to say.
I was passing Broad and Cherry Sts., Philadelphia, on Wednesday last, and having an hour or two before train time, I dropped into the famous "Cyclo-rama of Gettysburg," so soon to leave the city. The scene is simply beyond my weak powers of description. It was one of the most brilliant and sublime spectacles I ever witnessed, or ever expect to see. It was thrilling in the extreme. Its realism was terribly awful. An artist could hardly tell where the reality and scenery left off or began. The "blue and gray" are in deadly strife; Hancock and his staff are in the famous wheat-field, as large as life, giving orders, while the mad strife is going on. The living, both infantry and artillery, seem madly engaged in "hurling death" at the enemy, while the dead and dying do not fail to draw tears to the eyes of those who can appreciate such a scene. No one, from an eight-year-old child to the aged grandfathers, should fail to see it. Groups of four, and Grand Army men properly vouched for, are admitted at half price.
Hon. T. Jefferson Coolidge, who has just been appointed Minister to France, is a great grandson of Thomas Jefferson. Mr. Coolidge is an enthusiastic believer in Jeffersonian principles of Democracy, and was always a member of the Democratic party until 1888; but in that year Cleveland's Free-Trade message drove him over to the Republicans. Free-Trade never did harm-size with Jeffersonian principles.
The Cleveland Tin-Plate Company of Cleveland, Ohio, recently secured an order for 300 boxes of tin plate from an Eastern firm. This is the fifth large order received from the same firm since last January. And the tin-plate still still claims that they are not making tin plate.
"You're a dear friend," as the client remarked to the lawyer.

Governor Abbott, Attorney General Stockton, Barker Gammon and Allen McDermott held a conference in Trenton, on Tuesday, in reference to the Reading coal deal. At the end of the conference, Governor Abbott announced that he had decided to begin a suit at common law and in Chancery against the companies in the State interested in the deal.
During a fire in the barn of Horace Vanderbeck, near Somerville, N. J., Augusta, his daughter, was burned to death while trying to rescue a colt.

The fifty-sixth annual meeting of the Board of County Freeholders was held in the Court House, May's Landing, on Wednesday. George F. Currie was re-elected Director; John C. Anderson re-elected Clerk (for three years, under the new law); A. B. Endicott County Collector; Joseph Thompson Solicitor. Salary of Solicitor, \$20 per meeting. Sheriff voted \$3 per week for boarding prisoners.
Eleven county papers were authorized to publish the annual report, for twenty dollars each.
M. L. Jackson is chairman of the Committee on Bridges.
The appropriations agreed upon for the ensuing year are as follows,—last year's being given for the purpose of comparison:

	1891	1892
Court.....	\$500 00	\$500 00
Surplus revenue.....	\$51 10	\$51 18
Interest on bonds.....	200 00	250 00
Stationery and printing.....	250 00	250 00
Sanitary.....	500 00	500 00
County Jail.....	1000 00	1200 00
Executions.....	400 00	400 00
Comeror.....	600 00	700 00
Expenses of Board.....	1000 00	1000 00
Bridges.....	6000 00	5283 54
Jail.....	500 00	500 00
Justices' costs.....	200 00	200 00
Public building.....	1500 00	2000 00
Library.....	50 00	50 00

obscurity. However, there is a lot of money, as they
look back on lost, forever lost, opportunity. **LIFE IS PASSING!**
Reach out. Be up and doing. Improve your opportunity,
and secure prosperity, prominence, peace. It is as simple
as a philosopher, that "the Goddess of Fortune offers a
golden opportunity to each person at some period of life;
embrace the chance, and she pours out her riches; fall to do
so and she departs, never to return." How shall you find
the golden opportunity? Investigate every chance that
appears worthy, and of fair promise; that is what all suc-
cessful men do. Here is an opportunity, such as is not often
within the reach of laboring people. Improved, it will give
at least, a grand start in life. **THE GOLDEN OPPORTUNITY**
for many is here. Money to be made rapidly and honorably
by any industrious person of either sex. All ages. You can
do the work and live at home, wherever you are. Even the

Clean and Unsensational,
And Just the Paper
For the American Home.

The Press has the best possible organization to
secure news from the most important sources, and
with nearly 100 correspondents in Pennsylvania, New
Jersey and Delaware, the scope and range of its news
is covered with a thorough care and attention to
detail not even attempted by any other paper.
The Press has also the best of correspondents in all
the great cities of the United States, as well as financial
and railroad experts in Chicago and the West, who
keep the paper more than abreast with events.
The columns of the Sunday Press are enlivened by
contributions from those whose names are written high
in our lists of great authors, novelists, poets, as
well as from men of high rank in public life. The
best authors know that their best audiences are the
readers of the Daily, Sunday, and Weekly Press.
In this respect, the Press has no other master than
the people, and the past year has seen, as has been
seen before, the marked fact that it is subsistent to
no political bias. It has no political ambitions to fos-
ter, but looks after the interests of its readers, and
delivers itself upon the issues of the day in a manner
both frank and fair. It brings the facts week for
themselves, and reads no issues, but meeting them
all on the basis of fair play to all men at all times. Its
pages know no distinctions, and the rights of one class
over another are not recognized nor supported.

The members of the white posts in
Louisiana of the G. A. R. have de-
termined to support Department Comman-
der Speed, who was suspended by the
national commander for his refusal to
organize posts composed of negroes. A
large number of suspensions are likely
to follow, but it is proposed to keep up
the order and still claim to be regular
G. A. R. posts.

The Democratic majority has passed
the heaviest river and harbor bill ever
adopted by a House, and before the
session is over will equal the record of
any past House in the size of its appro-
priations. Why should the people want
another Democratic majority? Its
predecessors had no virtue but economy
carried to the point of parsimony, and
this House has not even that.

It is now known that none of the
miners who were in the coal mines at
Roslyn, Wash., when the explosion oc-
curred escaped. Thirty-four men lost
their lives. Fourteen bodies have been
recovered so far.

The Democratic House of Represent-
atives at Washington doesn't act as if
it had any confidence in the stories of
the Democratic newspapers that the
National Treasury is bankrupt.

The Ocean City Excursion House was
sold at Sheriff's sale last week for
\$415.80.

Consumption Cured.
An old physician, retired from practice,
having had placed in his hands by an
East India missionary the formula of a
simple vegetable remedy for the speedy
and permanent cure of consumption,
bronchitis, catarrh, asthma and all
throat and lung affections, also a positive
and radical cure for nervous debility and
all nervous complaints, after having
tested its wonderful curative powers in
thousands of cases, has felt it his duty
to make it known to his suffering fellows.
Actuated by this motive and a desire to
relieve human suffering, I will send free
of charge, to all who desire it, this recipe
in German, French, or English, with full
directions for preparing and using. Sent
by mail by addressing with stamp (nam-
ing this paper) **W. A. NOYES, 820 Powers

IF YOU ARE A BAPTIST,
And want to know what is going on in the
world of Baptists, and are not already
taking it,
YOU NEED
THE EXAMINER,
THE
Leading Baptist Paper.
It will tell you weekly what is going on in the
denomination—East, West, North and South—
for it is the national Baptist paper, taking cog-
nizance to the uttermost borders of our denom-
inational recorder; it is a
Family Newspaper,
Giving the secular news of the week, with pun-
gent editorial and paragraph comments there-
on, besides all the United News and Notes,
with Outlooks on Other Denominations and
religious bodies. Its Story Page is filled with
serial and short stories and a "Puzzle" Page,
its simple review articles, book notices, literary,
scientific and art chat, sermons, Sunday School
lessons and educational information, has home
fun and garden department, market reports,
a regular Washington letter, a sport, takes
into a club every family every week something
suitable to the intellectual wants of every mem-
ber, from the world-knowing grandvire to the
awakening intelligence of the wee tottler at
his knee.
Three Months for 30 Cents.
Send 30 cents and try it for the months of Oc-
tober, November and December; then if you're
pleas'd, we'll be glad to have you become a
yearly subscriber at our regular price of Two
Dollars. Address
The Examiner, Box 3661, New York.

**THE
NATIONAL
BAPTIST**
Philadelphia.

Prospectus for 1892.
It has not been our custom to issue a pros-
pectus. A NEWSPAPER can never tell before-
hand just what subjects will be discussed. We
hold ourselves in readiness, however, with our
well trained editorial force, and our large staff
of special contributors, to treat any subject
which may present itself during the year. Our
plans for 1892 contemplate an enlargement of
our news department, a perfecting of the other
departments, and the bringing up of the entire
paper to a still higher standard of efficiency.
PREMIUMS.
The National Baptist is offering a line of
most attractive premiums. For example, com-
mon sense, religion and hymn-books, valu-
able books of reference and general infor-
mation, fruit in pens. One of its most attractive
offers is the one offering to the new subscriber
and to the person securing the new name, each
a volume of Prof. Drummond's famous address-
es, attractively bound in white and gold.
AGENTS
Are wanted in every Church to canvass for
new names. Liberal commissions are offered.
Past experience has shown that a good num-
ber of new names can be quickly gained by a
good agent.
THE PRICE
Is \$2 per year, in advance. Send for sample
copies, which will be cheerfully sent. Address
all communications to
Clinton Rogers Woodruff,
Business Manager The National Baptist,
1200 Chestnut St., Philadelphia.

LOAD & THORNDYKE, NEWSPAPER
10 Randolph St., Chicago. Has this paper on file
and are authorized to receive orders for
single copies and subscriptions.
