Orville E. Hoyt on his oath saith that he was Collector of Taxes of the Town of Hammonton for the year 1885, that the taxes accompanying this affidavit assessed on the respective lands for the year 1884 (and turned over to him by Lewis Hoyt, the former Collector) are unpaid, that he has used every legal diligence for the collection of the same, and returns said delinquent taxes to the Council of said town, as by law he is required to do.

[Signed] ORVILLE E. HOYT, Collector.
Sworn and subscribed before
N. HEARTWELL, Justice of the Peace.
March 29, A. D. 1886.

Pursuant to the act to facilitate the Collection of taxes in the Town of Hammonton, County of Atlantic,

The Chairman of the Town Council will, on
Tuesday, June 29th, 1886,

at TWO O'CLOCK in the afternoon, at the TOWN CLERK'S OFFICE, sell the above described lands, tenements and hereditaments taxed to the above named persons, or so much thereof as will be sufficient to pay the tax, interests and costs thereon.

THEO. B. DROWN,
Chairman of Town Council.

TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a REMEDY that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or purging nor interfere with daily work and are a perfect

ANTIDOTE TO MALARIA.

HE FEELS LIKE A NEW MAN.
"I have had Dyspepsia, with Constipation, two years, and have tried ten different kinds of pills, and have not had any good. They have done me any good. My appetite is cleaned me out nicely. My appetite is splendid, food digests readily, and I now have natural passages. I feel like a new man."

It is thought that the hostile attitude of the Democrats will prevent any further general pension legislation during the present session.

Of course, if the Senate declines to investigate Mr. Payne, of Ohio, it will not be due in any degree to the social influence of his son in law, Secretary Whitney. Any intimations to that effect would be really quite too absurd for any use.

The first fifteen months of the first Democratic Administration since the War for the Union will be famous for having produced the biggest crop of bogus reform on record.

A most potent Remedy for Malaria is Vinegar Bitters, New Style. It cleanses the system and purifies the blood, freeing it from all malarial poison. Vinegar Bitters, New Style, has a pleasant taste, is a slightly antacid preparation, is a mildly acting cathartic, and its tonic properties are unsurpassed.

SHERIFF'S SALE.

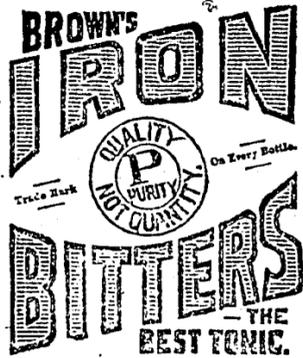

By virtue of a writ of fieri facias, to me directed, issued out of the New Jersey Court of Chancery, will be sold at public vendue, on Wednesday, the

Twenty-first day of July,

1886, at 2 o'clock in the afternoon of said day, at the hotel of John B. Champion, in Atlantic City, Atlantic County, New Jersey, All that certain lot or tract of land and premises situate in the said Town of Hammonton, County of Atlantic, and State of New Jersey, bounded and described as follows:

Beginning in the centre of Oak Road, at the distance of two hundred and forty rods (240) north-east of Main Road; thence extending (1) north forty five degrees thirty minutes west along one Adams' land, eighty rods to a point; thence (2) north forty-four degrees thirty minutes east, forty rods to one Mills' line; thence (3) along the same, south forty five degrees thirty minutes east, eighty rods to Oak Road aforesaid; thence (4) along the centre of said Road, south forty four degrees thirty minutes west, forty rods to the place of beginning; containing twenty acres of land, strict measure.

Seized as the property of Marion Jenkins and Edward Jenkins, and taken in execution at the suit of the Hammonton Loan and Building Association, and to be sold by CHAS. R. LACY,
Dated May 20, 1886. Sheriff.

PHYSICIANS AND DRUGGISTS RECOMMEND IT.
This medicine, combining Iron with pure vegetable tonics, quickly and completely cures Dyspepsia, Indigestion, Weakness, Impure Blood, Malaria, Chills and Fevers, and Neuralgia. It is an infallible remedy for Diseases of the Kidney and Liver.
It is invaluable for Diseases peculiar to Women, and all who lead sedentary lives. It does not inflame the teeth, cause headache, or produce constipation—*after long practice do.* It enriches and purifies the blood, stimulates the appetite, aids the assimilation of food, relieves heartburn and belching, and strengthens the muscles and nerves.
For Intermittent Fevers, Lassitude, Lack of Energy, etc., it has no equal.
The genuine has above trade mark on 1 crossed red lines on wrapper. Take no other.

FACTS vs. PREJUDICE

Prejudice is hard to combat. It cannot be overcome in a day. More than likely it wasn't formed hastily. Indeed it may have been gradually strengthening its hold for years. For instance, some folks believe Rheumatism cannot be cured. Their fathers believed so before them. So did their grandfathers:

Now, RHEUMATISM CAN BE CURED, notwithstanding this prejudice, but the trouble is to make people think so. The only way we know to meet popular unbelief is to state the PLAIN FACTS, and then present the POSITIVE PROOFS that they are facts. It is a fact that the RUSSIAN RHEUMATISM CURE not only relieves but banishes Rheumatic Pain. There is positive proof of it too.

It comes from those who have suffered untold agony with Rheumatism and have been completely cured by this remedy. All who have tried it have had this experience. Some of them permit us to print their testimony. It makes quite a little book, which we send free to any who are interested enough to ask for it.

A complete Russian Rheumatism Cure, costs \$2.50. If mailed, 10c. additional. If registered, 10c. more. You'll never need but one, so the price isn't high. Who wouldn't give \$2.50 to get rid of Rheumatism?

As yet it cannot be found at the stores, but can be had only by enclosing the amount as above, and addressing the American Proprietors,

PFÄELZER BROS. & CO.,

COAL. COAL

All wanting the best quality of Lehigh Coal can find it at Scullin's coal yard on Egg Harbor road, near Bernshouse's steam mill. Coal will all be dumped from the cars into the yard, and will be sold in five ton lots at the same rate as car load lots from other yards. Having a good plank floor to shovel from, instead of the inconvenience of shoveling from the cars, is really worth ten cents a ton to every purchaser.
All coal will be sold strictly for cash on delivery.

Office at Anderson's feed store.

FOOD FOR THOUGHT

Speak not evil of the absent, for it is unjust. Labor to keep alive in your breast the little spark of celestial fire called conscience.

No evil propensity of the human heart is so powerful that it may not be subdued by strict discipline.

Strive not with your superiors in argument, but always submit your judgment to others with modesty.

Repentance is a commodity always in market. The purchaser names the price for it; lucky for him if he doesn't name the price too high.

Herr Stutzer holds that soda alone is as powerful a solvent of nitrogenous principles as when combined with pancreatic ferment.

It is not possible to live in the world, even though we only tread it, without our feet, without being soiled by its dust.

Think before you speak; pronounce not imperfectly, nor bring out your words too hastily, but orderly and distinctly.

Be pleasant and kind to those around you. The man who stirs his cup with an icicle spoils the tea and chills his own fingers.

It is the easiest thing in the world to train up a child in the way he should go; all you have to do is to go that way yourself.

When you meet with one of greater quality than yourself, stop and reflect, especially if it be at a door or any street place, to give way for him to pass.

Make no vow of taking great delight in your situation; feel not your greed in the view of all that you have, but not on the table; neither fad fault with what you eat.

A proud bigot, who is vain enough to think he can deceive even God, by making an oath, through the veil of holiness over his vice, damns all mankind by the words of his power.

Take all admonitions thankfully, in what kind or of what soever given; but afterwards, the full time of the day, or time or place convenient to let them know that they have them.

It is cowardice to wish to get rid of everything which does not give us further man's education in this world. They will not be needed in the future.

They that are in dignity or in office have all the places precedency; but whilst they ought to respect those that are their equals in birth or other qualities, though they have no public charge.

Do not grieve at table, whatever happens; do not quarrel with any man, show it not; and be cheerful countenance, especially if there are strangers, for good humor makes one dish of meat a feast.

The road to true philosophy is precisely the road to true religion; and to true religion, and from both one and the other, unless we could enter in at little children we must expect to be totally excluded.

It is the habitual thought that frames itself into our life. It affects us even more than our intimate, social relations do. Our confidential friends are justly in every enjoyment and work in obedience to the divine law.

I have been more and more convinced, the more I think of it, that, in general, pride is at the bottom of all great mistakes. All the other passions are secondary to this one.

It is the habit of thought that frames itself into our life. It affects us even more than our intimate, social relations do. Our confidential friends are justly in every enjoyment and work in obedience to the divine law.

HORSE NOTES

The Detroit programme includes a saddle race for pacers of the 2:22 class.

H. Simons, Louisville, Ky., has sold the b. m. Sentress to W. H. Komble, of Philadelphia, for \$1750.

Philadelphia parties are said to be negotiating for the purchase of the stallion Jerome Turpin, record 2:17.7.

Andrew Jackson, of Maitland, N. J., is the present owner of the famous old gray gelding Hopeful, record 2:14.4.

The b. g. Orange Bud that trotted so gamely at the Philadelphia meetings is a full brother of the stallion Orange Blossom, by Middletown.

After his race at Jerome park, the ch. z. Duke of Westmoreland was sold by William Higgins, to Stanley Mortimer, of New York, for \$3000.

A mare belonging to Mr. D. Frank Todd, near Richmond, has a horse colt and a mule colt, that are twins. This is a freak of nature that rarely occurs.

A. E. Hummel's Lexington mare, Sallie Ready, foaled a sorrel filly, owned by St. Martin, on the 21st. Sallie Ready is the dam of Claude Brannon, a noted racer.

It seems to be pretty well understood that, should the Dwyers conclude not to start Pontiac or the Suburban, McLaughlin will have the mount on Joe Cotton.

The b. g. Royal Bounce, owned by C. A. Newell, of Philadelphia, is the first colt to get a walk in the 2:30 list in 1886. He trotted in 2:28 1/2 at Belmont.

Mr. A. J. Cassatt has purchased the 3-year-old colt Eurus and Zolan from Alfred Dewar, of Virginia, and they will run in the Keen tri-color during the race of the season.

A match has been made between the steeplechases Braewood and Tom Brown, to be run at the Baltimore and Annapolis meeting on the Pimlico Course, at \$1000 a side, half forfeit, and a dinner for a dozen gentlemen.

Charles McFadden has purchased of H. H. Howell, of Baltimore, the b. f. Frederic, by Orange Blossom, dam by George M. Patchen. Price said to be \$1200.

Messrs. Phipps and Blair, of Belmont Course, are reported to have made considerable money out of the race on J. J. Douglas' victory in the 2:23 class of their track.

J. B. Haggin, of California, continues his extensive live stock purchases, the latest of which is the stallion John Happy, which he purchased of James Carroll, of New Orleans.

The programmes for Cleveland, Buffalo, Rochester, Utica and Island Park are identical, Cleveland, Buffalo and Utica introducing a special and interesting feature in the 2:23 class.

By the conditions, all horses with records of 2:30 or better shall go in harness, but horses with slower records can go to saddle or harness, as they may prefer.

"Broad Church," writing from Covington, Ky., to the Spirit of the Times, says: "Freeland's performance in the Merchants" was not up to expectations, although everything considered, it could not be regarded as disappointing.

For an animal of the patched-up kind, his spring training is necessarily gingerly, and nothing extra could reasonably have been expected. Besides, Tyrant was in great form, and fully up to the measure of being able to outstrip the fastest of his class.

Should Freeland continue to stand the wear and tear of the training ordeal, he will be heard from later on. Remember, he did not achieve a victory in his first three races last season, and that he was simply unbeatible before his close.

The twenty rainy days during the month of May, just passed, seriously affected the attendance at the trotting and pacing meetings at the four Philadelphia tracks.

The second Suffolk meeting was declared off on Monday, May 21st, the first day, proved rainy. The horses are said to have been entirely conditionally, so there is probably no loss to any one.

Some of the trotting at the Philadelphia circuit was good, but not all of it. The spirit of fraud so familiar to spectators of this city showed itself in several instances, and the attendance of spectators fell off rapidly.

The Point Breeze and Belmont meetings were full of "put-up jobs." There were altogether at the four meetings eighty-seven heats trotted and thirty-one heats paced in 2:30 or better, the fastest mile being made by the pacer, Maudlin Bay, at Point Breeze, where he won the second heat of the 2:22 pacing class, in 2:10 1/2.

Fifteen of the 118 heats in 2:30 or better were made at the Gentlemen's Driving Course, where seven of the ten "put-up jobs" were decided.

This includes the two heats in the undeheld 2:22 pacing race. At Suffolk nineteen heats were made in 2:30 or better, five races decided. Point Breeze contributed thirty-four heats in 2:30 or better in nine races, and Belmont, with the full ten regular races in the 2:30 class, had the list of fifty heats in 2:30 or better.

Two heat winners got no share of the purses—Gentlemen in the 2:22 pacing race at Belmont, and Grandeur in the 2:30 class at Belmont. The b. g. G. D. S. was the most successful in the matter of purse winners, the figures to his credit footing up \$750.

SCIENTIFIC

An apparatus for transferring inflammable liquids is thus described in a French exchange: A tube fitted to a cork is bent back. It is filled at the bend to receive a cover glass and is then placed in the cork. A long tube for the passage of atmospheric air is placed inside the tube.

The larger tube is immersed in the bottle or barrel, care being taken to have the cork stopper in the latter tightly by corking. The cover is then unfastened and the bend of the tube is tilted to the receiving vessel, and the flow in a continuous stream, and there is no waste. The gas cannot escape, and the exterior air fills the void made by the liquid that has been drawn off, and thus danger of explosion is avoided.

Moreover, when the receiver is full and the spout is immersed in the liquid, the flow ceases at once, as the air can no longer enter by the central tube, which is closed by the liquid.

It takes two hundred and fifty bushels of potatoes to make a ton of potato starch. Its preparation is a very simple affair, as follows: After being thoroughly washed and freed from dirt, the potatoes are reduced to a pulp by means of a grater. The pulp is placed in a sieve, washed by streams of falling water, the starch being carried through the sieve into a proper receptacle, and the fibre washed in a similar manner.

The starch is carried with the water passing through the sieve into a straining-tank, in which it is washed from the finer particles of wood, bark, and heavier than water, sinks to the bottom, and is then further cleaned in other tanks by washing and stirring, until the water is clear and drawing off.

It is well known that when a piece of hot platinum foil or wire is suspended over a vessel containing ether it will continue to glow indefinitely, owing to a slow oxidation of the ether in contact with the foil. The ether is converted into a greasy odor is produced; but the nature of the substance formed was until recently unknown.

L. Legier, who is credited with the discovery, writes to the Berlin Berichte that it is a definite chemical compound, soluble in water, and that he has obtained it in beautiful needles which melt at a peculiarly high temperature, and are easily converted into gas, and is, under certain circumstances, explosive. Its reaction with salts and alkalis is very interesting.

A simple but very effective machine for drying grain is made by an English firm. It consists of an outer and inner cylinder, the latter being constructed by pipes from a boiler. The chambers are cylindrical in form and the inner cylinder of considerably smaller diameter than the outer.

The two cylinders are connected by a revolving band, the space between the two for the passage of grain. The inner cylinder revolves in steam-tight glands, while on its outside are several perforated plates arranged in a spiral, and connected in a row from a sopper at one end, in motion as it passes through the machine to the discharge spout at the opposite end, whence it passes out thoroughly dried.

The staining of bricks red is effected by melting one ounce of glue in a gallon of water, then adding a piece of alum as large as an egg, one-half pound of Venetian red, and one pound of Spanish brown, and stirring the mixture by using more red or brown. For coloring black, heat the bricks and dip in lead sulphate or in a hot mixture of linseed oil and asphaltum.

Resemblances of human footprints have been found almost everywhere in ancient rock. Even very modern horse-shoes are to be seen in the same manner, and on such rocks, when the indentations are pointed out, the imagination must be violently excited to say that the impressions are like anything in particular.

An improved railroad tie, just invented, is formed of two inverted bowls having plain upper surfaces, two fastenings, and two wings, each wing being each bowl by bolts, with a bar connecting the two bowls, and secured by the fastenings of the inner circles; the concave sides of the bowls filled with earth well tamped, or with concrete, the object being to furnish a tie which shall be practically indestructible.

An Austrian coal mines work is suspended in dangerous places during a fall of the barometer, experiments having shown that the quantity and intensity of explosive gases greatly increase as the atmospheric pressure diminishes.

The following is said to be an excellent stain for giving light-colored wood the appearance of black walnut: Take Iron-wash black, thin it down with water, and mix with the right tone of color, and then add about one-twentieth its bulk of varnish. This mixture, it is said, will dry hard and take wellish well.

The well-known Parisian editor M. Moigno, has written a paper on the synthesis of the heavens and the earth. In this paper he explains the elements which originated from ether, which first generated hydrogen. To an explosion of ether he attributes the existence throughout the universe of the action of gravitation.

When corn is but a few inches in height, before the dew has had time to spread, deep plowing with a shallow plow may be beneficial; but after the roots have become far reaching, cultivating with cultivator or harrow should be resorted to stir only the surface of the soil.

THE MOUNTAIN AND THE SEA.

Once upon a time the Air, the Mountain, and the Sea lived undisturbed upon all the earth. The Mountain alone was immovable; he stood always in the same place, and the Air and the Sea rippled and foamed at his feet while the Air danced freely over his head and about his grim face.

It came to pass that the Air and the Sea fell furiously down beneath the awful shock of water which beat so cruelly upon it. Its head lifted it slowly higher; it called its slowness length all through the pleasant path where had dwelt the Mountain.

It walked undisturbed upon her way. And when the night-time came an awesome darkness showed where the hurful food tide had been seen. For desolation reigned where erst had been a small path, and flowers of sweet content.

At last the saddest of sad sights it saw. To see the wrecks of joy strewn thick and thin, and the sweet, sweet flowers of Happiness to miasma, and sweet feet are forever dead. To know no more upon Joy's pleasant track.

Our longing feet in all the years may stray. Saddest of all—there is no going back. Because the bridge of Love is washed away.

THE 'CELLO PLAYER.

A GLIMPSE OF CADET LIFE.

Examination of the Candidate for Future Naval Rank—Hazing a "Fibber."

The actual appointment is not made by the Congressman, but by the Secretary of the Navy, and this is not given until after the cadet has been duly sworn in as a naval cadet in the United States Navy.

On receiving the permit the candidate, as he is then called, reports to the superintendent as placed of residence, and a birth certificate registered in a large book, and he is given blanks to fill in stating what progress he has made in his studies, and the next looks he used, these blanks to be handed in the next day at his mental examination.

Four days are given to the mental examination, two in English and two in mathematics. If a candidate fails on the first two he is given a re-examination in the branches he has failed in, and if he fails a third time he is dropped. After the mental test is over comes the physical examination, which is very rigid.

The principal defects in candidates are in the eyes, ears, and in various other parts of the body. The physical and physical examinations, which are given papers to sign, binding himself to the navy for eight years, unless sooner discharged by the proper authority, for which he has to pay 10 cents.

The cadet life of this young aspirant for naval glory is not a very pleasant one, but it is necessary to make any deposit of money, but it is preferred that \$200 be deposited for his expenses, which are heavy, and this amount is placed to his credit in a bank, which he may draw upon at any time.

When the new naval cadet goes to his first meal he then catches a little of the "rumor" or as it is called by civilians, "the fibber," which is a very common fault in the new cadets, and is a very serious one, for it is a very serious one, for it is a very serious one.

WASLET AWAY.

All unnumbered it slipped, drop by drop, the stream now and then and leaves every day. And lo! its flooding waters fill the top of the hill, and the bridge of Love is washed away.

The whole foundation, founded on the rock of Love, fell swiftly downward, stone by stone, and the bridge of Love is washed away.

Of water which beat so cruelly upon it. Its head lifted it slowly higher; it called its slowness length all through the pleasant path where had dwelt the Mountain.

It walked undisturbed upon her way. And when the night-time came an awesome darkness showed where the hurful food tide had been seen. For desolation reigned where erst had been a small path, and flowers of sweet content.

At last the saddest of sad sights it saw. To see the wrecks of joy strewn thick and thin, and the sweet, sweet flowers of Happiness to miasma, and sweet feet are forever dead. To know no more upon Joy's pleasant track.

Our longing feet in all the years may stray. Saddest of all—there is no going back. Because the bridge of Love is washed away.

While we believe that a separate political party movement is not the wisest method of attacking the rum fiend, the course being taken by liquor men and their friends may result in driving temperance men of all parties to the support of Prohibition nominees, as the only course left for defence of their principles.

The liquor dealers of the State have a thorough organization, and some late developments seem to indicate that they propose to control the politics of this State in their own interest.

G. A. R. Post meeting to-night. Details of the Fourth of July picnic will be arranged.

Dr. Waas, our popular dentist, and his excellent wife, are now at home in one of Mrs. Tomlin's houses.

C. E. Hall and wife started for Vermont on Wednesday, intending to spend several weeks among relatives.

D. Steelman Tilton has two very pretty houses nearly ready for occupancy, and both in very eligible locations.

Mrs. Morris started for home (near Utica, N. Y.) on Tuesday, having spent eight weeks at her father's, D. G. Jacobs.

T. J. Smith has bought Jesse D. Fairchild's horse, and a buggy from Alex. Attkens, which makes him an elegant turn-out.

Mr. and Mrs. E. Stockwell, and Henry, spent Wednesday and Thursday at Atlantic City. We didn't share the fish they caught.

Rev. O. O. Ordway, pastor of the Hammonton Baptist Church, and Rev. E. S. Town, of Vineland, have agreed to exchange pulpits to-morrow.

It doesn't pay to use the same picker tickets for raspberries that you gave out for strawberries. The price per quart is different, and a dishonest picker could soon wrinkle you out of the price of separate tickets.

The P. M. D. C. announce a festival and entertainment in and out of Mechanics' Hall, Pleasant Mills, next Saturday, June 26th; fun to commence at 6 o'clock P. M. Preparations are to be made for a jolly time.

Complaints still reach us of damage and thefts of plants in Greenmount Cemetery. We have heard of some very mean people, but a person who will steal the plants which loving hands have placed upon a parent's grave is too mean to live in a community like this.

The county jail is the proper place for such, and we hope some one will claim the ten dollars reward offered for evidence to convict the trespassers.

We welcome fair criticism, but we consider an anonymous communication equal to a blow in the back, in the dark, with the cowardly fellow skulking behind some convenient corner. That is plain English, we believe. When we quoted the price of berries in Hammonton, last week, at ten cents, we quoted the only ones we saw for sale, and had reason to believe that equally as good ones were sold in Philadelphia "mostly 3 to 5." That is not saying anything against the town; but it is an expression of a sentiment held by non-producers generally,—that all products raised in town should be sold here at the same figures obtainable in the city,—as they save freight, cartage, commission, etc. Instead of endeavoring to injure our town, we know that a compliance with our suggestion would give satisfaction to many who, like the citizen, have to pay cash for all they consume.

We may be wrong, but we adhere to the conviction that a canning establishment would prove a paying investment in Hammonton. Thrice during the present season, strawberries have sold in Philadelphia for two cents per quart, and in New York for three cents. These prices do not pay the cost of picking and shipping. They would be worth five cents here at home, for canning, and then would pay the grower better than eight cents in Boston, when damage and loss of crates and baskets are taken into account. Now that the Northern berries are in market, it will scarcely pay to ship from here, yet there are thousands of quarts which might be canned and pay good wages to all who are interested. We hope that another season (if not an earlier date) will find a fully-equipped canning factory in operation. The same arguments will apply to other berries and fruit.

In the meantime, we suggest that the growers themselves might save many berries that would otherwise waste. Take your choice of the pickers, who would gladly work after picking is done, and for small compensation do the most tedious and laborious part of the work. There is a market for all of it.

Miss Laura Potter, of Smith's Landing, is visiting in Hammonton.

The firm of Veal & Maloney has been dissolved. Mr. Maloney continues business.

We hear that Miss Jennie Wright, of Elwood, is engaged to teach at Port Republic, next term.

Vine Cottage has been repaired by Mr. Thayer, and is now rented and occupied,—names unknown.

Miss Bowdoin started on Thursday for a northern trip, expecting to be absent until September.

Wanted, at the Hammonton Steam Laundry, a good plain ironer; also, a woman to wash. D. LAKE & Co.

Miss Minnie Newcomb, who is visiting friends in Cortland County, N. Y., writes that crops there are suffering for want of rain.

Regular meeting of Atlantic Division, Sons of Temperance, in the Masonic Hall, first and third Monday evening in each month.

Mr. and Mrs. George W. Taylor, of Philadelphia, are again spending the summer in Hammonton,—boarding at Mr. Whitney's.

To be sure, strawberries sold very low, but then the crop was large, and our bills are small. Can't you spare us what we have earned?

We hear that during Thursday's thunder shower, a horse belonging to Mrs. Robert Geppert, on Eleventh St., was killed by lightning.

Mrs. D. G. Barnard, formerly of Winslow, died on Saturday evening last, at her home, in Haddonfield. Funeral at Winslow, on Wednesday.

Hay & Company have struck a vein of fine quality of clay on their property near Winslow Junction, and rich developments are anticipated.

Carl M. Cook, the jeweler, finds business beyond his expectations. He does any work in his line, and warrants it all. Call and see what he has for sale.

We hope that another season (if not an earlier date) will find a fully-equipped canning factory in operation. The same arguments will apply to other berries and fruit.

In the meantime, we suggest that the growers themselves might save many berries that would otherwise waste. Take your choice of the pickers, who would gladly work after picking is done, and for small compensation do the most tedious and laborious part of the work. There is a market for all of it.

Miss Laura Potter, of Smith's Landing, is visiting in Hammonton.

The firm of Veal & Maloney has been dissolved. Mr. Maloney continues business.

We hear that Miss Jennie Wright, of Elwood, is engaged to teach at Port Republic, next term.

Vine Cottage has been repaired by Mr. Thayer, and is now rented and occupied,—names unknown.

Miss Bowdoin started on Thursday for a northern trip, expecting to be absent until September.

Wanted, at the Hammonton Steam Laundry, a good plain ironer; also, a woman to wash. D. LAKE & Co.

Miss Minnie Newcomb, who is visiting friends in Cortland County, N. Y., writes that crops there are suffering for want of rain.

Regular meeting of Atlantic Division, Sons of Temperance, in the Masonic Hall, first and third Monday evening in each month.

Mr. and Mrs. George W. Taylor, of Philadelphia, are again spending the summer in Hammonton,—boarding at Mr. Whitney's.

To be sure, strawberries sold very low, but then the crop was large, and our bills are small. Can't you spare us what we have earned?

We hear that during Thursday's thunder shower, a horse belonging to Mrs. Robert Geppert, on Eleventh St., was killed by lightning.

Mrs. D. G. Barnard, formerly of Winslow, died on Saturday evening last, at her home, in Haddonfield. Funeral at Winslow, on Wednesday.

Hay & Company have struck a vein of fine quality of clay on their property near Winslow Junction, and rich developments are anticipated.

Carl M. Cook, the jeweler, finds business beyond his expectations. He does any work in his line, and warrants it all. Call and see what he has for sale.

The Republican.

Still plenty of rain. Mr. C. L. Yates was in town this week, on business.

Alex. Attkens' new house seems to be about ready for use. It is a daisy.

G. A. R. Post meeting to-night. Details of the Fourth of July picnic will be arranged.

Dr. Waas, our popular dentist, and his excellent wife, are now at home in one of Mrs. Tomlin's houses.

C. E. Hall and wife started for Vermont on Wednesday, intending to spend several weeks among relatives.

D. Steelman Tilton has two very pretty houses nearly ready for occupancy, and both in very eligible locations.

Mrs. Morris started for home (near Utica, N. Y.) on Tuesday, having spent eight weeks at her father's, D. G. Jacobs.

T. J. Smith has bought Jesse D. Fairchild's horse, and a buggy from Alex. Attkens, which makes him an elegant turn-out.

Mr. and Mrs. E. Stockwell, and Henry, spent Wednesday and Thursday at Atlantic City. We didn't share the fish they caught.

Rev. O. O. Ordway, pastor of the Hammonton Baptist Church, and Rev. E. S. Town, of Vineland, have agreed to exchange pulpits to-morrow.

It doesn't pay to use the same picker tickets for raspberries that you gave out for strawberries. The price per quart is different, and a dishonest picker could soon wrinkle you out of the price of separate tickets.

The P. M. D. C. announce a festival and entertainment in and out of Mechanics' Hall, Pleasant Mills, next Saturday, June 26th; fun to commence at 6 o'clock P. M. Preparations are to be made for a jolly time.

Complaints still reach us of damage and thefts of plants in Greenmount Cemetery. We have heard of some very mean people, but a person who will steal the plants which loving hands have placed upon a parent's grave is too mean to live in a community like this.

DR. JOHN BULL'S
Smith's Tonic Syrup
 FOR THE CURE OF
FEVER and ACUE
 Or CHILLS and FEVER,
 AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

BULL'S SARSAPARILLA is the old and reliable remedy for impurities of the blood and Scrofulous affections.

A Lecture to Young Men
 On the Loss of

MANHOOD

A lecture on the Nature, Treatment, and Radical cure of Seminal Weakness, or Spermatorrhoea, induced by Self-Abuse, Involuntary Emissions, Impotency, Nervous Debility and Impediment to Marriage generally, Consumption, Epilepsy, or Fits; Mental and Physical Inactivity, &c.—by ROBERT J. CULVERWELL, M. D., author of the "Green Book," &c.

The world-renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-Abuse may be effectually removed without dangerous surgical operations, cups, instruments, rings, or cordials; pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture will prove a boon to thousands and thousands.

Sent, under seal, in a plain envelope, to any address on receipt of six cents, or two postage stamps.

The clergymen in Portland, Maine, have joined in a petition asking Councils to compel the saloons in that city to close up on Sundays. There is some mystery about this. Maine is a Prohibition state and we have Neal Dow's assurance that no liquor is sold there. That being the case why do the saloons want to keep open on Sunday? And on the other hand, if they do keep open and don't sell any thing, what's the harm?

The Jersey City school census shows a falling off of over 6,500 in number.

"Old Spot," Gen Kilpatrick's war horse, now thirty-one years old, will be a feature in the Fourth of July parade at Port Jervis.

The Republicans of Cumberland Co. are divided on the question as to the advisability of nominating Gen. Fiske for Governor.

There are 1136 children of school age in Vineland.

Mrs. Grant shook her head, the other day, when C. D. Keep offered \$3,000 as rent for the late General's Elberon cottage this year. Last season Mr. Keep paid \$2500, but Mrs. Grant and her family will be the occupants of the place this summer.

THE INDEPENDENT

The Largest, the Ablest, the Best Religious & Literary Weekly.

The most influential religious organ in the States.—Spectator, London, Eng.

The Independent is one of the best papers in the world. Its good points are many and striking. They have only to be stated to be appreciated; and for proof of our claims appeal may be taken to any of the fifty-two issues of the year. Any number will show that its contents are marked by ABILITY, VARIETY, and INTEREST.—The great thinkers, the great story-writers, the great poets, men of the highest reputation in all departments of human knowledge, make up its list of contributors. Religion, philosophy, science, literature, art, travel, discoveries, stories, and all conceivable topics are embraced in the contents, and everybody, old or young, learned or unlearned, without regard to sex, employment, or condition, will find something of interest in every issue.

Comprehensiveness.—It is a religious, a literary, a financial, and a political paper combined.

Breadth, Candor, Earnestness.—The Independent is free to all denominations; it is the organ of no clique or party in State or Church. It is free to discuss all questions, and to speak its mind candidly. It is not swayed by fear or favor. It is vigorous in its denunciation of the Evangelical faith, it preaches practical righteousness, earnestly supports all moral reforms. All its columns—the advertising as well as the reading—are free from everything of doubtful or objectionable character. No matter what a person's religion, politics, or profession may be, if he desires to keep up with the times, and know what the brightest minds are thinking of, the ablest pens are writing about, and what the world at large is doing,—he should read the Independent.
