YOU would not be apt to think that wealthy men
would feel any particular need of life insurance.

Yet they are among the heaviest patrons of the
great life insurance companies.

Great investors, accustomed to dealing with large
sums, and therefore familiar with the fickleness of Dame
Fortune—they fully appreciate the certainty and depend-
ability of life insurance.

It would give this Company much pleasure to have you visit the Prudential Exhibit

SATURDAY, JUNE 26, 1915

The Town's Opportunity.

The New Jersey State Horticultural Society will hold a Summer
meeting in Hammonton on Wednesday, July 14th. It will be a big
day for the town, as it is estimated that several thousand people from
this and surrounding states will be here.

Of course, there will be a business session, a number of addresses
by practical men, on berry and peach growing, packing, shipping, and
kindred phases of the business, profitable for all who are interested.

The Board of Trade has taken the matter in charge, and have held
two meetings to consider plans, have appointed committees on enter-
tainment, publicity, etc. They will issue a thirty-two page booklet,
containing views and descriptive matter, put up advertising streamers,
and do all in their power to make the meeting a success. Business
sessions will be held in Mr. Rider's grove.

We hope that the weather will be agreeable. Aside from direct
special benefits derived, this will be Hammonton's opportunity to
advertise its advantages as a town of homes and the finest locality in
the Union for fruit growing.

The Board of Trade will hold another special meeting on Wednes-
day evening, June 30th, to further consider details.

Freight Rates on Berries.

A few weeks ago we referred to this matter, and showed that
shippers in this locality are paying much more on shipments to New
York than is charged from other points in this and other states that are
more distant from New York than we are.

The growers, awakened to this fact, have petitioned the railroad
companies for a re-adjustment of rates, making them more equitable
for shippers from this. No changes having been made, a petition will
be presented to the State Utility Commission, which is to meet at
Trenton next Tuesday, 29th. This has been signed by Senator Edge,
Assemblyman Godfrey, and others, besides many who are directly
interested. Well posted men are to be present at the meeting, and will
urge that the companies be required to make their freight rates more
consistent with each other.

Their claims are just, as we view them, and we hope the State
Board will make the desired order.

Mrs. Clara A. Brown, herself a graduate, and a teacher of experi-
ence, is introducing in Hammonton the comparatively new system of
music teaching which is being used by many of the best instructors of the
world over. It is known as the "Progressive System," in which the
whole subject is divided into grades, as in public school courses, with
standard text-books for study, besides those for actual work at the
instrument. The pupil is required to take examinations at stated
periods, reach certain averages in his markings, and at the completion
of the full course is given a graduation diploma, the same as issued by
the Conservatories. All branches of the art are covered, and graduates
are qualified to teach what they have learned. In some cities this
system has been adopted in the public schools, thus placing music on a
par with other branches in the curriculum. It is hoped that our local
Board of Education will also adopt it, and thus place a thorough knowl-
edge of music within the reach of all who desire it.

It is a pity that the money did not hold out, a few years ago, when
the Town was ridding the Lake of stumps, etc. Special attention
might have been paid to the popular swimming and diving places, to
rid them of dangerous obstructions. Several deep water divers have
struck them, and might have been stunned and drowned. Recently,
Raymond Richel slipped as he dove, and went down instead of off, and
a severe scalp wound was the result.

The "fire blight" has struck many of our orchards, affecting leaves
and branches as though flames had passed over them. It would be wise
to consult an expert in regard to treatment; and in the meantime remove
all diseased portions and burn them immediately.

As a week from Monday is legally the Fourth of July, those who
have banking or loan association business should attend to it Saturday.

Town Council Meeting.

The regular session was held on
Wednesday evening, 23rd, with all
members present.

Mr. Rider was given the floor
for a minute's explanation of the
object and possibilities of the
Horticultural Society's Field Day,
to be held in Hammonton on July
14th. He invited Council to partici-
pate, and asked that special
officers be appointed, that permis-
sion be granted to float canvas
"welcome" signs over the streets,
and that Packard and Tilton Sis.
be made more passable for auto-
mobiles. Cars will be parked on
the School's Athletic Field, and on
the lot adjoining Tilton Street, and on
Packard Street, several hundred
of them, probably. Requests will
be granted.

Fire, Water and Light Committee
reported the ordering of five hun-
dred feet of new hose from Fabrie
Hose Company.

Board of Education asked that
N. C. Vescoat be appointed special
officer while watchman at Central
School grounds. Committee will
have him sworn in.

Property Committee gave quite
a lengthy report of work done, in
progress, and anticipated, at the
park—the latter being sanctioned,
by vote.

Overseer of the Poor reported
William Weckerly removed to the
Sanitarium at Ancora, and his
family cared for.

The program, as printed below, speaks for itself.

As we look at our orders for about one hundred thousand peach
labels, we cannot help thinking "there is going to be some peaches this year."

Watch for the scale and lice on your tulip trees. The latter are
on many of the trees.

WHEN driving a binder it's aggravating
to have to stop because "the twine
went wrong."

Sometimes the trouble is a bad spot in the
twine—sometimes a tangled ball.

Such delays are the real price you pay for
cheap twine.

PLYMOUTH TWINE

speeds up the work—cuts down the costs.

Plymouth is stronger and ties more bundles than any other
brand. The quality never varies and the balls don't fall down.

If you want an easy and economical harvest, get your twine
from us. And take our advice, order Plymouth EARLY.

Hammonton.

There are scores of buildings in
town covered with this paint,
which look well after eight or
ten years of wear.

The Hammonton Paint is sold for

It has no equal, as it works well,

The Mysterious Clock.

Have you seen the mysterious clock in our
banking house? It consists of a large glass
disk, divided like the face of an ordinary
clock. No one seems to know what makes
the hands go. The clock keeps accurate
time,—but how? Each depositor has the
right to one guess. Any one may become a
depositor by depositing not less than one
dollar. Don't fail to see the clock as soon as
possible. The person making the first correct guess
will receive a prize.
