The Davidge Fertilizer Co.

WHY ARE OUR
Fertilizers the Best?

They are all that is claimed for them. They never deplete the farmer. They supply the land with all the permanent properties, adding to its permanent value.

They are complete manures. They restore exhausted soils. They make no weeds. They are great crop producers. They are made from purest fertilizing materials.

They contain pure acid, potash, and animal matter. They are, in short, RELIABLE.

HAMMONTON ATLANTIC CO. N. J.
SATURDAY, JULY 5, 1890.

Run in Hammonton.

In the words of the notorious Tweed, "what are you going to do about it?" Is there no legal way to stop the sale of intoxicating liquor in Hammonton? If not, is there no other way? In Kansas, "original package" proprietors, whom state law cannot reach, have been

warned that tar and feathers await those who persist in the obnoxious traffic. We do not believe in mob law, or government by brute force; but what shall be done with men who shelter their selfish business behind a technical court decision, and defy the moral sentiment of a community? Every day, nearly, you can see those slop wagons boldly driving about town, leaving here and there cases of so-called legal beer—the meanest, cheapest, and nastiest stuff that man ever insulted his stomach with; and the law will do nothing to prevent it. How long shall it be endured? Some one told us that it was none of our business. Well, it is our business when young men go staggering along the street, order men neglect their business and families because of the ease with which rum can be procured. Some Camden county men were indignant because people on this side tried to shut off the license; perhaps, if that county would continue its sales, and consequent evil effects, within its own borders, Atlantic county would keep silent. They ignore the fact that the builder of that rum shop owned land in this county, intending to build, and only bought a quarter-acre just outside because he could not obtain a license in Hammonton. No hotel was, or is, needed there; it is a rum-shop; its patronage comes from this way mostly; its license was renewed by the court in spite of strong protest, combined with proof of the proprietor's violations of the very law under which license are granted. In addition to this pig-stick, we are told that an "original package" shop is, or is to be, opened in the new building near the Reading freight-house. This will be legal, according to Court decisions, and he can sell sealed packages of any size; but the purchaser will get as drunk, will be quite as disorderly; all the evils will follow,—just the same. We have drawn a dark picture, but facts warrant it; and if these three (and others that we might point out) are allowed to continue, we shall be compelled to show you darker views before a year has passed. But then, as we said before, "What are you going to do about it?"

A cloud-burst occurred along the Ohio River and Muskingum Valley, W. Va., on Wednesday, sweeping away the Government dam at Marietta, carrying off bridges, houses, timber and crops.

The Republicans of Georgia held a meeting in Atlanta, and decided not to nominate a State ticket, as a free ballot and fair count is impossible. They declared in favor of the passage of the Federal election bill.

A population of 64,500,000 isn't bad for a young country like the United States. It will be over 80,000,000 in 1900.

Another batch of corrupt election officers of Hudson county, New Jersey, have been convicted, and the doors of the penitentiary jaws for them. The Jersey Democracy have some ground for charging justice with pernicious activity.

The census enumerator has developed the fact that in New York city more than sixty languages and dialects are spoken.

It is one of the remarkable facts in riding that the carriage is always tired before the horse is.

Pronounced Hopless, Yet Saved.

From a letter written by Mrs. Ada E. Hurd, of Groton, S. D., we quote: "I was taken with a lead cold, which settled on my lungs, cough set in and finally terminated in consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my sorrow, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took in all eight bottles; it has cured me and thank God I am now a well and hearty woman." Trial bottles free at George Elvins' store, regular size, 50c and \$1.00.

Specimen Cases.

S. H. Clifford, New Castel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg, of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Spenser, Calamba, O., had five large fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Arnica Salve cured him entirely. Sold by George Elvins' store.

The band boys paraded yesterday, dressed—yes, dressed—in a style which we fail to find in any illustrated fashion-plate; their faces of a darker shade than the sun ever causes.

A hot June, and the present month has been heated beyond precedent, usually means a cool summer until September, nature maintaining its summer average in spite of these eccentricities.

We are likely to have these new cross walks. The delay was evidently caused by a misunderstanding, which was corrected last Saturday night, and the Committee instructed to buy the stones immediately.

Mr. Bernhouse had a field of white and red clover and timothy, the last-named variety elevating its heads fifty-nine inches above the soil. He will probably cut at the rate of three-and-a-half tons of hay to the acre.

Parents who have little children to educate cannot do better than to send them to the kindergarten school to be opened in September by Miss Cline. The system is charmingly adapted both to the mental and physical condition of the little ones.

Our County Board of Freeholders are economical, this year, and publish their financial statement in only two or three selected papers. Hammonton was not favored. If you want to know how your money was spent, ask your member of the Board; perhaps he can tell you all you ought to know.

The Town Marshal offers five dollars reward for evidence that will convict the parties who maliciously damaged the iron fence around W. Oscar Horton's property, on the night of July 3rd. The "boys" had considerable fun that night, changing signs, tipping over carriage blocks, etc., but there can be no such plea accepted for destruction of and damage to property.

Van Amburgh-Main circus has come and gone; and the thousands who attended are agreed that it was a good one. The riding was excellent, the trained horses and mules did their part well; the troupe of dogs understood their part of the business and seemed to enjoy it; the acrobats were unusually skillful. They were well patronized, and everybody is satisfied that he received his money's worth.

Mrs. Stella Cordery, widow of the late J. Somers Cordery, died on Thursday afternoon. Tramps have been uncommonly numerous, lately. A few days ago, five of them (one a woman) settled themselves under a tree, within a few rods of our residence, and remained there two or three hours, until their bottles were apparently empty. When they started on, the woman needed assistance in walking. On Wednesday, Constable Bernhouse made a short circuit, and prevailed upon a score of them to seek fresh pasturage.

The Camden and Atlantic Railroad has driven a well of the depth of forty-five feet at the Winslow station. THE TRIBUNE, New York.

You can't go to heaven in bad company.

In five minutes a woman can clean up a man's room in such a way that it will take him five weeks to find out where she put things.

Another war in passenger rates is imminent—among the big railroads. And the interstate commerce act—it is neither imminent, eminent nor competent to prevent the folly.

Thick deposits of ice are found in the Stevens mine, on Mount McClellan, California. Geologists say that the ice is 80,000 years old.

Professor Sullivan has refused to make a show of himself in Trenton on the 4th of July for \$1000. He prefers to do it in other towns for nothing.

A movement has been started in Maine to hold a state convention to adopt a platform in favor of license.

The Pennsylvania Railroad has fixed up a suite of rooms in its station in Jersey City for the benefit of its employees, where conductors and brakemen, when off duty, enjoy much of the comfort and convenience of a club-house.

At a delinquent tax sale in Newark last week a bootblack invested \$500 in real estate.

A good many people are committing suicide this season by taking paris green. This involves a waste of raw material which properly belongs to the meek and lowly potato bug.

The irrepressible McGinty has been arrested in New York for refusing to answer the census inquiries. He lost his wits and hasn't found them yet.

Eupepsy.

This is what you ought to have, in fact, you must have it to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee that Electric Bitters, if used according to directions and the use persisted in, will bring you good digestion and out the demon-dyspepsia—and install instead eupepsy. We recommend Electric Bitters for dyspepsia and all diseases of liver stomach and kidney. Sold at 50c and \$1.00 per bottle by Geo. Elvius.
