A Confederate's Experience.

(Continued from last week.)

Here, away up in the mountains, where I was considered safe, I kept hidden for ten days, and unfortunately the Yankees were driven back just far enough to bring me within the rebel lines; and one stormy night or just about dusk, I was surprised by being surrounded by four Rebels, three of whom sent bullets after me as I started to run, and having on this citizens suit, they thought me a bushwhacker. One of the bullets pierced my coat sleeve, otherwise I escaped. Having halted for that was the better policy under such pressing circumstances, the first thing that saluted my ears was: "Kill the bushwhacker!" and one of the men brought his gun to his shoulder. I concluded that my time had come, but the Sergeant cried "Hold! we'll see who and what he is." Right here (in my opinion) Providence again interposed in my behalf, for the very papers that I forged happened to be on my person. When these were discovered, they said: "Take care of him; he's a deserter, and we'll get a thirty-five days' furlough on him." Well, now, they did take care of me,—took good care that I didn't escape. At this house they stole everything they could lay hands on, a horse and mule included. Being now five in the party, it was puzzling to know how we could all ride on two beasts, for it was a twenty mile tramp,—but only six miles over the mountain by foot-paths to Zollicoffer's station. They took the bed-cord and tied my hands in front of me, placed me on the mule, and tied my feet under his belly; one of the Johnnies mounted with me, two others mounted the horse. You can imagine how difficult it was to ride in such a position; but I was an old horseman, and stuck like "Royal Glue." But though I thought this better than walking, the fellow that walked evidently thought the same, and concluded that it was about time for me to walk, and put his thought into quick execution. Just then (about 10 P.M.) we reached the house of an acquaintance of my captors, and being rather cold (December) they concluded to rest awhile and warm up. A funny incident took place here, which now would make me blush, but then it didn't because I was callous to all flattery. As we were about entering the house, a dimly-lighted, unpretentious looking place, one of these men cried out: "Look, Lizzie, we have captured a deserter, a very young looking Lieutenant." They sat me down on a kind of chair, facing the fire in the old fashioned fire place, the light shining in my face. When the young girls (there were two very pretty ones there) attention was called to such a precious prize as the Rebs considered me, one of them came directly toward me, placing her hand upon my shoulder and looking me square in the face, said: "Why, isn't he pretty? where did you get him?" Now, excuse me, but I must tell you that, had my hands not been tied, I would have risked all consequences and hugged that girl right there and then.

Here comes the rub. After making a new start, my turn came to walk, and this was no pleasant task, with one's hands tied tightly while the other end of the rope was held by a man in the saddle, over a strange road, on a very dark night. This I was forced to do for ten or twelve miles; and during this journey we forded two streams which were almost almost waist deep, till at last we reached Zollicoffer station. Here I was placed in what was called a hotel, but what I considered from the surrounding to be a stable, and guarded until morning. From here I was sent, under guard, to Richmond. During my absence my command was moved to Richmond, small guns and horses taken from them, and they placed in charge of siege guns on the main line, directly in front of Grant's headquarters. I was placed in "Castle Thunder," an old tobacco warehouse converted into a prison for deserters, etc.

When settled as I thought to my fate,

I concluded to see if I couldn't touch the tender sympathies of my captain,—all non-commissioned officers were appointed from the ranks, but still held membership in their own company. This idea I soon put into practice, and with success, for the next day after writing, my captain appeared. I soon told him (only allowed five minutes) what I wished, and 'twas only a day or two when orders came to set me free to return to my command.

I find it necessary, right here, to make a little explanation. To an old soldier the fact of being captured as a deserter in the face of the enemy (the penalty is death), and being set free without undergoing punishment, would seem doubtful. My case was peculiar, so far escaping punishment is concerned, and the only reason or explanation I can give is that my Captain and Alexander Stephens (Vice President of the Confederacy) were college chums and intimate friends from boyhood, and that his intercession saved me.

My promise to my Captain, that if he could secure my release, I would be a good soldier, and then, but thirty days afterward, deserted again, don't seem honorable, I'll admit; but place yourself in my position,—my sympathies were with the North, my relatives were all in the North, and my mother (whom I had not seen for nearly six years) was very sick. I feel sure that you would have done likewise.

This final desertion was crowned with success, though attended with danger. I escaped through the lines at Richmond—as did thousands of others—took the oath of allegiance and reached home in safety. AN OLD REBEL SOLDIER.

EVOLUTION OF THE DOLL.

Advantages of the Present Generation of Little Creatures.

There used to be disadvantages about being a doll. To begin with, if you were not very careful you were liable to get a hole in yourself and let all your stuffing out, which was not only embarrassing and inconvenient, for after that you could never hold yourself up well before your acquaintance, partly owing to a loss of self-respect and partly to an exceeding flabbiness of the legs. Besides this, considering the progress of the time, there were really very few recommendations for a doll and the chances were you wouldn't even get a pair of shoes to fit you.

But now it is different—really quite different—and to be a doll is to be one of the best-provided-for creatures in the world. To begin with, you are made of much better material than dolls of a decade ago, not to speak of superior beauty and accomplishments. The law of evolution holds its own here as elsewhere. The dolls of the present day have merged out of muteness into speech, and indeed, into singing. Why, when you saw one of these dolls, a doll that could speak was looked upon as something little but marvelous; but now there are three or four dolls of my acquaintance that can sing as well as the second-rate variety without quiver, and whereas dolls used to take positively no interest in literature, a certain company of dolls I know have reached the stage of reading the "mammas"—formed a Browning society. But to return to the conveniences with which an enlightened age has become conversant, that can be said in a few words. First, there are no more stories high. We have kitchen, dining room, parlor, library, bed and bath rooms. Our kitchens have every convenience that can be desired, from a range to a toasting fork, and whereas we used to be thankful if we were given imaginary viands on a spoon, we now have a dining room, and we now have an extensive table covered with a reproducible damask and set with the daintiest of china, and our mistresses even took napskins under their chins. Then, as to the bedrooms, they are every elegant detail which even a human lady could desire. Not only have we upholstered furniture, pianos, grates and portieres, but we even have a bed and a dressing room, and as to this what more could be said? Not only are our beds models of daintiness, with bedsteads of brass, counterpane of lace and the best of aprons, but our dressers, cases are accommodated with every detail of a lady's toilet, from a perfume bottle to a powder puff, not to mention toothbrushes and curling irons.

As for our wardrobes, we really defy any woman of mere flesh and blood to show anything more complete. To begin with, there are no more pocket handkerchiefs laid away in a drawer with the satchel bag. Every doll who respects herself now has her pocket handkerchiefs laid away in a drawer with the satchel bag. We prefer our underclothing trimmed with Valenciennes lace, and we have plenty of changes to keep us dainty, not to remark that we have underclothing for all sorts of weather, and would not think of going out without flannels in January than you would yourself. Then we have stockings to match all of our dresses, and slippers, walking shoes, rubbers and even Arctic overboots, with fleece lining. Now if you are over ten years of age you may think that what I have been saying is an exaggeration, but if you will go to any of the toy stores, you will find that I have not told you half, for there you can get not only all of these things but roller skates to fit a doll of any size, toy choirs, and gossamers made in the very latest styles, and which are wanted to keep off the rain, and umbrellas in tiny red silk cases—red silk cases are all the rage now in New York. Watchers and watches, and all the luxuries with us that they are hardly worth speaking of to any who are interested in the doll movement of the present age, and hand painted fans have long been an accessory to doll's toilets. Of costumes for every imaginable occasion, not only wraps, walking gowns, dinner frocks and reception dresses, but even costumes for the most elaborate of the seaside. It would be absurd to have lawn tennis suits without lawn tennis, and it was therefore found necessary to make the sets for us. Our gentlemen look exceedingly well in lawn tennis suits, and I may also mention right here that a large number of gentlemen of our acquaintance affect sailors' suits and soldiers' uniforms, but of course they all have evening dress and get themselves up very elegantly on the occasion of a christening or a wedding.

There are some such occasions, for our mistresses are exceedingly fond of festivities of that nature. There is generally a clergyman in the midst of us, so there is no getting in getting these ceremonies performed.

The *Lancet* condemns the practice of giving and taking such depressing narcotics as chloroform and opium as a remedy for sleeplessness, as mischievous and wholly indefensible. It is as clumsy in theory as knocking a man down because he needs rest, and yet, as by common consent, the profession sanctions the abuse of such drugs as "poisoned sleep" producers. There are more than a score and a half of known causes or forms of sleeplessness, each one requiring direct and specific treatment.

THE SHAKESPEARE MYTH.

Why Ignatius Donnelly Believes Bacon Wrote Shakespeare's Plays.

The traditions that have come down to us concerning Shakespeare do not, any of them, point to the habitation of a scholar or a gentleman. The first glimpse we have of the family was, when John Shakespeare, his father, was fined twelve pence, in 1552, for maintaining a "conspicuous sturgeonium before his house in Henley street."

The first tradition we have concerning Shakespeare himself is that of an ale-drinking contest with the "Bilford" family, while yet a young man, in which he became so beastly drunk that he could not reach home, but slept all night by the roadside. We are told that he was a deer stealer, and given to all "manner of unlikelihoods," and that "Sir Thomas Lucy had him out of prison and whipped."

The last tradition we have of him is that his death was the result of a drinking bout with Drayton and Ben Jonson. Neither his father nor mother could read or write, and Halliwell Phillips tells us there was a book in the house of his parents. There is no reference to any book or papers in Shakespeare's will. AN OLD LAWYER'S STORY.

A great many years ago, while I was comparatively a young man, and still unmarried, I resided in a certain city in Pennsylvania, and enjoyed the reputation of being the cleverest lawyer ever known there.

She had a key that would open the door, and used it. The next thing I knew we were all in the room and the windows were all wide open, and the doctor had been sent for, and the young man who had called was screaming that his brother had been choked to death; and then there was the inquest, and they arrested me. The brother said the first thing he noticed was that I wore Mr. Glenn's watch and seals. I had forgotten it in my terror.

"So Hannah had a key to the room?" I asked.

"Yes; at least it was a key that would open it. It was the key to Mr. Basswood's door. She knocked the other out with a stick and put that in."

"The people who were there on that night were your boarders when the other men were found dead?" I asked.

"Yes, sir," said "Missus does burn coals. Her son is a clerk, or the like, at the new mill at Mauch Chunk, and he sends it cheap to her; but it's a nasty, dirty smelling thing, and I hate it. Now it's built and it'll warm up in fifteen minutes. It takes longer than wood."

"She went out of the door and came back in a minute with a little tray on which stood a pot and a cup and saucer, also a bowl and a tiny pitcher and something in a napkin."

"Missus sent a dish and a slip," said she. "Tessie laid out folk's miggins. Good night."

"Good night," I said, "I expect I shall sleep sound. I may be a very early, though, for I have bills to pay. I have some hundreds of dollars with me to pay out to-morrow, and it's in the trunk."

"I thought a little while," I said. "There is some strange mystery in this affair. I don't despair of proving to the whole world your entire innocence. Meanwhile be as calm as possible, and endeavor to remember every detail of the rest of the little world hinted that these were strangers, and their trunks, with no one knew what amount of money and other property, remained in Madame's possession."

POLLY.

In a little scarlet kirtle, With a daisy epig of marble, She comes tripping from the dairy When the dawn begins to peep.

Where the snowy lambs are skipping And the seaweeds lightly dipping, She stands with daisy and marble— I can see her in my sleep!

How her rosy fingers twinkle As she milks! The tinkle, tinkle In the milk pail is delightful; I could listen all the day.

Is my heart a-flutter Just to see her pat the butter. For she rolls it and she pats it In a willy winking way.

'Tis said to see the lasses Frown upon her as she passes, But she gives her wayward curls a toss, As she milks the dairy horse.

She knows the lasses love her, For they never fail to hover Like bees around an apple bloom When Polly comes in sight.

I knocked at the door to go to bed, but he had not gone, and he had been setting it by the clock, and showing it to us as something very handsome."

AS I PASSED OUT INTO THE STREET.

As I passed out into the street the early moon was just rising; she lit me on my way to Madame Matteau's house.

"It was opened for me, when I knocked, by old Hannah. Her eyes were red and swollen. Then I told her that I was a stranger, and had received Madame Matteau's address from a gentleman in New York, and desired to stay under her roof all night."

She shook her head, saying:—"The lady is away from home. Besides, we are in trouble here. I don't think Miss Gabrielle would."

"But here Miss Gabrielle herself appeared. "I am an old man, Miss," I said, "and as you see, quite infirm. I dread another step. It should take it as a kindness if you would accommodate me, and I will pay you any price you ask."

Miss Gabrielle looked at Hannah, and said:—"We have only one room," she said, "and that—"

I ended the question of my stay by begging to be taken to it.

"But I declared that I had eaten, and only wanted rest."

Her reply was:—"I sent Hannah to wake him. It was a small parlor, painted red. It had also blue window curtains and a blue silk coverlet on the bed a neat striped carpet, a set of old mahogany furniture, and a very handsome set of brass chandeliers. I carried down a universal custom to burn wood. In this room, however, was a small coal fire. I alluded to this as Hannah came fairly by the window, but she had succeeded in getting out, when the mission of duck hunting, the mission which himself and friends were out on, was advertised to."

"I've shot a few ducks in my time," said she. "Now it's built and it'll warm up in fifteen minutes. It takes longer than wood."

"She went out of the door and came back in a minute with a little tray on which stood a pot and a cup and saucer, also a bowl and a tiny pitcher and something in a napkin."

"Missus sent a dish and a slip," said she. "Tessie laid out folk's miggins. Good night."

"Good night," I said, "I expect I shall sleep sound. I may be a very early, though, for I have bills to pay. I have some hundreds of dollars with me to pay out to-morrow, and it's in the trunk."

"I thought a little while," I said. "There is some strange mystery in this affair. I don't despair of proving to the whole world your entire innocence. Meanwhile be as calm as possible, and endeavor to remember every detail of the rest of the little world hinted that these were strangers, and their trunks, with no one knew what amount of money and other property, remained in Madame's possession."

—I was left and went home. Strange enough, on the way I met the doctor who had been called in. He was a tall, thin man, with a long nose, and a very high forehead. He was dressed in a dark suit, and he had a very high forehead.

—"Well, you see, I don't say the old woman murdered him. If she did, I should say it was by sitting on him, or something like that with the bolsters. I should say it was by sitting on him, or something like that with the bolsters. I should say it was by sitting on him, or something like that with the bolsters."

SATURDAY, JULY 9, 1887.

Our Terms.—Our subscription price to all within the county is One Dollar per year if paid in advance. If not paid within the first two months, \$1.25 per year, invariably. To subscribers outside of this county always \$1.25 in advance—as we are compelled to wrap papers and prepay postage.

Newspaper Decisions.

Any person who takes a paper regularly from the office—whether directed to his home or another's, or whether he has subscribed or not—is responsible for the payment.

If a person orders his paper discontinued he must pay all arrears, or the publisher may continue to send until payment is made, and collect the whole amount, whether the paper is sent from the office or not.

The courts have decided that relating to take newspapers and periodicals from the postoffice or railway and leaving them un-called for, is prima facie evidence of fraud.

Mr. T. J. Smith and wife, and their daughter, Mrs. Nettie Tomlin, with her two sons, expect to start for Maine next Monday, to remain two or three months.

About ten o'clock last Saturday night, the 2nd, a young lady, in passing a certain residence, saw a kitten which pleased her fancy, and she deliberately called it out of the yard and carried it off. Now, the owner valued his pet, and asks us to state that if the lady does not return the kitten, he proposes to expose the whole transaction, including names, as he saw it all from his chamber window.

Mr. Editor: As my name appeared in the proceedings of the Law and Order League, as its temporary chairman, permit me to explain that I vacated the chair after the announcement that only those interested should remain, not that I am opposed to preventing lawlessness, but because of the fear that any interference with berry picking might lead to prejudice and ill-feeling on the part of those whose opinions may differ on that matter. P. H. JACOBS.

The family picnic held in the Matthews grove, on Middle Road, on the Fourth, was a very enjoyable one, with swing, hammock, and games for the young, and pleasant chat for older ones. Not the least attraction were two large tables, beautifully laden with substantial delicacies, fruit, confectionery, etc. Among those present were Z. U. Matthews and family, W. B. Matthews and family, Mrs. Alonzo Potter, Mrs. J. S. Cordery and family, C. S. Newcomb and family, Carl M. Cook, E. J. Estabrook and wife, Willie and Johnnie Hoyt. We regret that circumstances prevented ourself and other members of our family from accepting a kind invitation to be present. Mr. M. has one of the finest locations in town for a farm and home; the house, large and homelike, when entirely completed will be one of the pleasantest. May the kindness and hospitality which he and his worthy helpmeet so love to dispense be to them like 'bread upon the waters,' bringing to them immeasurable joy and peace in after years.

The Bakery farm, corner First Road and Tenth St. Nineteen acres, good house. Price very low, as the owner is a widow, and too far advanced in years to manage the farm.

Of course "the boys" were out, with their cannon, several hours before dawn on the Fourth. After several rounds had been fired, the cannon burst, injuring George King's hand and burning his face seriously.

The Fourth was a pleasant day, though extremely warm. The celebration at the Park was not all that was planned, but the grove, the lake, the people, and the refreshments were all there, and the result could be nothing less than enjoyment.

Mr. Lew. C. Hill, son of C. P. Hill, Esq., has just been admitted to the firm of John L. Whiting & Co., the largest brush manufacturers in the United States. Recently, a man calling himself "Dr. Henry," called at the residence of a lady in Hammononton and said, in substance: "I understand that you have a child afflicted with strabismus. I was sent here by Dr. Snowden, to make an examination and operate if considered advisable." As Dr. Snowden is their family physician, and the visitor was apparently a gentleman, he was allowed to perform the operation, and he received fifteen dollars therefor. He left a pair of colored spectacles for the child to wear a few days, saying, "As these glasses are worth one hundred dollars, please take special care of them, and return them to me," giving the address of an institution in Philadelphia. He also sold the child's grandmother a pair of spectacles, charging her ten dollars. A few days afterward, the little one's eyes began to better, one of the family called upon Dr. Snowden, and learned that he never knew "Dr. Henry," and had sent no one to them for any such purpose. Beware of smooth tongued strangers, and keep your purse-strings tight when they approach.

DR. JOHN BULL'S Smith's Tonic Syrup

FOR THE CURE OF FEVER and ACUE Or CHILLS and FEVER, AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the cure of MALARIAL DISEASES, and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear his testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

BULL'S SARSAPARILLA is the old and reliable remedy for impurities of the blood and Scrofulous affections.

Thirty acres near R.R. station, 4000 pear trees, 1200 apple trees, and other fruit, two fine building sites. Easy terms.

The Capt. J. C. Almy place, Twenty acres on Bellevue Ave., large house, barn, sheds, etc. Part of the land can be divided into building lots, and will be in demand. This would prove a good investment.

The William Colwell farm, 14 acres, on Third Street—runs to the C & A. Railroad. Ten acres in pears, balance in other fruits. An eight-room house, good barn, shop, sheds, hotbeds, etc. Paid a good profit last year, and is increasing in value.

For particulars, inquire at the REPUBLICAN Office.

Law and Order League.

To the Citizens:

The Law and Order League of Hammonton, through its Executive Committee, desire to call public attention to certain important laws of the commonwealth, the frequent violation of which, in our community, has become a public evil, tending, as it does, to the disregard of all law, and therefore calling for emphatic condemnation from every law-supporting citizen; to wit:

I. Profanity. "If any person shall profanely swear and curse, and be convicted thereof, every person so offending shall pay one-half of a dollar for every such offence." [Revision N.J., p. 1229.]

II. Drunkenness. "If any person become intoxicated or drunk by the use of liquor, and shall be convicted thereof, every person so offending shall pay for every such offence one dollar." [Rev., p. 1229.]

III. Sunday Traffic. "No person shall expose to sale any wares, merchandise, fruit, herbs, meat, fish, goods, or chattels, or sell or barter the same on Sunday, under penalty of two dollars for every offence." [Rev. p. 1227.]

"No wagoner, carter, drover, drayman, butcher, or any of his or their servants, shall ply or travel with his or their wagons, carts, or drays on Sunday, under a penalty of two dollars for every offence." [Rev. p. 1229.]

"No transportation of freight, except mail, on any public highway, railroad, or canal, shall be done by any person on Sunday, under penalty of twenty dollars."

And in behalf of the Law and Order League we ask you to stand with us, as law-abiding citizens, in our determined purpose to uphold these laws of the commonwealth, and to restrain abuses contrary to law and decency.

Per order of

EXECUTIVE COMMITTEE.
