

The Two Mysteries.

We know not what it is, dear. This sleep so deep and still. The folds here, and the awful calm— The check so pale and still. The lids that will not lift again. Though we may call it death, the eyes were white and lids of pink. That settles over—

How long have they been gone?

"Oh, we must get out! They are taking us away." "No, no," said Kitty. "We must stay here till the brakeman comes round. I didn't hear them when they took us on the train." "There isn't any train," said Tommy looking up and down the line. "Oh, it's the wind! It's blowing the cars away. We must put up on the tracks and stay!"

Needed, Looser Habits.

A large proportion of our discomfort in hot weather comes from our fashion, not adapted for torrid heat. Our dress conforms mainly to fashion and cool weather. The garments of the native of the tropics are loose, airy, and light. We wear baggy trousers, with stiff linings, and heavy coats. The garments of the native of the tropics are loose, airy, and light. We wear baggy trousers, with stiff linings, and heavy coats.

ITEMS OF INTEREST.

Frequently above par. His hat. A smart thing—a must-possess. A smoking is a bad habit. Mount Etna has given it up. A factory motor killed a sheep near Little Rock, Ark. A striking passage—Hitler's yearning against a low doorway. There are about 65,000 physicians and surgeons in the United States. The largest ice-house in the world is at Little Rock, Ark. The student Wyoming from Liverpool arrived in New York, having on board 607 Moroccans, mostly of the tribe of the Beni Salim, and containing 50,000 tons of ice, has been destroyed by fire.

NEWS SUMMARY.

Eastern and Middle States. One day recently a New York policeman was arrested for burglary, two others were committed for assault and four ward detectors were arraigned for not preventing something. A factory motor killed a sheep near Little Rock, Ark. A striking passage—Hitler's yearning against a low doorway. There are about 65,000 physicians and surgeons in the United States.

Loss of Life on Steamboats.

The following is a comparative table of the number of lives lost in the various accidents on steamboats during the years ending June 30, 1878 and 1879.

Partial Blockade.

The human system is utterly unprepared for the human system. Let contagion become chronic, and leaving on the body a permanent and incurable disease, and in some cases, the liver is liable to become engorged with bile, which also vitiates the juices of the stomach, and other unhappy consequences ensue.

When Life.

Thousands of men and women are starving themselves to death, feeling it will increase their rank in the social scale. Late depends upon continuous self-denial. The only way to relieve the heart, and variable as well as complicated action of the body, is to use a purgative.

Blown Away.

There were three of them—Kitty, Mary and little Tommy—the children of the station-master at Black River Junction, on the Great Southwestern railroad. The station-master was a man of open face, and his eyes were blue. He was a man of open face, and his eyes were blue.

Remembered But Twisted a Little.

A letter from Newport, R. I., tells the story of a lady who keeps a household in a grand old-fashioned way. She is a woman of many talents, and her husband is a man of many talents.

Coney Island.

A New York paper discusses about the city's great watering place as follows: Coney Island has become, since its rehabilitation, not the seaside resort of the millionaires, but the playground of the masses.

The Republican.

H. E. BOWLES M. D., Editor & Prop'r.
M. C. DOLLE, Associate Editor.
HAMMONTON, ATLANTIC CO., N. J.
SATURDAY, JULY 10, 1870.

The total foreign trade of the United States during the fiscal year was \$1,205,000,000, or about 45,000,000 less than the wealth of Philadelphia in the year 1870.

We have received No. 1, Vol. 1 of the Shore Press, a paper just started in Asbury Park. It is a clean, nicely printed sheet, and bids fair to prove itself a great acquisition to the people in and about Asbury Park.

It is stated that Hanlan believes tobacco cultivation on both liquor and tobacco to be absolutely necessary to the most successful of physical efforts. Hanlan has certainly achieved a wonderful reputation at sculling, which he could only have done with the aid of a most perfect physical development.

The N. Y. Times publishes a correspondence from one point in this State and sends it "New Jersey's Fruit Region." Why, bless you, that includes the whole State. From the berries and grapes of Salem, Cumberland, Atlantic and Burlington to the peaches of Morris and Somerset and the apples of Sussex and Warren, there is not a spot in New Jersey where the best of fruits does not grow in variety and abundance. New Jersey can show for her territory, a better and more varied fruit production than any State in the Union.—Jersey City Journal.

Senator Windom, of Minnesota, has been suggested by Senator Conkling as the compromise Republican candidate for the Presidency. He claims that no stronger candidate can be proposed, and he thinks he can safely guarantee the success of the Republican party under such a leader. Perhaps he can. On that point we are not prepared to state. But there is one thing we can say, and that is, Senator Windom is a good man, a smart man and an able man, and if the Republicans in convention see fit to place him at the head of the ticket, we see no good reason why he could not be fairly elected. However, we do not state Mr. Windom as our choice for Republican nominee in the approaching canvass.

An old Maine soldier has written to one of the papers in his state, his sentiments and experiences on the resumption of specie payments, which shows one of the general results of the policy of the Republican party. He says—"Let me give you some figures which prove that the times are not so hard as we are told. In 1865 I worked for the town, building a road. I received \$1.50 per day, and I find by a book kept by a trader, when I bought my groceries, that I paid \$15.50 per barrel for flour, \$1.25 per gallon for molasses, eighteen cents for sugar, and everything in proportion. Well, now I get \$1.12 per day for the same work, and pay \$9 for flour, forty-five cents for molasses, ten cents for sugar and everything in that proportion. That is what specie resumption has done for me, and I wish it had come long ago."

Secretary Sherman, in a short speech delivered to a select party on the occasion of his short visit to Philadelphia, on the 14th inst., stated some incontrovertible truths concerning the financial policy of his department during the past few years. He did not claim for himself all the honor due for the success of that resumption project, but modestly stated that he thought he had been accredited too much for his exertions in bringing about the desired result. The following is an extract from his speech:

We are happily situated compared with other countries. We have a broad unencultivated area of land that has never been broken by the plough. We have mines, compared with the enormous wealth of which the vaunted mines of Peru were poor and scant. The Comstock lode and others are greater than anything in the history of the world. Two years ago they were suffering in the principal cities of this country; men were afraid that our institutions could not stand the strain and would break down, and that a period of depression greater than that in England, France or Germany had begun. People were suffering and could not get work, and discontent reigned supreme. Some went to uncultivated lands in the West, others to Germany and other countries, finally equalized the demand and supply of labor until, in two years, I believe there was not any part of the United States where honest labor cannot get an honest day's work, and honest money to pay for it.

Editorial Letter.

We thought it was hot in Hammon, but here, two hundred miles nearer the north pole, the heat is intense, with the anomaly in the thermometer marking 95° and upward, in the shade, without the cooling breeze that Hammonton enjoys. In the full blaze of the sun the heat is like a furnace, and I have concluded that Jersey sand is not the hottest place in the world. One thing, nights in Hammon are not so hot, and when stowed away for sleep, one does not steam and stew until parboiled. But such a state of the weather is not of long duration. Out of doors, in the evening, it is charming, but even here we are not free from the busy "bill stickers." They are as well posted in boring artesian wells in striped bodies as our much abused Jersey striped stockings, or brown backs. The first salute we received when our boat reached New Haven was from a mosquito. We want to say one word for the new train on the New York Division of the Pennsylvania Railroad. We left Hammon at 8:23 a. m., waited at the Junction in Camden ten minutes, and were in New York at 11:35, three hours and twenty-seven minutes from Hammon, including four stops.—We recommend this route to persons from South Jersey, going to New York. The first part of the ride is with those most obliging and gentlemanly Conductors, Charlie Wyatt and Charlie Harbison, than whom there are none who excel in courtesy and politeness.

In fact both the roads, Camden & Atlantic and Pennsylvania, are abundantly supplied with good and obliging employees. Speaking of railroads, this is a good place to say that fares on the "Old Reliable" never were as high as on any road in New England. The fare is three, and on some of these roads four cents a mile, or so small a fraction less, we may as well say four cents, and yet we hear nobody grumbling about it.

On our way through Connecticut we were surprised to find farms poorly cared for, tumble down barns and out buildings, and dilapidated houses. But on every stream of water and brook you find numerous mills and factories, and everything that ever was or is made, is made here, and huge fortunes are accumulated from many little things that have become necessities. Hundreds of these things could be manufactured in Hammonton as well as anywhere. Notwithstanding our Yankee origin there seems wanting much of the true Yankee spirit. Since arriving here, which was yesterday, I have been over a strawberry field, picked strawberries, and eaten them with pure cream and sugar at breakfast this morning. They were of the Kentucky and Green Prolific variety, and they were very delicious in flavor, possessing more of the strawberry flavor than any we have eaten in Hammonton. I would advise our growers to try them. From an acre there was picked in one day about 300 quarts, which were only carried two miles, to the city of Springfield, and sold for 12 cents a quart. None during the season were sold for less than ten cents. The owner has about four acres of strawberry plants of the varieties mentioned, and the Sharpless and a few Crescent, and they look very thrifty. He finds it better to renew his plants as often as every second or third year. If our growers would adopt this method, it strikes us it would be an advantage. We picked some very poor looking blackberries in pint baskets, and were not a little astonished at being told they were 14 cents, or 28 cents a quart, but there are not many to be seen.

To-morrow we leave this quiet retreat, after looking about Springfield, to feast our eyes on the beauties of this beautiful Valley of the Connecticut, Holyoke, Mt. Tom, and other attractions, of which you will hear in time for your next. Yours, H. E. B. Mittineague, Mass., July 16th, 1870.

NEWS ITEMS.

The Government bought 400,000 ounces of silver the past week. In a Pittsfield (Mass.) church, the correct player is a girl who is twelve years old. Zach Chandler says that it is simply absurd to suppose that he has any Presidential ambition. It is now thought that the new Southern Pacific Railroad may be completed by the beginning of 1881. It is thought that \$100,000,000 worth of grain will be wanted in France the coming year, beyond her own productions. James Gordon Bennett of the New York Herald, has given a new nephew—a son of his sister—\$100,000 in U. S. bonds. The property belonging to the various theological institutions of the Presbyterian Church in the North is valued at \$4,415,177.15. Philadelphia is to have an elevated railway to the center of the city, connecting with the Pennsylvania road by the way of Filbert street.

We whipped Johnny Bull in speedy horse flesh, in yachting, in pedestrianism, and in rifle shooting, and now 'Talmage is giving J. B. points in theology.

General Phil Sheridan is expected to lead a command in a sham battle that will be fought by the brave boys of the Northwest in the Aurora reunion on August 23. Boston Herald: When Zach Chandler goes down into Maine to twist the tail of the Greenback, all the cirruses booked for that State will cancel their engagements. All U. S. pensioners in New Jersey will be interested to know that the usual Biennial Examination of invalid pensioners has been abolished by act of Congress, from June 21, 1870. The City Council of Elizabeth have used the money received from the State for school purposes, and have no money to replace it with, and there is a row about it. Elizabeth seems to be in great financial tribulation. Colonel Robert G. Ingersoll, it is reported, will be the orator at the reunion of the soldiers of the Northwest at Aurora, Ill., August 20. Over 100 regiments will be represented.—The total receipts of the Government for the fiscal year ending June 30 from all sources amounted to \$276,250,327.02. The total expenses, not including interest on the public debt, amounted to \$164,538,284.53. The yellow fever broke out at Memphis last week, two or three deaths occurring, and created a general scare throughout the South. It has not spread and no new cases appearing it is hoped there will be no occasion for further alarm on that account. An enemy of the potato bug has made its appearance in Burlington county, and is reducing the number of Colorado beetles by eating the larva. This new insect is described as being a beetle with bluish green shield wings, and a brownish yellow, almost transparent, head and throat. Infusians should be in perpetual. When a temperance man sez to me that he would like to get drunk up a nite, only for the reckabush that follows when he gets sober, I alluz remark that the troo safe-guard agin that is never to hev no reckabush.—to keep drunk all the time. The principle I follow as to liquor is this: one I would hev adopted in finance. To avoid the reckabush that follows infusian, I should never stop it. Keep on infusian.—Wagdy.

Made from Pure Beef Tallow and is the Cleanest and Cheapest soap for Washing Dishes—a very little is plenty for a good many Dishes and the Dish Cloth will always be Nice and Sweet. Washes not to injure Clothing—makes the Hands Nice and Smooth and prevents Chapping. EXCELLENT FOR BATH AND TOILET USE AND FOR SHAVING. Soap that does not hurt the Skin, cannot hurt Clothes.

NOT COLD WATER SOAP BUT USED ALL THE YEAR ROUND IN WARM WATER. USE WINTER AND SUMMER BUT NEVER SCALD OR BOIL ANY OF YOUR CLOTHING. Makes Clothes Clean, Sweet and White, without Scalding or Boiling, and, if rubbed on lightly and the directions strictly followed, it will go so much further than other Soap and Saves so much Fuel, as to prove it to be the Cheapest Soap that even a poor family can buy.

Splendid for Coarse or Fine Goods, Woolens, Blankets, Flannels, Calico, Fine Fabrics, and Delicate Colors. Cleans Paint, Tins and Marble Fronts. Removes Grease Spots and Printers' Ink. Follow Miss LESLIE'S Receipt. When you use FRANK SIDDALLS SOAP. In the first place, do not get the Washboard about on Washday; the Clothes will be Sweet and White without Scalding or Boiling, and as enough hot water can be got from a tea-kettle to make the wash-water warm enough to suit the hands, (which is all that is necessary) a wash-boards is not needed and only makes work for nothing. Rub the soap over the wet clothes, lightly, so as not to waste it, but don't miss the soiled places, and LET SOAK 20 MINUTES; then wash carefully out of that one suds only, not using any soap, but changing the water if it gets dirty; should a stain be hard to wash out, soap it again and throw back in the suds for a few minutes; next wash through ONE rinse water, turning each piece and rubbing lightly on the Wash-board, but not using any soap, then rinse through Blue Water and HANG UP TO DRY WITHOUT EITHER SCALDING or BOILING. Do not keep the soap on the washboard white washing; it is not necessary and makes it waste.

None genuine without my written Signature — Office, 718 CALLOWHILL ST., PHILADELPHIA (U. S.)—F. H. Siddall. IMPORTANT NOTICE: Do not believe statements that FRANK SIDDALLS SOAP cannot be obtained. Orders are promptly filled and a reasonable profit allowed dealers. Sold by Grocers throughout the United States and Canada.

Regular: 1.75, 1.50, 1.25, 1.00, 75c, 50c, 25c. Notices in Local Column, 20 CENTS PER LINE, each insertion.

LOCAL MISCELLANY.

Mr. Fletcher, a lawyer from Philadelphia, has invested over \$100,000 in a Crayberry bog in Port Republic, city acres of it being in vines and ten acres of which he is preparing to plant. He says that prospects are good and that if nothing happens to prevent, he will make a good thing out of it. The bog is under the management of John Brown of that place.

Monday witnessed a tremendous shipment of berries from this town, the sum total sent away from this station and the one at North Hammon being nine cars-loads, or probably about 180 crates. One day sixteen cars-loads went to New-York from Hammon and Vineland, all of which goes to show that our farmers are being blessed with a most beautiful crop.

In this hot weather what a comfort it is to wash one's face with water that is cool and pure. There is nothing so refreshing as to wash one's face with water that is cool and pure. There is nothing so refreshing as to wash one's face with water that is cool and pure.

Atlantic City Items.

Gen. Sherman and Gen. Logan are expected here within a couple of weeks. The Review is doing a rushing business and issues a right press, as well as news sheet. A complimentary benefit was given in City Hall last evening to Mr. Dick Gorman, the comedian. The dummy "Sea View" has been withdrawn from Atlantic Avenue in compliance with the public sentiment expressed in regard to it. Several hoops have been given during the past week, and by that portion of the 1st Pennsylvania Regiment that has not been camp here. Band Concerts are no longer a rarity here as they may be heard any day, in several different places, discoursing excellent music to such as choose to listen. A game of base ball was played on Monday, on the Excursion House Grounds, between the Broad Gauge and Narrow Gauge clubs, which resulted in a victory for the latter by a score of 24 to 20. On Wednesday and Thursday evening the "Baby Piano" was rendered at Congress Hall, under the management of Constantine Carpenter. There were 100 voices in the troupe and the whole affair was a complete success. Some of the excursionists here seem to forget all order and decency as soon as they get off the train, and do things that even they would be ashamed of at home. Measures should be taken to suppress such characters. On Thursday afternoon, Battery 2 of the 1st Regiment Pennsylvania National Guard, which has been in camp back of the United States Hotel, treated the city to a parade, and saluted all the principal hotels with a discharge of cannon. On their return to camp they had a dress parade. The Atlantic Times has changed hands again, and is now being run under the proprietorship of Mr. John P. Hill, with Charles McClintock as former proprietor, as managing editor. This paper is constantly improving in its daily sheet, and its quiet return to camp they had a dress parade. The aquarium of Mr. A. B. Linderman was closed on Tuesday, the reason for this is a law enacted during the session of '77 and '78, prohibiting the fishing with seine from June 1st until September 1st. Mr. Linderman found it impossible for him to obtain specimens for his aquarium without using the seine, and as the Fish Warden threatened all detected in so fishing with fine and imprisonment, he was obliged to discontinue close his establishment.

 Manufacturer of EUREKA RED OIL.

REAL FIRST-CLASS CLOTHING
WANAMAKER & BROWN.
 The thoughtful and discriminating portion of the public who purchase
READY-MADE CLOTHING
 Will see with even but little consideration that the old house of Wanamaker &
 Brown is in a position to give superior advantages to its patrons. These advan-
 tages consist in supplying goods that are
FIRST—PROPERLY MADE UP.
SECOND—MATERIALS SHRUNKEN.
THIRD—EXCELLENT IN FIT.

The cut and finish of our Men's and Boys' Clothing is of a character to outrank the
ORDINARY CUSTOM WORK.
 We found out long ago by actual experience that garments bought up from
 the Wholesale Stocks are by no means so reliable as those made up under our
 own personal supervision. Neither will the cut and general style (after wear-
 ing) bear a comparison to our own careful make. By making our own goods the
PRODUCER AND CONSUMER
 Are brought in direct contact, and in consequence the latter reaps no small
 advantage.
BOYS' AND YOUTHS' CLOTHING.
 This forms a very considerable proportion of our business, and we are sa-
 tisfied that we can convince any one that we always offer the Handsome and
 Best-Finished Goods known to the trade.
LOW PRICES
 Do not always mean good value. On this head we shall only say that when
 Style and Quality are taken into account we are not, under any circumstances,
 ever undersold, and seldom are the prices to which dealers fall as low as our first
 and only one fixed price to everybody.
OUR STOCK IS ENORMOUS.
 Especially in thin goods, suited to the present weather. Inviting a visit and
 recommendations from our friends,
 We Remain, Very Respectfully,

Wanamaker & Brown,
 The Largest Clothing House in America,
OAK HALL, Sixth and Market,
PHILADELPHIA.

GROCERIES!!
H. M. Trowbridge
will hereafter keep a well assorted stock of Groceries—Sugars, Tea and Coffee, Spices, Dried Fruits and Canned Goods, Flour, Soap, Molasses and Syrup, Butter, Lard, Pork, Salt Fish, Brooms &c.
DRY GOODS!
I shall continue my usual full assortment of Dress Goods, Cassimeres, Plaids, Alpacas, Prints, Muslins, Jeans, Sheetings and Shirts, Flannels, Tickings, Hosiery, Gloves, Edgings, Threads of all kinds, Buttons, Zephyrs, Pocket Books, Stationery &c.
CLOTHING!
Also a good stock of Ready Made Clothing, Coats, Pants and Vests.
All which will be sold for Cash, and at the lowest Market Prices.
HAMMONTON, N. J.
April 21st, 1879.

Manhood! How Lost, How Restored!
 Just published, a new edition of DR. CULVERWELL'S CELEBRATED ES-SAY—the RADICAL CURE (without medicine) of Spermatorrhea or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy and Fits, induced by self-indulgence or sexual extravagance, etc.
 The celebrated author in this admirable Essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and RADICALLY.
 This Lecture should be in the hands of every youth and every man in the land.
 Sent under seal, in a plain envelope, to any address, free.
 Address the Publishers,
The Culverwell Medical Co.
 41 Ann Street New York; Post Office Box 4598

H. E. BOWLES, M. D.,
 11-17 HAMMONTON N. J.
CUMBERLAND MUTUAL Fire Insurance Comp ny,
BRIDGETON, N. J.
 Conducted on strictly mutual principles, offering a perfectly safe insurance for just what it may cost to pay losses and expenses. The proportion of loss to the amount insured being very small, and expenses much less than usually had, nothing can be offered more favorable to the insured. The cost being about ten cents on the hundred dollars per year to the insurers on ordinary risks; and from fifteen to twenty-five cents per year on hazardous properties, which is less than one third of the lowest rates charged by stock companies, on such risks—the other two-thirds taken by stock companies being a profit accruing to stockholders, or consumed in expenses of the companies.
 The guarantee fund of premium notes being now Three Millions of Dollars.
 If an assessment had to be made of five per cent. only, twice within the ten years for which the policy is issued, it would yet be cheaper to the members than any other insurance offered. And that large amount of money is saved to the members and kept at home. No assessment having ever been made, being now more than thirty years, that saving would amount to more than
 One Million Five Hundred Thousand Dollar
The Losses by Lightning.
 Where the property is not set on fire, being less than one cent per year to each member, are paid without extra charge, and extended so as to cover all policies that are issued and outstanding.
