HAMMONTON, N. J., SATURDAY, JULY 21, 1917

No. 29

HEALTH NOTICE.

Last week we cautioned people to pick their associates at the 16th celebration. Evidently our advice was not heeded, as a case of diphtheria was reported Thursday.

If we have another epidemic of this disease, it is the people's fault; so do not blame the Board of Health.

Town Council meeting on next Wednesday evening.

E. T. Batchelor is meat cutter in Ruberton's market.

Scout benefit next Monday evening, at Eagle Theatre.

More boys are wanted from Hammonton, for the ambulance corps.

The Baptist Sunday School may decide about their picnic to-morrow.

W. E. Crane is hauling logs and lumber in a substantial looking truck.

Albert L. King and family spent their vacation with Hammonton relatives.

Mrs. H. A. Jones, of New Gretna, greeted Hammonton friends this week.

Arol Aigner is in the Naval Hospital, Philadelphia (not New York), for operation.

Mrs. W. B. Holmes (nee Miss Martha Saxton), was a guest of her brother and sister, this week.

J. Fred Vial, a former attache of the Republican office, spent the 16th with Hammonton friends.

Johnny had a Thomas cat that warbled like Caruso; a neighbor threw a base-ball bat. Now Thomas doesn't do so.

George King and wife and little son, George Jr., from Trenton, visited Hammonton friends this week.

Miss Marion Baker, of Philadelphia, spent the week-end with her cousins, Mrs. Annie Foster and family.

Mr. and Mrs. J. D. Ball, of Germantown, spent a week-end with Mr. and Mrs. D. M. Chapman, at Elm.

Thimble Bee of the Civic Club members and friends, Wednesday, 25th, three to five o'clock, at the Club House.

Davis S. Bellamy, jeweler, will on August 1st move his store to 211 Bellevue Ave., formerly occupied by the milliners.

Bids will be opened by Town Council, next Wednesday night, for a new motor-driven hose wagon for Company No. 1.

Chas. Jenison and a friend came on from Seymour, Conn., in his car, to visit his parents and friends. They made side-trips to Atlantic City, Washington, D. C., and Gettysburg, starting for home last evening.

Lieut. J. C. Bitler received orders Wednesday night to report for duty at Wrightstown, N. J., next week Monday. The camp is situated midway between Pemberton and New Egypt. The doctor will be missed in Hammonton.

In spite of the heat, a goodly number of loyal women met at St. Mark's Parish House on Tuesday afternoon, to do their "bit" in preparing hospital supplies to be sent to France, to be used for the brave men and boys who are giving their life-blood for the people who are wronged. But there are several hundred women in Hammonton who are not doing their "bit," either in work or financial help. Are you one of these? If you are, do not let another week go by without doing what you can for your country, either by work at the War Relief meetings, Tuesday and Thursday afternoons, from two to five o'clock, or by contributing until your pocket-book feels it. The committee is continually purchasing materials to be made into surgical dressings and necessities. Good use is made of all money donated. Seven dollars were received during last week. Thanks are due to Mr. and Mrs. George Parkhurst, Master Hubbard Parkhurst, Mrs. Kepler, Jr., and Mrs. Chas. Cunningham, for money donated.

Miss Dorothea Grace Ash, of Haddonfield, made her grandmother, Mrs. M. Ash, a visit this week.

Miss Kathryn Muckensturm entertained two Normal friends, Miss Ethel Wynocker, of Atco, and Miss Bessie Morse, of May's Landing.

Three Hammontonians were mustered into the Coast Artillery on Wednesday, at Wildwood.—Wm. Cappuccio, Everett Hooper, and John Amato.

Mr. and Mrs. Robert Bancroft, and son and daughter, visited their friends, the Jerrell family, the past week, enroute for their new home at Glenn Ellen, Cal.

Chatter chatter goes the patter
Of the summer rain.
Will it stop to-morrow
Or will it start again.

Sergeant P. J. Heck was in town on Wednesday, in an effort to enlist more men for the ambulance corps. Chas. Delker accompanied him. "Curly" Thompson was one of the new recruits.

John Praster, brother of Mrs. C. E. Small, died on Thursday of last week in Atlantic City, following an operation. He had resided in Absecon for several years, and was known to Hammonton's older residents.

The War Relief Committee of the Needlework Guild now has its eighth box of hospital supplies—about twelve hundred pieces—ready for shipment to France. The boxes previously sent contained some eight thousand pieces.

There was a rumor, this week, that Wm. Oysterman had passed away, as a result of his auto mishap. This was untrue, as his condition was favorable, and he will doubtless leave the Atlantic City Hospital in about three weeks.

According to the Medford "Record," Edw. N. O'Donnell and his car were in a near-accident at that place, Wednesday, when by presence of mind he ran his car into the curb, badly damaging it, but missed killing a young girl who had run in front of his auto.

AMONG THE CHURCHES.

Sunday and week-night services.

Presbyterian Church.
10.30 a. m. Preaching service.
12.00 m. Sunday School.
7.00 p. m., Y. P. S. C. E. service.
7.45. preaching.

Hammonton Baptist Church.
10.30 a. m., Morning worship.
Theme, "The Layman at Work."
For the children, "The Birds at Sea."

Bible School at 12.00, noon.
6.45 p. m., Christian Endeavor.

IRVIN I. HEARING

Again Hudson Proves Greatest Endurance

Ralph Mulford

Also driver of the 24 hour test
in which, with a Hudson Super-Six
Stock Chassis, he drove 1819
miles—the greatest distance, by
52 per cent, ever covered by a
traveling machine.

Mulford was also one of the
drivers in the Hudson Super-Six
double transcontinental run, from
San Francisco to New York and
back in 10 days 21 hours, breaking
every previous record each way.

This Time Hudson Super-Six Special Makes New American Speedway Record for 200 Miles, Averaging 104 Miles an Hour

Ralph Mulford has again demonstrated the en-
durance of the Hudson Super-Six.

At the Chicago Speedway June 18th 50,000 people
saw him establish new speed records for 160 miles
and for 200 miles.

A special racing car was used. It embodies all
the details of design and construction that has ac-
counted for the records of endurance held by Hud-
son Super-Six stock and racing cars.

The motor is exactly the same size as the stock
motors. The design is no different.

The principal changes are such as could be made
at nominal cost to any Hudson Super-Six.

The Hudson Super-Six motor, more than any
other type, has minimized vibration. That is why
the Hudson Super-Six is more powerful and capable
of greater endurance than other cars.

These Tests Prove It

Hudson Super-Six speed tests are in reality en-
durance tests.

It is possible to build faster cars than the Hud-
son Super-Six Special, but the speedway record of 104
miles an hour for 200 miles, now held by a Hud-
son Super-Six Special, proves that endurance is more
important.

Faster cars have never been able to meet the
strain of such long distances.

Endurance is just as vital to you as it is to the
driver on the speedway. Even though you may
not care for great speed, you do want endurance.
Your car must be able to meet every service strain.

Our interest in racing is not so much to see how
fast we can make the Hudson Super-Six. It is
to demonstrate motor endurance. It would take too
long, at ordinary driving speed, to demonstrate the
endurance life of a Super-Six. The speedway
in a few hours calls for all the stamina required in
years of ordinary use. These racing tests are of
interest because they show the endurance of a
Hudson Super-Six.

Race drivers are the most exacting critics of
car performance. More Hudson Super-Six cars
are used in racing than of any other make. Most
of them are entered by professional drivers whose

only interest is to win prizes. They were stock
cars made suitable for racing, chosen because
of proved endurance. No other racing car of
prominence so nearly resembles stock production
as does the Hudson Super-Six. Practically all
of the notable racing cars, and particularly those
against which the Hudson Super-Six Special has
shown its superiority, were built especially for
racing. They bear slight resemblance to the stock
production of any factory. Their cost is usually
so great that not more than two or three cars
are ever built. The Hudson Super-Six is es-
sentially a production car.

This Calls for Endurance

The principle by which it has minimized vibration
and thus increased power and lengthened motor
endurance, makes it easily suitable for racing.
Experts who know the true quality of all cars select
Hudson Super-Sixes because they can rely upon
them to win their races.

The very qualities of endurance that are necessary
in racing are the qualities you should demand in
the car you buy. It guarantees safety, low main-
tenance cost and long service.

You can get a Hudson Super-Six in any body type
you may desire. There are eight designs to choose
from. The carriage detail matches the high quality
of the chassis construction. Because there are now
36,000 Hudson Super-Six owners, a Hudson Super-
Six costs considerably less than any car with which
it is comparable.

Endurance All Important

Vibration is the foe to long motor life. It ac-
counts for breakdowns and for high maintenance
cost.

Vibration is usually responsible for the car's fre-
quent trips to the repair shop.

It is vibration more than anything else which
forces cars out of speedway contests. Vibration
accounts for diminishing power of motors.

If vibration and friction could be entirely elim-
inated there would be no such thing as a motor car
ever wearing out. By reducing vibration the life of
the car is prolonged.

Vibration also reduces the usable power of the
motor. Much of the power generated is consumed
within the motor by its own vibration.
