ELVINS & ROBERTS

SOLE AGENTS FOR

The Styron Fence Co.

This style of fencing is becoming very popular, being made from sharpened cedar pickets and heavy wire cables; and when properly put up makes one of the neatest and most durable fences in use, either for poultry yards or other enclosures. When in want, we will be pleased to quote prices.

DID YOU EVER

Stop to think what a fine piece of mechanism your watch is? and that you are injuring it by letting it run too long without having it cleaned and oiled?

A watch is injured more in one month, when running dirty, than in a year's time when properly cleaned and oiled.

Why neglect to have it cleaned, when you can get it done, and guaranteed, for One Dollar?

Our World's Fair Letter.

CHICAGO, JULY 15, 1893.

I perceived in my dream and, behold, it was the morning after Independence Day, and two pilgrims entered the gate of the Fair and proceeded toward the South. And the first, whose name was Domesticus, addressed his companion thus:

Dost thou consider, brother Peregrinus, how like a vision the scenes of yesterday have become? Last night a mighty sea of human beings surged madly thro' these grounds. With blaze and smoke and patriotic shout, confusion reigned. Now all is peaceful and quiet as a summer meadow.

Per. I do, indeed, my brother. It is but a foreshadowing of what will be when the Fair is over. The towering domes will disappear; the palaces be removed; the mighty arches and colonnades be laid low; the beautiful gardens, statues and monuments all be gone and their places taken by the twittering bird, the saucy squirrel, children gamboling on the green. In itself it is all vanity, and had better never have been unless it contributes to the well-being of the immortal soul and the glory of the Eternal One. But here is the Transportation building. How well the subject is displayed by statuary.

Dom. See the "Man at the Brake," the "Lad at the Wheel," the "Inventor with a Governor." See this statue impersonating a railway train, and this one a steamship. And see that rearing fiery horse and daring graceful rider, a 'cowboy' of the West—

"With chaps and taps and latigo straps,
"With hackamore new and hondu too."

Per. Very good, Domesticus, but I am more taken with the figure across the way. A strong, gaunt, awkward steed, unencumbered by the effects of civilization, the picture of its possessor. He sits carelessly astride the bare back, holding in one hand a rope that is tied around the horse's lower jaw, and shading his eyes with the other, peers far into the distance; the pony too turns to look and whinnies agreement.

Dom. Ah, brother, do you observe this wonderful entrance. Let us fall back some paces that we may take it all in. Now we see it all; arch on arch, silver and gold, and covered every inch with carvings. On one side a bas-relief representing the ancient means of conveyance. First, a simple chair with handles projecting before and behind, carried by two slaves. In it sits their pitiless master. Next a galley, where the slaves bend their backs expectant of the cruel lash. Again we see a rough cart with two solid wooden wheels drawn by two oxen. The mother and children ride, the father leads the team. On the other side we have modern travel, with its representative the dining car and palatial steamship cabin.

Per. Oh, it is wonderful. A grand portal to a grand display. But, hast thou noted those images along the walls; women with wings. Methinks it is the perfection of transportation, the ideal yet to be. Brother, why plod we along our difficult way? why not appropriate some such easy conveyance?

Dom. My dear Peregrinus, they would scarcely serve our ends. I would rather crawl to our journey's end than to ride in the most luxurious of these conveyances and go no farther than they would take us.

Then I saw that they proceeded on their way till they came to a large building four stories high, without windows. Here they found a refrigerating engine, and the first three stories to be full of great store-rooms, where all manner of fruits and vegetables are kept fresh and sound until wanted for use. In the fourth story, which is open, is a skating rink, 50 x 200 feet, where a smooth coat of ice is kept continually.

I hear that a famous faster is to be here shortly, and be buried alive: then barley is to be sown on his grave, and after it has grown and ripened, it will be gathered, and he will be taken from the grave and return to consciousness.

PAINT! PAINT!
—THE—
HAMMONTON.

When you buy the Hammonton
Paint, you do not buy seven-
eighths of a gallon for a gallon,
or three pints for a half gallon;
nor do you get one of those
packages that weigh 12 to 14
pounds, and containing so much
alkali that it is impossible to
use it without thinning; but in
buying the Hammonton you get
a full standard gallon of paint,
weighing 14 to 16 pounds to
the gallon, made from the best
materials known to the trade,
and costs the consumer from \$1
to \$1.50 per gallon for honest
paint.

If the purchaser doesn't want
honest paint, and wants to be
honest to himself, then be sure
to buy the Hammonton Paint,
and the manufacturer will give
a receipt with every gallon sold
telling you how to make two
gallons of paint out of one of
the Hammonton. It will cost
33 cents for the extra gallon.

One Dollar.

And then here comes Commercial
Paint, in 30 shades,—the best wearing
paint ever put on the market for so low a
price as \$1 per gallon, and guaranteed
to be first-class wearing paint. If any
one should not want to pay so high a
price for a good exterior paint, then work
the 33 cent racket, and get two gallons
for \$1.33. Manufactured at
Hammonton Paint Works.

SATURDAY, JULY 22, 1893.

The War Department has decided to
send the entire corps of cadets from
West Point to Chicago, so that the
regular army will have a creditable
show at the World's Fair.

In case of war, two-thirds of above
corps would resign, as their predecessors
did at the outbreak of the rebellion.
Yet the "old soldier," who filled the
breach, then, is maligned to-day for the
little pension he receives.

Uncharitable criticism is throwing
mud at everything we don't like.

About the only time some people
speak well of other people is after they
are dead and buried.

Cheaper rates to the World's Fair
will send a larger army to Chicago.

By all means let Cleveland live.
May a merciful Providence spare the
country an Administration at Adlai's
hands.

What ails the country is not so much
the silver purchase bill as fear and
apprehension of Democratic attacks on
the Republican system of protection.

A very large peach crop is expected
this year. Isaac N. Mills, special agent
of the Philadelphia, Wilmington and
Baltimore Railroad Company, stationed
at Clayton, Del., estimates the peach
crop for the season at 5,600,000 baskets.
The estimates exceed those of 1891,
which was considered an excellent year,
the shipments then being about 3,400,000
baskets. The present estimate includes
the State of Delaware and the Maryland
portion of the peninsula.

Comparatively few people are aware
that Japan is becoming an important
factor in the world's supplies of coal.
The output of coal in Japan has been
steadily increasing during the last seven
years, having risen from 310,000 tons in
1886 to 1,040,000 tons in 1892. A statement
has been made to the effect that a
contract has been entered into with an
American firm to supply 2,500,000 tons
of Japan coal to San Francisco, the de-
liveries to be spread over the next ten
years.

The annual review of salaries of
Presidential postmasters, as completed
by Frank H. Jones, First Assistant
Postmaster-General, shows a total num-
ber of Presidential postmasters in opera-
tion July 1st, 1893, 3337; aggregate
of salaries of Presidential postmasters,
July 1st, 1893, \$5,065,700; total gross
receipts of these offices for the four quar-
ters ended March 31st, 1893, \$60,102,
801.83, being an increase as compared
with the four quarters ended March
31st, 1892, of \$5,993,828.74.

Senator Sherman, in an interview in
Chicago, said he was ready at any time
to assist in the repeal of the so-called
Sherman law, but called attention to
the fact that the act was a compromise
measure and if it had not been passed
the Democrats would have passed a more
drastic silver measure.

There is quite as much confidence

Kansas, Colorado, and neighboring
States are suffering financially. Banks,
National and State, are failing by the
score. Thursday's papers gave account
of fourteen which had closed their doors
on the previous day; and Friday's gave
ten more. In the East, iron and cotton
mills, and other industries, are suspend-
ing—some for a week or a month, others
indefinitely. Yes; the people are realiz-
ing "the change" for which they voted
last November; and the end is not yet.
Money scarce, many thousands of men
out of employment, no prospect of relief
in sight. Perhaps another change is
needed.

It is said that dancing makes girls'
feet large; that ice cream produces
freckles. Doctors are of the opinion
that hanging on the front gate produces
rheumatism. The chewing of gum dis-
torts the mouth. Playing the piano

washing dishes causes chaps—so to
propose. There you have it, girls;
take your choice.

Wm. Rutherford,

Mn. Editor: Small fruit and berry
growers would have the same apprecia-
tion of a canning factory in Hammon-
ton as would the farmer who made it a
point to plant peas, beans, tomatoes
and corn, all of which can be grown
successfully here. These, with berries,
would keep a factory pretty busy dur-
ing the season. Our farmers would
soon see the gain to them, and put in
such crops as were in demand. Fewer
berries would be growing, thus insuring
better prices in the market, as, with a
decreased acreage, the quality would be
improved, the cost of cultivating and
gathering crop would be lessened, and
more general crops would be planted.
All this means a big gain to farmers.
What is needed is more work in the
town, for residents, their wages helping
to improve business among merchants,
—thus directly and indirectly benefit-
ing everybody. By judicious manage-
ment, the canning business would in-
crease from year to year, thus creating
demand for more workmen. There is a
constant demand for first-class canned
goods, and Hammonton can produce,
pack, and market as good goods as can
be produced anywhere. The longer we
delay some such enterprise, the farther
removed is the prosperity of Hammon-
ton. Let us take hold of this or some
other manufacturing industry that will
give Hammononton such a boom as will
carry her safely through the hard times
that seem inevitable.

A PRACTICAL CANNER.

In order to afford an opportunity
to the public to visit the World's Fair,
the Pennsylvania Railroad Company
has decided to run a series of popular
excursions from New York, Philadel-
phia, and other eastern cities to Chi-
cago. The round trip from New York
will be \$20, Philadelphia \$18.25, and
proportionate rates, a single fare for the
round trip, will prevail from other
stations. The parties will be carried
on special trains composed of the newest
and best standard passenger coaches.
The special trains will leave New York
City 9:13, Newark 9:25, Elizabeth 9:32,
Trenton 10:23, Philadelphia 11:50, and
arrive in Chicago 5:30, next afternoon.
The first excursion is fixed for July 25,
others for July 31st, August 12th and
16th. Another series, to be run at the
same rate and under the same condi-
tions, will be announced later. The
return coupons of these tickets will be
good within ten days, and will be
accepted for passage only on trains
leaving Chicago at 3:15 and 11:30 p.m.

A good general purpose HORSE, wagon,
and harness for sale.

smaller silver coin. Here is a bulk of
silver currency, amounting to \$500,-
000,000, which the government must
maintain at par with gold. And each
of those dollars contains less than sixty
cents worth of silver.

There has been a battle between Siam
and France, with prospect of war,—all
about a boundary dispute. China has
decided to help Siam; Russia will aid
France; England is sending war ves-
sels to prevent France from interfering
with her rights. Somebody may get
hurt if the dispute is not settled.

There is in this country about one
gold dollar to five other dollars; in cir-
culation, one gold dollar to four. The
treasury reserve is equivalent to one
gold dollar for ten of silver and paper
issued.

In making up the Democratic party's
record, it may be convenient to record
that its first act, after coming into office
was unconditionally to repeal the coun-
try's commercial confidence.

Too many of our Democratic states-
men (?) seem to be afraid that the Lord
will not provide.
