The Cheapest
 AND
The Best!
Life Insurance at Actual Cost

THE NATIONAL LIFE INSURANCE COMPANY OF CHICAGO, invites the attention of those contemplating insuring their lives to its **Mutual or Reciprocal**

PLAN, which enables even the poorest man provide for his family in case of death, without depriving them of the necessities of life, as do many who endeavor to pay the high premiums of old line companies, who charge for Assurances Extra Losses which never occur, and then add a heavy loading for extravagant expenses. On this plan you only pay for the actual losses actually experienced, and as they occur, with a small fixed sum for expenses. Call on the agent for circular fully explaining this system.

The Practical Results!
 Since its organization in 1870, the NATIONAL has paid in death losses \$87,764, at a cost to the deceased of \$791,000 in premiums. Old Line Companies would have paid or the same premiums \$21,224, showing a gain by insuring in the NATIONAL of over \$36,000.
 The Capital and Securities of this Company are sufficient to comply with the Insurance Laws of any State in the Union.
 BANC. LOMBARD, Pres. U. S. TRUST, Sec'y

EDWARD NORTH, M.D.,
 PHYSICIAN AND SURGEON,
 HAMMONTON, N. J.
 Residence on Central Avenue, in the house formerly occupied by Dr. Bowles.

From Our Own Correspondent.

PHILADELPHIA, July 18.
A VILLANOUS SCHEME.

On the 1st inst., Charlie Brewster Ross, a child four years of age, and son of one of our prominent merchants, was kidnapped while playing in a lane near his father's residence in Germantown. For several days two strange men were noticed in the neighborhood, with a horse and wagon, and by means of candies and cakes they had secured the child's confidence, and he and his brother, of about the same age, readily accepted an invitation to take a ride in the wagon.

After riding several squares, the eldest boy was given some money to purchase firecrackers with, and as soon as he was out of sight, the horse was driven off at a furious gait. The child was soon missed, and his parents failing to find him, the police were informed of his disappearance, and since that time the whole detective force of the city have left no stone unturned to recover him, but as yet his whereabouts are unknown.

Three days after the child was stolen, his father inserted an advertisement in the *Public Ledger*, offering a reward of \$300 for his recovery, and the next morning, in the "personal column," of this same journal, appeared the following:

ROSS—WE BE READY TO NEGOTIATE.

On the same day, the father, Mr. Ross, received an anonymous letter through the Postoffice, in which it was stated that little Charlie would be returned for \$20,000. It went on to say that the boy was in good hands; that the treatment given him was careful; that it had cost the parties a great deal of money to get him, and that they could not think of returning him for less than \$20,000.

Mr. Ross answered the villain through the same paper, that he had not the desired sum, but would try and raise it. He then received another letter, which reads similar to this:

"We know you are not worth much money, but we are aware that you have rich friends of whom you can borrow. If you love money better than your child, its blood be on your head."

"Any attempt to ascertain the child's hiding place, will result in its annihilation. We will 'turn the child up' on our own terms. We know our business," and we are "going to fight it out."

Nothing that has occurred here for a long time has excited the community like this infamous procedure. The parents, as may be supposed, are nearly distracted at the loss of their child, and they have the sympathy of every one. A more audacious or bolder scheme was never carried into execution here, and it surprises every one.

On Thursday last Detective Taggart arrested Chris. Wooster, a well-known confidence man, in this city, on suspicion of his being concerned in the abduction of the child. Wooster has been connected with a number of black-mailing operations, and suspicion has been directed against him, but what testimony the detectives have against him is not made known to the public. Wooster was taken before Alderman Smith, who committed him to Moyamensing prison to await a hearing.

It is expected that the

SOUTH STREET BRIDGE.
 will be thrown open to the public in a few weeks. All of the masonry work of the bridge has been completed, and the east and west river spans are being erected. The draw has not been erected, but all the material for the same has been manufactured, and is ready to be placed in position. This bridge will prove a great convenience to persons residing in West Philadelphia, and will give a great impetus to building improvements in the southwestern portion of our city. The growth of our city is to the north and west, the southern portion of our city not being desirable for a place of residence, and the Delaware River being closely built upon.

Our city is in the control of a RING as completely as New York was when Boss Tweed and his associates reigned supreme,

and the public money is squandered in a reckless manner.

A school, station, or engine house cannot be erected for less than twice the amount that a private party could have them erected for, and when once erected, they are generally in a tumble-down condition in a few years. A strong effort was made here recently to make the city purchase a lot in the suburbs of the city, at an exorbitant price, upon which to erect a school house, but this effort was fortunately defeated. One of our Councilmen was stated that the lot in question sold two years ago for two dollars a square foot, and the price asked the city was an advance of three hundred per cent., which was at least one hundred per cent. more than lots were bringing in the neighborhood. He also stated that the influence of a champagne sapper was brought to bear upon him to effect a sale.

One of our reservoirs, needing repairs, proposals were invited for the completion of the work, and over twenty bids were received from contractors, who were anxious to receive the contract. The Chief Engineer of the Water Department awarded the contract to the highest bidder, notwithstanding a responsible party offered to perform the work for \$160,000 less than was given this favored one.

Our Paid Fire Department has cost the city an enormous sum—new engines costing as much in one year for repairs as their original cost, and other expenditures being on a like scale.

Your correspondent was passing a few weeks ago where our new public buildings are being erected, and stopping a moment to watch the workman, his attention was called by a policeman, who said he was a bricklayer by trade, to the bad quality of the mortar used in the construction of the foundation walls. The policeman detaching a small piece of mortar from the wall, and crushing it in his hand, said: "This mixture is totally unfit for the purpose it is used for." The mixture looked more like mud than mortar, and seemed destitute of lime.

THE THEATRICAL SEASON.

recently closed here, was not pecuniarily a successful one, and it is to be hoped that the charge of admission to places of amusement will be reduced for the coming season, which will largely increase the attendance and receipts at all our theatres.

Theatre-goers are tired of "war prices," and feel that an ordinary play is not worth one dollar to witness it, and consequently only star performers draw crowded houses. One reason for the theatres not paying is accounted for by the immense quantity of complimentary tickets which are given out. There is one of our theatres, whose audience part of the year is one third "dead heads," and of course the proprietors must make up for this loss.

The Chestnut St. Theatre is being completely remodelled, and will be fitted up with every modern convenience.

THE ANIMAL PROTECTION SOCIETY.

is doing a good work for the brute creation. Formerly it was quite common for horses to drop dead here, during the warm weather, from being over driven, and from not receiving proper care and attention, and animals of all kinds were cruelly treated. The Society has made a revolution in this matter, and if they cannot appeal to the conscience of owners of the brute creation, they arrest and find them, and make them feel the strong power of the law.

Drinking fountains have been erected on our principal thoroughfares, where horses and dogs can quench their thirst, and an ambulance has been constructed to remove horses who may be sick or meet with accidents. This is a noble charity, and the friends of the brute creation will be pleased to learn that the Society is in an exceedingly prosperous condition.

Truly thine, BROADBIRM.

Mr. Kimball, Chief of the Revenue Marine Service, is absent on a survey of the coast from Maine to Cape Hatteras, for the purpose of selecting sites for the new life-saving stations authorized by recent act of Congress.

SMALL POX DISARMED.

Under this head a writer in the *Toronto (Ont.) Globe* declares that the use of common vinegar is a sure preventive of the loathsome disease, small pox. If this is true, it is best for everybody to know it. He gives as his authority no other than a celebrated German physician, Dr. Roth, and he also speaks from his own experience, having tried, after reading the report of the Doctor above named. The writer says:—"Some eighteen months ago I called your attention to the discovery of a distinguished German doctor in reference to the use of common vinegar as a prophylactic in treatment of small pox. His report of its successful use in Austrian Silesia, where the disease was epidemic in its worst form, among a rude and improvident peasantry, was wonderful. Relying on the well authenticated report of Dr. Roth, I resolved to put his instructions into practice as soon as opportunity presented. I also urged others among the faculty to give it a trial, but I regret to say without effect. In private practice I have only had two opportunities to test its efficacy, and the results were excellent. In one case of common small pox, eight adults were exposed to the contagion constantly. None took the disease, and the patient recovered. In another family of six, the vinegar was used with similar good results, and that notwithstanding a degree of fright and horror among the exposed that was well calculated to insure attack, and even fatality.

The dose advised by Dr. Roth was two table-spoonfuls of common vinegar for an adult, and half that quantity for a child, or for a feeble person, repeated morning and evening for fourteen days after exposure. I substituted raspberry vinegar, as being more palatable and equally efficient, provided it was made of good pure vinegar.

In the last report of proceedings of the Medical Society of Maryland (1874) I observed that a paper read before that body on the subject of small pox, and highly commended as able and exhaustive, closes with the remark that "of all the various methods of treatment and cure of this most loathsome disease, none have given such satisfactory results as the so-called vinegar cure."

If so simple a means of prevention is effective, as I and others have found it, I trust the faculty and the public will give it a fair trial."

AMMONIA AS A SOLVENT.—A little water of ammonia or spirits of hartshorn added to the water used for cleaning paint, will save time and strength in scrubbing. Spots which hard rubbing and strong soap fail to remove, often yield easily to diluted ammonia. For other cleansing purposes it is valuable. A black silk which has given us good service in the past, is just brushed by a good sponging with ammonia and water in the proportion of a table-spoonful to a pint. It is so rejuvenated by the process, and by the aid of a soft dress maker, who disdains not to remodel old dresses, it will pass with our neighbors for a new one. The drug is very cheap, and is so useful in the domestic economy that no one should fail to keep it in the house. The stopper of the bottle should fit closely, and be glass, not cork. A little judgment must be exercised in regulating the quantity used, as the strength when purchased is not always the same. Begin with a little and increase as needed.

The Society of Friends will not be pleased with the action of the Government in relation to the Indians. Gen. Phil. Sheridan recently made formal application for permission to punish and punish the Indians upon their reservations. This permission has hitherto been uniformly refused. The process application was forwarded to the War Department with an approving endorsement by General Sherman. The Secretary of War and the Acting Secretary of the Interior, after having carefully considered the question to-day, decided to give this permission to General Sheridan. An order to that effect was telegraphed him. The order cautions General Sheridan against inflicting injury upon the friendly Indians.

THE GEORGI PIANO-FORTES.

LATE NEWS REGARDING THEM.

The Georgi Piano-Fortes have taken the first premium over all competitors at the State Fair of West Virginia, in Kentucky, and at all other fairs and expositions where they have been exhibited.

Their durable build and refined expression of tone causes them to be the favorite instrument in semicircles of learning.

From Rev. L. VAN BOKKELEN, Rector of Jane Grey Seminary, Mr. Morris, N. Y., August 14th, 1873:
 "I have pianos of other celebrated makers in the Seminary, but the Georgi was selected and used at the concert as the best. It is preferred by teachers and pupils."
 From Rev. W. F. MORRISON, Rector of St. Luke's Church, Buffalo, N. Y.
 "On leaving Iowa, I was reluctantly obliged to part with my Georgi Piano-Forte. When I settled in Buffalo, one of my first cares was to provide my family with one of the same make of piano. It fully sustained the high reputation the Georgi instruments have in all parts of the country."
 Mr. JOHN ZUNDEL, Organist of Henry Ward Beecher's Church Brooklyn, says:
 "The Georgi has an exquisite action, and everything about it shows thorough workmanship and indicates durability."
 Rev. S. H. McCOLLISTER, President of Buchtel College, certifies:
 "We have been using two of your pianos the past year in our college. They have given great satisfaction. We regard them as superior instruments."
 From the New York Independent:
 "As they were highly recommended to us, we bought one for our own use, and we find that they are worthy of all the praise they have received."

The above are only a few selections from letters continually arriving which prove the Georgi to be the Leading Piano of the day. I guarantee entire satisfaction, and never fail to give it.

TESTIMONIALS OF WATERS' PIANOS AND ORGANS.

"Waters Concerto Parlor Organ possesses a beautiful and peculiarly soft tone. The Concerto Stop is, without doubt, the best ever placed in any organ. It is produced by an extra set of reeds, peculiarly voiced, from which the effect is most charming, and its imitation of the human voice is superb. For sweetness of tone and orchestral effect it has no equal."—N. Y. Times

"The Concerto Parlor Organ is something entirely new; it is a beautiful parlor ornament possessing a sweet and powerful tone, is most commendable invention and holds a high place in public favor."—N. Y. Evening Post.

AN ORCHESTRA IN THE PARLOR.—The orchestral organ is the name of a new and unique invention announced by Horace Waters and Son. The instrument takes the name from its recent invention, orchestral stop. The voicing of this is peculiar, producing the effect of a full, sweet, contralto voice. Its finest effect is produced when the stops are drawn. Then the full chords are toned down, so that an orchestral effect is given. The case is unique and makes a handsome article of furniture."—N. Y. Times

The Waters Pianos are known as among the very best. We are enabled to speak of these instruments with confidence, from personal experience."—N. Y. Times

Established in 1810.

A MEDICAL TRIUMPH!

Dr. D. S. PERRY'S

Vegetable Aromatic

Bitters.

These Bitters must become the universal remedy of the age. There is nothing like them or equal to them under the sun. They restore the weak, invigorate the feeble, and give new life and tone to the broken down system. In malarial and malarious districts they are worth a ship load of quinine powders and pills. They are especially adapted to persons suffering from

Dyspepsia, Liver Complaints,

Costiveness, Headach,

Neuralgia, Rheumatism,

Chills, Fever and Piles.

TO DELICATE FEMALES.

Ladies, old or young, will find these bitters especially adapted to diseases peculiar to their sex. Nervousness, Lassitude, Want of Appetite, and General Debility, all yield to the magic charm of these inestimable Bitters.

HEAR WHAT IS SAID.

HEAR WHAT IS SAID.

"Wonderful effects have resulted from your Dr. Perry's Bitters."

"My child is gone. I can hardly believe it."

"Send me one case Perry's Bitters again. Nothing like them here."

"I enclose affidavit of my case. I had to do so long as you of the wonderful cure."

"Surely they are the most delightful wine tonic in the world."

"Dr. Wilson says that you are a public benefactor."

"Hurrah! No more rheumatism."

"No more headaches, thanks to you."

We could fill this paper twice over with just such genuine extracts, but the above must suffice. Our Bitters are prepared under the supervision of Dr. D. S. Perry, Member of the Royal College of Physicians and Surgeons, London, England, and of the Medical Clinic of Glasgow.

All orders should be addressed to the

Perry Aromatic Bitter Co.,

NEW YORK, U. S.

These Bitters are sold either by the bottle or case at \$1 a Bottle.

Parties in sending letters for advice as to their diseases, will confer quite a favor by giving name of County as well as Town where they reside. It will save us a wonderful amount of time and annoyance if this will be observed.

THE PERRY AROMATIC BITTER CO.

Prof. H. J. Doucet, M. D.

Treats DISEASES OF THE LUNGS, and ALL CHRONIC AFFECTIONS.

ELECTRICITY scientifically applied.
