NO. XXX.

There was a time when strikes were very rare, indeed. It was when capital owned labor and kept it in subjection and on the verge of starvation. Slaves can't strike.

Education and enlightenment taught labor its own power, then it struck for greater liberty. Greater liberty caused it to strike for greater pay. With greater pay came increased opportunities for intellectual improvement, and organization followed. Now, with united front, workmen pressed on for greater and ever greater concessions from their employers, which granted, feed their desire for more. From the defensive they now take the offensive, demanding instead of entreating.

That is the way they do in this country, because here the labor has been elevated to the plane of capitalist, enjoying greater liberty and receiving higher wages than anywhere else on earth.

It is not so in other countries. In India and China and Russia strikes are even now as seldom heard of as they were among the ancestors of our American workmen 500 years ago, when they wore the collars of their Lords. Labor is too weak and servile to strike in those countries.

As we ascend the scale of enlightenment and liberty, we find labor organizations and labor disturbances becoming ever more and more frequent.

In Spain labor strikes sometimes. In Germany it strikes more frequently. In France still more frequently.

If to better the condition of working people, to point the way to education, to greater liberty and independence, to foster and develop the genius for intelligent organization among them, and thus to lift them from a position of servile dependence on their masters to a plane of equality and equal advantage with their employers—if to do these things is to cause strikes and lockouts, then does Protection cause strikes and lockouts. But on no other possible assumption.—*American Economist.*

An Anarchist, who gave his name as Alexander Bergman, entered the office of Carnegie & Co., in Pittsburg, on Saturday afternoon, and shot H. C. Frick twice and stabbed him in three places with a dagger. After a struggle he was overpowered by persons in the office, assisted by Mr. Frick, and turned over to the police. Mr. Frick's wounds are not fatal. He continues to direct the contest at Homestead from his home. Since the shooting, detectives have traced Bergman's connection with an Anarchist Society, found evidence of a plot to kill several capitalists prominent in the recent difficulties, and to blow up at least one non-union mill. A number of arrests have been made, and more will follow. "Let no guilty man escape."

The City of Paris, which will soon fly the U. S. flag, again beat the ocean record, making the trip from Queens-town to New York in 5 days 15 hours and 58 minutes.

A test is being made of the Chinese Exclusion Act in Detroit, where four of that race are resisting deportation for entering in violation of the provisions of the new law.

Mt. Etna is again in a violent state of eruption. Immense masses of rocks are being thrown up from the volcanoes and the lava streams are advancing.

In Its Worst Form.

BENTON, La. Co., Wis., Dec., 1888.
Rev. J. C. Bergen writes for the following: James Rooney, who was suffering from St. Vitus Dance in its worst form for about 12 years, was treated by several physicians without effect. Two bottles of Pastor Koenig's Nerve Tonic cured him.

Would Have Died.

ROXBOROUGH, Mass., November, 1890.
I was in pain all over, could get no rest either night or day and was not able to do any work for months, but after taking Pastor Koenig's Nerve Tonic only one week, I was able to sit up and attend to my dressing. I had paid over two hundred dollars to doctors and got no benefit. I certainly think I should have died long ago if I had not got this medicine.

[Entered as second class matter.]
SATURDAY, JULY 30, 1892.
REPUBLICAN TICKET.
For President,
Benjamin Harrison,
Of Indiana.
For Vice-President,
Whitelaw Reid,
Of New York.

A Democratic free-trade organ of New York says that "labor does not receive the benefits of protective tariff." At Homestead, an American steel mill, the beater's first helper earns \$4.76 a day. In English mills of the same class the first helpers earn \$1.04 a day. Does this difference of \$3.71 a day go into the pocket of the manufacturer, or that of his workman? American forge rollers earn \$3.31 a day. English forge rollers earn \$2.10 a day. American shearmen earn from \$4 to \$6 a day. English shearmen earn \$7.20 a week. Does the protective tariff benefit the manufacturer or the workman, in creating this difference in wages?

A Brooklyn tin plate manufacturer, Daniel M. Somers, has resigned from the Democratic General Committee. He refuses to support Grover Cleveland on the free-trade platform adopted at Chicago. Mr. Somers knows by experience what protection has done for his business, and does not propose to "cut his own throat." As the wage earners, the farmers, and the manufacturers of this country come to realize what free trade would mean, they will realize the absolute necessity of defeating the free trade ticket this fall.

Senator Vest ran up against an adamant wall of fact, Tuesday, when he carelessly stated that under protection the value of iron lanes in the west had diminished. Senators from Nebraska, Minnesota, Iowa, South Dakota, and Washington, in rapid succession denied the statement, and asserted that agricultural holdings in the west are ever on the increase in value.

Rev. Joseph Cook says that the action of the Homestead strikers toward the non-union men is a tyranny worse than King George ever applied to American colonies. And he might have said that the tyranny of the Amalgamated Association officers over its members who desire to go to work, is much worse than either.

"We declare it to be a fundamental principle of the Democratic party that the Federal Government has no constitutional power to enforce and collect tariff duties except for the purpose of revenue only."—*Platform of the Democratic Platform.*

It is said by his admirers that one of Mr. Cleveland's strongest characteristics is patience. The statement is borne out by his painstaking search for microscopic reasons for vetoing pension bills.

General James B. Weaver, the People's party candidate for the Presidency, says that Virginia is solid for the People's party, and he considers Colorado to be the same.

Hon. Thomas B. Reed was renominated for Congress by acclamation at the First Maine District Republican Convention.

PAINT! PAINT!
—THE—
HAMMONTON.

When you buy the Hammonton Paint you do not buy seven-eighths of a gallon for a gallon, or three pints for a half gallon; nor do you get one of those packages that weigh 12 to 14 pounds, and containing so much alkali that it appears to be so thick that it is impossible to use it without thinning; but in buying the Hammonton you get a full standard gallon of paint, weighing 14 to 16 pounds to the gallon, made from the best materials known to the trade, and costs the consumer from \$1 to \$1.50 per gallon for honest paint.

If the purchaser doesn't want honest paint, and wants to be honest to himself, then be sure to buy the Hammonton Paint, and the manufacturer will give a receipt with every gallon sold telling you how to make two gallons of paint out of one of the Hammonton. It will cost 33 cents for the extra gallon.

One Dollar.
And then here comes Commercial Paint, in 30 shades,—the best wearing paint ever put on the market for so low a price as \$1 per gallon, and guaranteed to be a first-class wearing paint. If any one should not want to pay so high a price for a good exterior paint, get two gallons for \$1.33. Manufactured at Hammonton Paint Works.

Please take particular notice of our latest combination offer—the South Jersey Republican and the New York Weekly Tribune, both one year for \$1.25 cash in advance. We have a few sample copies of the Tribune for those who are not acquainted with it. We know of no way in which you can secure so much good reading for so little money.

Intro to A. H. Phillips & Co., 222 Atlantic Ave., Atlantic City.

There are gratifying reports from Homestead, that some of the strikers are coming to their senses and are anxious to resume work at the Carnegie Mill. The mediation of a few of the newspaper correspondents has paved the way for a better understanding. They have served as a medium of communication between the strikers and the company, and seem to have put them in the way of coming together. The attitude of the company is fair and considerate. It adheres to its position that it will have nothing to do with the Amalgamated Association as an organization since it refused to make terms and precipitated the conflict. But it repeats that with the exception of a few leaders the workers will be received as individuals, without regard to their membership in organizations, and restored to the places which they foolishly sacrificed. It is to be hoped that they will have the wisdom to avail themselves of this offer. Their interests are all at Homestead. Their families, their property, their associations are all there. They must see that they cannot long succeed in preventing the entrance of other workers, or obstructing the full resumption of operations. They must either promptly resume their old places or be left to find work where they can.

The Chilian difficulty is a difficulty no longer. Chili, after having offered an ample apology for the conduct of her police, in killing and wounding and maltreating sailors from the United States cruiser Baltimore, has placed at the disposal of the United States \$75,000 in gold which is to be divided among the families of the two dead men and the sailors who were injured. Thus ends an affair, deplorable in itself, but in which two nations have shown their honor, their sense of justice and also their desire for peace and friendship.

A couple of toothpicks enabled a Navajo Indian, imprisoned for theft, at Gallup, N. M., to work his way out of jail. With them he loosened a piece of wood, 2 x 4 feet, that was stuck in the wall. The wood released a rock twenty inches square, which dropped into the main room. There the prisoner found a poker, with which he pried off the roof casing, and in a few minutes more he was free.

The "pistol habit" has more to do with leading unbalanced minds to turn to murder in moments of despair, irritation or fanaticism than ought else. The man who owns a pistol, handles it and thinks about it is far more likely to use it than a man who does not; and the wide diffusion of the revolver through an American community is something of which peaceable folk have no idea whatsoever.

On complaint of members of the Carnegie Company, several leaders among the strikers at Homestead have been arrested on a charge of murder. The attorney of the Amalgamated Association stated in Pittsburgh that his clients had determined to prosecute Chairman Frick and the other officers of the Carnegie Company on the charge of murder in the first degree.

Believers in the theory of climate influence upon human nature can draw plenty of illustrations from the past few days. It is not improbable that the terrific heat may have had much to do with the unusual number of murders, suicides, and acts of violence which have made this month remarkable.

It seems that Bergman, the wretch who shot Manager Frick, had a dynamite cartridge in his mouth at the time, and attempted to commit suicide by exploding it with his teeth. This, it is believed, is the first time on record that an anarchist's jaw ever went back on him.

Still no Democrat has pointed out any article of domestic consumption that has been increased in price since the enactment of the McKinley law. Those whose prices has been decreased might be named by the score.

MANY persons criticize in order not to seem ignorant; they do not know that indulgence is a mark of the highest culture.

MR. CARROLL D. WRIGHT'S discussion of morality vs. industrial occupation, in regard to women, is an interesting feature in current periodical literature. Mr. Wright makes three assertions—that, by the entrance of women into industrial pursuits, they have been intellectually benefited, that workingwomen stand as high, morally, as any other class of women, and that the co-employment of men and women works no harm either to women or to society.

NOW THAT city authorities are aroused to the necessity of providing an adequate system of milk inspection to break up the practices of some dealers who adulterate that important part of food, it should be borne in mind that the many honest dealers will be the most hearty supporters of a fair and adequate plan of inspection.

FANCY WORK.

We give our readers this week a very pretty design for a crocheted fancheon scarf for use in the country; it may also serve for carriage wear to the theatre, concerts, etc.

It consists of a barbe six inches wide and fifty-seven inches long, which is run with inch-wide violet ribbon, and is trimmed at the front with a crocheted fringe and loops and ribbon bows.

On the great prairies of North America these birds are found in large numbers. They prefer open dry plains, where scrubby trees, long grass and brushwood afford them the kind of shelter which they desire.

A. B. DAVIS, Collector.
Dated July 16th, 1892.

PAIN REDUCED Mrs. Alice...
I feel so much better that I would not take \$1,000 and be put back where I was. I am both surprised and proud of the change. I recommend your treatment to all sufferers from rheumatism. Will answer all inquiries if stamp is enclosed for reply.

GRAND INDUCEMENTS
TO READERS OF THE
South Jersey Republican.

The Presidential Campaign of 1892 will, without doubt, be the most intensely interesting and exciting in the history of the United States, and country people will be extremely anxious to have all the general and political news and discussions of the day as presented in a National Journal, in addition to that supplied by their own local paper. To meet this want, we have entered into a contract with the

New York Weekly Tribune,
Leading Republican paper of the United States,
Which enables us to offer that splendid journal (regular subscription price, \$1 per year) and the REPUBLICAN for one year
For only \$1.25, Cash in Advance.

New York Weekly Tribune, regular price, \$1.00
South Jersey Republican, 1.25
Total, \$2.25
We furnish both papers one year for \$1.25
Subscriptions may begin at any time.

This is the most liberal combination offer ever made in the United States, and every reader of the REPUBLICAN should take advantage of it at once.
Address all orders to the **South Jersey Republican.**
