Jersey Republican" office.

TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels constive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Irritation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Blisters, Eruptions at the Heart, Hoarseness, Eruptions at the Throat, Constipation, Eruptions at the Skin, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with any work and are a perfect

ANTIDOTE TO MALARIA.

HE FEELS LIKE A NEW MAN.
"I have had Dyspepsia, with Constipation, two years, and have tried ten different kinds of pills, and TUTT'S are the first that have done me any good. They have cleaned me out nicely. My appetite is splendid, food digests readily, and I now have natural passages. I feel like a new man."
W. D. EDWARDS, Murray, N. J.
Solely for sale, 256, 257, 258, Murray St., N. J.

TUTT'S HAIR DYE.

GRAY HAIR OR WHISKERS changed instantly to a Glossy Black by a single application of this DYE, sold by Druggists, or sent by express on receipt of \$1.
Office, 41 Murray Street, New York.

SHOP on Egg Harbor Road, next to Alken's Carriage Factory, Hammonton.

From the Capital.

WASHINGTON, D. C., July 28, 1883.
Government receipts to-day were, from internal revenue, \$425,596.29; customs, \$686,742.07.

If two hundred and fifty persons were dying daily in this District, the mortality would be about equal to that reported from Cairo.

In the death of Montgomery Blair the public lose an excellent citizen and a public man of exceptional purity of character and nobility of purpose. He was, in fact, much too honest and conscientious to succeed in the methods of modern machine politics.

There was no change in the state of affairs existing between the telegraphers and the companies yesterday. The Government still continues to be a sufferer from the delay of the telegraph. It is claimed that the Attorney-General has been asked for an opinion as to the proper method of proceeding against the Western Union to recover the penalty for delay in forwarding Government messages. General sympathy for the strikers is felt in the department.

One of the great drawbacks to the happiness of Mr. Arthur as President is, it is said, that the ennobling music of "Hail to the Chief" is dinned in his ears from six to a dozen times a day. Enthusiastic office seekers whistle it as they enter the Executive mansion. When the President leaves that establishment the small boy strikes it up on Pennsylvania avenue. At the theater the orchestra sends it triumphantly up from the footlights. Negro delegations play it to him on the banjo and the Marine Band greets him with it when he visits the navy yard. The other morning when he stepped off the Dispatch at Cape May, there it was again, and before he leaves New York he will be treated to it at least a score of times. On his trip across the continent it will roll up from every station where the train stops. He may escape it in the Yellowstone Park, but it is not improbable that some musical bugler will meet him with its notes at the first military fort. The President should sue out an injunction against his tormentors.

HOWARD.

Codorus, Pa., Rev. J. D. Zehring says: "I was paralyzed in my right side. The use of Brown's Iron Bitters enabled me to walk."

What class of men have the most patience? Physicians, of course.

He who says a "pair of stairs," means only one stairs. He who speak of a ladder might just as consistently say a "pair of ladders." It is only when you tumble down stairs that the steps double on you.

"Is that about the right length, sir?" asked the skillful barber, as he finished cutting his customer's hair. "I like the sides and back," was the response; "but I wish you would make it a little longer on the top."

"What influence has the moon on the tide?" the teacher asked John Henry. And John Henry said it depended on what was tied; if it was a dog it made him howl, and if it was a gate, it untied it, just as soon as a cow or the young man came along. It is such things as this that make school teachers want to lie down and die every day at 4 o'clock.

We have heard of young ladies making Roman quilts out of pieces cut from scraps of their gentleman friends, but now we have a case of an East Yonkers dunsel who is building one out of patches taken from her male admirer's pantaloons. Whenever a young gentleman galler is so indiscreet as to tarry after the clock strikes ten, the amazon's parent lets loose the dog, and he is always sure to return with a large-sized addition to the quilt.

The reduction of the telegraph rate to sixpence in England has enormously increased the volume of telegraphic business. A celebrated firm of soap-makers sent out 50,000 telegrams by way of advertisement on the day that the cheap rate went into effect.

The London Crystal Palace is in decay. The great building, still a marvel of construction and convenience, still singularly impressive and curious, cannot much longer hold its place among the sights and wonders of the city. It has never paid since it was bought to be used as a place for popular entertainment.

The most deadly foe to all malarial diseases is Ayer's Ague Cure, a combination of vegetable ingredients only, of which the most valuable is used in no other known preparation. This remedy is absolute and certain specific, and succeeds when all other methods fail. A cure is warranted.

An observing person says: "Some men are like an umbrella with a crook-handle. They are always hanging around in out-of-the-way places, and are never to be found when they are wanted."

If there is a man who can eat his bread at peace with heaven and man, it is he who has brought that bread out of earth by honest industry. It is caskered by no fraud—it is wet with no tear—it is stained by no blood.

Home is not a name, nor a form, nor a routine. It is a spirit, a presence, a principle. Material and method will not and cannot make it. It must get its light and sweetness from those who inhabit it, from flowers and sunshine.

William E. Gladstone, during the War for the Union, invested £20,000 in Confederate bonds. Aside from this, Mr. Gladstone's public record is about as free from criminal blundering as that of any statesman in Europe.

The census of missions to be taken next year will, it is said, show an increase of 200,000 native Christians in India, Ceylon and Burma for the last ten years.

He who does his best, however little, is always to be distinguished from him who does nothing.

He who, with good health, has a true friend, may laugh adversity to scorn and defy the world.

A false friend is like the shadow on the sun-dial—appearing in sunshine, and vanishing in shade.

Have the courage to face a difficulty even though it should kick you harder than you bargained for. Difficulties, like thieves, often disappear at a glance.

The *Athenaeum* states that the trustees of the British Museum have lately received from Peking some typographic curiosities, in the shape of eight volumes containing portions of two Chinese works printed during the thirteenth century. These books are printed from wooden blocks, and display a marked inequality in the skill of the type-cutters. The paper, which is the ordinary Chinese paper, is in the case of one work much discolored by age. The volumes have evidently been carefully preserved, and at one time belonged to the library of a Chinese prince, who, in consequence of a political intrigue, was in 1360 condemned to die by a "silken cord." Hence the dispersion of his library.

RUTGERS COLLEGE

[Chartered as "Queen's College" in 1770]
New Brunswick, N. J., one hour from New York on Penna. R. R. Year begins (examination for admission) Sept. 20, 1883.

Sloan Prizes for best (classical) entrance examinations: 1st, \$400 (\$100 cash); 2nd, \$350 (\$50 cash).

Additional endowments. New Library Fund. 12 Professors, no tuition. Classical course thorough. Ample provision for Electives, Junior and Senior years.

Scientific Department.

The New Jersey State College to Promote Agriculture and the Mechanic Arts.

A practical Scientific School of high grade. Two courses of four years each.—"Engineering and Mechanics," and "Agriculture and Chemistry."

Thorough work with constant field practice in Engineering and Surveying. Careful laboratory work in Chemistry, with full apparatus for each student. A well equipped Astronomical Observatory, for students' use. Full course in Draughting.

Increased Facilities for the Study of French and German, with a view to practical use.

Forty State Scholarships Free: eight of them now vacant, to be filled before Sept. 20th. Full information in Catalogue. Graduates who wish them, uniformly secure profitable positions. For catalogue, or any information, address "Sec'y Rutgers College, NERULL-EDWARDS GATES, Ph. D., LL. D., President."

NEW JERSEY STATE Normal and Model Schools, TRENTON.

Fall Term will commence Monday, Sept. 17th, 1883.

TOTAL COST for Board, Tuition, Books, etc., at the Normal School, \$164 for Ladies, and \$160 for Gentlemen; at the Model School, \$200 per year. The Model School offers to both young Ladies and Gentlemen superior advantages in all its Departments: viz., Mathematical, Classical, Commercial, Musical, Drawing, and in Belle Lettres. For Catalogue containing full particulars, address

SEEK

health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN'S IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.
Gentlemen—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the king of medicines.

JOHN K. ALLENDEE.

BROWN'S IRON BITTERS

is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

HAMMONTON, N. J.

A Chinese Funeral.

I was disturbed one day during my mid-day meal at Hong Kong by a commotion in a street adjoining the one in which I was residing, caused by a Chinese funeral of more than the usual pretensions.

What may be particularized as the public obsequies of the deceased, on the special occasion I refer to, were commenced by a procession issuing from the house on the mission known as "buying the water" wherewith to wash the body of the deceased.

It is the general custom in China, when a man is about to die, for the eldest son to remove him from the bed to the floor of the principal room of the house where he is laid with his feet to the door.

Whether all these practices are observed in Hong Kong I am unable to say; probably the setting open of the windows and doors is regarded as a preferable proceeding to making a hole in the roof, more especially when the death happens to occur in the lowest room of a three-storied house.

After the body of the deceased is washed in this manner it is dressed in the best clothes which belonged to the man in his lifetime, a hat being placed on his head, a fan in his hand and shoes on his feet, the idea being that he will be clothed in these habiliments in Elysium, and consequently that he must appear there as a respectable and superior member of society.

of the coffin in the street, the coffin being elaborately-varred and lavishly-fitted sedan-chairs, constructed especially for use on such occasions.

Two or three altar-pieces, emblazoned with the name and age of the deceased, were also carried in the procession; also banners, the deceased's tablet and photograph, and other articles—the bearers all being dressed more or less in mourning costume.

At Mount Davis the body was consigned to the earth with much lamentation, incense-burning and prayer. There was, however, apparently, but little difference between the ceremonies engaged in at the grave, so far as the priest, the mourners, and especially the "musicians" were concerned, and those earlier in the day.

The burial places are sometimes selected by necromancers, and if the family be rich this selection is often made a matter of considerable difficulty and expense. A good view for the embowed spirit is one of the chief requirements for a grave.

The Medical Value of Vegetables.

On the authority of the Medical Record, asparagus is a strong diuretic, and forms part of the cure for rheumatic patients at such health resorts as Aix-les-Bains, Sorrel, and Colmar.

Turnips, in the same way, are often thought to be indigestible, and better suited for cows and sheep than for delicate people; but here the fault lies with the cook quite as much as with the vegetable.

Turnips, in the same way, are often thought to be indigestible, and better suited for cows and sheep than for delicate people; but here the fault lies with the cook quite as much as with the vegetable.

The Dear Aunt.

"Good gracious, ma, do come to the window and see who this is," exclaimed Sarah Bellinda.

"What did she say?" said Aunt Sally, looking from one to the other.

"She said," screamed Mrs. Mushroom, "putting her mouth close to the old lady's ear, 'that she considers it a high compliment, for you must have been very handsome when a girl.'"

"What did she say?" said Aunt Sally, looking from one to the other.

"What did she say?" said Aunt Sally, looking from one to the other.

"What did she say?" said Aunt Sally, looking from one to the other.

Revolutionary Reminiscences.

In Frankford, Pa., a suburb of Philadelphia, back of an old anti-revolutionary mansion, stands a little octagonal Summer house, at the spot where the Fourth of July was celebrated.

The Caterer.

Raspberries.

RASPBERRY VINEGAR.—Place in an earthen or stoneware vessel bruised ripe raspberries and vinegar of each two quarts. Cover and let stand for twenty-four hours; then strain and press through a fine hair sieve. To each pint of liquor add one pound of white sugar. Place on a moderate fire and stir with a wooden spatula until the sugar is entirely dissolved. Now remove from the fire and take off the scum. When cold add to each quart two ounces of proof spirits.

CONCENTRATED RASPBERRY VINEGAR.—Put two quarts raspberries, whole, into a jar and pour over them one quart of the best white wine or apple-cider vinegar; cork up the jar closely and let them stand to infuse for one week. Then pour all into a hair sieve and strain off the liquor. Put two quarts of fresh raspberries into a clean jar and pour the raspberry liquor over them; cork up closely and again let stand for another week, after which filter the infusion and add six pounds of the finest white pulverized sugar. Place on a moderate fire and stir until the sugar is completely dissolved. Now remove from the fire, take off the scum, and bottle. Both these vinegars, when duly diluted with water, make a most agreeable and cooling drink, and one which is peculiarly grateful in fevers.

RASPBERRY SYRUP.—Mash four quarts of raspberries in an earthen pan; set in a warm place until fermentation commences. This fermentation, I will here say, is desirable in order to destroy the pectin or mullage contained in the fruit, and which would cause the syrup to jelly after being bottled. Now filter the juice and add the sugar—two pounds of sugar to each pint of juice. Place on a moderate fire and stir constantly until the sugar is entirely dissolved. Then remove the scum and bottle. This syrup, like the vinegar, makes a very delicious flavor for various beverages.

RASPBERRY JAM.—Mash a quantity of raspberries in an earthen pan and add pulverized sugar—one of sugar to each pint of pulp. Place on the fire and stir constantly with a long-handled wooden spatula for twenty-five minutes. Then fill your glasses or jars with the warm jam, and when cold lay a piece of braced paper, cut to suit, over the top of the fruit (this is done to prevent mold). Cover the jars tightly with paper or bladder and set away for use.

RASPBERRY CREAM.—A quart of the richest cream will be required for one pint of raspberries; mash and rub the fruit through a fine hair sieve to extract the seeds. Boll the cream and add it to the pulp while it remains hot. Sweeten with powdered sugar to your taste. Let it become quite cold. Now take off the froth with a perforated skimmer, and lay it on a hair sieve to drain. Then fill your glasses with the residue of the cream and top off each glass with froth.

RASPBERRY RATAPIA.—To four quarts of raspberries add two quarts of proof spirits and one pound of white sugar. Infuse in a close vessel for one week. Now strain and press through a hair sieve, after which filter through a flannel bag and bottle.

RASPBERRY BRANDY.—Mix together equal parts of mashed raspberries and brandy. Cover closely and allow to stand for twenty-four hours. Strain and press. Sweeten to taste. Flavor with cinnamon and cloves. Filter through a flannel bag and bottle.

RED CURRANT JELLY.—Free the fruit from all stalks and leaves and add to them one-fourth their weight or measure of red raspberries. Mash them all so as to crush every berry. This operation of mashing will be greatly facilitated by making the fruit scalding hot. Now pour the pulp into a flannel jelly bag to filter, placing a wooden or earthen vessel underneath to catch the juice as it trickles through. Boll the filtered juice in a bright copper preserving pan, allowing one pound of white sugar to each pint of juice; remove the scum as it rises on the surface. A very delicate flavor will be obtained by adding a little orange-sauce in cold water or on the fire. If it coagulates in a moment it is done, but if it remains fluid the boiling should be continued. We will here say that one of the all-prevailing mistakes by our housewives in making currant jelly is that they boll it too much. The flavor of currant jelly is made still more delicious

by the addition to it of a fourth part of raspberry; this tones down the sharp acid of the currants. BLACK CURRANT JELLY is made precisely as the above, except that the fruit being hard and dry, a little red currant juice must be added. In the absence of juice water may be used.

ANOTHER METHOD of making red currant jelly is as follows: Pick the berries from the stalks into a stone jar; when you have the desired quantity cover the jar closely and set it in a large saucpan half full of cold water, place on the fire and simmer for an hour. Now pour the contents of the jar into a jelly bag and let the juice filter into an earthen pan. Be particular to avoid pressing the bag, as this forces through what would detract from the brilliant color of the jelly. Now add a pound of finely pulverized white sugar to each pint of juice. Place on the fire and stir constantly until the sugar is dissolved and the scum has risen. This scum must all be carefully removed. You have now only to fill your glasses or jars with the warm jelly, and when quite cold lay braced papers over the surface of the jellies and cover tightly with paper or dried bladder and set away for use.

CRABAPPLES.—Mash three quarts of currants and one quart raspberries together in an earthen pan. Let these stand until fermentation begins; then filter off the juice and add sugar; two pounds to each pint of juice. Now place over the fire, and stir until the sugar is entirely dissolved. Then remove from the fire, take off the scum, and bottle. This is a most exquisite flavor with which to heighten the cooling qualities of summer beverages.

Lemons. There is no more wholesome, refreshing and grateful beverage for family use or as an offering to a friendly visitor than a well-made glass of lemonade. As commonly and hastily prepared it is often pungent, overtart, and leaves a dry, powdery taste upon the tongue. Besides, one has not always the ready fruit at hand when wanted. A little forethought and labor at the proper season, and a faithful observance of the following directions, will enable one to have a delicious beverage ready to serve the whole year round.

The midwinter months are the period of the greatest abundance, cheapness and high quality of most tropical fruits. It has long been the practice in my family to make up at that season a whole box of lemons, with the requisite number of oranges, into syrup; and so we have a full twelve months' supply for household use, as well as for visitors, and to send to invalid friends and neighbors. We call it by the name it bears in Italy and the Orient, where it is a common family beverage; in Arabic, sherbet, from shereb, to drink; Hindoo, shoorb; Italian, sorbetto; French, sorbet; English, sherbet.

LEMON SHERBET.—The best lemons come to us from Florida, and the next in quality from Palermo, in Sicily. Choose those having a thin, smooth skin, large and solid, in preference to thick, rough-skinned ones, which are almost sure to prove spongy and dry. Select from those that have never been unwrapped, wash them lightly in cold water, wipe dry, wrap in clean, soft paper and keep in a cool, dry place. This treatment removes any stale flavor communicated by decaying fruit or the odor of the box. The best oranges for this purpose are those from Jamaica, and next the Florida. Buy them, like the lemons, in their original wrappers; wash and rewrap in like manner.

The materials and proportions for the syrup are as follows: Three pintlemons juice, one pint orange juice and six pounds granulated sugar. This will require about three dozen lemons and a half dozen oranges, all of large size. With a fine grater rub off the thin yellow rind of the fruit, but none of the white; the lemons and oranges separately, of course. Mix the gratings well with four times their weight of pulverized white sugar and put into bottles, which keep corked when not in use. You have thus two excellent, pure, ever-ready flavonics for cakes, pies, puddings, blanc-manges, ices, and whatever else you like.

Now pare off the white rind, scraping it clean down to the pulp. Cut the fruit in half, pick out all the seeds, squeeze out the juice with a wooden squeezer and strain it as far as possible through a flannel jelly-bag. Measure it, add to each quart of the mixed juices three pounds of sugar; stir it until it is a perfectly clear syrup, pour into wide-

moulted bottles or jars, brimful, and keep in a dark, cool place until they are clear and free from specks; carefully remove the scum, cover tightly and keep in a cool cellar or in an ice-chest. This made the syrup will retain its freshness for any length of time. The above recipe should yield about six quarts, or sufficient for about sixty glasses of very rich sherbet. It may be mixed either with ice-water as a cooling drink, or with hot water as a night-cap. Made in the large way the last trial by the writer was as follows: One box lemons, 300 large and fine; 50 oranges; yield, 12 quarts lemon juice; 43 pounds of sugar; product, 30 quarts syrup. It is always welcome and popular. It is always welcome and popular. It is always welcome and popular.

All this may seem a needless amount of labor but it is amply repaid by the superior yield and quality of the syrup. The seeds are bitter, and if any are crushed in the squeezer, or remain a short time in the juice, they impart their flavor to it. So of the peel; if the fruit is pressed without removing the juice is embittered by it; more over, it absorbs a portion of the oil and so causes waste. Lastly, the oil of the rind, or zest, tends to cause fermentation in the syrup and prevents its keeping. Wine made for immediate use is made in a different manner. It is made in a different manner. It is made in a different manner.

Recent Legal Decisions.

SALE ON MORTGAGE.—A question was raised upon an instrument in writing given upon the payment of \$1000, which was to be for an interest in certain printed abstracts of public records, or in lieu thereof the amount was to be returned with 10 per cent interest. The trial Court found that the instrument was a chattel mortgage, and on the appeal of the case—Rockwell vs. Humphrey—to the Supreme Court of Wisconsin, the judgment below was affirmed. Judge Cassaday, in the opinion, said: "Where the language of the instrument is equivocal, and the relation of debtor and creditor is not created by the transaction, and never existed, and the vendee takes and retains possession of the property, and its value is not perceptibly in excess of the consideration paid, and there is nothing to indicate an intent to transfer the property as a mere security, the transaction has usually been held to be a conditional sale. If after the transaction no debt remains there is no mortgage, but only a conditional sale. On the other hand, when the relation of debtor and creditor is created by the transaction, or previously created, and by express language, or fair implication continues, and the possession is retained by the vendor, and the value of the property is greatly in excess of the consideration paid, the transaction has usually been held to be a mortgage."

As a way out of difficulty Courts have generally held the transaction to be a mortgage in all doubtful cases, because the ends of justice are the more apt to be attained and fraud and oppression more likely to be prevented by such a construction.

SALE—FOR CASH—PAYMENT WAIVED.—A sold for cash to B 300 packages of goods, who, in turn, sold them to C. He then attached the goods in the hands of C as the property of B, and C took them back by repurchase. An action for conversion was then brought, and the plaintiff recovered. The defendant carried the case, in error—Heller vs. Elliott—to the Supreme Court of New Jersey, where he got a decision in his favor. The Chief Justice, Bessley, in the opinion, said: "The jury have found that as the sale was for cash, and no money was paid, that the title did not vest in the vendee, but remained in the vendor. But if the vendor in any way waived the requirement of a cash payment, then the title vested in the purchaser. In this case we think there has been a waiver of the condition of payment. After the delivery of the merchandise, and after the sale of it by the vendee the original vendor caused an attachment to be issued against the property of his vendee for the price of the goods and had these very goods levied upon under the writ. When the plaintiff proceeded to enter upon this cause of law he was plainly in a position to adopt either branch of an alternative."

He could have insisted that he was still the owner of the goods and had recovered them and sued the vendee for a breach of his stipulation to accept and pay for them, or he could waive the stipulation as to payment as a prerequisite to the vesting of the title, and sue for the stipulated price. This latter course was the one pursued by him when he sued out the writ of attachment, and that procedure is utterly incompatible with the theory that the title to the property had not become fixed in the vendee."

(1) SURETY—PARTNERSHIP—DISSOLUTION.—(2) SUBROGATION OF SURETY.—A, B and C, partners, made their firm note to D, who indorsed it, and it was negotiated. The firm paid interest upon this note until A left the concern. B and C took the assets and assumed the liabilities. In an action by C against A and B on this note, he, C, having paid it, the defendants had judgment. C carried the case—Moore vs. Tomlin—to the Supreme Court of Illinois, where a reversal was got.—Judge Sheldon, in the opinion, said: "(1) As between A, B, and C, after the dissolution and assumption of the assets and liabilities, A and B were principal debtors and C their surety upon this note. (2) It is a settled principle in equity that a surety upon paying the debt of the principal is entitled to be substituted in the place of the creditor as to all securities held by the latter, and have the same benefit he would have therein."

CONTRACT TO EXTEND TRADE.—NOT IN WRITING.—PARTNERSHIP.—A, B and C, partners, made their firm note to D, who indorsed it, and it was negotiated. The firm paid interest upon this note until A left the concern. B and C took the assets and assumed the liabilities. In an action by C against A and B on this note, he, C, having paid it, the defendants had judgment. C carried the case—Moore vs. Tomlin—to the Supreme Court of Illinois, where a reversal was got.—Judge Sheldon, in the opinion, said: "(1) As between A, B, and C, after the dissolution and assumption of the assets and liabilities, A and B were principal debtors and C their surety upon this note. (2) It is a settled principle in equity that a surety upon paying the debt of the principal is entitled to be substituted in the place of the creditor as to all securities held by the latter, and have the same benefit he would have therein."

EDUCATE YOUR DAUGHTERS.—Give your daughters a thorough education. Teach them to cook and prepare the food of the household. Teach them to wash, to iron, to sew on buttons, to make their own dresses. Teach them to make bread, and that a good kitchen lessens the doctor's account. Teach them that he only lays up money whose expenses are less than his income, and that all grow poor who have to spend more than they receive. Teach them that a callow dress paid for fits better than a silken one unpaid for. Teach them that a full, healthy face displays greater lustre than fifty vases of pomphrey. Teach them to purchase and see that the account corresponds with the purchase. Teach them good common sense, self-trust, self-help and industry. Teach them that an honest mechanic in his working clothes is a better object of esteem than a dozen haughty, finely dressed idlers. Teach them gardening and the pleasures of nature. Teach them, if you can afford it, music, painting, etc., but consider them as secondary objects only. Teach them that a walk is more salutary than a ride in a carriage. Teach them to reject with disdain all appearances, and to use only "Yes," or "No," in good earnest. Teach them that happiness of matrimony depends neither on external appearance nor on wealth, but on the man's character.

God's Goodness.

He sends the sunshine and the rain. He creates flowers to be seen. He gives us the green grass. He gives us strength to lift the mill. Our way he leads us through. His bounty sweetens all our toil. And crowns our lives with peace!

The changing seasons come and go. He wakes from Winter's sleep. The joyous Spring that we may love. Against the time to reap. He fruitful makes the barren ground To crown our toil with cheer. His goodness still in all is found, Throughout the varied year.

What tho' the primal curse be laid, He tempers it with love. The very curse a joy is made, For foil a joy doth prove. And let us murmur as we will, When all goes not quite right, His mercy falls upon us still. As falls the dew at night.

—REV. MARY (PA.) BOME NEWS.

Little Patty. "Aunt Cindy is growing worse every day," soliloquized Squire Berrian, drawing his eyebrows together in perplexed frown. "I must really write to Sister Jane and see if she cannot spare one of the girls to come and keep house for me. The very idea! It's a wonder I never thought of that before. The girls must be all grown up by this time, and married, perhaps, some of them. Even little Patty, the youngest of all, is a woman grown, and a good housekeeper. I've had enough of that—going off without a moment's warning, and leaving me to the tender mercies of old aunt Cindy. However, I must write to Jane at once, for I shall certainly commit suicide, or go demented, if this state of anarchy continues much longer."

Having supplemented his request with the offer of a liberal salary, Squire Berrian received a prompt answer from Sister Jane. "Phronie, the eldest girl, was married," she wrote. And Cyrena, the second, was engaged and was making preparations for her own wedding. Roxie had been sick, and could not leave home at present, but Tilly, the youngest, might go and keep house for her uncle. And Patty is the best housekeeper of the lot," concluded Sister Jane.

"I'm glad it's Patty, after all," mused the squire, as he drove down to the station to bring her out, "though I haven't seen her since she was nine years old."

"That's twelve years ago. Bless me, how time flies! Is it possible I shall be forty years on my next birthday?" It was possible certainly, for it was a fact. But nevertheless the forty years must have dealt kindly with the squire, for his firm erect figure, his raven hair, and clear piercing grey-black eyes might have belonged to a much younger man.

"And so this is little Patty," he said, casting a pleased glance at the tall slender girl who stood before him in her pretty traveling suit, her fair, rounded cheeks dimpled with smiles and blushes.

"And you are going to be my little housekeeper, and order Aunt Cindy around, and take care of your old uncle generally, Patty?" said the squire, as they drove home over the grassy road behind a span of sleek prancing bays.

Some bits of spicet needlework in her

A Mormon temple was destroyed by fire in Utah last week. This was a burning shame—and we hope there will be more like it.

A year ago the population of Ireland was estimated at 5,097,730, but in the interim emigration has left very few remaining of the ninety odd thousand.

It is reported that a woman in Milan, Tenn., was stung on the nose by a bee recently and died from the effects in a few minutes, although having been otherwise in apparent good health.

Owenton, Ky., Rev. J. N. Beck says: "I have used Brown's Iron Bitters, and consider it one of the best tonics sold."

An Altoona man claims to have seen a veritable hoop snake near that place. It is strongly suspected that he devoted considerable time to inspecting the contents of the barrel before he saw the "hoop."

Two books formed with sheet iron leaves have been sent to the Amsterdam exhibition by English firm as an illustration of the perfection to which the progress of rolling sheets of iron has been brought. The leaves are said to be no thicker than good-toned paper.

The Secretary of Treasury has instructed the American Consuls in England to carefully inspect the sanitary condition of vessels leaving ports there for the United States, and to inform by cable the health authorities in this country of all such vessels having disease on board or being liable to develop disease on the voyage. This action was taken in consequence of the rumor which has reached here that cholera had appeared in the London docks.

The curative power of Ayer's Sarsaparilla is too well known to require the specious aid of any exaggerated or fictitious certificate. Witnesses of its marvelous cures are to-day living in every city and hamlet of the land. Write for names if you want home evidence.

W. N. BANNARD, Superintendent.
J. B. WOOD, Gen. Pass. Agt.

ESTABLISHED 1 HOWARD A. SNOW, Washington, D. C.

SOLICITOR OF
AMERICAN AND FOREIGN PATENTS,
Successor to GILMORE, SMITH & CO., and CHIPMAN, HOSMER & CO.
Patents procured upon the same plan which was originated and successfully practiced by the above-named firms. Samples of sixty pages sent upon receipt of stamp.

MILLVILLE MUTUAL Marine & Fire Ins. Co.

This Company have disposed entirely of all its **BECK PLAN BUSINESS**, and having been **RE-ORGANIZED**, has decided to in the future do a
Strictly Mutual Home Business.
Having succeeded in paying ALL ITS LIABILITIES, and securing as
Actual Net Available Surplus of Over \$30,000,
the Directors feel that they can offer to all who desire insurance not only as **LOW RATES** and **UNQUESTIONABLE SECURITY**, but much greater probability of immunity from assessment for years to come, than other Companies, since this surplus is large enough to pay all probable losses on the policies now in force, until their expiration, without any dependence on receipts from new business—a condition of things that can be shown by but very few companies in the State. The present Directors pledge to the Policy Holder, an
ECONOMICAL MANAGEMENT
and a
Careful Supervision of the business
and will continue in the future, as in the past, to act on the principle of
PROMPT PAYMENT
OF
HONEST LOSSES
without seeking to EVADE them on technical grounds.
Hereafter, no notes will be subject to assessment, until they are a year old.
We would call especial attention to our
Marine Department,
our **LOW RATES** and **FAVORABLE FORM OF POLICIES.**
Any information cheerfully given by the officers of the company or its Agents,
F. L. MULFORD, Pres.
R. J. HOWELL, Sec'y.
Dec. 3rd, 1883.

HELP

Yourselves by making money when golden chance is offered, thereby always keeping Poverty from your door. Those who always take advantage of the good chances for making money that are offered, generally become wealthy, while those who do not improve such opportunities, remain poor. We want many men, women, boys and girls to work for us right in their own localities. The business will be more than ten times ordinary wages. We furnish adequate outfit and all that you need, free. No one who engages fails to make money very rapidly. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed sent free. Address **STRONG & CO., Portland, Maine.**

THE CENTURY.

For 1882-3.
The twelfth year of this magazine—the first under the new name, and the most successful in its history, closed with the October number. The circulation shown a large gain over that of the preceding season, and THE CENTURY begins its thirteenth year with an edition of **140,000 Copies.**

The following are the leading features:
A New Novel by W. D. Howells. "To succeed this author's 'Modern Instance.' It will be an international story, entitled 'A Sea Change.'
Life in the Thirteen Colonies. By Edward Eggleston—the historical feature of the year; to consist of a number of papers, on such topics as "The Beginning of a Nation," "Social Life in the Colonies," etc. The whole forming a complete history of early life in the thirteen States. A special attention will be paid to accuracy of illustrations.
A Novelle of Mining Life. By Mary Halleck Foote, entitled "The Led-Horse Claim," to be illustrated by the author.
The Point of View. by Henry James, Jr. A series of eight lectures, from a magnify person of various nationalities, criticizing America, its people, society, manners, etc.
The Christian League of Connecticut. By the Rev. Washington Gladden. An account of practical co-operation in Christian work, showing how a league was formed in a small town in Connecticut, throughout the whole State.
Radder Grange Abroad. By Frank R. Stockton, a continuation of the droll "Radder Grange" stories, the scene being in Europe.
The New Era in American Housebuilding. A series of four papers, fully illustrated, devoted to (1) City Houses, (2) Country Houses, (3) Churches, (4) Public Buildings.
The Creoles of Louisiana. By Gen. W. G. Cable, author of "Old Creole Days," etc., a fresh and graphic narrative, richly illustrated.
My Adventures in Zuni. By Frank H. Cushing, government ethnologist, an adopted member of the Zuni Tribe of Indians, illus.
Illustrated Papers on the National Capital. Including "The Capitol," "The Supreme Court," "The White House," etc.
Missions of Southern California. By "H. H." Three or four papers of an exceedingly interesting character, richly illustrated.
MISCELLANEOUS.
Further work is expected from E. C. Steadman, Thomas Hughes, Joel Chandler Harris ("Uncle Remus"), Chesley Wainor, John Burroughs, E. V. Smalley, H. H. Boyesen, and a long list of others. Entertaining short stories and novellas will be among the leading features of THE CENTURY, as heretofore, and the magazine will continue its advance in general excellence. The subscription price is \$4 a year; 35 cents a number. Subscriptions should begin with the November issue, and to enable new subscribers to commence with the new series under THE CENTURY name, we make the following
SPECIAL OFFER.
A year's subscription from Nov., 1882, and the twelve numbers of the past year, unbound, at a subscription and the twelve back numbers bound in two elegant volumes with gilt top, \$7.50.

GOLD

Great chance to make money. Those who always take advantage of the good chances for making money that are offered, generally become wealthy, while those who do not improve such chances remain poor. We want many men, women, boys and girls to work for us right in their own localities. An one can do the work properly from the first start. The business will pay more than ten times ordinary wages. Expensive outfit furnished free. No one who engages fails to make money rapidly. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed sent free. Address **TITZ & CO., Portland, Maine.**
