To a Friend.

BY L. E. L. S.

My friend, God is near thee,
May he ever be with thee;
May Heavenly rays o'er thy path ever shine
May His sweetest pleasures
And life's dearest treasures
And blessings, my friend, forever be thine.

May angels so sweetly
Ever hover around thee;
And thoughts, pure and holy, bid sorrow depart;
May peace, like a river,
Be with thee forever,
And love, like a rose, ever bloom in thy heart.

Oh! may years of pleasure,
As they speed, fall as lightly
O'er thy path as the flowers in morning that bloom;
And, if brightest hopes perish,
And friends that thou cherish
Go to their rest in the cold, silent tomb,

Like soft evening zephyrs
May their angelic voices
Float in the breeze from their realms of love;
And tell thee in whispers
That, with them, thou shalt gather
The jewels, dear friend, in glory above.

ELWOOD, N. J., Aug. 4, 1881.

To the Editor of the South Jersey Republican:
DEAR SIR:—The object of the law entitled "An act to regulate the practice of Medicine and Surgery" is evidently to prevent persons not qualified from attempting to engage in that practice; hence the penalties prescribed, etc. The object of requiring "a copy of the diploma filed" is to give the people an opportunity of knowing who are qualified, and how they are qualified. Hence a copy of the diploma of the college or school from which they graduated is to be a matter of record, and "open to public inspection." Hence I hold that when a person practices indiscriminately in any county, he must file a copy of his diploma in the Clerk's office of that county, else how could the people know of his qualifications, as are intended to be shown by the act of filing a copy of his diploma. If, then, one cannot legally practice in a county in which a copy of his diploma is not filed, he cannot give a Certificate of Death, as attending physician in this county; for it is a well-established maxim in law that *Sicui non licet quod majus—non debet quod minus licet*. If it were so, then any man, woman or child that rendered some service or assistance to the dying one might give a Certificate of Death, and thus the object of the law in question, as well as that of the law of vital statistics, would be frustrated. This being the case, and as some undertakers, living at a distance from the county-seat, have not a ready access to the names on file, I sent each one a list, as was my duty as County Physician, as well as having the same published in our county papers—not with intention of injuring any one but that the laws in question might be known and observed.

The fifth section of the law comes in as a proviso, and is a wise one. It allows any physician or surgeon in good standing and legally qualified to practice medicine or surgery in the state—not county, you will observe—in which he or she resides, to practice in this State. The object, as I understand it, is to excuse any physician qualified as above from the penalties of the law when he is called in consultation with any one in this State, or when he accompanies or visits his patients and treats them at any of our many health-giving seaside resorts, or elsewhere in our State. But, as soon as that physician or surgeon opens an office or appoints a place where he may receive calls, he becomes a "sojourner, and shall conform to the first section in this act."

The above I hold to be the "spirit and reason of the law," and it plainly refuses to any one whose diploma is not filed in the Clerk's office the right to practice medicine or surgery in any of its branches indiscriminately in our county. It is true, it accommodates all our visiting brothers from other states, and allows any one to render assistance in perhaps emergencies, but not for gain, directly or indirectly; yet, even in this he must be of good standing and legally authorized to practice in his own state.

I do not think the disciples of Blackstone, who would render a different interpretation, follow their master, for he tells us that "To interpret a law we must inquire after the will or intention

of the maker, which is collected from the spirit and reason of the law, which is the most universal and effectual way of discovering its true meaning." If, then, we accept the object of the law as above stated, we are forced to give the interpretation which we have given by the "will and intention of the maker."

I acknowledge the law is lame in many particulars; yet in it there are many good points. At least, the object is a good one, and while it gives to one of Paine's or Buchanan's five dollar diplomas the same legal rights as to one of the time-honored and world-respected medical colleges or Universities, yet it opens the way by which the public may know who work under bogus diplomas and who are properly qualified.

Then let us test the practical working of the law by a strict observance of the same. If the effects be good we shall enjoy its benefits; if bad, we shall the sooner discover those evil effects, and see the necessity of its being repealed.

I am, very respectfully,
D. B. INGERSOLL.

May's Landing, Aug. 9, 1881.

News Items.

The Republicans of Ohio are confident of having not less than ten thousand majority this fall.

General Robert Lowry, nominated for Governor of Mississippi by the Democrats, is a lawyer, an ex-Confederate or "rebel brigadier," and is 43 years old.

The leading Mississippi Democrats are running a race to see which can express the most liberal views. The shotgun is evidently falling into disrepute.

Sixty public meetings have been held in South Carolina to express sympathy for the wounded President. The negroes refused to participate in these meetings for some reasons not explained.

Johnny Bull's stomach is plying him with arguments against free-trade which his head cannot controvert. The stomach need not despair. The fable relates how it achieved a decisive victory over the rebellious legs.

A President who is able to sign his name in a "clear, firm hand," after all he has passed through, is just the kind of President to get well, in spite of Dr. Hammond and other able writers on "good surgery."

General Mott, under instructions from the Governor, who is Commander-in-Chief, will complete the military organization for Yorktown, and the General says there will be no meeting of the Military Board held for that purpose.

Second Assistant Postmaster General Elmer reports the net reduction in the Star-route and steamboat mail service during July as amounting to \$314,644, and that the total amount of savings by the reductions and discontinuances since March 14th is \$1,381,452.

President Garfield was subjected, on Monday, to a second operation by the skillful surgeons who have his case in charge; but there seems to be no reason for entertaining any alarm. Under all the circumstances, the President is doing as well as could be expected, and there seems to be scarcely a doubt of his convalescence.

A protective tariff may be a good thing for our country and a very disastrous thing for another, the Democratic

Missouri Republican admits, and it says: "In a comparatively new country like the United States, where manufactures are struggling to establish themselves, it is a great thing, because it is for the interests of the nation that such industries be established and all possible encouragement be given to this end."

The people of Philadelphia and vicinity will regret to see the Main Building of the Centennial exhibition demolished, but that this will be its fate now seems to be assured. To-day that splendid structure of iron and glass, which is by far the most imposing as well as the largest building on this continent, was sold at public auction. The price realized was only \$97,000, although the original cost was \$1,700,000.

On Friday afternoon as a passenger train out of Camden on the West Jersey and Atlantic City Railroad was on its way to Atlantic City, a child by the name of Lizzie Young, aged five years, strolled away from its mother, on the outskirts of the city, and was in the act of crossing the track when the engine of the train struck her, killing her almost instantly, in sight of her mother.

Orville Grant, brother of ex-President Grant, and who for some time past has been an inmate of the State Asylum for the Insane at Morris Plains, died last Friday. His remains were taken to Elizabeth for interment. He had been there since 1880. Mr. Grant's mind had been affected for some time previous to his death. His infirmity began to be noticed in the wild speculations he indulged in. He roamed over the country engaging in all kinds of ventures, and at last his friends were obliged to place him in the asylum, where he died.

The Council of Administration of the Grand Army of the Republic, Department of New Jersey, decided to hold no general encampment this year, causing considerable dissatisfaction among the rank and file. Henry Wilson Post, No. 13, of Jersey City, has taken the matter up and made arrangements to have a three day's encampment at the Union Hill Schuetzen Park. All the Posts in the state will be invited to attend, and also the Fourth and Ninth Regiments of the National Guard. The encampment will commence on Monday September 13, and close on Wednesday the 15th.

Invigorating Food for the Brain and Nerves is what we need in these days of rush and worry. Parker's Ginger Tonic restores the vital energies, and brings good health quicker than anything you can use. *Tribune.* See adv.

The Cyclopaedia War.

The month of July, 1881, witnesses the completion of the largest and most important literary work this country and the century have seen. It is the Library of Universal Knowledge, large type edition, in 15 large octavo volumes, containing 10 per cent more matter than Appleton's Cyclopaedia, at less than one-fifth its cost, and 20 per cent more than Johnson's Cyclopaedia, at a little more than one-fourth its cost.

Chambers's Cyclopaedia, which forms the basis of the Library of Universal Knowledge (the last London edition of 1830 being reprinted verbatim as a portion of its contents), is the laborious product of a century of scholarship. It has developed a new method of cyclopaedia making; its various

revisions, in successive years, till it has come to be universally recognized, by those competent to judge, as standing at the very front of great aggregations of knowledge, and better adapted than any other Cyclopaedia for popular use. It contains such full and important information as the ordinary reader, or the careful student, is likely to seek, upon about 25,000 subjects in every department of human knowledge. Chambers's Cyclopaedia, however, is a foreign production, edited and published for a foreign market, and could not be expected to give as much prominence to American topics as our American readers might desire. To supply these and other deficiencies a large corps of American editors and writers have added important articles upon about 15,000 topics, covering the entire field of human knowledge, bringing the whole number of titles under one alphabetical arrangement to about 40,000. Thus the work is thoroughly Americanized, and the Library of Universal Knowledge becomes at once the latest and most complete Cyclopaedia in the field, at a mere fraction of the cost of any similar work which has preceded it.

Price of the 15 volumes, complete, in extra cloth binding, \$75.00. In half Russia, sprinkled edges, \$20.00. In half Russia, gilt top, \$22.50. In full library sheep, marbled edges, \$25.00.

The superlative value and importance of this great Encyclopaedia lies especially in the fact that it is brought within the reach of every one who aspires after knowledge and culture. It is really a library. It brings a liberal education easily within the reach even of every apprentice boy of the city. Every farmer and every mechanic in the land owes it to himself and to his children that such a Cyclopaedia shall henceforward form a part of the outfit of his home. To the professional man, and every person of intelligence in every walk of life, a Cyclopaedia is a necessity.

Of course the old and wealthy publishers who have grown rich (it is said that the Appletons have made a profit of nearly two million dollars on their Cyclopaedia) from the sale of their high-priced publications are not pleased that their monopolies are broken and their power overthrown. Of course the book agents and booksellers who have been used to getting from 40 to 60 per cent commission for selling these high-priced books are not so well pleased to sell the Library of Universal Knowledge on 15 per cent commission, though those who are not short-sighted discover that their own interests, after all, are identical with the interests of the people, and their real profits, in the end, are increased, by the immense sales which result from meeting the people's wants. The majority of booksellers, however, are better pleased to stander than to sell this and our numerous other standard and incomparably low-priced publications. But the Literary Revolution has always looked to the people, in whose interests it is, for its patronage, and it has never looked in vain, as our more than one million volumes printed last year (this year being increased to probably more than two millions) abundantly prove. You can order the Cyclopaedia directly from us, and by uniting with your neighbors and friends you can secure club rates as follows:

\$10,000 Reward
to be distributed equally among the first 500 club agents who send us clubs of not less than five subscribers, after June 15th and before September 1st.

\$5,000 Reward
in addition to the first \$5,000 to be distributed among the 100 club agents who send us the largest number of subscribers, and the remaining \$5,000 will be distributed among the subscribers which each of the 100 club agents may send us.

The names of the subscribers must every case be forwarded to us. The first \$5,000 named will be distributed as specified as rapidly as the orders are received, and the remaining \$5,000 will be distributed monthly on Sept. 1st. The names of the persons receiving these rewards will be printed, with the amounts received by each, and the list sent to all the club agents entering into competition for them. Subscribers must be actual purchasers for individual use, to entitle the club agent to the rewards under this offer, and not book-sellers or agents who buy to sell again.

Persons desiring to raise clubs may send us at once for sample volumes, if they desire, in the various sizes of binding, paying us 75 cents for the volume in cloth, \$1.00 for the volume in half Russia, sprinkled edges, and \$1.25 for the volume in library sheep. Orders for the full sets will be filled by us with the utmost promptness, within our ability to manufacture, beginning not later than July 10th, orders being filled in the order of their receipt.

Specimen pages of the "Library of Universal Knowledge" will be sent free upon request. Descriptive catalogues of our large list of standard publications, with terms to clubs, and illustrated pamphlet describing our making and typesetting by steam, will be sent upon application. Remits by bank draft, money order, or by express, at our expense. Terms of sale, 10 per cent cash, 10 per cent on delivery.

AMERICAN BOOK EXCHANGE,
101 N. ALDEN, MANHATTAN, N. Y. 104 Broadway, New York.

Subscribe for the "South Jersey Republican," the Republican paper of Atlantic County,---the out-spoken advocate of Temperance and all true morality. \$1.25 per year, in advance.

An Old Lady writes us: "I am 65 years old and was feeble and nervous all the time, when I bought a bottle of Parker's Ginger Tonic. I have used little more than one bottle and feel as well as at 30." See other column.

The Real Estate Record says: "Ex-President U. S. Grant has clearly made up his mind to become a resident of N. Y. Within the last few days he has purchased a residence in the finest quarter of the city. It is situated No. 3 East Sixty-Sixth street, and was the last of seven houses built by C. W. Luyster. It is a four-story, high stoop, brown stone building, built on a lot 34 by 100 feet. The cost is \$90,000.

Captain Cook, the Ohio man who elapped the mouth of the fellow who said he hoped Garfield would die, is famous. About 25,000 people have sent penny subscriptions to the Cincinnati Commercial to pay off his fine for the assault and to purchase a testimonial. The Commercial publishes four or five columns of names a day, and among them are those of Republicans, Democrats and Confederate soldiers. Many long lists of names are sent from work-shops, and some of the remarks sent with them are expressive. Thus one of the lists was headed with the hope that the amount contributed in excess of the fine would "be used to purchase a drum to drum the thing Morrison out of Ohio." Another: "We sincerely hope that the slap was of such a character as to keep the mouth of Morrison in a sling the balance of his natural life."

We have given Canada the sack—in fact, we have given Canada eighteen hundred sacks, and what is more, Canada likes it and holds on to them. It may be taken for granted that if there is any way in which the Kanucks can get round Brother Jonathan, they will take advantage of it, and the way they appropriate the mail sacks of the Government is only one specimen of their good will. During the month of June the Post Office Department sent to Canada 2,290 sacks of all sizes filled with mail, and all that there is any record of receiving back are 337, which were empty, up to June 15. Since that time we have received for no empty sacks from Canada. In July there went to the Dominion 2,255 sacks. It is impossible to tell how many of these have been returned filled with mail from Canada, nor how many were sent to the border offices and have been used in the Railway Postal Service, but if any came back they are simply those for which they have no use. We pay dearly for Canada fish, about ten times what it would cost at retail in the markets; how would it do to send in a bill for mail sacks?

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.
A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers, address J. H. REEVES, 43 Chatham St., N. Y.

ESTABLISHED 1854.

681-ly

THE GREAT KIDNEY REGULATOR AND DIURETIC.

KIDNEYEN is highly recommended and unsurpassed for WEAK or FOUL KIDNEYS, DROPSY, BRIGHT'S DISEASE, LOSS OF ENERGY, NERVOUS DEBILITY, or ANY OBSTRUCTIONS arising from GRAVEL or BLADDER DISEASES. Also for YELLOW FEVER, BLOOD and KIDNEY POISONING, in fact for all the diseases of the KIDNEYS.

By the distribution of a PORTET LEAF with NIPER BERRIES and BARKLEY MALT we have cured KIDNEYEN, which acts specifically on the ureters and urinary organs, removing deposits in the bladder and any straining, smarting, heat or irritation in the water passages, giving them strength, vigor and purity. It is a healthy and easy dose of medicine. It can be taken at all times, in all climates, without injury to the system. Unlike any other preparation for Kidney cures, it has a very pleasant and agreeable taste. It contains no poisonous or deleterious ingredients, and it is not a diuretic. Ladies especially will find it most valuable. It will cure all the diseases of the Kidneys, and is the only safe and reliable remedy.

OTICE.—Each bottle bears the signature of LAW, ENCE & MARTIN, also a Proprietary Government stamp, which permits KIDNEYEN to be sold (without license) by druggists, grocers and other persons everywhere. Put up in Quartets Bottles for General and Family Use. LAWRENCE & MARTIN, Proprietors, Chicago, Ill. Sold by Druggists, Grocers, and Dealers everywhere.

London Nursery

JAPANESE PERSIMMON TREES 4 ft to 6 ft in 12 choicest kinds. Dried specimen fruits received last season from Japan—would when fresh from the tree, have weighed 16 ozs. with the flavor of a rich Smyrna fig.
Should these, like the shrubs and Superb evergreens introduced from Japan, prove hardy as authorities have already pronounced them to be, we may look forward in this instance to an acquisition of the highest commercial importance as a fruit and tree of great magnificence.

NEW PEAR.

Triomphe de Lyons, a late variety whose fruit is the largest known.
Also large general stock of fruit, shade, rare evergreens, shrubs, hedge, budding, and greenhouse plants, all of which will be sold at about half price by

J. BUTTERTON,
Hammononton, N. J.

FOR SALE!

Now is the time for me to sell. Will you buy I offer you a two-story house, with two well-ventilated stores, and dwelling above, in the business-part of the town. A first class garden, set with fruit trees and grape vines.
I want to make a new residence by selling the old. Call, or address,

JOSEPH COAST,
Hammononton, N. J.

MILLVILLE

MUTUAL

Marine & Fire Ins. Co.

This Company have disposed entirely of all STOCK PLAN BUSINESS, and having been RE-ORGANIZED, has decided to in the future do a

Strictly Mutual Home Business.
Having succeeded in paying ALL ITS LIABILITIES, and securing an

Actual Net Available Surplus
of Over \$30,000,

The Directors feel that they can offer to all who desire insurance not only LOW RATES and QUESTIONABLE SECURITY, but much greater probability of immunity from assessment for years to come, than other Companies, since this surplus is large enough to pay all probable losses on the policies now in force, until their expiration, without any dependence on receipts from new business—a condition of things that can be shown by but very few companies in the State. The present Directors pledge to the Policy Holder an

ECONOMICAL MANAGEMENT

and a
Careful Supervision of the business

and will continue in the future, as in the past, to act on the principle of

PROMPT PAYMENT
OF
HONEST LOSSES

without seeking to EVADE them on technical grounds.

Hereafter, no notes will be subject to assessment, until they are a year old.

We would call especial attention to our

Marine Department,
to our LOW RATES and FAVORABLE FORM OF POLICIES.

Any information cheerfully given by the officers of the Company or its Agents,
F. L. MULFORD, Pres.
R. J. HOWELL, Sec'y.
