The celebration of Our Mary S. Assunta Day, last Monday, was a success, especially the events at Hammonton Park. The races were well patronized, especially enjoyable and amusing, being the greased pole climbing. The fireworks in the evening were said to have been the finest ever seen in Hammonton. They were witnessed by a large multitude, which the jitneys took care of in good order.

Monsieur, W. Va. "I had taken doctor's medicine for nearly two years because my periods were irregular, came every two weeks, and I would suffer with bearing-down pains. A lady told me of Lydia E. Pinkham's Vegetable Compound and how good it had done for her daughter, so I took it and now I am a regular every month and have no pain at all. I recommend your medicine to everyone and you may turn for advice or help. They often are obliged to earn their living by telling their friends about the good it has done me." - Mrs. G. B. TERRY, 516 Third Street, Moundsville, W. Va.

Effective Toothbrush. To eliminate a great number of petty inconveniences that generally go with washing the teeth in the morning, a fountain toothbrush of practical recent invention, says Popular Mechanics Magazine, within the brush handle is a narrow compartment designed to carry a tube of paste. To wash the teeth, the bristles of the brushes are wetted and the paste from the inner tubes introduced to them by turning a knurled collar at the end of the handle, which forces it out.

KILLS PESKY BED BUGS P. D. Q.

Just think, a box of P. D. Q. kills twenty bed bugs in a night, enough to fill a bushel. It kills them before they can lay their eggs, and it kills them before they can hatch. It kills them before they can bite you. It kills them before they can ruin your clothes. It kills them before they can ruin your health. It kills them before they can ruin your life.

Look for the Bull on the wrapper. It's the only one that kills bed bugs. It's the only one that kills them before they can bite you. It's the only one that kills them before they can ruin your clothes. It's the only one that kills them before they can ruin your health. It's the only one that kills them before they can ruin your life.

A Position for the Summer

By RUBY DOUGLAS

JOHN had been invited to lunch at the Civic club room. She was the guest of her aunt, and she felt not at all thrilled at the prospect of a couple of hours spent over the lunch table with a half-dozen acquaintances who had never seen before.

"You may be a bit bored, Joan," her aunt remarked, "but it won't hurt you to know a few influential women. You may even hear of something interesting to do to help with next year's college tuition."

"Interesting or not—I have to find something, Aunt Nell," Joan replied. She was an attractive looking girl, of the athletic type, and the friends of her aunt found her a bright luncheon companion.

"I am trying to cut my living expenses in the country this summer, and I'm torn between letting my mother's helper or my chauffeur go," remarked her aunt. "I don't know what to do. It's a far cry from one to the other, isn't it?" asked Joan's Aunt Nell.

"Can't you drive—yourself?" asked Joan. "Why anyone could have a car and not drive it was beyond comprehension with Joan, who loved to run a car."

"I'm not a chauffeur," she announced. "I'm helping Mrs. Jones with the children and driving the car while I'm resting," she laughed.

"Then she told him how she happened to have the position, and it was a trying place, as young persons are always being asked to do things."

"From John—please, Mrs. Jones. He is crazy about astronomy and he teaches Gordon whatever he can. It is lots of fun and—"

Joan was blushing. She had been about to say that it was such a pleasure for her to be with them all. "Don't worry, Joan," Mrs. Jones said, sympathetically. "I know how it is. Be happy while you can. Your youth and romance now. It is summer."

Joan felt as if she could never bear the end of this wonderful season, but as it drew to a close John told her that he loved her. He knew that he had no right, but he couldn't help it. He wanted her to know that he would think of her always, of her alone.

"I'll get strong again, Joan, while you are finishing college. Then you can go back into the game again and—"

Joan had turned away. "Turn back to me," he said, "I'll be your eyes. And then—may I hope to have you, dear?" he asked when he had searched her eyes.

"I only took this position for the summer," she teased him. "That you will take me—forever—please," he pleaded. "I will," she said.

Police Matron Finds Roll of Bills on Girl—After She Had Made an Outcry About Being Robbed—Looking for Work.

New York—Lieutenant Patz looked on from his work behind the desk in the West Forty-seventh street police station one day to see a white faced young woman clinging to the rail, regarding him timidly.

"Please," she said haltingly, "I am hungry. All I have had in two weeks has been a piece of pie and a bottle of ginger ale. I am very weak," and her voice trailed off and she sank to the floor.

Had Gene Without Food. By the time the lieutenant reached the front of the desk, she was unconscious.

Police cared for the visitor until the arrival of a doctor. He diagnosed the case as malnutrition.

After she had been revived, the girl told the police she was Millie Renner, twenty-four years old. She said she had formerly lived with an aunt in Jersey City. Three weeks ago she came here, hoping to find employment. She had never worked before, she added.

She had been a piece of pie and a bottle of ginger ale. I am very weak," and her voice trailed off and she sank to the floor.

Special School Meeting

The conference called by the Board of Education for Tuesday evening was fairly well attended, and the subject, the housing of the children thoroughly discussed. The Board explained the need of room-growing worse each year—and for that reason had asked for the new building at the previous meeting. Questions were asked by several, explanations made, and suggestions offered. By this time everybody understood both the Board's view and that of the citizens and the following plan of action was adopted:

To eliminate the location of any new building on School Lane. To ascertain cost and feasibility of raising roof and adding another story to Primary Building, thus adding four large rooms. To secure use of buildings to fit up and provide temporary class rooms for the overflow. If advisable, to purchase temporary buildings which are sold "knocked down," for this purpose.

The next meeting called will probably be for the issuing of bonds which will carry out one or more of the above recommendations. It was one of the best heart-to-heart conferences held since the old town meeting, and, and a better understanding of school matters. The ladies present voiced their ideas, and their influence was felt.

**Fun! Fun! Fun!!!**

Boys and girls and grown-ups, too, here's a treat that's made for you; on the last day of the Chautauqua tent, you'll vote it the best afternoon you have spent.

First comes the play that the children give, you'll not see a better one long as you live; it was written for them by a friend of theirs, who knows what they like and also cares. "Junior Holidays" is the name of the play and it's the very "best yet" the children say.

Following the play comes still more fun, you'll probably laugh till salt tears run, for Joe Lorraine is the funniest man; if he can't please you nobody can. Children's afternoon is the reason for this; be on hand, it's too good to miss.

**Odd Fellow's Celebration.**

Last Saturday evening, Winslow Lodge, No. 40, I. O. O. F., celebrated its seventy-fifth anniversary. There were about one hundred present, including visiting members and grand officers. It was indeed a very pleasant occasion, and was made more so by the hearty addresses of the visiting officers. One feature of the program was an excellent paper by Wm. Bernhouse, giving in detail the history of the local lodge, the date of installation, its changes of location, and names of its first officers, etc.

It was a coincidence, but this was the anniversary of its oldest member, Wm. Bernhouse, sixty-four years of continuous active service. Grand Master Burton Gaskill, of Mays Landing, spoke eloquently on the subject, and concluded by presenting Mr. Bernhouse a handsomely engraved golden jewel. It was a complete surprise, and needless to say Mr. Bernhouse was highly pleased at the honor of being the oldest in Odd Fellowship in New Jersey. The recipient, as soon as he could recover from the surprise, responded in a few well-chosen words of gratitude. It was an honor that anyone would be proud of.

The President of the State Assembly of the Daughters of Rebecca was also present and spoke; a local assembly will be instituted as a result.

Especially pleasing was the banquet prepared by the ladies, who have the enviable reputation of knowing how. Although some of those present may assist in celebrating the centenary mark, the seventy-fifth will ever be a pleasant recollection.
