DID YOU EVER

Stop to think what a fine piece of mechanism your watch is? and that you are injuring it by letting it run too long without having it cleaned and oiled?

A watch is injured more in one month, when running dirty, than in a year's time when properly cleaned and oiled.

Why neglect to have it cleaned, when you can get it done, and guaranteed, for One Dollar?

Washington Letter.

From our regular Correspondent.
Washington, Aug. 28, 1893.
The all-absorbing silver fight has now been transferred to the Senate, the House having passed the Wilson bill for the unconditional repeal of the purchasing clause of the silver law. It now goes to the Senate, where it will be referred to the Finance committee, never to be heard from again, because the majority of Senators who favor unconditional repeal prefer the Vorhees bill for the same purpose, with its tail-piece declaring it to be the policy of the Government to maintain a bimetallic currency. As a matter of fact, this declaration carries no weight without additional legislation, but it implies that there will be future legislation, and that implication is relied upon to gain the votes of Senators who wouldn't otherwise vote for unconditional repeal. Whether this will prove to be true only time can tell.

There are many rumors of defections among the Southern free-coinage Senators, and the claim is boldly being made that a number of them will, after making free-coinage speeches, vote for unconditional repeal. Senators Call and Pasco, of Florida, are said to have made positive statements to that effect. So confident are the administration Senators, that they can get enough votes from the South to pass the bill if they can only get it to a vote, that a proposition has been made to Republican Senators to use their influence with the Republican Senators who favor free coinage, not to vote for unconditional repeal, but merely to agree to allow a vote to be taken. It was stated that if they would secure that agreement the Democratic Senators would agree that the tariff should not be disturbed at this session of Congress. The proposition was declined. In making that proposition, the administration men showed that they realize the difficulty in getting the bill through the Senate, even if they can get the promise of the votes of a majority of the Senators. Under the present rules of the Senate, which will not be changed, twenty Senators can, if so disposed, stave off indefinitely the taking of a vote on the bill, and more than that number are at present so disposed. The out come of this matter depends upon whether the men who now stand for free coinage or nothing can be persuaded or coerced into allowing a vote to be taken. Mr. Cleveland will return to Washington this week for the purpose of adding his personal influence to those already being brought to bear on the Southern Senators, to vote for repeal.

Here is one good piece of news, that ought to please every man interested in the welfare of the country. There will be no wild-cat money authorized at this session of Congress, the House committee on Banking and Currency having a majority against the bill for the repeal of the tax on State bank currency. Whether knowingly or not does not matter, but Speaker Crisp certainly did the country a great service when he made-up that committee.

One of the best, as well as one of the most conservative, of the speeches made in the House during the silver debate, was that delivered by ex-Speaker Reed, on Saturday. He was at his best, and was as warmly congratulated by Democrats as by Republicans.

The new rules of the House are much better than those used by the last House, but are not as good as the much-abused Reed rules, which they follow to a certain extent.
The number of Democratic Congressmen who do not agree with the administration in its treatment of pensioners is increasing, or, perhaps it would be more correct to say that the number of those who have the courage to express their opinion is growing larger. The latest case is that of Gen. Dan Sickles, who represents one of the New York city districts, the nomination having been given him by Tammany to prevent his bolting the Cleveland ticket. In a speech on the silver question, General Sickles advocated as one of the methods

of temporarily relieving the money stringency that pension claims due Oct. 1st, be paid at once. He said in that connection: "Why not pay out now to this large mass of public creditors distributed all over the country—men and women and children who have the most touching claims upon public gratitude—\$30,000,000, in small bills and silver? The money will go where it will do the most good; among the brave men who do not hoard their pittance from distrust of the Government they saved, and who are to day feeble and infirm, and unable to find employment to earn a living." Good as this suggestion is, there is little or no probability of its being adopted. The administration that pays out pension money grudgingly, after it is due, will not be likely to anticipate the payment of a dollar of it.

IN CHILDHOOD'S HAPPY DAYS.—Among the incidents of childhood that stand out in bold relief, as our memory reverts to the days when we were young, none are more prominent than severe sickness. The young mother vividly remembers that it was Chamberlain's Cough Remedy cured her of croup, and in turn administers it to her own offspring, and always with the best results. For sale by A. W. Convincing Testimony
FROM
Prominent Citizens

Mr. E. Hoffenstein is Entirely Cured of Nervousness—Feels like a New Man, and Cannot say enough in Praise of Munyon's Remedies.

E. Hoffenstein, of 1627 Wharton St., Philada., says: "About seven months ago I had nervous prostration; since that time I have been very nervous. About three months ago I began to feel badly again, and feared that I should have another bad summer. I was then advised to try Munyon's Nerve Cure, which I did, and have not since been troubled with nervousness. When I begin to feel badly, I take a dose or two of the medicine, which makes me feel like a new man. I feel that I cannot say enough for Munyon's Remedies."

Munyon's Nerve Cure restores overworked and over-strained nerves to a healthy condition. It cures all the symptoms of nervous exhaustion, such as depressed spirits, peevishness, irritability, general soreness of the whole nervous system, failure of memory, inability to concentrate the thoughts, morbid fears, restlessness and sleepless nights, pains in the head, noise in the ears, and dizziness. It cures general debility, stimulates and strengthens the nerves, and tones up the whole system.

Munyon's Homeopathic Home Remedy Company put up specifics for nearly every disease, which are sold by all druggists, mostly for 25 cts. a bottle.

Munyon's Rheumatism Cure never fails to relieve in three hours, and to cure in a few days.

Munyon's Dyspepsia Cure is guaranteed to correct constipation and cure all forms of indigestion and other stomach troubles.

Catarrh positively cured. Munyon's Vitalizer imparts new life and restores lost powers to weak and debilitated men. Price, \$1.

Kidney Complaints, Constipation, Piles, Neuralgia, Asthma, and all Female Complaints quickly cured.

PAINT! PAINT!
—THE
HAMMONTON.

When you buy the Hammonton Paint, you do not buy seven-eighths of a gallon for a gallon, or three pints for a half-gallon; nor do you get one of those packages that weigh 12 to 14 pounds, and containing so much alkali that it is impossible to use it without thinning; but in buying the Hammonton you get a full standard gallon of paint, weighing 14 to 16 pounds to the gallon, made from the best materials known to the trade, and costs the consumer from \$1.10 to \$1.50 per gallon for honest paint.

If the purchaser doesn't want honest paint, and wants to be honest to himself, then be sure to buy the Hammonton Paint, and the manufacturer will give a receipt with every gallon sold telling you how to make two gallons of paint out of one of the Hammonton. It will cost 83 cents for the extra gallon.

One Dollar.
And then here comes Commercial Paint, in 30 shades, the best wearing paint ever put on the market for so low a price as \$1 per gallon, and guaranteed to be a first-class wearing paint. If any one should not want to pay so high a price for a good exterior paint, then work the 83 cent racket, and get two gallons for \$1.33. Manufactured at Hammonton Paint Works.

HOME SHOE CARS, GLENORA, N. Y., AUGUST 21st, 1893.

As I promised to write a few lines to you from time to time, I think it is about time to commence. We arrived at Geneva on Friday night the 11th. Stopping there all night, we took the steamer next morning, up Seneca Lake. The Lake is forty miles long and from two to five miles wide. The trip to Geneva, thirty-two miles, was a delightful one. The banks of the lake are very steep, and from where I am now sitting on the cabin porch, I can look across, and from the farther shore, sloping back, and up, for six miles, are large fields of grain, peach orchards, vineyards, with here and there a grove, and deep ravines, making the whole resemble a mammoth piece of patch work, of different shades and colors, that one never gets tired of watching.

Last Thursday we went up to Watkins, a large town at the head of the lake, and went through Watkins Glen. I cannot find words to describe the grandeur of this spot. It is two miles of climbing up and down, and at every turn new scenes burst on the view, which are impossible to describe, and must be seen to form any idea of its wonderful beauty.

I have been having my fill of fishing. The lake is full of pickerel, rock bass, black bass, yellow perch, etc. With three nice row-boats and a sail-boat, we have plenty of sport.

The farmers around here seem to me about as lazy a set of people as you could find anywhere. Everything here grows without much effort on the part of the farmers; and why it is so I cannot understand; for there is not enough dirt anywhere for a hen to scratch in. I saw a man gathering potatoes, the other day; he didn't dig them, but simply removed two or three small slabs of stones from each hill, and there were the potatoes.—*fact.*

We spend our evenings on the lake,—build large bonfires of drift-wood under cliffs 150 to 200 feet high, and have corn, sweet potatoes, meat and chicken roasts. And such a good time, we are loth to leave, which we intend to do on Thursday, in order to reach Chicago before Sunday. A. H. W.

A GOOD THING TO KEEP AT HAND.—Some years ago we were very much subject to severe spells of cholera morbus; and now when we feel any of the symptoms that usually precede that ailment, such as sickness at the stomach, diarrhoea, etc., we become scared. We have found Chamberlain's Colic, Cholera, and Diarrhoea Remedy the very best thing to straighten one out in such cases, and always keep it about. We are not writing this for a paid testimonial, but to let our readers know what is a good thing to keep handy in the house.—*Troy (Kansas) Chief.* For sale by A. W. Cochran, druggist.

SPONGE BATHHOUSE—house and bath are for sale at a fair price. There are ten acres of good land, part in grass, and a crowd, stork-house, good barn, and mill privileges. First location. Particulars at the REPUBLICAN office.

Funeral services were held at the homestead on Tuesday afternoon, conducted by her pastor, Rev. B. Eldridge.

The course, plan, etc., of the various studies and duties, to be carried out in our magnificent High School for the year to come, bears the mark of efficiency, to say the least. In Principal Salisbury, with our fine corps of teachers, there will be no doubt that Hammonton schools will maintain their high standing, as the model schools of the county.

We had samples of a new plum raised by W. H. French, of the Lake View Nursery. They are large, dark in color, very fine flavor, and promise to be prolific. The parent tree was owned by the late Mr. E. Keene, but died because of over-production. Shoots sprang up from the roots. Mr. French bought three of these, and propagated from them, and now offers a limited number of the trees for sale.

Ladies, a valued correspondent wishes you to read what a prophet said of your "pneumatic sleeves," more than two thousand years ago. Ezekiel xiii. 18: "Thus saith the Lord God:—woe unto the women who sew pillows to all armholes, and make kerchiefs upon the head of every stature, to hunt souls. And the 20th verse: "Thus saith the Lord God, behold I am against your pillows, wherewith ye there hunt the souls, to make them fly, and I will tear them from your arms."

Prof. Green's lecture, Thursday evening, was quite numerously attended. It was a plea for higher education in the common schools, and answered fully the foolish claim that the State has no right to give instruction in higher branches. "The State" is the people of the State, who are at present, and there is no power beyond to forbid their extending educational facilities to any extent desired. All were pleased with the Professor, his modest demeanor won his audience at once, and his logic was irresistible, albeit Hammonton was already like-minded with himself.
