FLOUR. FLOUR.

We thought the Flour market had reached its "bad rock" some time ago; but it has again "slumped,"— seems to be bottomless as to prices. We refrain from quoting, only in a general way,— might frighten you. Enough to say, can give

Now, just a word on another line. We have a few real bargains in some fine

DID YOU EVER

Stop to think what a fine piece of mechanism your watch is? and that you are injuring it by letting it run too long without having it cleaned and oiled?

A watch is injured more in one month, when running dirty, than in a year's time when properly cleaned and oiled.

Why neglect to have it cleaned, when you can get it done, and guaranteed, for One Dollar?

Washington Letter.

From our regular Correspondent.

WASHINGTON, Sept. 11, 1893.

Mr. Cleveland has it in his power to end the silver debate in the Senate in twenty-four hours, but so far he has positively refused to do it. His latest ultimatum, given to an administration Senator who had called on him to suggest that the compromise proposed by Senator Faulkner, of West Virginia, or a similar one be adopted, was that the Vorhees repeal bill must be passed without any condition whatever. If he still maintains that attitude, he probably will, in the end, see the Vorhees bill passed; but it will almost certainly disrupt the Democratic party. The compromise suggested is that two or three million of silver dollars be coined each month until the total shall reach \$8,000,000. The suggestion is personally approved by many administration Senators, but of course they will not vote for it unless Mr. Cleveland says so.

The House is dragging along in a manner that indicates to all the world that it has received its orders to kill time. It is understood that an attempt is to be made in the House to stir up a bitter partisan debate over the bill to repeal the Federal election laws, the idea of the Democratic leaders being that such a debate will draw party lines sharply, solidify the Democrats, and stop the threatened stampede of southern Democrats to the People's party on account of the silver question. The Republicans in the House will neither seek nor avoid such a debate, but they will certainly oppose, by every means at their command, the repeal of these laws, the only restraint now left upon the Democrats of the South and of the large cities.

The position taken on the Chinese question by the administration is certainly a little odd. After waiting many months, it now officially announces that all Chinese convicted under the Geary law will forthwith be deported, although it is perfectly well known that the funds at the disposal of the Treasury department, for this purpose, are not sufficient to pay for the deportation of one per cent of the Chinese who have made themselves liable to the law by neglecting or refusing to register. The Senators and Representatives from the Pacific coast have been constantly urging Secretary Carlisle to enforce the law, and at first they were disposed to think that it was their argument which had brought about the change. It has, however, been unofficially announced that it was because the new Chinese minister had made no move towards securing a new treaty between the two countries that the law is to be enforced. If that isn't an odd reason to publicly give for enforcing a law, one was never before given. It is as if the administration had said to the new Chinese minister; "We shall now begin the deportation of your countrymen, unless you at once submit propositions for a new treaty." Surely the ambitious composers of comic opera will not overlook such promising material. (Since the above was written, all action under the law has been suspended.)

If ex-Speaker Reed continues to cross-question and make fools of the paid attorneys of the free-traders who appear before the committee, notwithstanding the unceasing efforts of Chairman Wilson and his Democratic colleagues on the committee to protect and aid them, the Democrats will be mighty glad when public hearings before the House Ways and Means Committee are ended. They are a farce anyway,—the committee was organized to report a free-trade tariff bill, and will do so unless the order is countermanded from the White House. HARRY.

Every woman admires a man who can swim, and looks with horror at a boy who wants to learn how.

It's more an industrial tariff trouble than a silver financial one.

There was a wise man in the East whose constant prayer was that he might see to-day with the eyes of to-morrow.

IN CHILDHOOD'S HAPPY DAYS.—Among the incidents of childhood that stand out in bold relief, as our memory reverts to the days when we were young, none are more prominent than severe sickness. The young mother vividly remembers that it was Chamberlain's Cough Remedy cured her of croup, and in turn administers it to her own offspring, and always with the best results. For sale by A. W. Cochran, druggist.

Munyon's Rheumatism Cure.

MR. KELBY TESTIFIES.

Twenty Years an Officer in the House of Correction—Rheumatism made him Helpless as a Child—Entirely Cured by Munyon's Rheumatism Cure.

Joseph T. Kelby, of Holmesburg, an officer in the House of Correction, says: "I had a very bad attack of sciatic rheumatism. For days I was so crippled with the terrible pain and soreness that I could scarcely turn in bed, and had to be dressed and undressed like a child. I procured a bottle of Munyon's Rheumatism Cure, and had only taken a few doses when I began to feel its beneficial effects. Before I had taken all the pellets in the bottle I was able to be at work, and have not had a twinge of rheumatism since."

Munyon's Rheumatism Cure is guaranteed to cure rheumatism in any part of the body. Acute or chronic rheumatism cured in from one to five days. It never fails to cure sharp, shooting pains in the arms, legs, sides, back or breast, or soreness of any part of the body, in from one to three hours. It is guaranteed to promptly cure lameness, stiff and swollen joints, stiff back, and all pains in the hips and loins. Chronic rheumatism, sciatic lameness, or pain in the back are speedily cured. We can refer to thousands of people who have been cured of rheumatism by this remedy. It seldom fails to give relief after one or two doses, and almost invariably cures before one bottle has been used. So confident are we that we can cure any and all forms of rheumatism, that we stand ready to refund the retail price paid to any one who fails to receive satisfactory results.

Munyon's Homoeopathic Home Remedy Company put up specifics for nearly every disease, which are sold by all druggists, mostly for 25 cts. a bottle.

SATURDAY, SEPT. 16, 1893.

World's Fair, Chicago, Sept. 15, 1893.

Chicago; what a great city! We wanted to visit the district that was recently visited by fire—over a hundred houses being burned. We asked a policeman the distance, and found it was over sixteen miles. So it is in every direction. Seven miles from business centre to Fair grounds. Nothing but a few thousand a year would induce me to live in Chicago. Only soft coal is burned, and smoke is always so thick that you can only see two or three blocks away. The wind always blows, and to keep dust down the streets are kept soaking wet, consequently one is ever wallowing in pasty black mud. And then the miserable board sidewalks, always rotting and uneven.

That the old portion of the city does not burn up is a wonder to me. Nothing but old wooden buildings, reeking with filth and foreigners. The portion that was cleaned out by the great fire is the only part that resembles a great city. It contains solid fire-proof buildings from five to twenty stories high. Living is cheap. Our broker raises would-fee-riety if they had to supply Chicago markets. I went into a restaurant to-day, and ordered chicken. They brought on one-half of a delicious broiled chicken, cream gravy, mashed potatoes, corn, and coffee; there was a plenty of cranberry butter, graham, corn and white bread, sliced tomatoes, with pickles and cranberry sauce, on the table all the time; and then, too, a harpist and guitarist furnished music while we ate. My bill was 30 cents. I haven't figured out what the proprietor of that fowl did get.

The people here are great in observing the golden rule, "Do unto others," etc., but they have altered it slightly, "do others as they will do you." This applies more to the district near the Fair grounds.

Having been here two weeks, we to-day turn our faces homeward. We will stop in Detroit a few days, and you may hear from us there. We have only had one rainy day since we left home, one month ago, and that was in New York State.

There's a peck of trouble in Atlantic City. Certain parties found their names attached to petitions for liquor licenses, and never having signed such petitions, have made complaints against said petitioners for forgery. In charging the Grand Jury, Judge Reed said that if the facts stated were proven the charge of forgery would hold.

PAINT! PAINT!

—THE—
HAMMONTON.

When you buy the Hammonton Paint, you do not buy seven-eighths of a gallon for a gallon, or three pints for a half-gallon; nor do you get one of those packages that weigh 12 to 14 pounds, and containing so much alkali that it appears to be so thick that it is impossible to use it without thinning; but in buying the Hammonton you get a full standard gallon of paint, weighing 14 to 16 pounds to the gallon, made from the best materials known to the trade, and costs the consumer from \$1 to \$1.50 per gallon for honest paint.

If the purchaser doesn't want honest paint, and wants to be honest to himself, then be sure to buy the Hammonton Paint, and the manufacturer will give a receipt with every gallon sold telling you how to make two gallons of paint out of one or the Hammonton. It will cost 33 cents for the extra gallon.

One Dollar.

And then here comes Commercial Paint, in 30 shades,—the best wearing paint ever put on the market for so low a price as \$1 per gallon, and guaranteed to be a first-class wearing paint. If any one should not want to pay so high a price for a good exterior paint, then work the 33 cent racket, and get two gallons for \$1.33. Manufactured at Hammonton Paint Works.

Wm. Startevant moved a house from Second Road to Main Road, about three miles, and made a good job of it. Just examine Thirteenth Street, with its hills and valleys, and you'll have some idea of the skill required. On part of the route, a drag had to be used, to prevent too great speed.

We are informed by the manager of the Union Store that they expect to move out that \$4000 worth of clothing on "through express" time. They believe in liberal use of printers' ink,—witness the advertisement on opposite page. We don't see why people need go to the city for clothing this Fall.

The time is approaching for the holding of County Conventions for the nomination of candidates for Assemblyman and Sheriff. Republicans in this vicinity have resolved to support no nominee for either position who is at all tainted with the race-track virus. More than that, he must be pledged to do all in his power in opposition to that giant enemy of morality.

They say that money is very scarce in Hammonton, and our receipts indicate the truth of that statement. But the merry-go-round drew out the tickets by the thousand. In two weeks the proprietor cleared three hundred dollars above all expenses,—so he said, and his statement is not doubted. Some of that money ought to have been used to pay overdue grocers' and printers' bills. See?

That jolly party of forty (more or less), mostly Hammontonians, came home on Monday, after a two-weeks' stay in Atlantic City. They had just the finest time imaginable. These parties rent a furnished cottage, board themselves, and have a protracted picnic at moderate expense.

WHAT IS THE DIFFERENCE?

Between the Compound Oxygen Treatment of Diseases and that by the use of Drugs? It is an important one. Drugs are taken into the stomach. For this reason their action is not direct. Compound Oxygen is taken into the lungs, and, therefore, comes immediately into contact with and is absorbed into the blood. Drugs, being generally poison, act by retaining a disturbance in the body. Compound Oxygen, being composed of the elements of the air and acting upon the blood, is not open to this objection. But, however it may act, it has certainly cured many cases of chronic disease, in which drugs have failed. This is the point of greatest interest to all chronic sufferers. To all such we say: Send for our book of 200 pages, - sent free. Read for yourselves what Compound Oxygen is, how it acts, and, above all, what it has accomplished.

Thomas Jefferson used to say, in his later years, that the Declaration of Independence would not have been signed so soon but for the fact that the weather was very hot, the windows had to be left open, and from a nearby livery stable came such a swarm of flies that all were anxious to adjourn, and some men who might have kept up the debate for weeks were ready to sign at once to escape the torment. Couldn't we introduce a few million robust Jersey mosquitoes into the United States Senate Chamber, and stem the tide of eloquence now flowing?

A GOOD THING TO KEEP AT HAND. - Some years ago we were very much subject to severe spells of cholera morbus, and now when we feel any of the symptoms that usually precede that ailment, such as sickness at the stomach, diarrhoea, etc., we become scared. We have found Chamberlain's Colic, Cholera, and Diarrhoea Remedy the very best thing to straighten one out in such cases, and always keep it about. We are not writing this for a paid testimonial, but to let our readers know what is a good thing to keep handy in the house. - *Troy (Kansas) Chief.* For sale by A. W. Cochran, druggist.

It requires a definite aim to make a hit in life.
