Cause of Excessive Rain.

Philosophers and scientists are searching for the cause of the excessive rain this season, nearly all over the world. Many causes are suggested as the probable one, but none seems entirely satisfactory. When the wise ones fail to give a satisfactory solution of the problem, it seems presumptuous in me to try to solve it; but I have a theory, and it will do no harm to give it. I will state well-known scientific facts, and then make my inference from them.

The atmosphere always contains much moisture, even in the driest time and the clearest day. In a clear day the eye takes no cognizance of it; but suddenly the air begins to thicken, and clouds soon appear, covering the whole vault of the heavens. They grow thicker and thicker, and by and by it begins to rain. What has happened to cause this great change? Something has affected the moisture in the atmosphere that was invisible to us but a short time before. What was it?

If we take a warm closed glass cylinder, with electrodes fastened in its ends, inject steam into it, and then connect the electrodes with a Ruhmkof's coil or other electric battery, and send a current of electricity through the cylinder, the steam will be at once condensed and fall in rain. This proves that electricity condenses the moisture in the cylinder.

When a cumulus cloud appears and discharges its electricity through the cloud, in lightning, we know the rain downpours. This proves electricity condenses the moisture in the cloud. Often there are cloudy days but no rain. Does this not prove that there is not sufficient electricity in the atmosphere to condense the moisture of the cloud into rain; but yet there is enough to condense into cloud? If this be true, it proves that rain depends upon electric conditions of the atmosphere.

What governs the electric conditions of the atmosphere? Whence comes the electricity into our atmosphere? I answer, THE SUN. That is the fountain and main source of light, heat, and electric energy in the atmosphere and in the body of earth. The electric activity of Sun is transmitted to its child Earth, and supplies it with necessary electric force to carry on its functions, to produce life and all its phenomena.

Bank Brothers' Store.

THE STEIN BLOCH CLOTHING!

For Fall and Winter, is the latest announcement of this wide-awake store.

Our aim is to serve you earnestly and honestly, to set before you the best of merchandise. Its quality must be above suspicion. We offer you the famous

Stein Bloch Clothing

which for fifty-two years has borne the reputation of being the country's best. Unequaled in style, fit and workmanship, made of pure wool fabrics only, by the most skilled journeymen tailors in America. We invite the most critical examination, feeling sure that they will amply justify all that we have said, and thoroughly meet the expectation of the most critical man.

Our stock of Clothing is complete, embracing plenty of different styles and patterns, made to our special order by the best manufacturers of honest fabrics. It will pay you to come and look over our stock before you buy your fall and winter clothing.

The Stein Bloch Suits

For men, at \$18, \$23, \$25, and \$28. And if you ask our honest opinion, or the opinion of an honest custom tailor, he will tell you that if you pay thirty and thirty-five dollars for order-made suits, you can't be fitted as good, nor will you get as good workmanship or quality.

Fine Suits for men, not of the Stein Bloch, at \$12, \$12.50, \$15 and \$16, in many styles and patterns. And really it is hard to explain the elegance and neatness of these suits, their quality and fit; and the low price at which we have marked them they can't be equaled anywhere, even if you pay three or five dollars more on a suit. The saving which we offer you is not out of the quality, but only out of the expense, in which we have the advantage of other stores that sell good clothing.

Men's fine suits at \$7.50 and \$10. Honestly speaking, it is a surprise how they can be sold at that price. But they are here, and you'll do well to come and see them. Whether you buy or not, we will consider it a pleasure to show our fine selected clothing stock.

Young Men's Suits at \$4.50, \$5, \$6, \$9, and \$10, of fine selected materials, single or double breasted.

Clothing bought of us will be cleaned and pressed free of charge, in our merchant tailoring department.

Our Teas & Coffees

Antient "Prize" Brands—What kinds of Teas and Coffees we Handle—How the Prices Run!

IN THE FIRST PLACE, let us say right here: We do not advise our customers to buy "premium" Teas and Coffees! For, does it not stand to reason that you can not be sure of getting the best actual coffee-value if you pay 25 cents for a pound, and receive, besides, perhaps a cup and saucer, or a plate, or some other trinket? Who pays for that premium— you or the coffee manufacturer? In ninety-nine cases out of a hundred, you do!

We carry in stock a full line of the following well known and well favored brands, and recommend them unhesitatingly to our patrons—

Chase and Sanborn's Famous "Seal Brand" Coffee, per pound tin, 38 c.

Thomas Martindale's extensively advertised "Seal Brand" Coffee, per pound tin, 26 c.

Barrington Hall Coffee, another well known brand, per pound pkg., 35 c.

Chase & Sanborn's celebrated "Superior" Coffee, per pound pkg., 25 c.

Also a full line of Chase & Sanborn's Loose Coffee, including Java, Mocha, Santos and Rio, which can be blended to your order.

Chase & Sanborn's well-liked "Emperor's" Blended Tea, per half pound tin, 30 c.

Chase & Sanborn's English Breakfast Tea, per half pound tin, 30 c.

Chase & Sanborn's "Orange Pekoe" Tea, per half pound tin, 30 c.

Chase & Sanborn's "Kohinoor" Tea, per half pound tin, 30 c.

Telley's Famous India Ceylon Tea, per quarter-pound package, 15 c.

Thomas Martindale's "Caricool" Tea, per pound package, 34 c.

"O and O" Tea, per pound package, 75 c.

We especially recommend the package or tinned brands. They insure freshness and goodness often lacking in the bulk varieties. All tins have screw tops. Flgs. all sealed.

A Little Lesson In Patriotism

Let our object be our country, and nothing but our country.—Daniel Webster.

The famous speech of 1837 in the West Point Military Academy may be found in the name of Braxton Bragg.

Bragg was, as we may call him, a native of the South, having been born in Warren county, N. C.

It was in August, 1862, that Bragg led a command of 45,000 men from Tennessee into Kentucky.

At the outbreak of the civil war Bragg naturally felt his duty lay to his native State.

It was in August, 1862, that Bragg led a command of 45,000 men from Tennessee into Kentucky.

When a man loses sight of justice toward those near him, there is risk that his fallings in the affairs of citizens may be one-sided.

When Lord Elenborough was a judge his wife used to accompany him on circuit.

On one occasion the judge, while stretching his legs, kicked against one of the flimsy window receptacles.

A Good Thing in one town means trouble in another town.

LET US ALL LAUGH.

JOKES FROM THE PENS OF VARIOUS HUMORISTS.

Pleasant Incidents Occurring the World Over—Sayings that are Chances to Old or Young—Funny Selections that You Will Enjoy.

The "Young Girl." The Miami Metropolis corrects some popular errors of speech, principally tautologues, but we venture to suggest that, in modern usage, the term "young girl" is not tautologous.

His Private Apartments. "Mister," whined the tattered tramp as he halted at the gate, "can't you give me a lift in the world? You broke up my home."

No Doubt. "Flying machines existing only \$1,000 each are to be put on the market by a Philadelphia man."

The Woman of the Year. Mrs. Clear—There's the woman who lost her sight for alienation of affections.

Protect It in Time. Law to stop Alteration of "Star Spangled Banner" Needed.

Retributive Justice. When a man loses sight of justice toward those near him, there is risk that his fallings in the affairs of citizens may be one-sided.

True Enough. "Some men are like wine—they improve with age."

Their Only Chance. "Why do bears sleep in winter?" a writer in the Washington Times says a small boy of that city asked his father.

Castle Comment. "I notice," said the Ritter's friend "that you write about the habits of the people." What does that mean?

E. H. Harrison is said to have made a profit amounting to \$100,000 in a recent railroad deal.

A LITTLE LESSON IN ADVERSITY.

The rise of Napoleon Bonaparte in Europe's history seems so meteoric that one seldom stops to remember the hardship that inevitably beset his way.

From an untitled Corsican to the emperor of half of Europe is the most dazzling climb ever accomplished in history.

On the plea of ill health he delayed taking his two months. During his time he endured grinding poverty and the most harassing doubt concerning the future.

What to Do When You are Going Away for Visit. To prevent poisonous gases from coming up from the cesspools or from the house a trap is always arranged on every waste pipe.

His garden seeds were something grand. "For he had bought the very best," planned them one evening—and a neighbor's chickens did the rest.

When a house is to be closed for that length of time the pipes should first be thoroughly flushed out with clean water and then, just before the house is left to it, a tablespoonful of soda or lime oil, hard oil or any lubricating oil may be poured down every waste pipe.

Diastereoisomers All the Same. First Triang—It's a grand thing after all for a man to have no employer and to be his own master.

ERUPTION OF VESUVIUS.

Last One in Many Ways the Most Terrible on Record.

The recent eruption, though one of the most terrible on record, has not quite reached the pitch of horror which the younger Pliny describes as occurring during the earlier phenomenon, though many of the incidents related by him of that earlier catastrophe have been repeated.

On the plea of ill health he delayed taking his two months. During his time he endured grinding poverty and the most harassing doubt concerning the future.

"A MAN MUST LIVE."

"A man must live!" Now God forgive whose tongue or pen first framed the world phrase.

"A man must live!" The preacher must tone down the rugged word of truth, lest he offend some old sinner in the pew, whose brow might bring his monthly wage to a sudden end.

"A man must live!" A politician wise whose judgment urges measures abroad and bold. Must by this motto cringe and compromise, To save the goose that lays him eggs of gold.

"A man must live!" Are we then Jesus all, To sell our birthright for a little food? Must we unto Bethlehem, and the trilling adjunct of \$3,000,000.

"A man must live!" Not such the old-time creed. That stirred to sacrifice the noble dead? We cannot look for great unselfish deeds With this compounding banner overhead.

Show me the man who dares to set his back Firm at the rock of Right, and boldly cry "Let come what may! I stand to the attack!" 'Tis base to live when Duty calls to die!" —G. Hembert Wesley.

"The voice came with a pleasantly suggestive ring of dishes through the screen door to where Gertrude Woodford stood under a large tree.

"I think the large is in," she answered, entering the cool, pleasant house in answer to her mother's call.

"It is beautiful here in these late summer weeks," she drawled. "I think it beautiful at all times. The eyes to my home," Gertrude answered quietly.

"Indeed! Then you are a native. I should hardly have thought it." A faint color rose under the girl's eyes at the superficial tone.
